Table 1: Rates by Race for Hollister Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	3564	3261	0	155	109	12	182
2019 population %	100	91.5	0	4.35	3.06	.34	5.11
<b>Totals</b>	.	.	.	.	.	.	.
All stops	1817	1636	69	97	4	10	1
Resident stops	720	653	23	41	2	1	0
Searches	221	198	7	14	1	1	0
Contraband	86	79	2	4	1	0	0
Arrests	24	21	1	1	1	0	0
Citations	177	159	4	12	0	2	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	50.98	50.17	.	62.58	3.67	83.33	.55
Stop rate, residents	20.2	20.02	.	26.45	1.83	8.33	0
Search rate	12.16	12.1	10.14	14.43	25	10	0
Contraband hit rate	38.91	39.9	28.57	28.57	100	0	.
Arrest rate	1.32	1.28	1.45	1.03	25	0	0
Citation rate	9.74	9.72	5.8	12.37	0	20	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

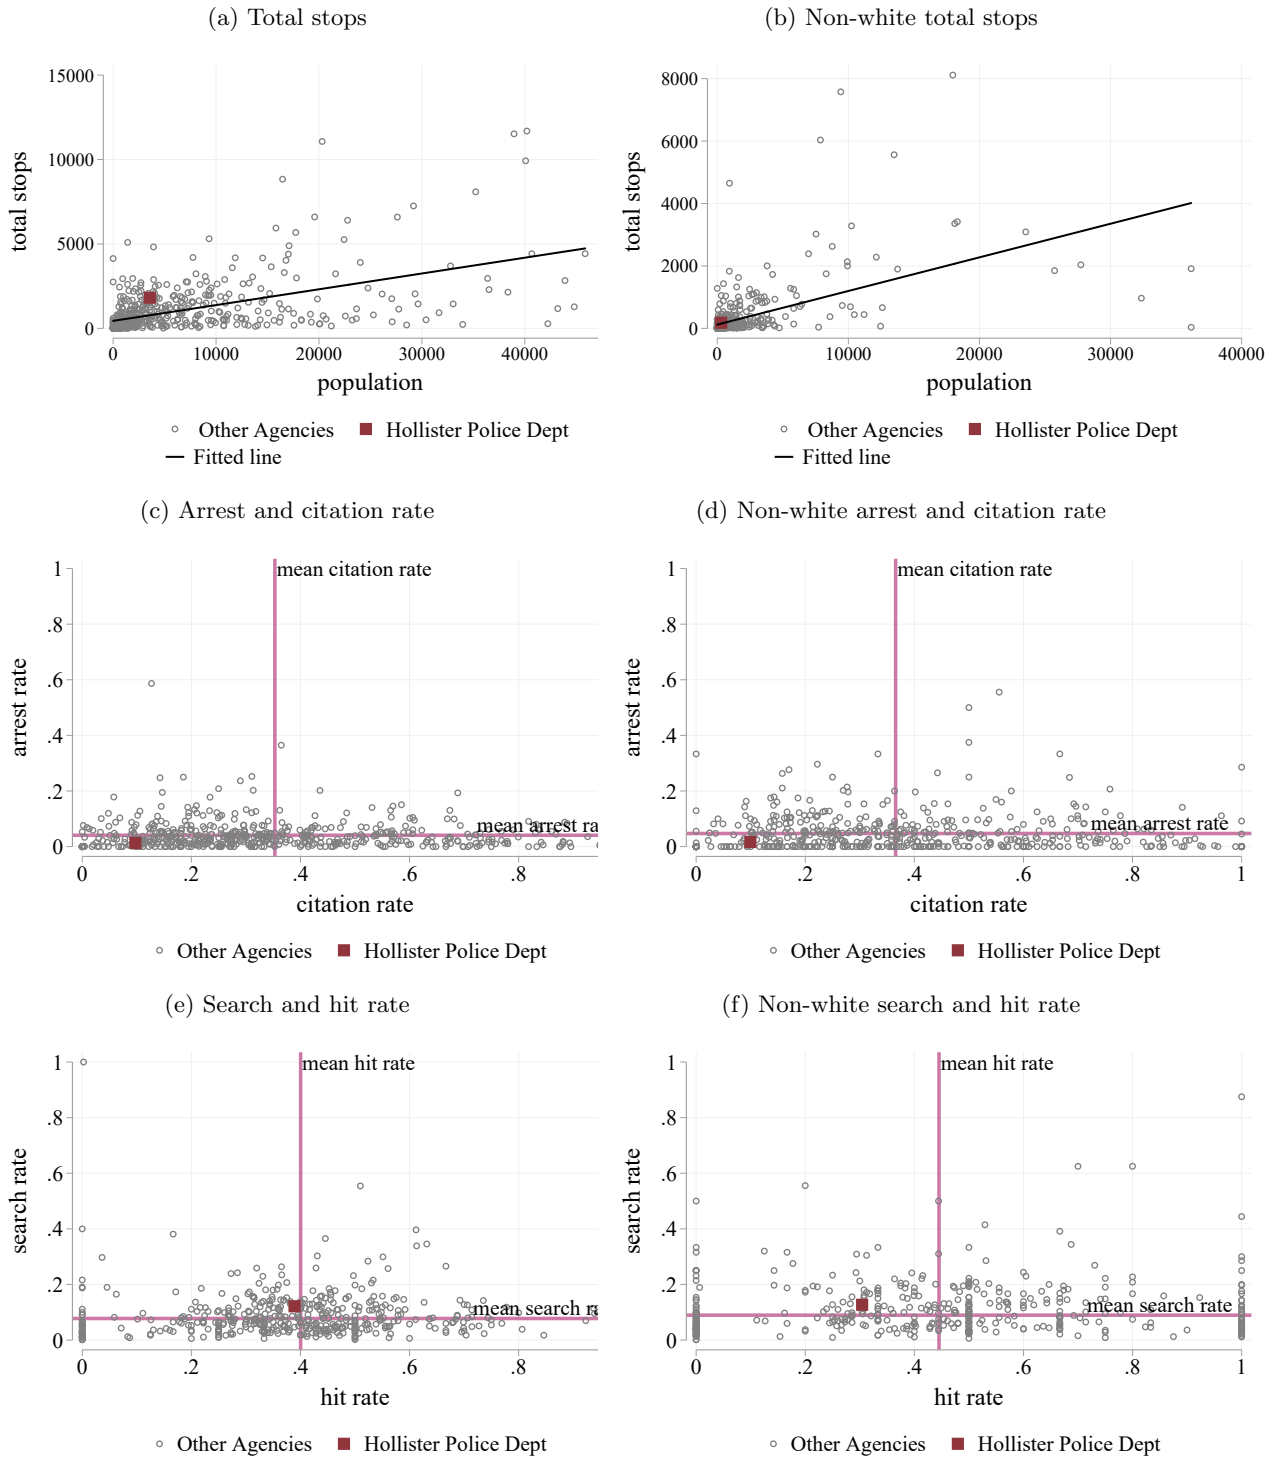

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Hollister Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Hollister Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	3564	3261	0	155	109	12	182
2019 population %	100	91.5	0	4.35	3.06	.34	5.11
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1817	1636	69	97	4	10	1
Resident stops	720	653	23	41	2	1	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.984	.	1.228	.072	1.635	.011
Resident stops	.	.991	.	1.309	.091	.412	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

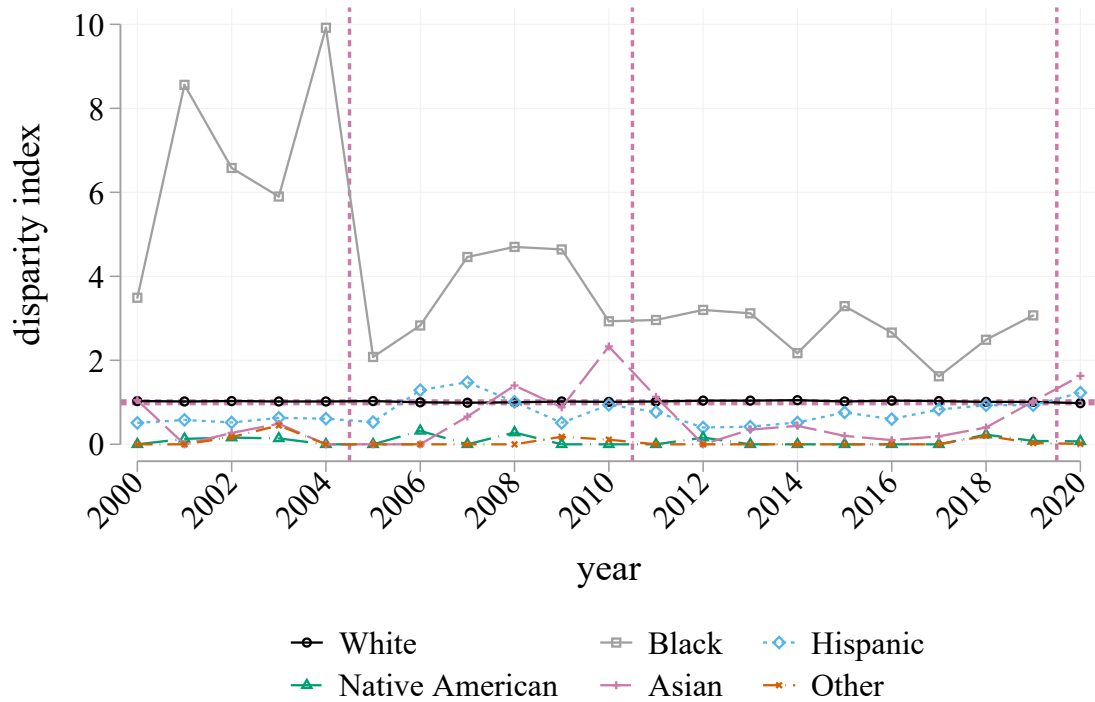

Table 3: Disparity Index from 2000 to 2020 for Hollister Police Dept

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

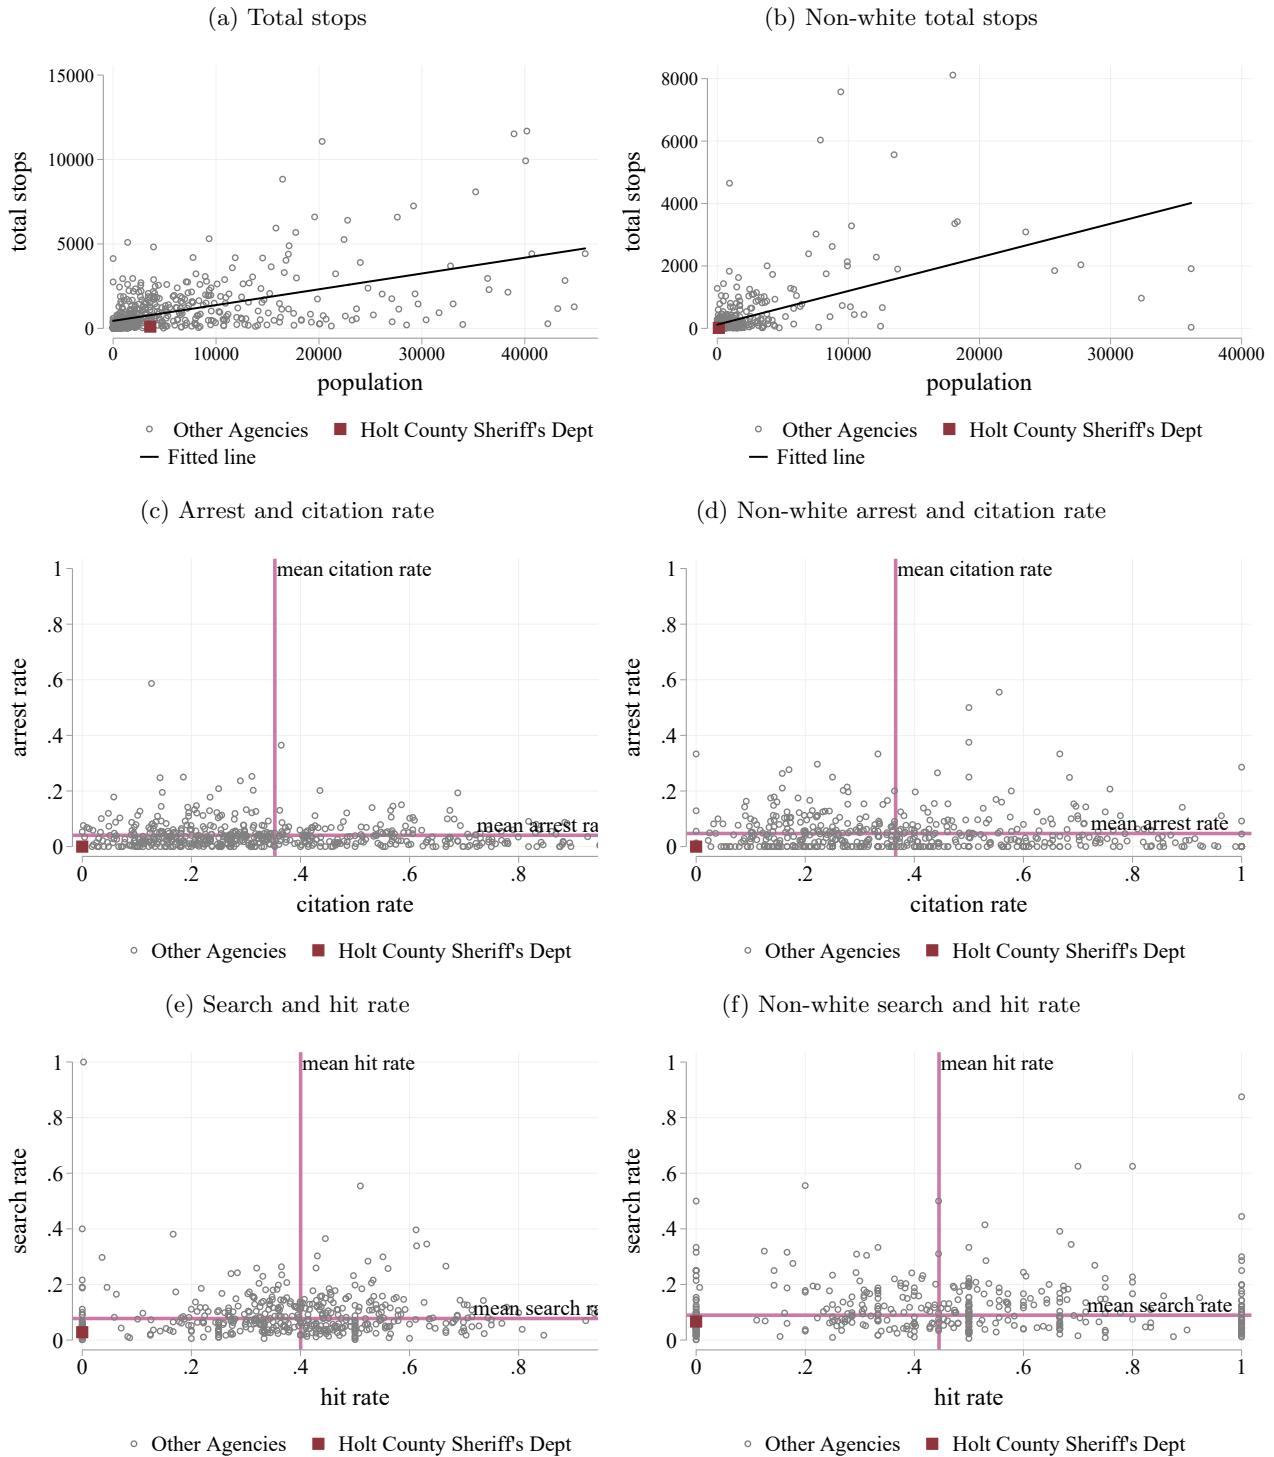

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Holts Summit Police Dept. contract with The City of New Bloomfield to provide policing in the year 2020.

Figure 1: Comparison to other agencies by population for Holts Summit Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Holts Summit Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	3142	2755	168	44	0	65	110
2019 population %	100	87.68	5.35	1.4	0	2.07	3.5
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1227	1037	153	26	0	5	6
Resident stops	328	297	23	7	0	1	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.964	2.332	1.513	.	.197	.14
Resident stops	.	1.033	1.311	1.524	.	.147	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>2020</b>	.96	2.33	1.51	.	.2	.14

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Holts Summit Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Stop rate, residents	10.69	12.53	10	.93	2.7	0	0
Search rate	11.07	11.06	13.64	11.76	14.29	0	0
Contraband hit rate	35.92	36.03	33.33	50	0	.	.
Arrest rate	.94	.98	0	0	0	0	0
Citation rate	27.2	27.07	36.36	35.29	14.29	16.67	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

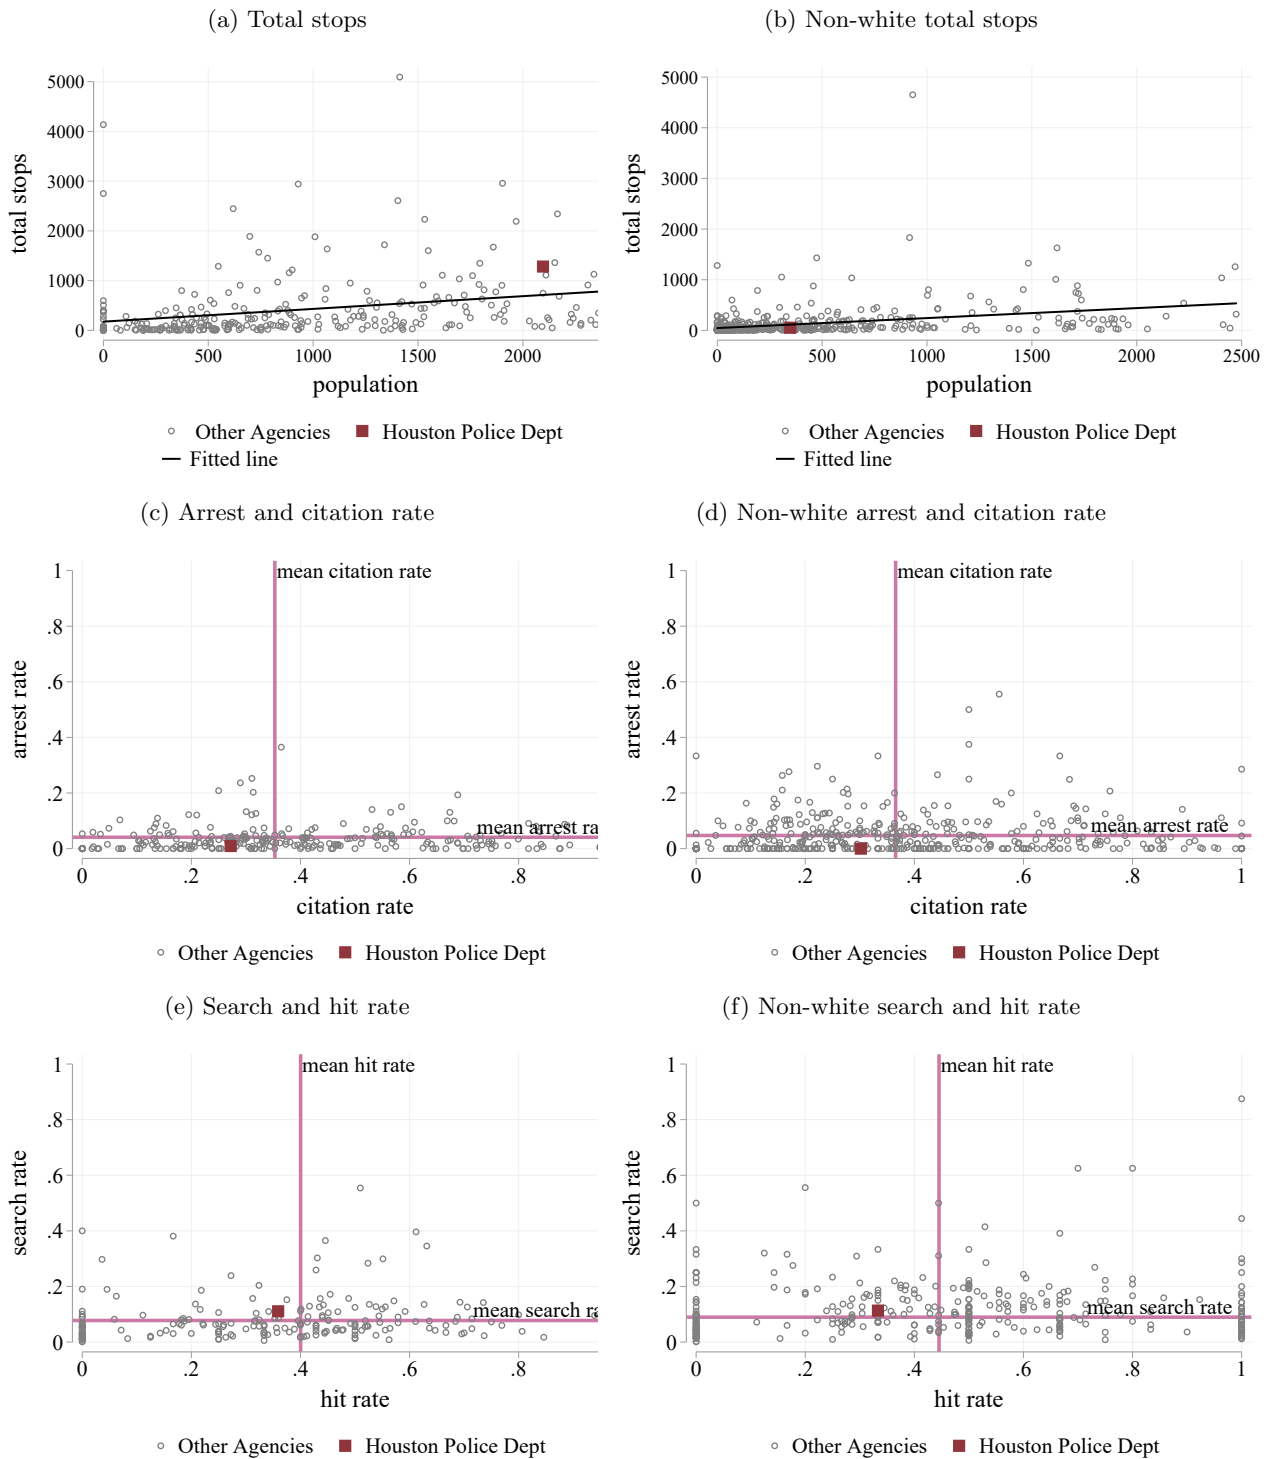

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Houston Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Houston Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	2096	1748	30	107	37	33	147
2019 population %	100	83.4	1.43	5.1	1.77	1.57	7.01
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1283	1230	22	17	7	6	1
Resident stops	224	219	3	1	1	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.15	1.198	.26	.309	.297	.011
Resident stops	.	1.172	.936	.087	.253	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Arrest rate	.72	0	2.94	0	.	.	.
Citation rate	94.93	96.12	91.18	100	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

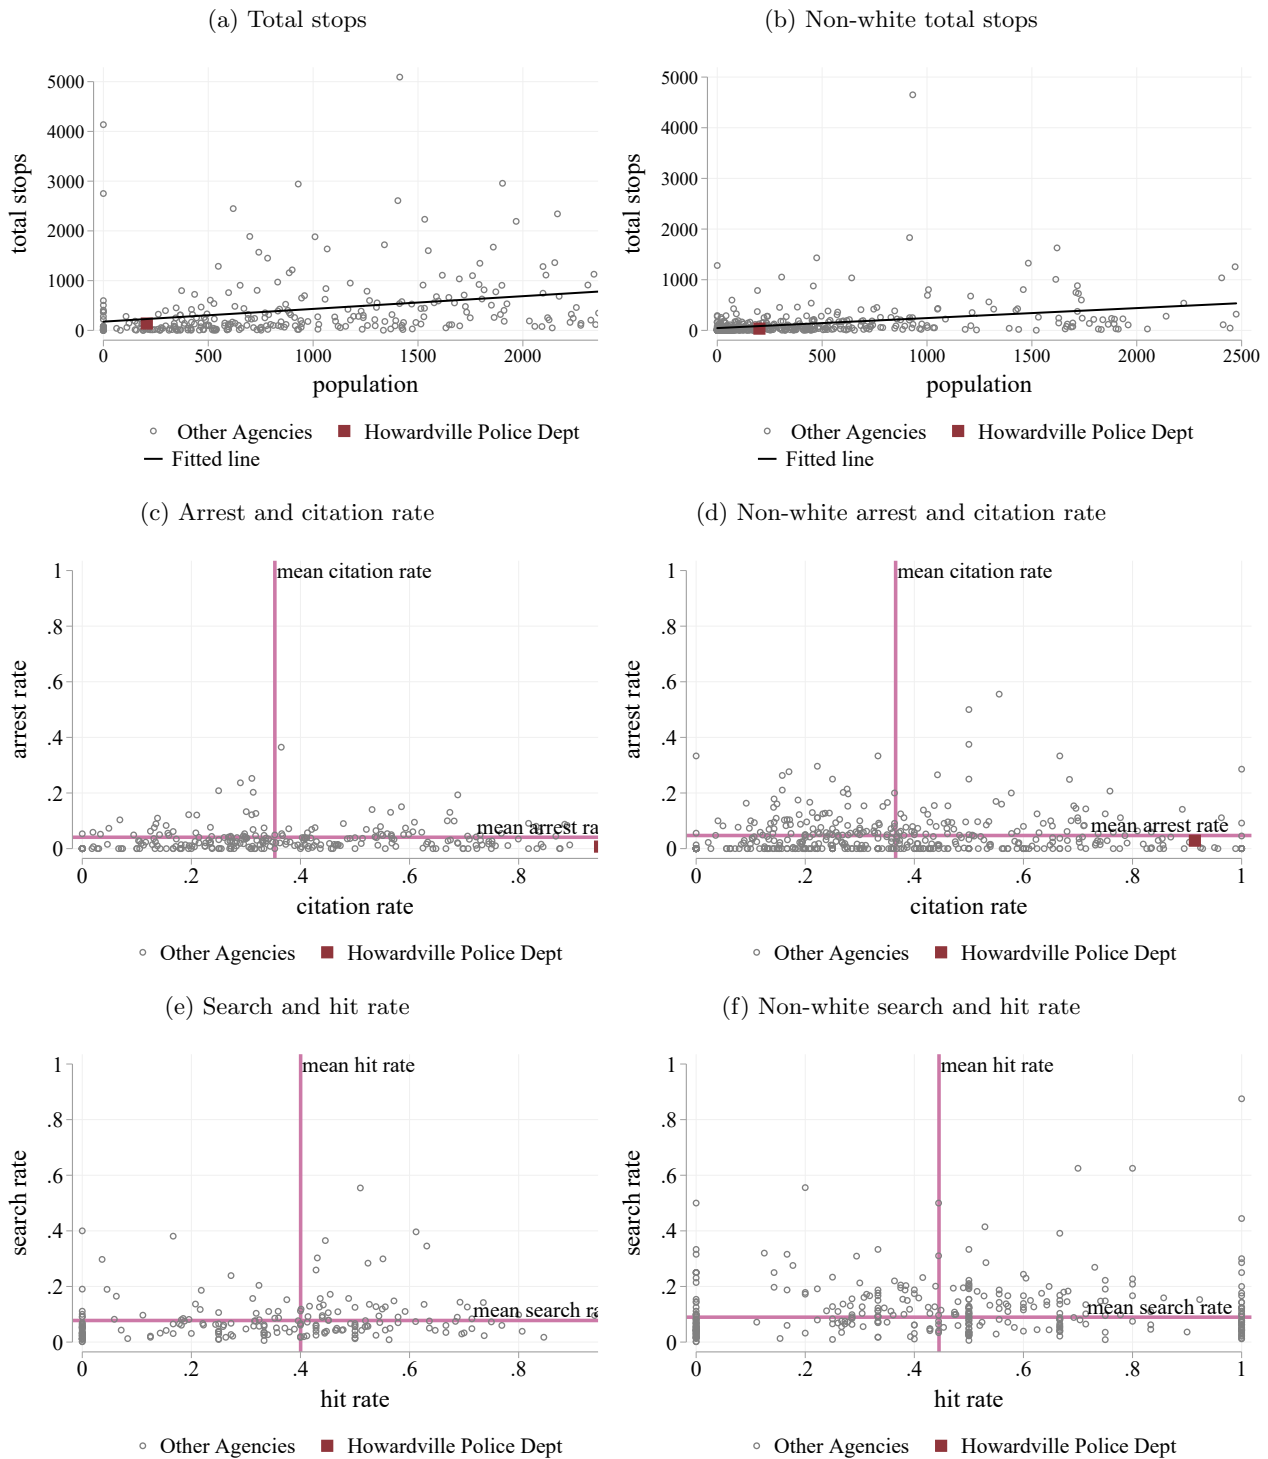

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Howardville Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Howardville Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	207	6	200	0	0	0	1
2019 population %	100	2.9	96.62	0	0	0	.48
<b>Stops</b>	.	.	.	.	.	.	.
All stops	138	103	34	1	0	0	0
Resident stops	5	1	4	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	25.75	.255	.	.	.	0
Resident stops	.	6.9	.828	.	.	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 1: Comparison to other agencies by population for Humansville Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Humansville Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	887	818	2	11	14	25	17
2019 population %	100	92.22	.23	1.24	1.58	2.82	1.92
<b>Stops</b>	.	.	.	.	.	.	.
All stops	352	325	5	15	0	7	0
Resident stops	50	50	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.001	6.3	3.436	0	.706	0
Resident stops	.	1.084	0	0	0	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

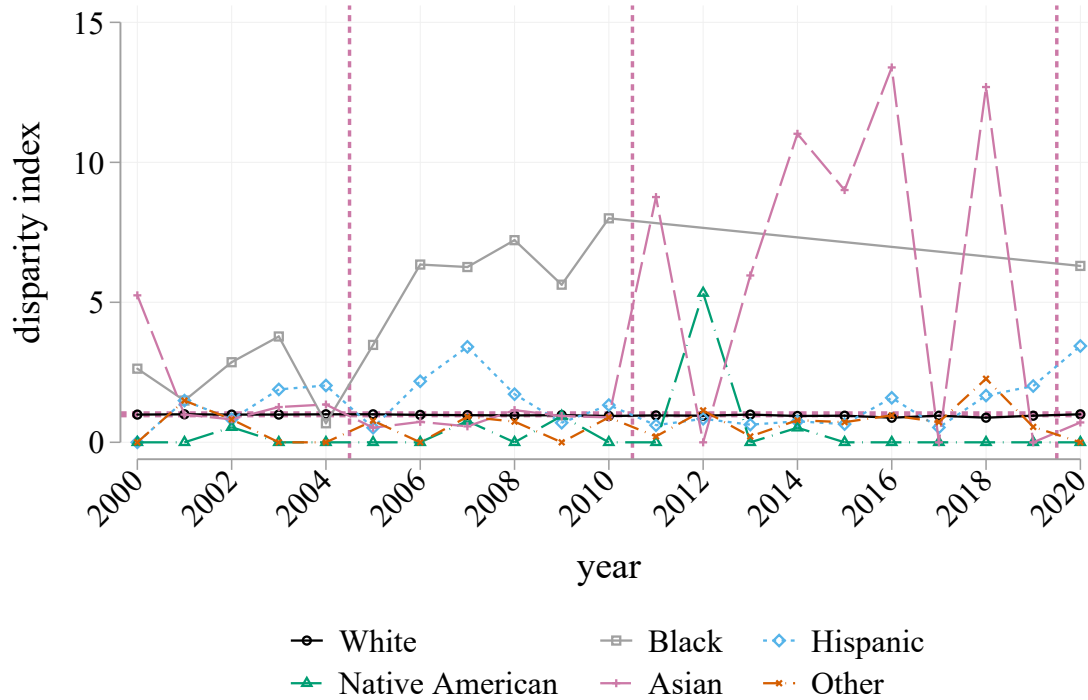

Table 3: Disparity Index from 2000 to 2020 for Humansville Police Dept

<b>2017</b>	.95	.	.53	0	0	.72
<b>2018</b>	.88	.	1.67	0	12.69	2.27
<b>2019</b>	.95	.	2.01	0	0	.55
<b>2020</b>	1	6.3	3.44	0	.71	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Humansville Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>2017</b>	.99	4.31	.74	0	.	.92
<b>2018</b>	1	1.94	0	0	.	5.81
<b>2019</b>	1.01	0	0	0	.	7.69
<b>2020</b>	.98	.	0	.	0	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Iberia Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.228 Independence Police Dept

Table 1: Rates by Race for Independence Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	93362	75246	6450	7028	505	1377	6894
2019 population %	100	80.6	6.91	7.53	.54	1.47	7.38
<b>Totals</b>	.	.	.	.	.	.	.
All stops	11525	8167	2262	791	10	54	241
Resident stops	5989	4540	897	427	4	18	103
Searches	756	587	130	36	0	1	2
Contraband	351	283	52	14	0	1	1
Arrests	468	356	84	27	0	1	0
Citations	8239	5819	1638	586	6	41	149
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	12.34	10.85	35.07	11.25	1.98	3.92	3.5
Stop rate, residents	6.41	6.03	13.91	6.08	.79	1.31	1.49
Search rate	6.56	7.19	5.75	4.55	0	1.85	.83
Contraband hit rate	46.43	48.21	40	38.89	.	100	50
Arrest rate	4.06	4.36	3.71	3.41	0	1.85	0
Citation rate	71.49	71.25	72.41	74.08	60	75.93	61.83

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

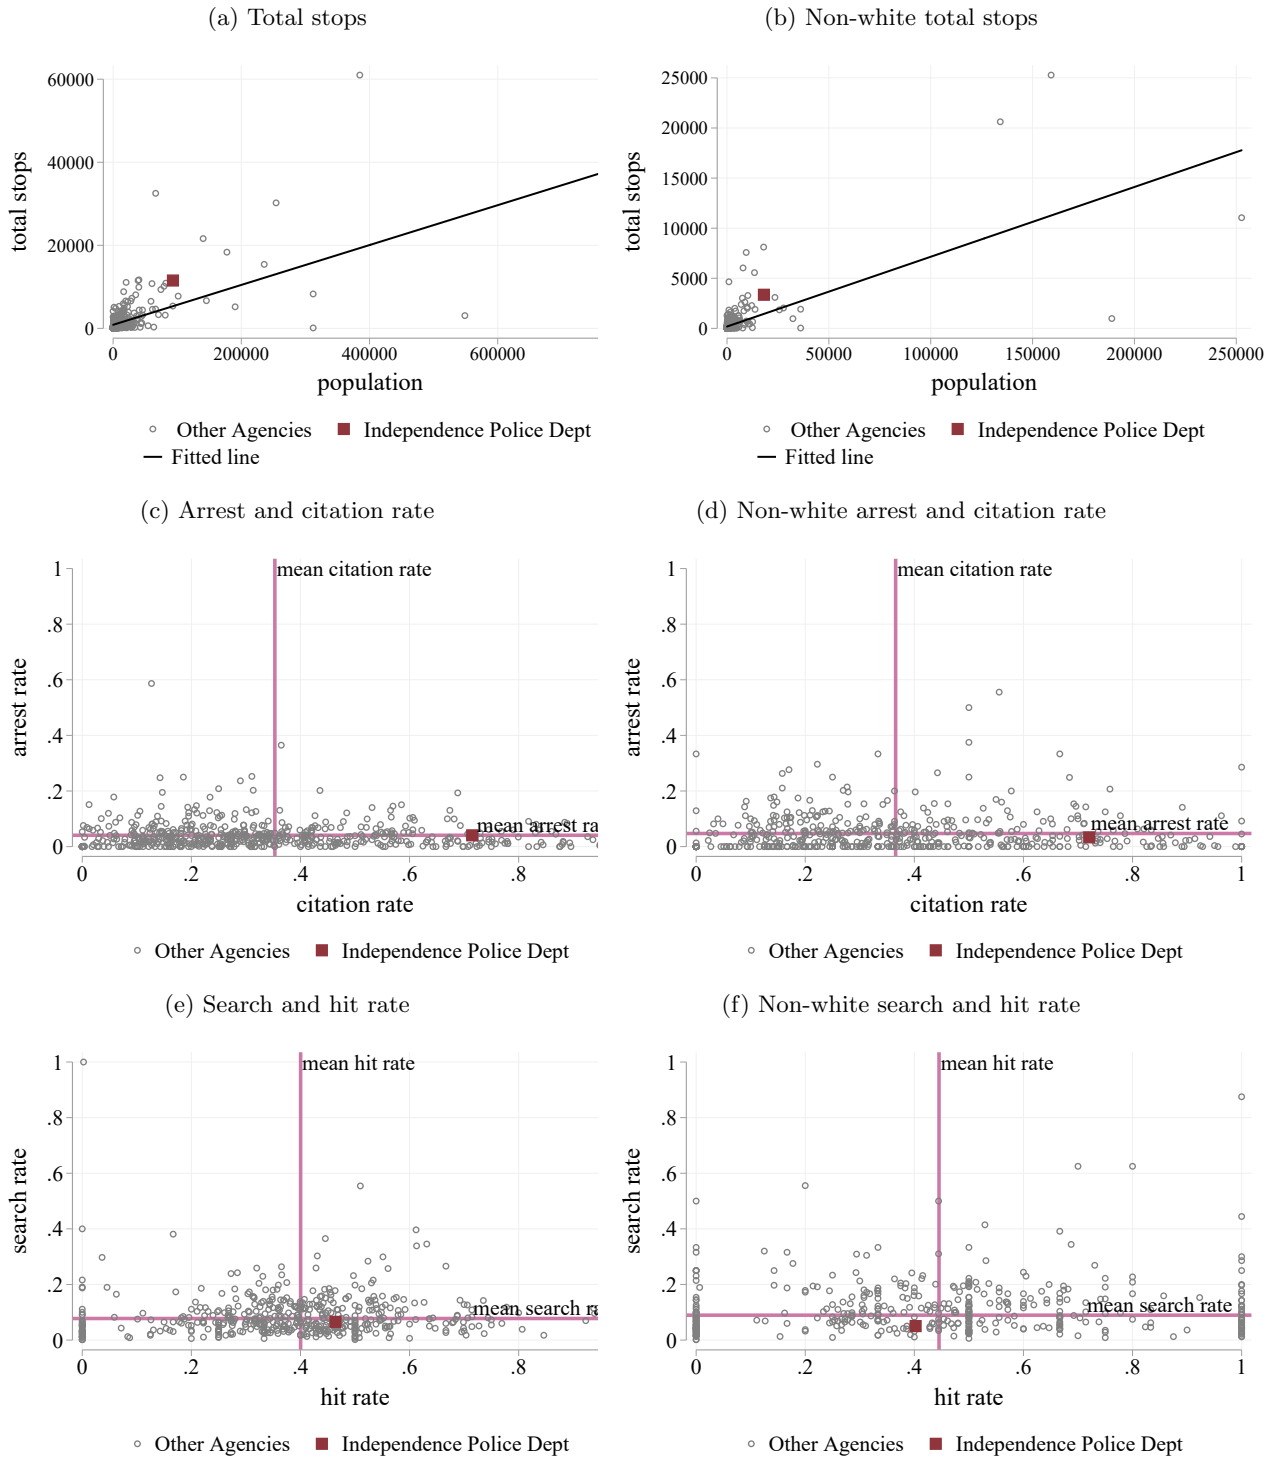

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Independence Police Dept. made several changes due to COVID pandemic in 2020. Independence is a county seat and suburb of Kansas City. Several major interstates and roadways run through Independence. The area offers attractions such as the Harry S. Truman Presidential Library and historic home, Cable Dahmer Arena, Crysler Baseball Stadium, Community of Christ International Headquarter, shopping attractions, and colleges.

Figure 1: Comparison to other agencies by population for Independence Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

All stops	.	.922	.	.	.	.	.
Resident stops	.	1	.	.	.	.	.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Indian Point Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Searches	5	5	0	0	0	0	0
Contraband	1	1	0	0	0	0	0
Arrests	0	0	0	0	0	0	0
Citations	10	10	0	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	.54	.56	1.35	0	0	0	0
Stop rate, residents	0	0	0	0	0	0	0
Search rate	11.11	11.36	0	.	.	.	.
Contraband hit rate	20	20	.	.	.	.	.
Arrest rate	0	0	0	.	.	.	.
Citation rate	22.22	22.73	0	.	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

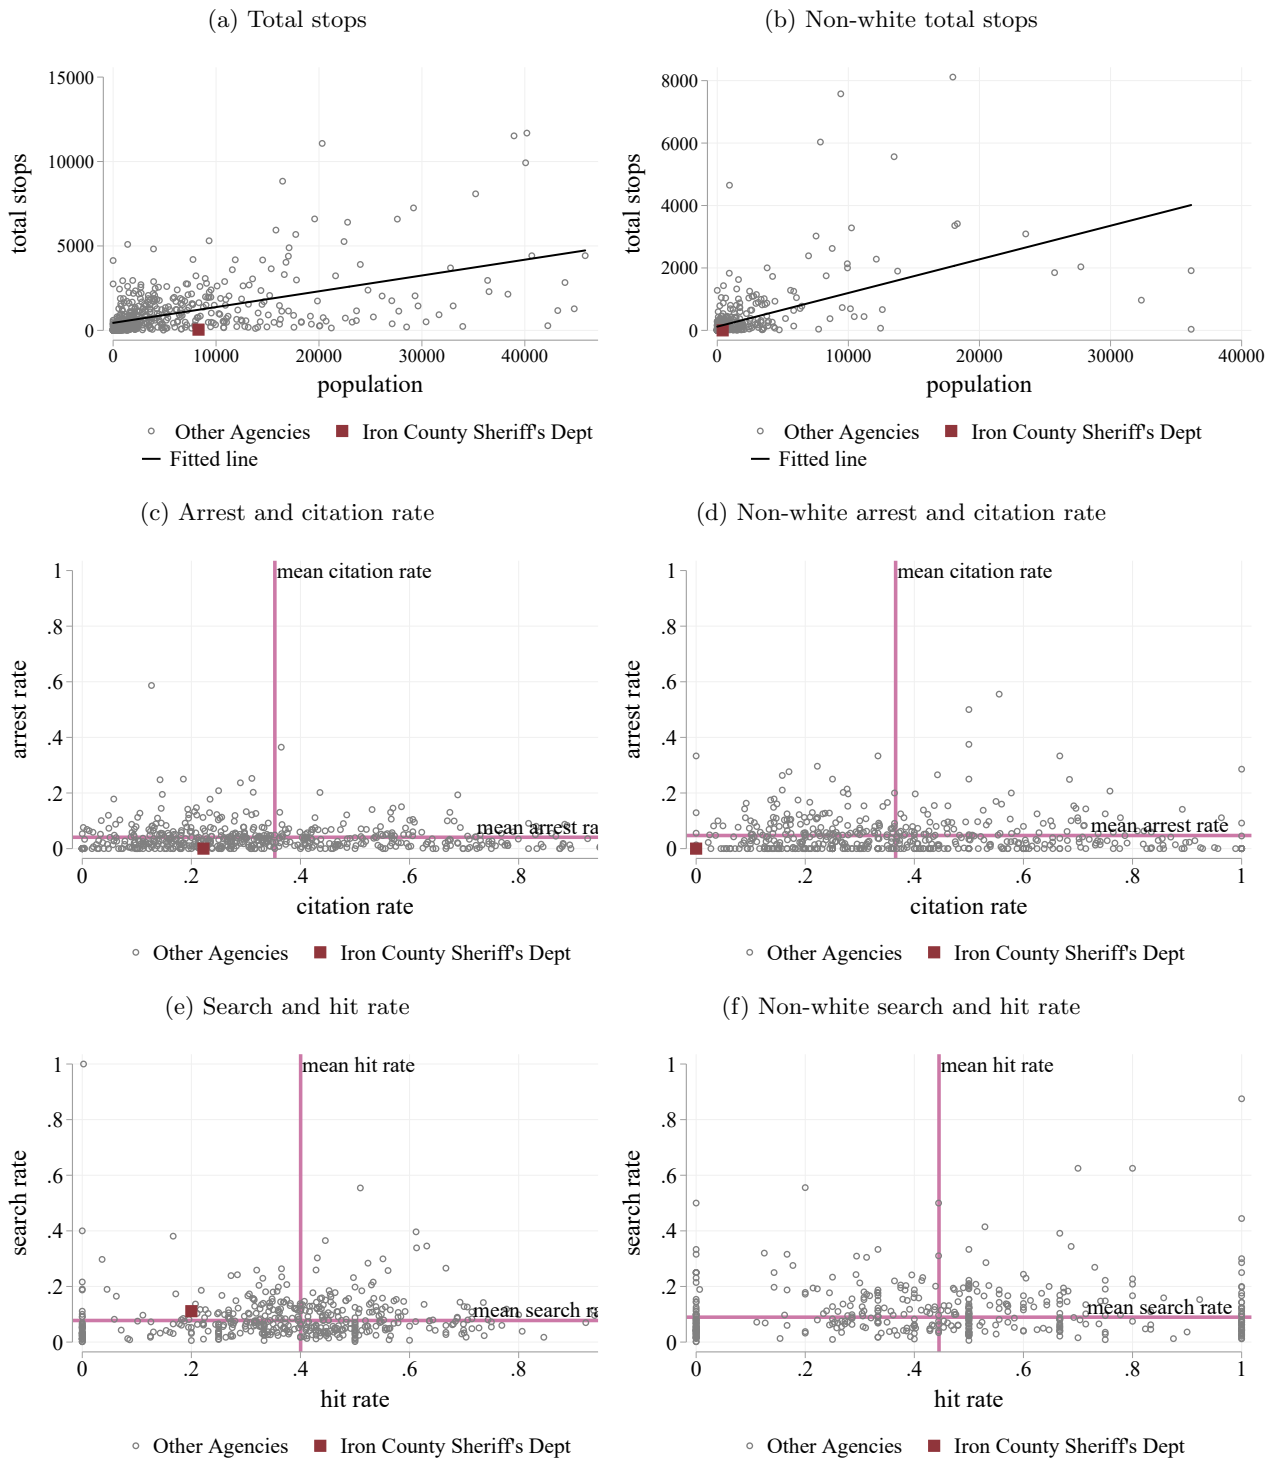

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Iron County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

<b>2020</b>	1.02	4.82	.09	.	.	.42

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Ironton Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 1: Rates by Race for Jackson County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	548796	359896	122454	41165	2135	10431	31689
2019 population %	100	65.58	22.31	7.5	.39	1.9	5.77
<b>Totals</b>	.	.	.	.	.	.	.
All stops	3077	2094	825	21	1	11	125
Resident stops	1261	793	403	12	0	5	48
Searches	182	118	57	2	0	2	3
Contraband	65	43	20	1	0	1	0
Arrests	306	179	103	2	0	3	19
Citations	1607	1046	478	2	0	6	75
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	.56	.58	.67	.05	.05	.11	.39
Stop rate, residents	.23	.22	.33	.03	0	.05	.15
Search rate	5.91	5.64	6.91	9.52	0	18.18	2.4
Contraband hit rate	35.71	36.44	35.09	50	.	50	0
Arrest rate	9.94	8.55	12.48	9.52	0	27.27	15.2
Citation rate	52.23	49.95	57.94	9.52	0	54.55	60

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

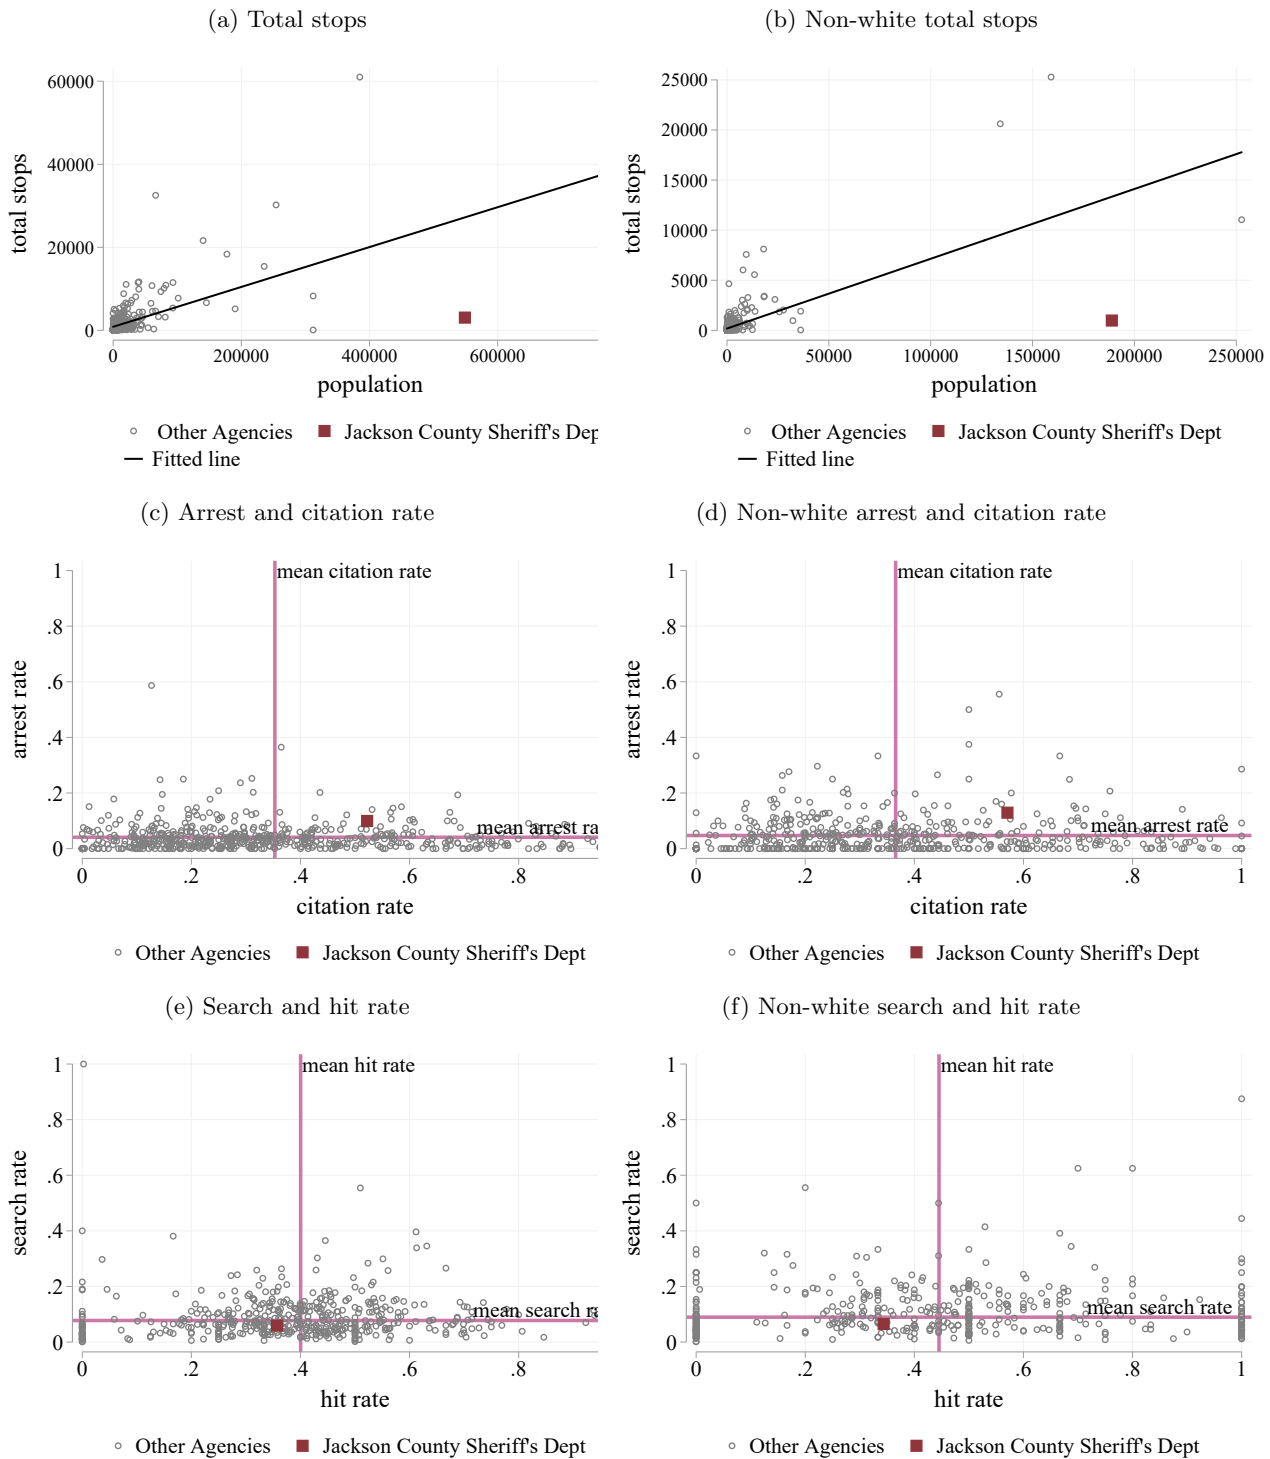

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Jackson County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Jackson County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>							
2019 population	548796	359896	122454	41165	2135	10431	31689
2019 population %	100	65.58	22.31	7.5	.39	1.9	5.77
<b>Stops</b>

<b>2020</b>	.94	2.38	.83	7.5	1.54	.18

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Jackson Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.234 Jamestown Police Dept

Table 1: Rates by Race for Jamestown Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	337	317	0	15	0	0	7
2019 population %	100	94.07	0	4.45	0	0	2.08
<b>Totals</b>	.	.	.	.	.	.	.
All stops	85	79	2	1	1	2	0
Resident stops	24	22	0	1	1	0	0
Searches	3	3	0	0	0	0	0
Contraband	1	1	0	0	0	0	0
Arrests	2	2	0	0	0	0	0
Citations	20	18	1	1	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	25.22	24.92	.	6.67	.	.	0
Stop rate, residents	7.12	6.94	.	6.67	.	.	0
Search rate	3.53	3.8	0	0	0	0	.
Contraband hit rate	33.33	33.33	.	.	.	.	.
Arrest rate	2.35	2.53	0	0	0	0	.
Citation rate	23.53	22.78	50	100	0	0	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

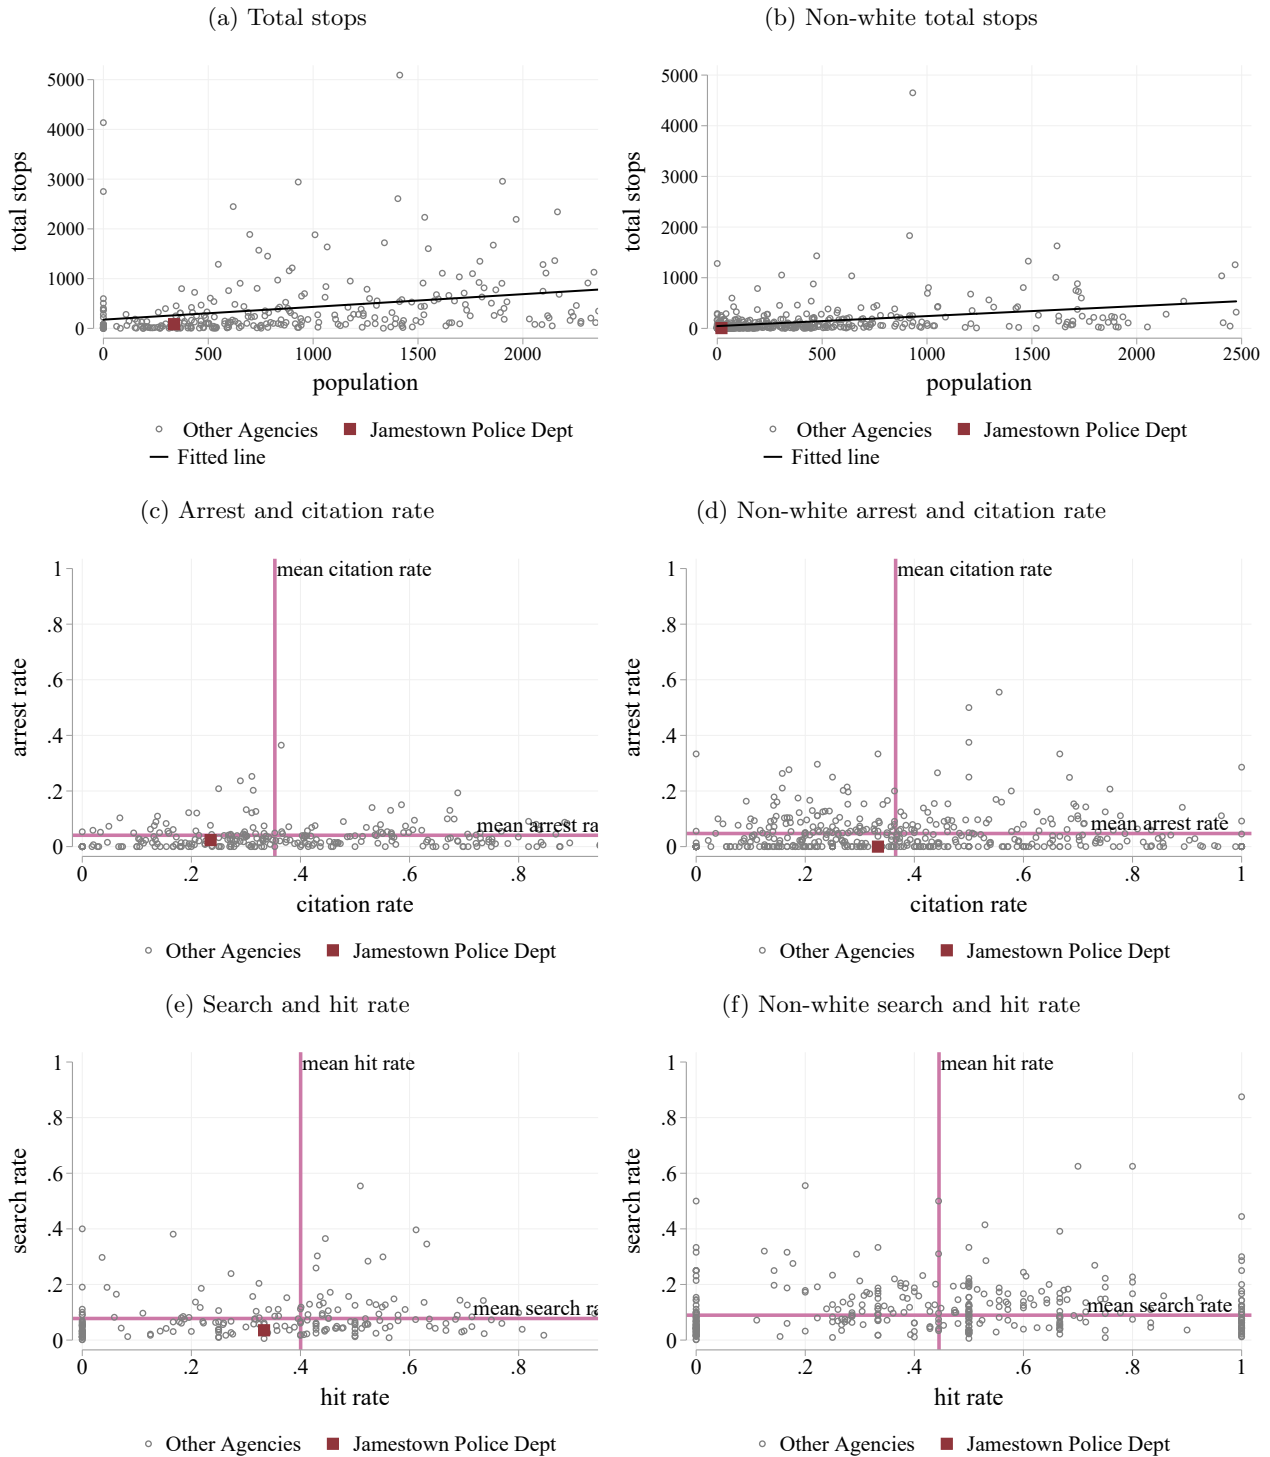

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Jamestown Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Jamestown Police Dept

<b>2020</b>	1.01	2.35	.96	.11	.68	.22

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Jasper County Sheriff’s Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Searches	21	21	0	0	0	0	0
Contraband	21	21	0	0	0	0	0
Arrests	8	8	0	0	0	0	0
Citations	68	68	0	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	32.15	32.99	.	0	0	.	0
Stop rate, residents	10.62	10.9	.	0	0	.	0
Search rate	9.25	9.25	.	.	.	.	.
Contraband hit rate	100	100	.	.	.	.	.
Arrest rate	3.52	3.52	.	.	.	.	.
Citation rate	29.96	29.96	.	.	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

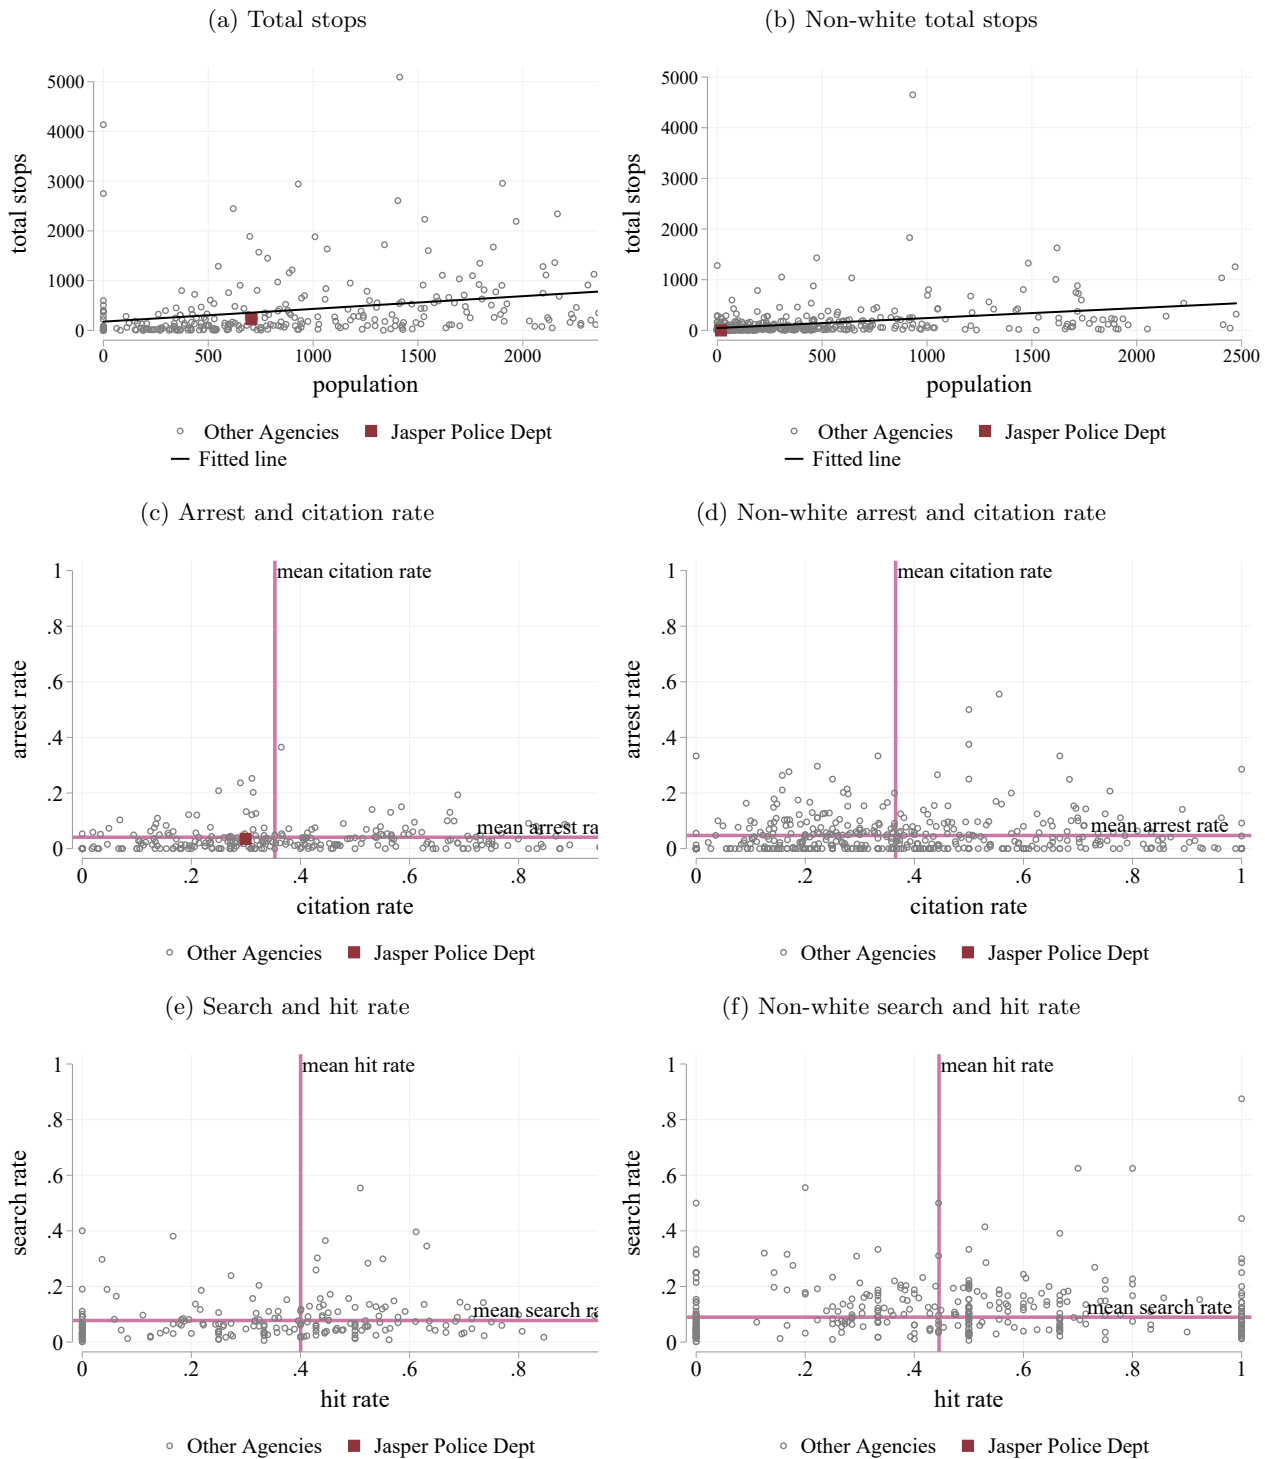

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Jasper Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

<b>2019</b>	.86	1.87	.31	.06	.25	.5
<b>2020</b>	.9	1.72	.34	.04	.18	.19

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Jefferson City Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Arrests	555	527	15	2	0	0	11
Citations	6629	6371	191	6	0	5	56
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	10.34	9.81	29.52	.56	.56	1.65	54.61
Stop rate, residents	6.82	6.99	10.89	.14	.38	.76	4.41
Search rate	3.93	3.93	6.25	18.75	0	0	3.02
Contraband hit rate	36.84	36.66	43.33	0	.	.	37.84
Arrest rate	3.02	3.17	3.13	12.5	0	0	.9
Citation rate	36.12	38.37	39.79	37.5	0	20.83	4.57

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

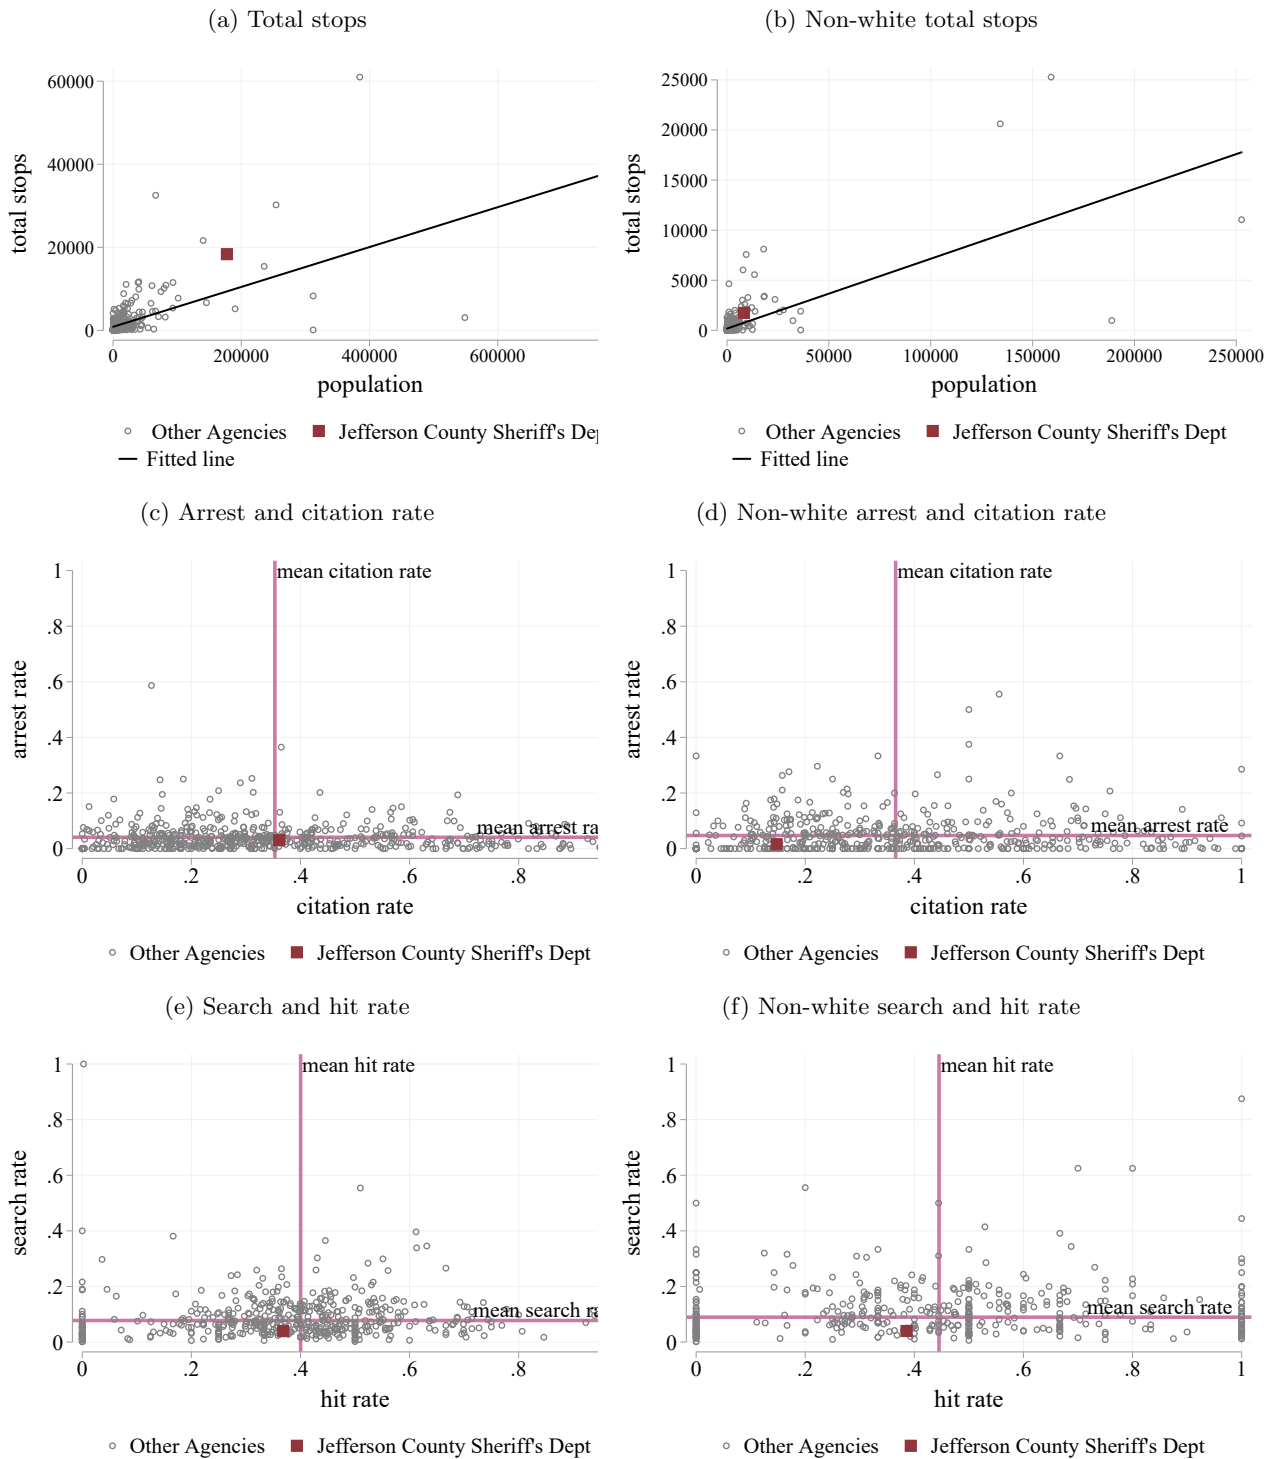

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Jefferson County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Jefferson County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.

2019 population %	100	86.49	4.68	3.88	.44	1.83	3.5
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1173	1034	84	29	1	12	13
Resident stops	788	716	46	14	0	7	5
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.019	1.529	.637	.194	.559	.317
Resident stops	.	1.051	1.246	.458	0	.485	.181

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>2020</b>	1.02	1.53	.64	.19	.56	.32

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Johnson County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	25.39	24.41	122.22	9.52	.	.	0
Stop rate, residents	7.08	7.1	11.11	4.76	.	.	0
Search rate	6.12	5.97	9.09	0	.	.	.
Contraband hit rate	22.22	12.5	100	.	.	.	.
Arrest rate	.68	.75	0	0	.	.	.
Citation rate	2.04	2.24	0	0	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

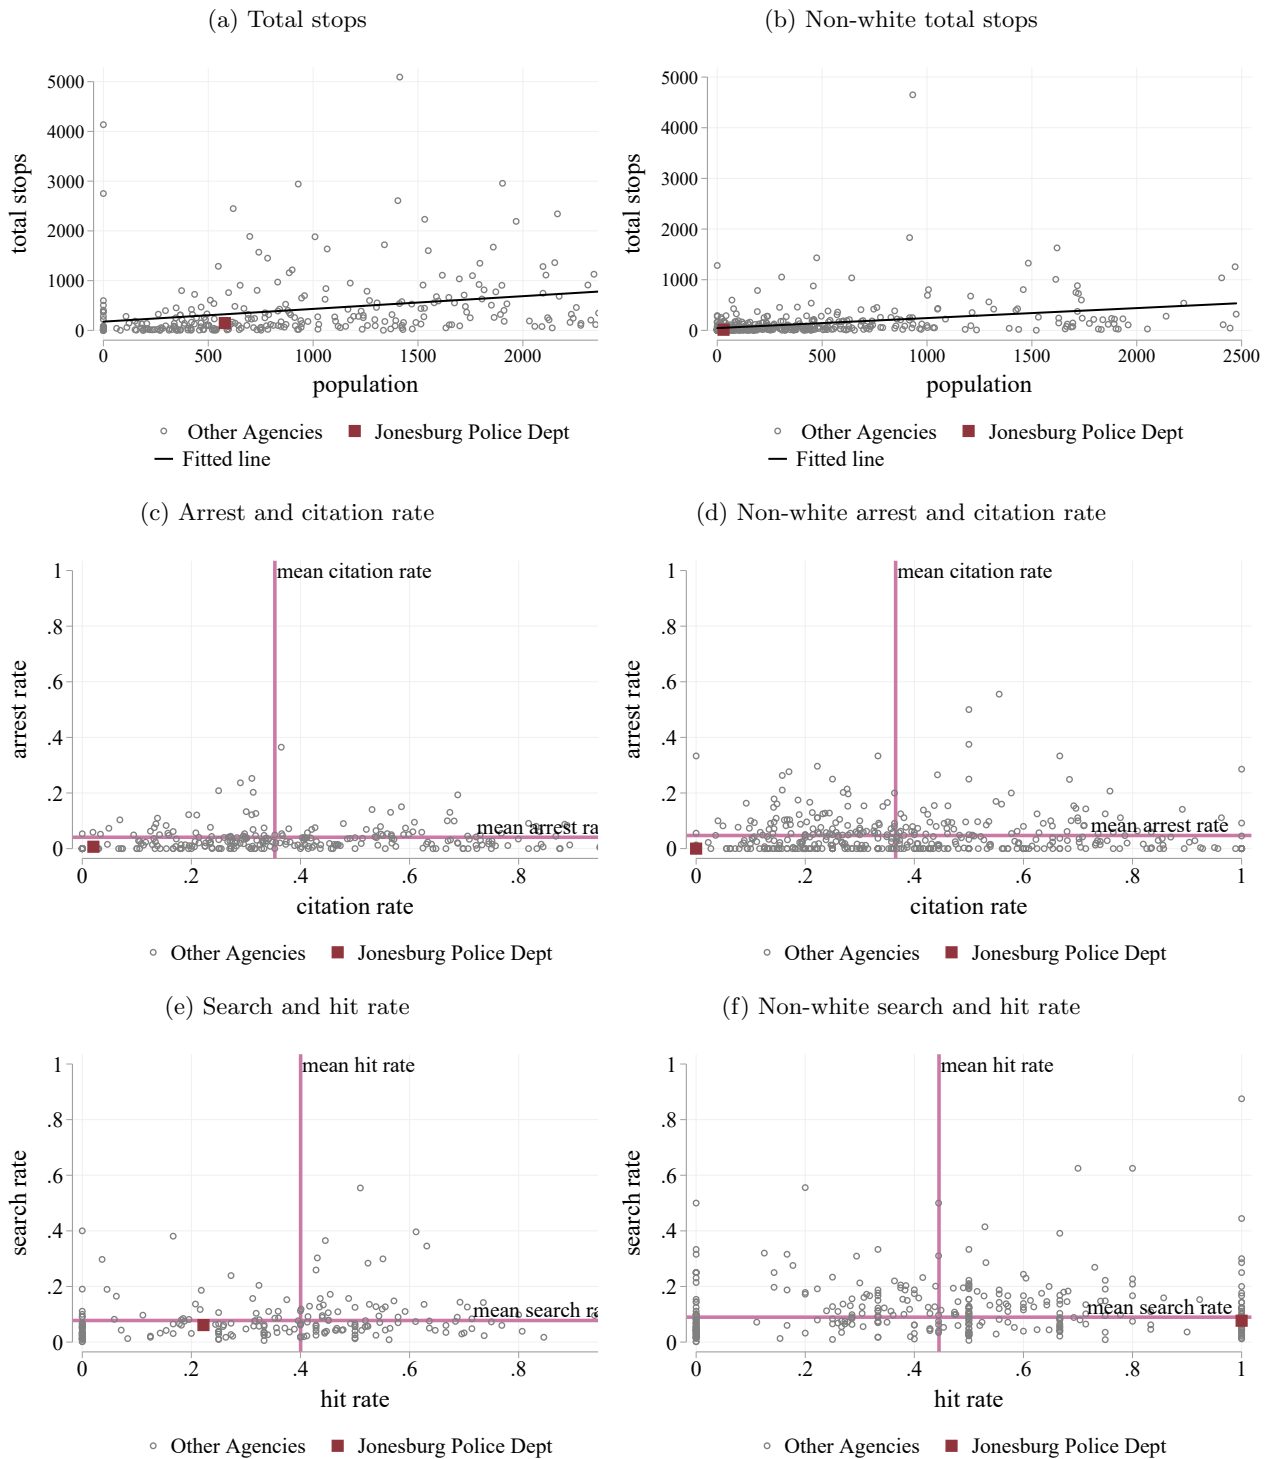

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Jonesburg Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Jonesburg Police Dept

<b>Stops</b>	.	.	.	.	.	.	.
All stops	11684	10431	879	268	38	57	11
Resident stops	7845	7004	634	144	25	32	6
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.044	2.387	.573	.147	.251	.02
Resident stops	.	1.044	2.564	.459	.144	.21	.016

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>2020</b>	1.04	2.39	.57	.15	.25	.02

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Joplin Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Resident stops	74	72	2	0	0	0	0
Searches	4	2	2	0	0	0	0
Contraband	1	0	1	0	0	0	0
Arrests	2	2	0	0	0	0	0
Citations	12	12	0	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	6.73	6.6	150	7.32	0	0	0
Stop rate, residents	4.49	4.53	100	0	0	0	0
Search rate	3.6	1.9	66.67	0	.	.	.
Contraband hit rate	25	0	50	.	.	.	.
Arrest rate	1.8	1.9	0	0	.	.	.
Citation rate	10.81	11.43	0	0	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

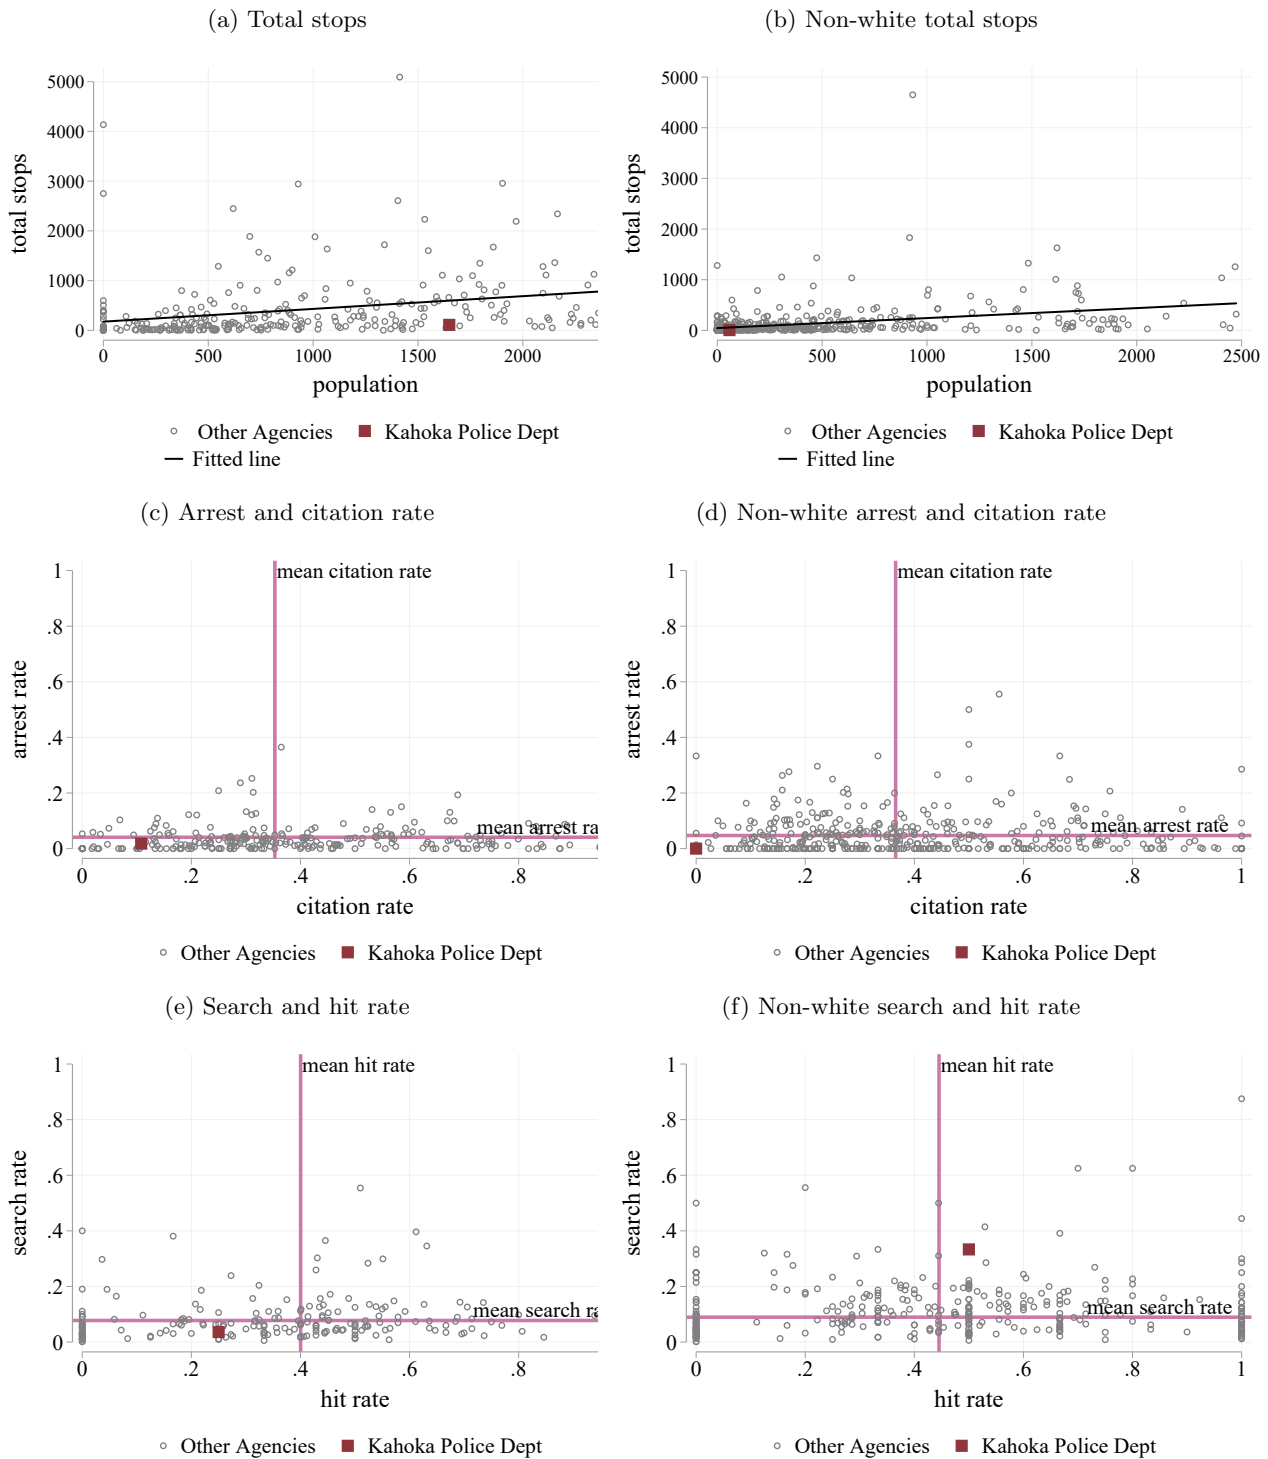

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Kahoka Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Kahoka Police Dept

All stops	.	.	.	.	.	.	.
Resident stops	.	.	.	.	.	.	.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

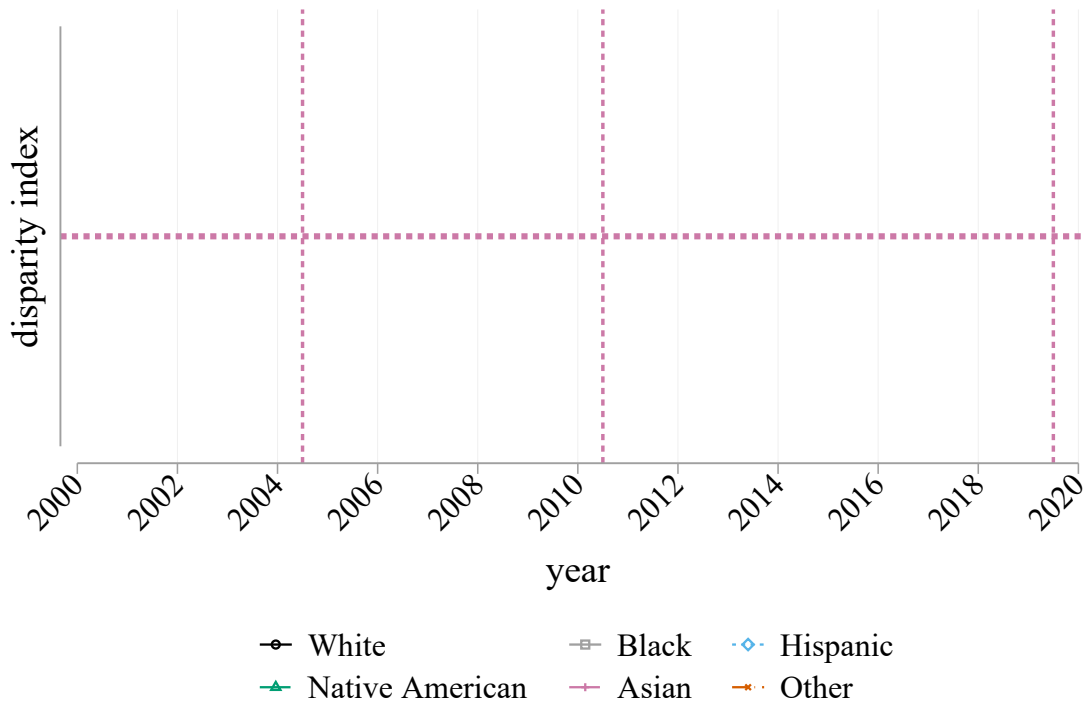

Table 3: Disparity Index from 2000 to 2020 for Kansas City Int'l Airport Police

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>

<b>2019</b>	.	.	.	.	.	.
<b>2020</b>	.	.	.	.	.	.

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Kansas City Int'l Airport Police

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Citations	57102	33292	19037	2596	19	646	1512
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	15.85	15.82	19.5	7.79	1.23	6.2	6.97
Stop rate, residents	7.58	6.04	12.61	3.86	.65	3.35	3.14
Search rate	.91	.53	1.65	1.02	4.76	0	.12
Contraband hit rate	50.81	57.59	45.65	53.57	0	.	250
Arrest rate	2.49	1.7	3.92	3.95	4.76	.15	.66
Citation rate	93.61	93.21	94.34	94.88	90.48	94.86	90.92

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

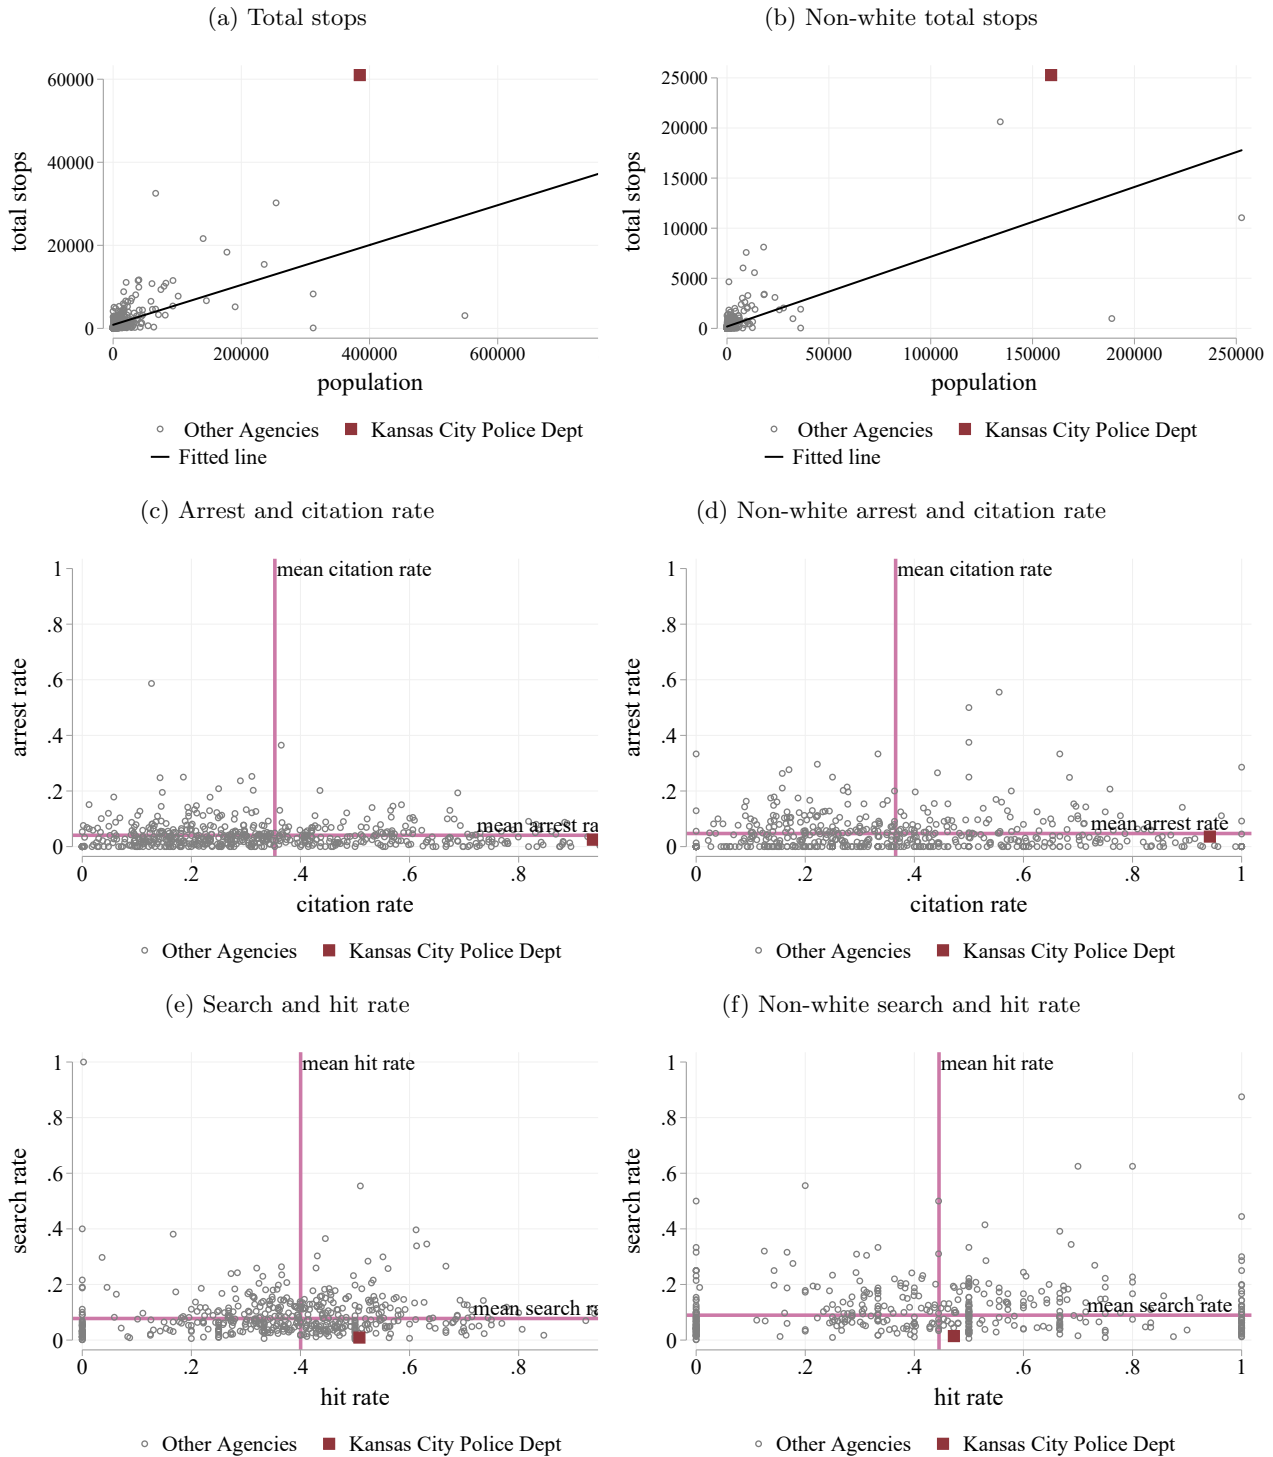

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Kansas City Police Dept. provides service for Kansas City, a major metropolitan area with several thoroughfares including Interstate 29, 35, and 70.

Figure 1: Comparison to other agencies by population for Kansas City Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Kansas City Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

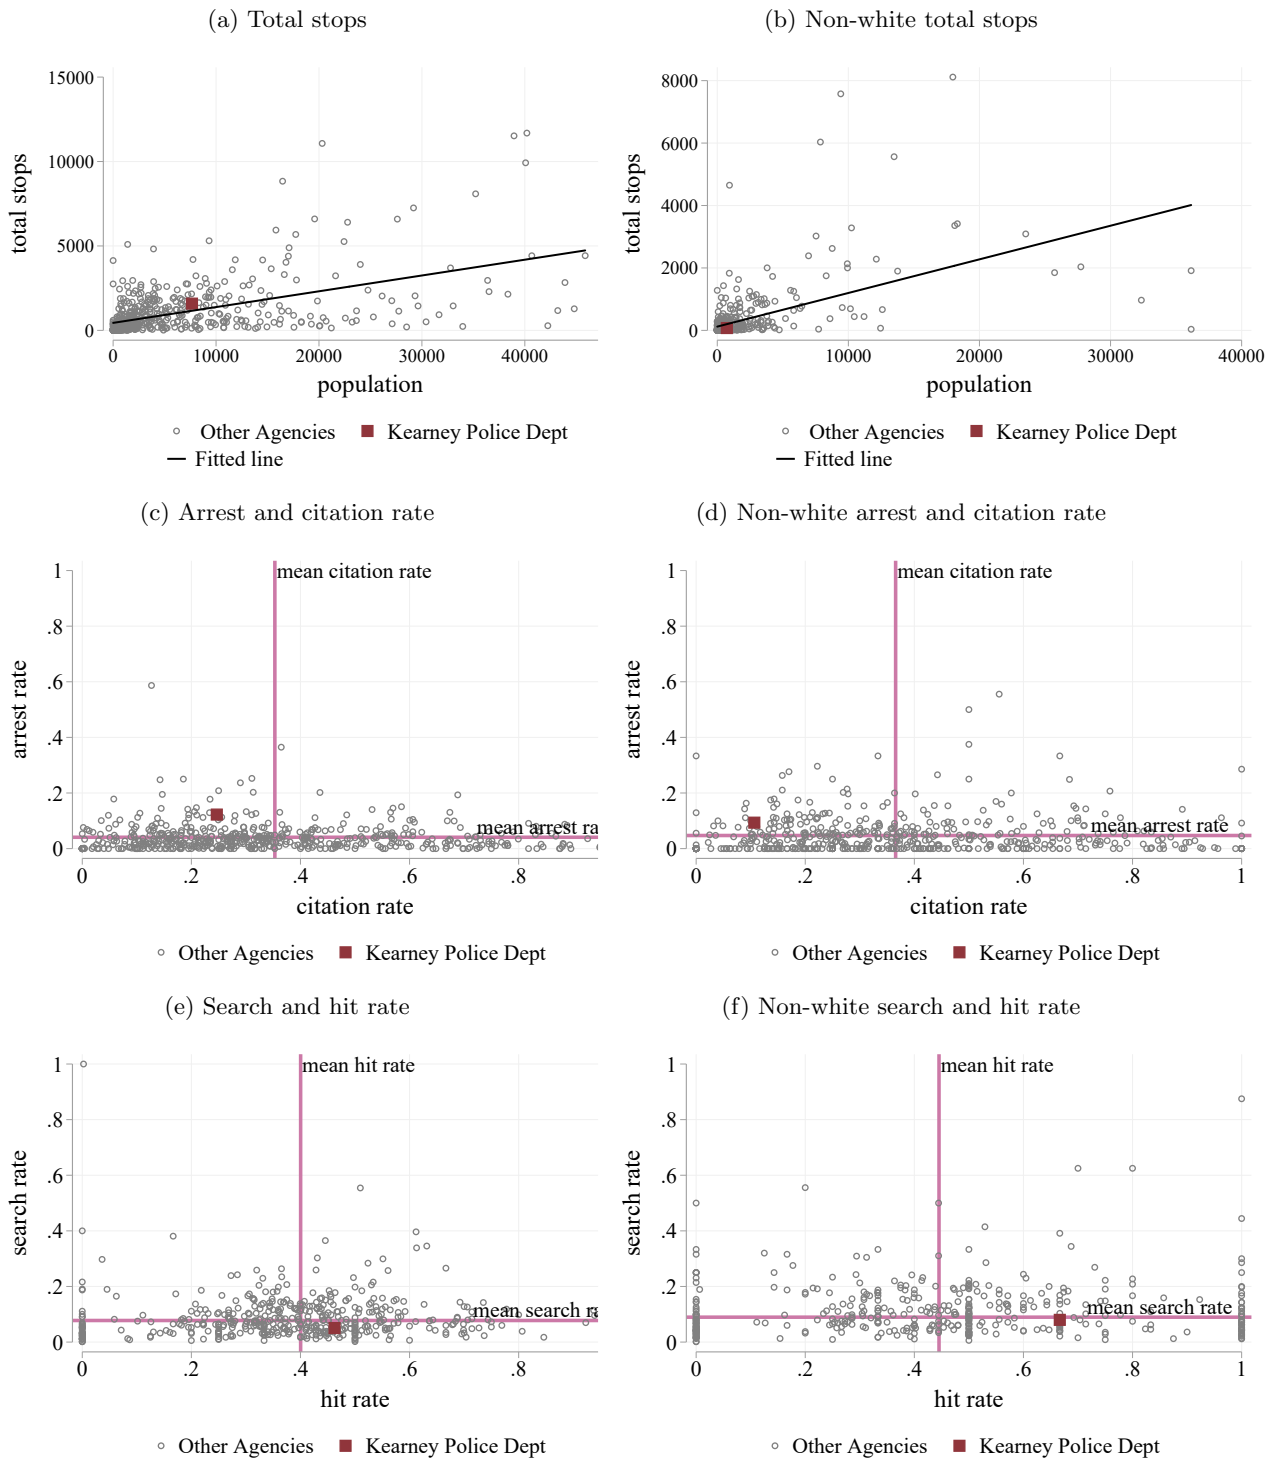

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Kearney Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Kearney Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	7661	6929	29	571	35	18	494
2019 population %	100	90.45	.38	7.45	.46	.23	6.45
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1585	1510	50	17	0	4	4
Resident stops	649	638	6	3	0	2	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.053	8.334	.144	0	1.074	.039
Resident stops	.	1.087	2.442	.062	0	1.312	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

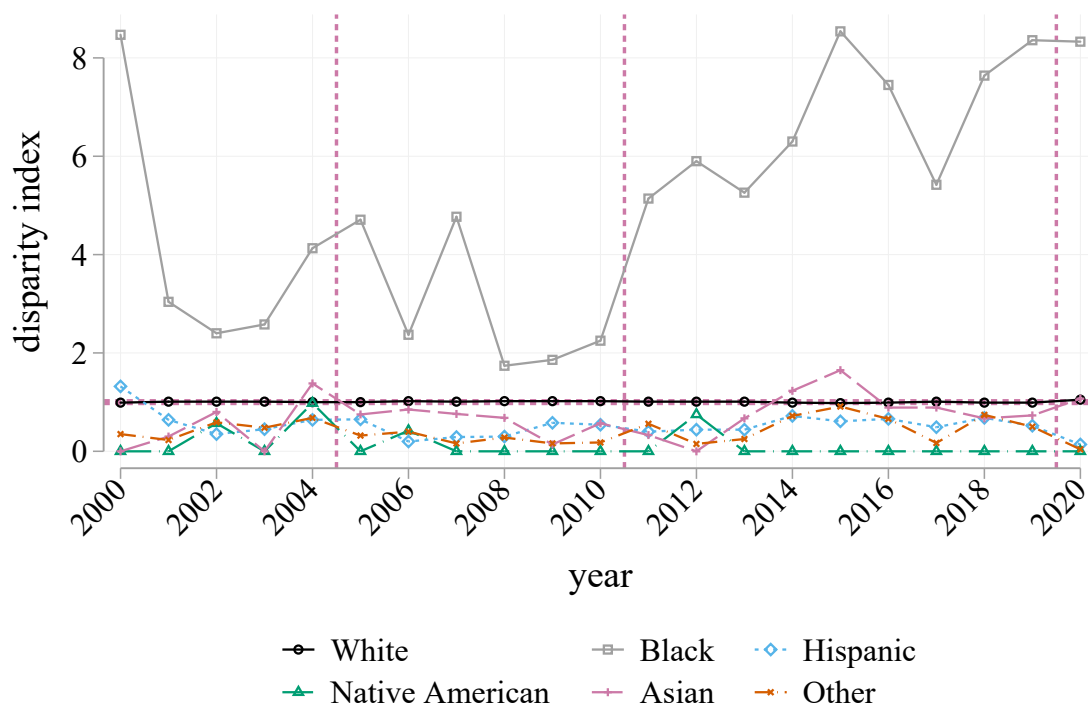

Table 3: Disparity Index from 2000 to 2020 for Kearney Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	.99	8.47	1.32	0	0	.35

<b>2011</b>	1.01	5.14	.4	0	.33	.56
<b>2012</b>	1.01	5.9	.44	.75	0	.15
<b>2013</b>	1.01	5.26	.44	0	.67	.25
<b>2014</b>	.99	6.3	.72	0	1.23	.72
<b>2015</b>	.98	8.54	.61	0	1.65	.91
<b>2016</b>	.99	7.45	.66	0	.89	.66
<b>2017</b>	1.01	5.42	.49	0	.89	.17
<b>2018</b>	.99	7.64	.68	0	.67	.74
<b>2019</b>	.99	8.36	.52	0	.73	.5
<b>2020</b>	1.05	8.33	.14	0	1.07	.04

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Kearney Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.246 Kennett Police Dept

Table 1: Rates by Race for Kennett Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	8044	6327	1201	302	26	38	210
2019 population %	100	78.65	14.93	3.75	.32	.47	2.61
<b>Totals</b>	.	.	.	.	.	.	.
All stops	3230	2348	737	132	2	4	7
Resident stops	1782	1290	428	57	2	1	4
Searches	132	83	45	3	1	0	0
Contraband	55	40	13	2	0	0	0
Arrests	1895	1895	0	0	0	0	0
Citations	410	286	98	25	1	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	40.15	37.11	61.37	43.71	7.69	10.53	3.33
Stop rate, residents	22.15	20.39	35.64	18.87	7.69	2.63	1.9
Search rate	4.09	3.53	6.11	2.27	50	0	0
Contraband hit rate	41.67	48.19	28.89	66.67	0	.	.
Arrest rate	58.67	80.71	0	0	0	0	0
Citation rate	12.69	12.18	13.3	18.94	50	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

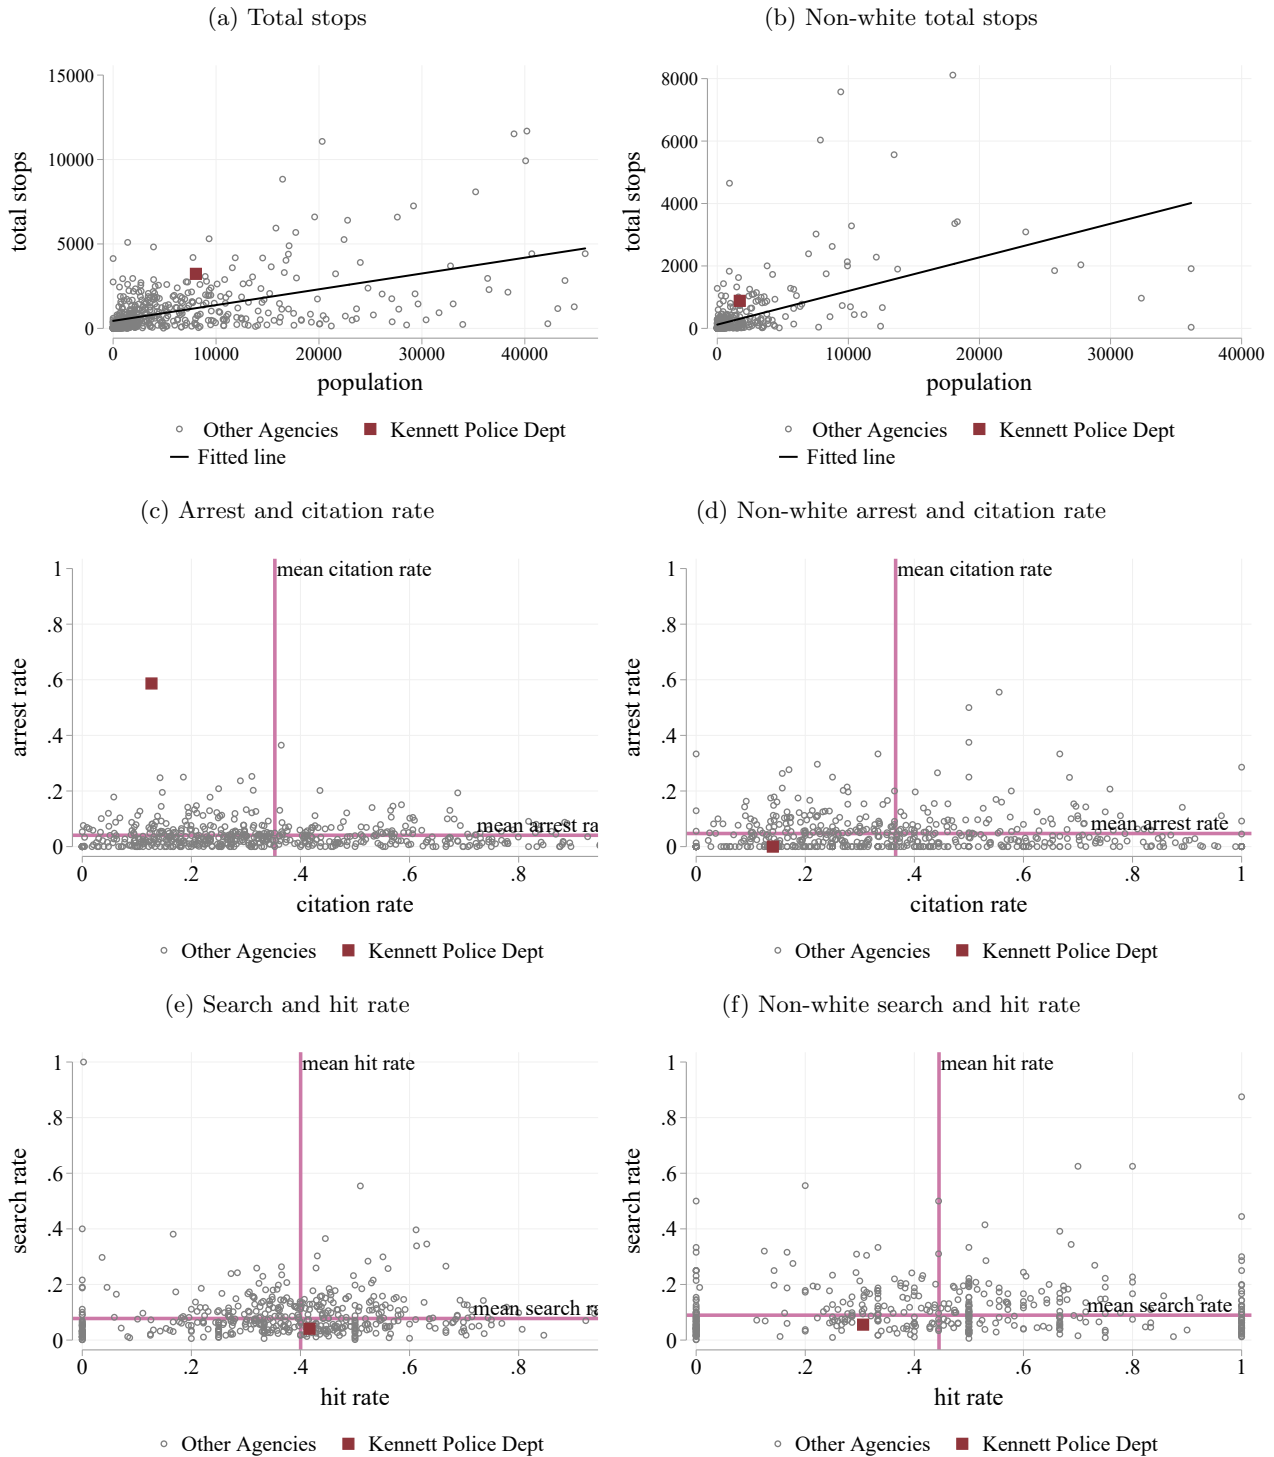

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Kennett Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Kennett Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.

Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Kimberling City Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	2339	2228	0	51	0	7	75
2019 population %	100	95.25	0	2.18	0	.3	3.21
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1129	1086	15	18	0	9	1
Resident stops	148	146	1	0	0	1	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.01	.	.731	.	2.664	.028
Resident stops	.	1.036	.	0	.	2.258	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

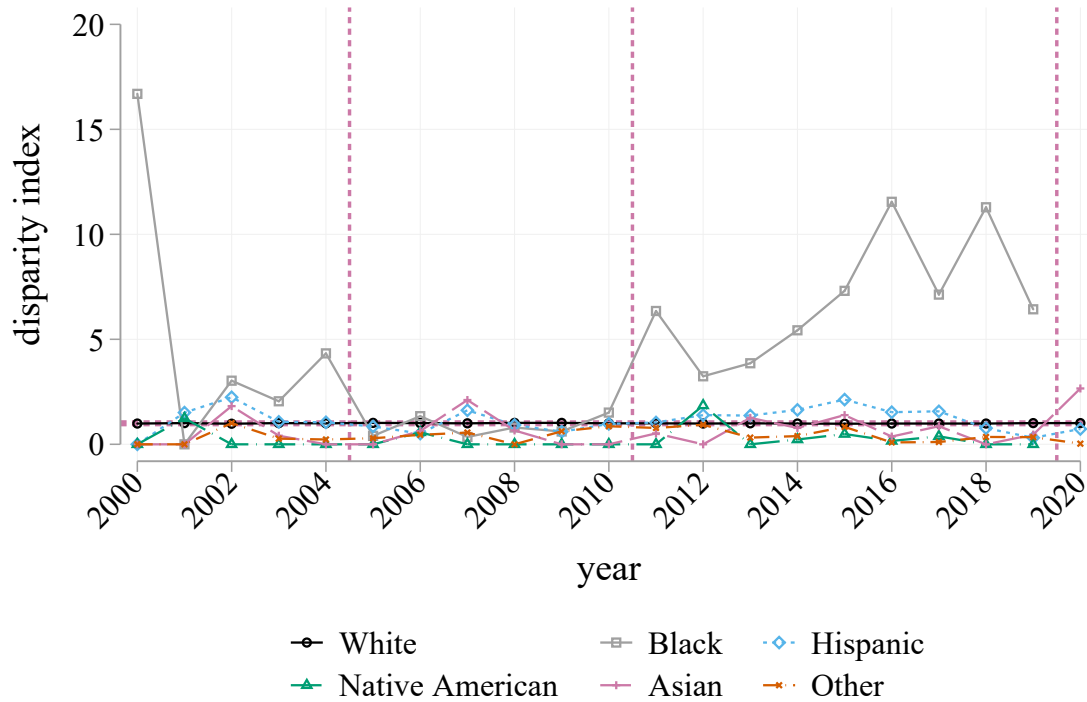

Table 3: Disparity Index from 2000 to 2020 for Kimberling City Police Dept

	White	Black	Hispanic	Native American	Asian	Other
<b>2000</b>	.99	16.69	0	0	0	0

<b>2017</b>	.99	7.13	1.57	.38	.86	.11
<b>2018</b>	.99	11.29	.77	0	0	.35
<b>2019</b>	1.01	6.43	.31	0	.46	.34
<b>2020</b>	1.01	.	.73	.	2.66	.03

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Kimberling City Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Kingsville Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Contraband	18	15	2	1	0	0	0
Arrests	26	19	5	2	0	0	0
Citations	198	160	26	8	1	2	1
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	6.06	5.73	18.34	10.43	13.64	1.87	1.68
Stop rate, residents	2.31	2.2	4.94	7.58	9.09	.85	.56
Search rate	6.57	6.39	7.69	13.64	0	0	0
Contraband hit rate	30	30.61	25	33.33	.	.	.
Arrest rate	2.85	2.48	4.81	9.09	0	0	0
Citation rate	21.69	20.86	25	36.36	33.33	18.18	16.67

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

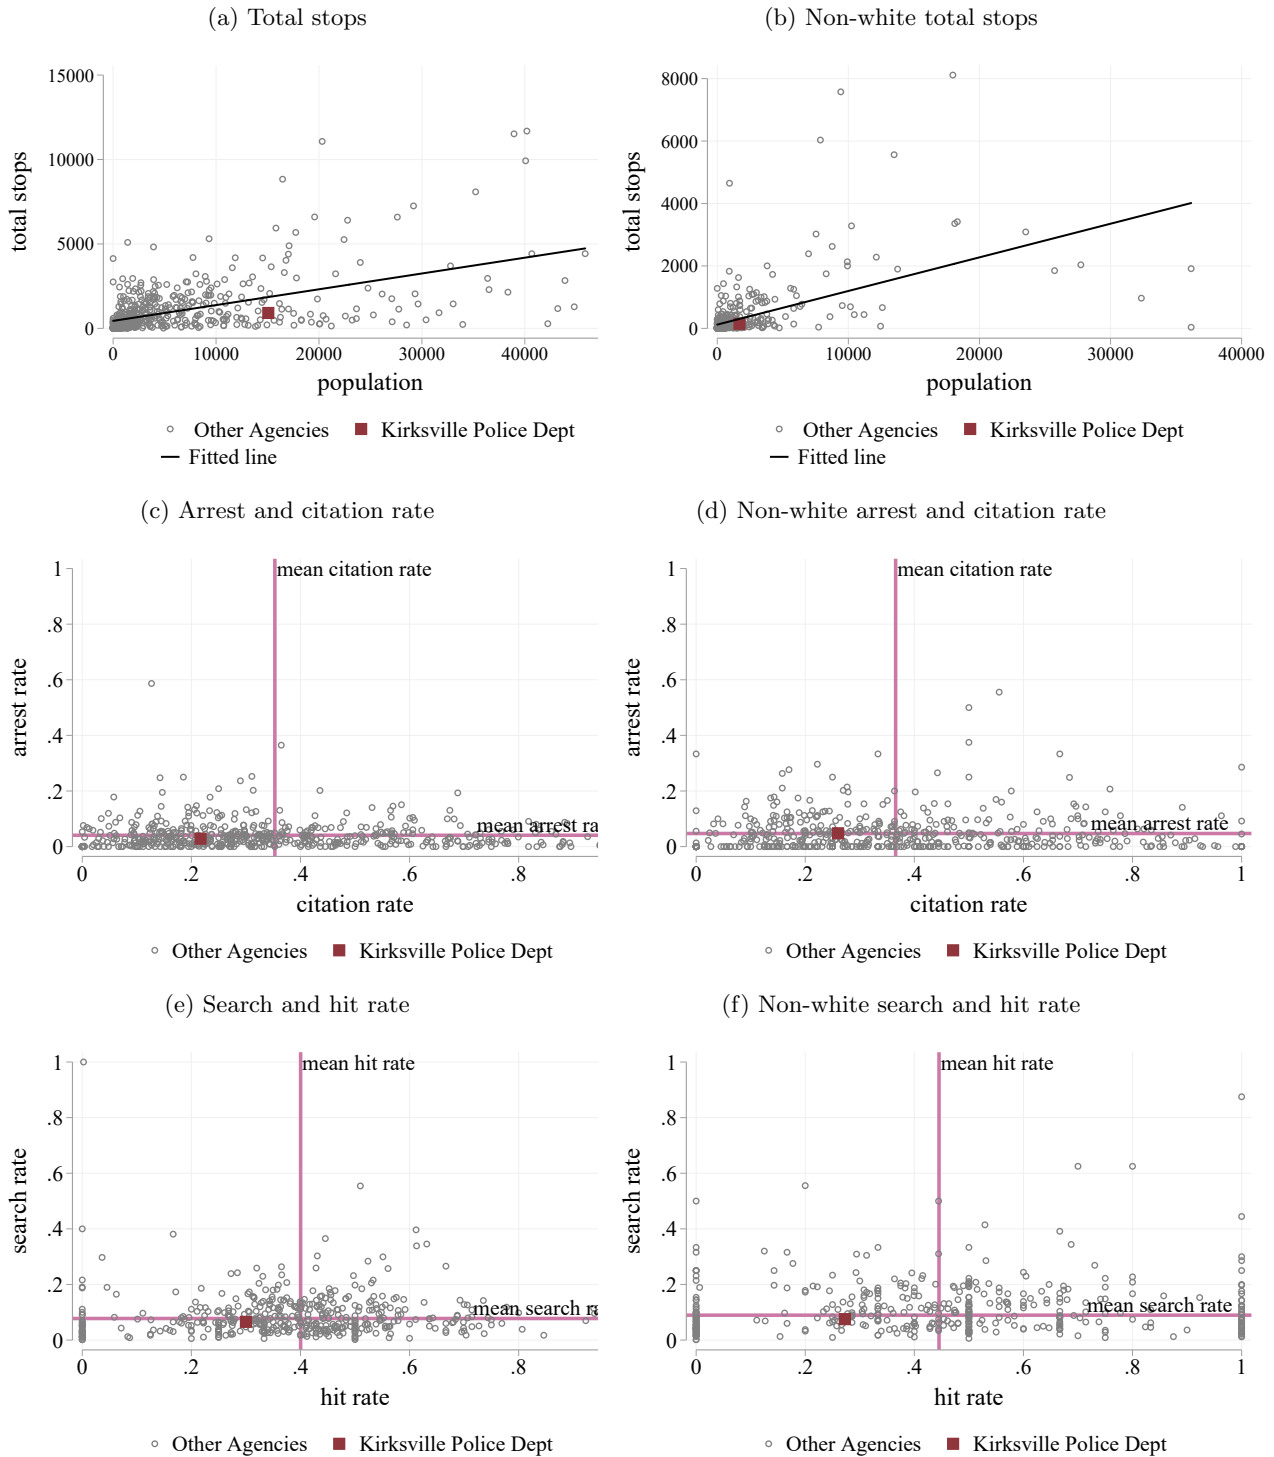

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Kirksville Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Kirksville Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>

<b>2020</b>	.93	2.54	.03	.84	.58	.44

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Kirkwood Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>Totals</b>	.	.	.	.	.	.	.
All stops	50	38	4	2	0	0	6
Resident stops	9	7	1	0	0	0	1
Searches	3	2	1	0	0	0	0
Contraband	2	2	0	0	0	0	0
Arrests	0	0	0	0	0	0	0
Citations	9	6	1	1	0	0	1
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	2.34	2.32	3.03	.93	0	0	6.52
Stop rate, residents	.42	.43	.76	0	0	0	1.09
Search rate	6	5.26	25	0	.	.	0
Contraband hit rate	66.67	100	0	.	.	.	.
Arrest rate	0	0	0	0	.	.	0
Citation rate	18	15.79	25	50	.	.	16.67

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

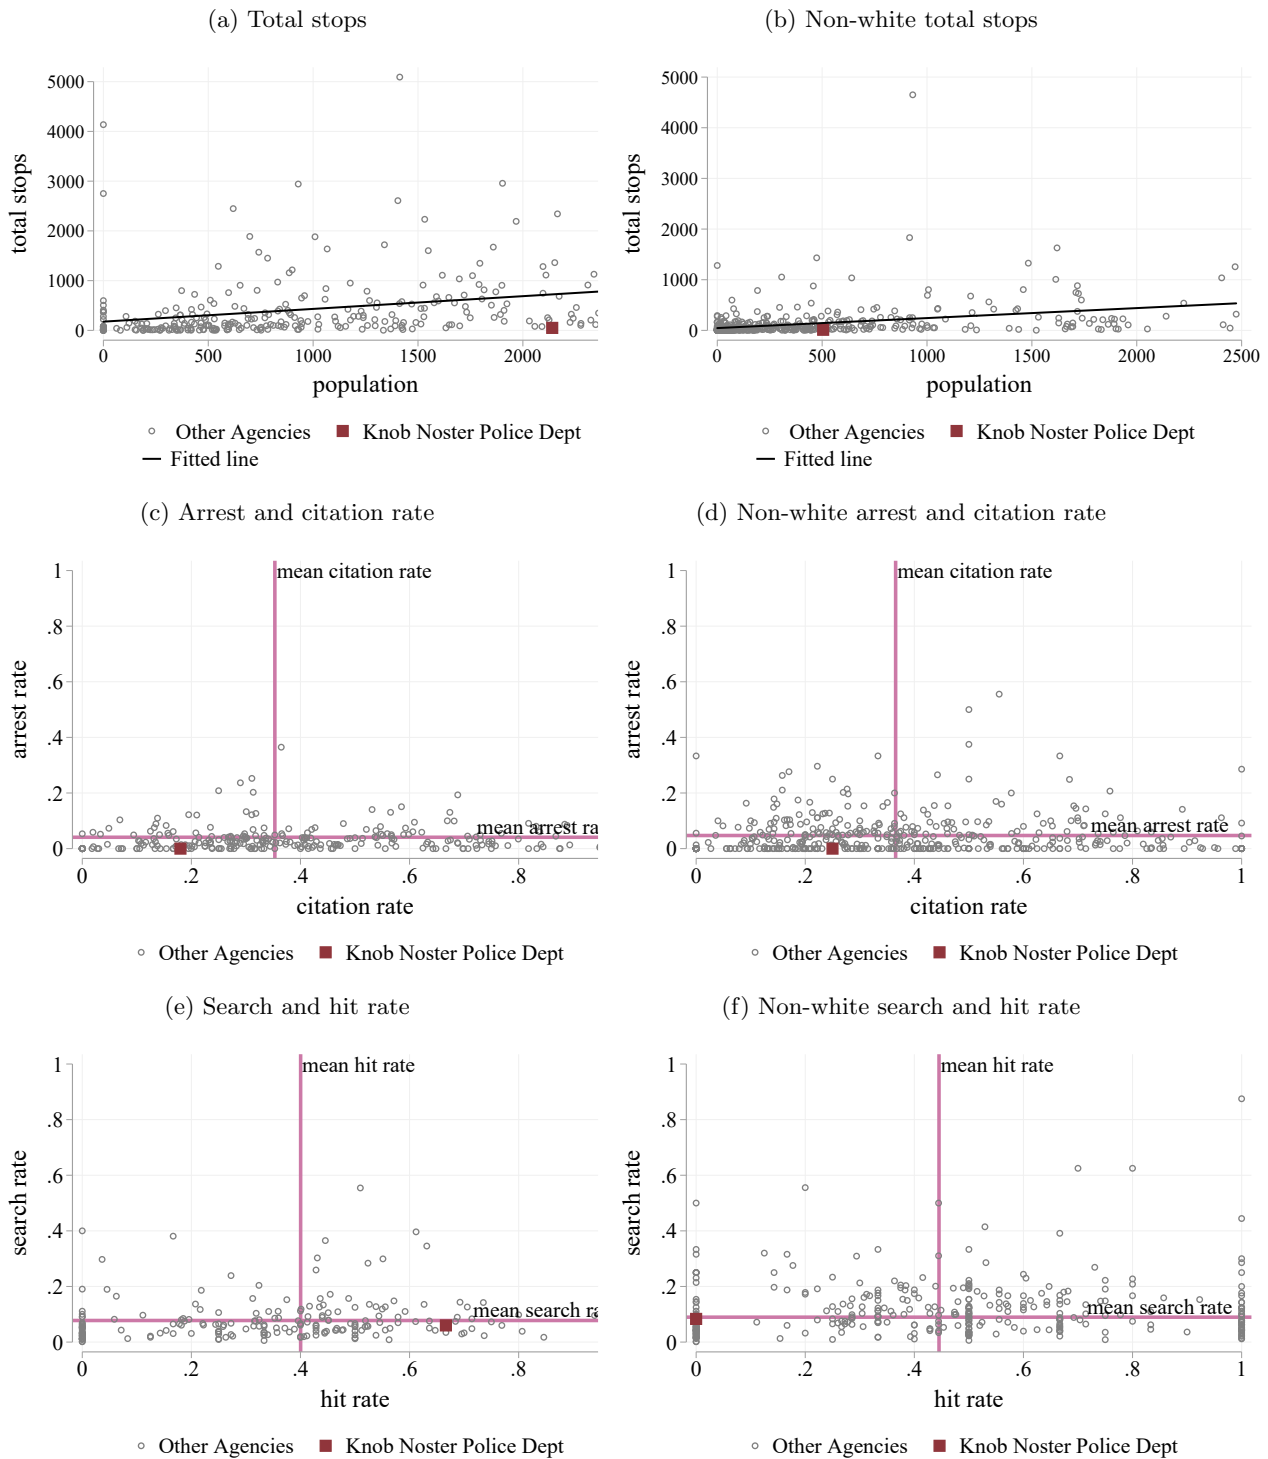

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Knob Noster Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Knob Noster Police Dept

<b>2020</b>	1.03	.15	.54	.	0	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Knox County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.254 La Grange Police Dept

Table 1: Rates by Race for La Grange Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	847	678	149	0	17	0	3
2019 population %	100	80.05	17.59	0	2.01	0	.35
<b>Totals</b>	.	.	.	.	.	.	.
All stops	173	162	10	1	0	0	0
Resident stops	34	32	2	0	0	0	0
Searches	6	6	0	0	0	0	0
Contraband	4	3	1	0	0	0	0
Arrests	7	7	0	0	0	0	0
Citations	37	35	2	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	20.43	23.89	6.71	.	0	.	0
Stop rate, residents	4.01	4.72	1.34	.	0	.	0
Search rate	3.47	3.7	0	0	.	.	.
Contraband hit rate	66.67	50	.	.	.	.	.
Arrest rate	4.05	4.32	0	0	.	.	.
Citation rate	21.39	21.6	20	0	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

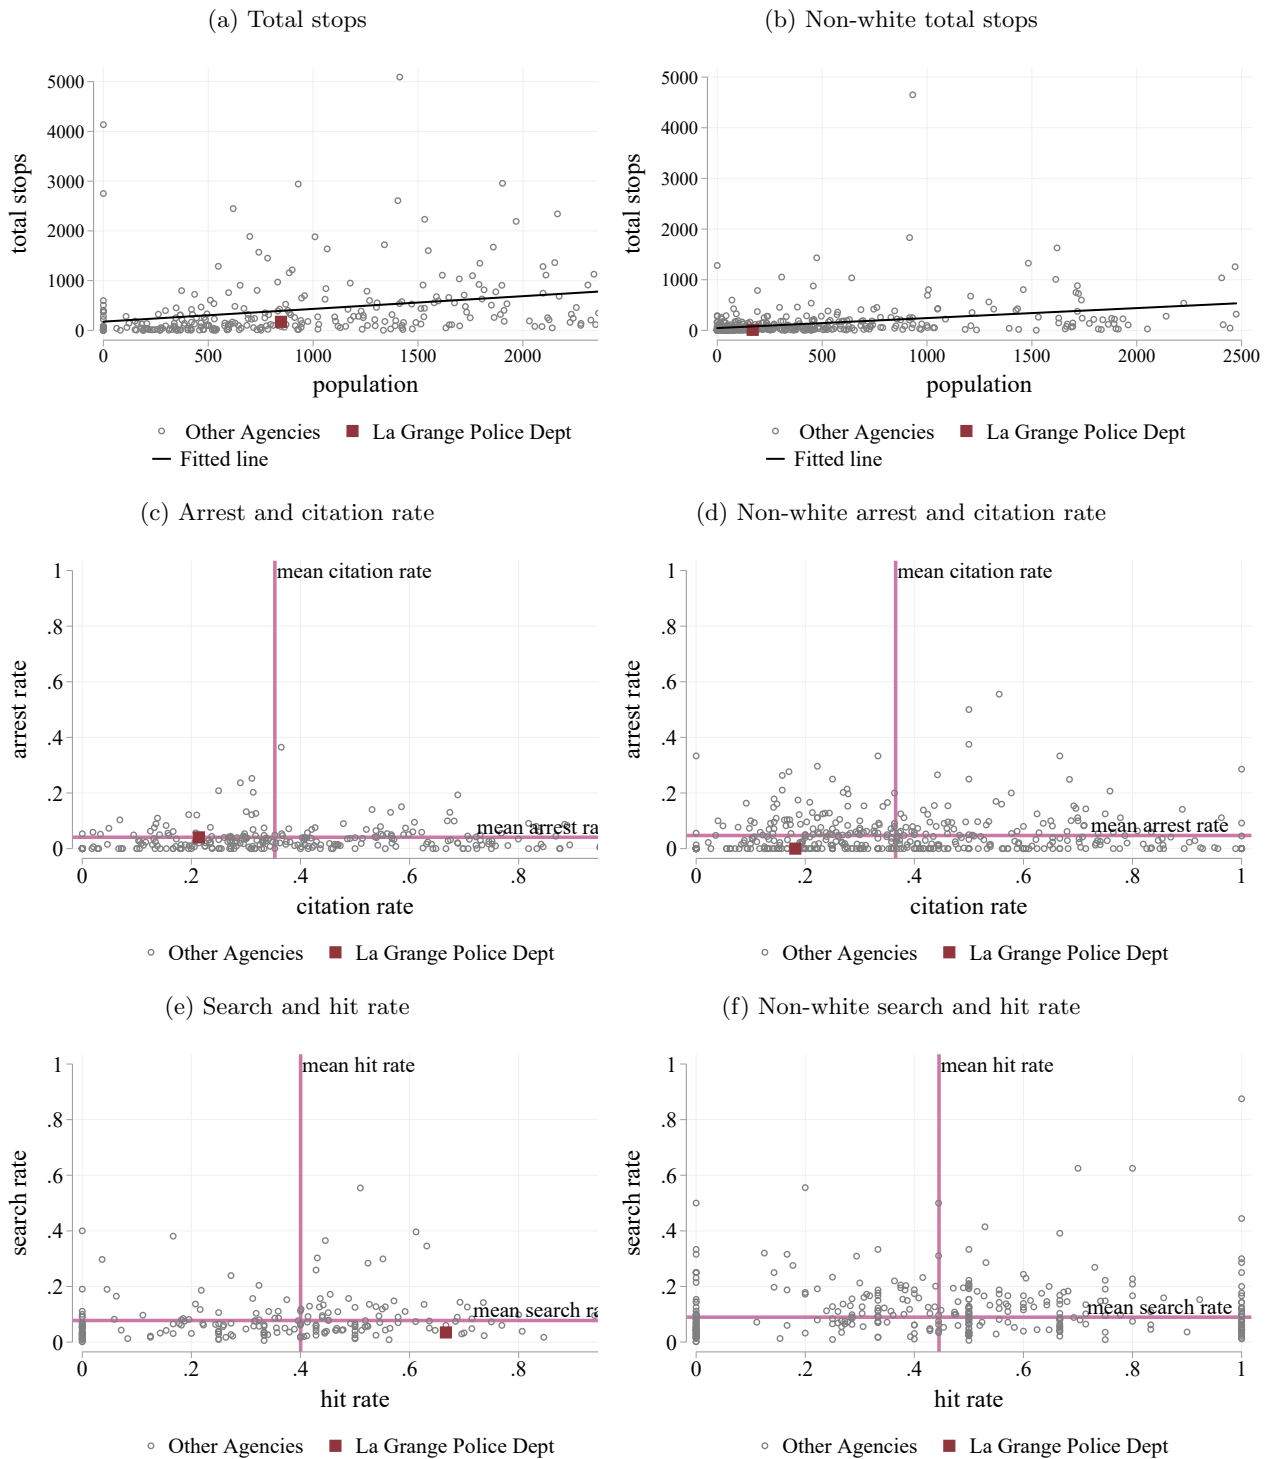

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for La Grange Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for La Grange Police Dept

<b>2019</b>	.99	7.74	.97	.	1.24	.32
<b>2020</b>	.9	29.05	.63	0	2.72	3.03

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for LaPlata Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Searches	167	151	7	5	1	2	1
Contraband	68	62	3	2	0	1	0
Arrests	31	28	0	3	0	0	0
Citations	89	81	4	4	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	4.1	4.07	19.77	4.98	1.29	4.8	.97
Stop rate, residents	2.99	3.08	6.98	1.96	.32	1.6	.16
Search rate	14.66	14.23	20.59	17.86	25	33.33	16.67
Contraband hit rate	40.72	41.06	42.86	40	0	50	0
Arrest rate	2.72	2.64	0	10.71	0	0	0
Citation rate	7.81	7.63	11.76	14.29	0	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

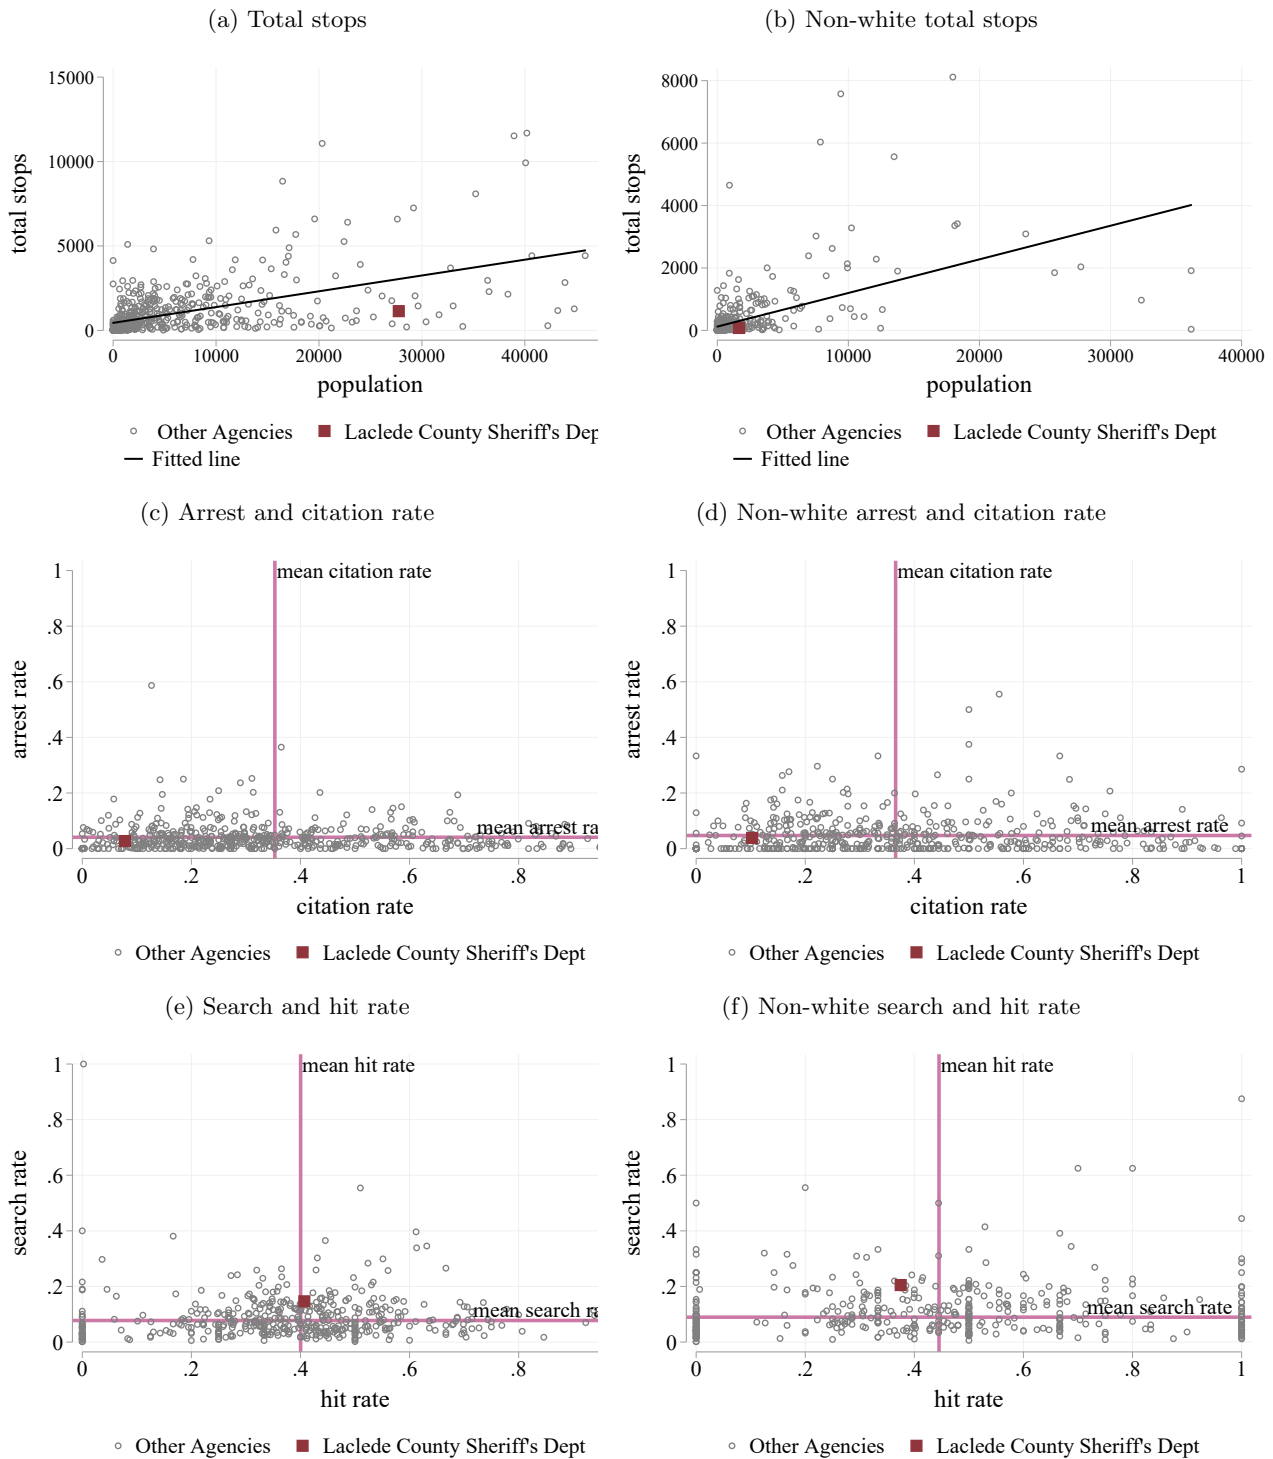

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Laclede County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Laclede County Sheriff's Dept

Figure 2: Disparity Index from 2000 to 2020 for Laddonia Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.258 Ladue Police Dept

Table 1: Rates by Race for Ladue Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	6705	5944	101	37	23	379	228
2019 population %	100	88.65	1.51	.55	.34	5.65	3.4
<b>Totals</b>	.	.	.	.	.	.	.
All stops	1818	1366	357	8	5	45	37
Resident stops	215	192	9	1	1	6	6
Searches	21	16	5	0	0	0	0
Contraband	9	7	2	0	0	0	0
Arrests	7	6	1	0	0	0	0
Citations	882	660	191	0	2	20	9
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	27.11	22.98	353.47	21.62	21.74	11.87	16.23
Stop rate, residents	3.21	3.23	8.91	2.7	4.35	1.58	2.63
Search rate	1.16	1.17	1.4	0	0	0	0
Contraband hit rate	42.86	43.75	40	.	.	.	.
Arrest rate	.39	.44	.28	0	0	0	0
Citation rate	48.51	48.32	53.5	0	40	44.44	24.32

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

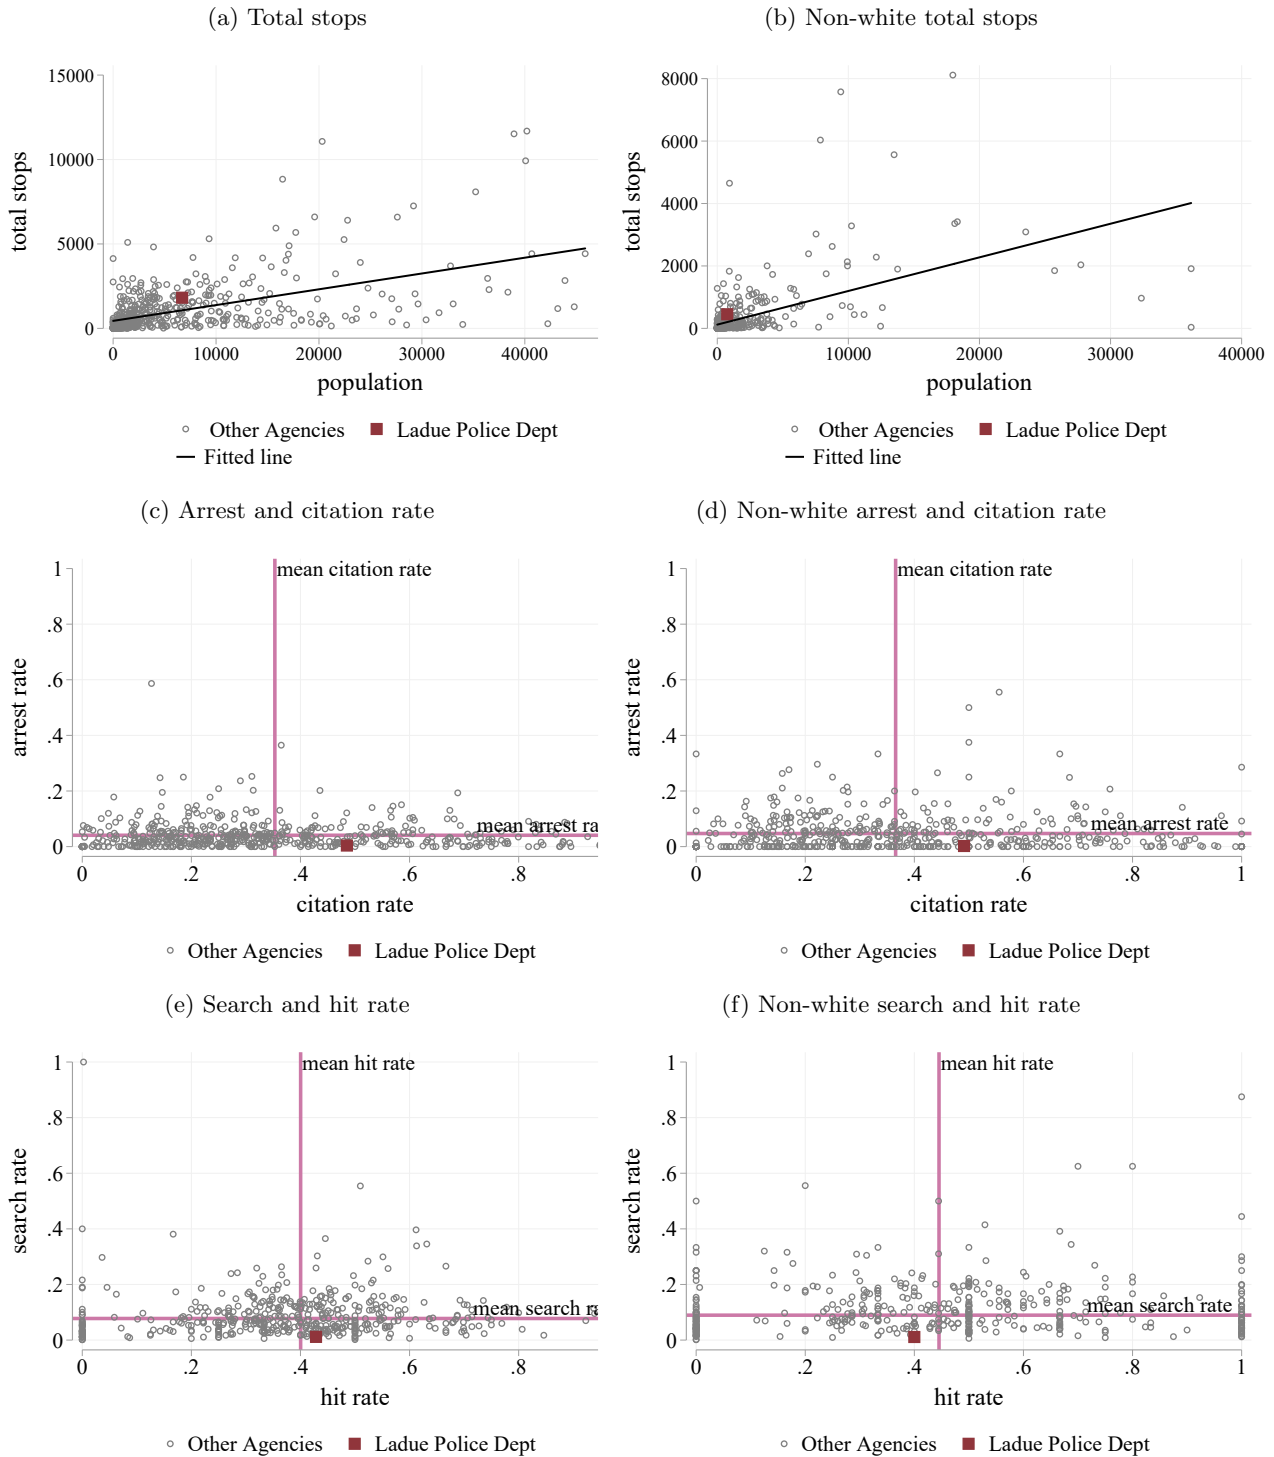

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Ladue Police Dept. provides service to the City of Ladue, which is a suburb of St. Louis and has Interstate 70 and US Highway 64/40 passing through their jurisdiction along with roads including Clayton, Ladue, Warson, and McKnight and nearby Lindbergh Boulevard. Retail, grocery stores, private and public schools, and a main St. Louis County Park are in the jurisdiction.

Figure 1: Comparison to other agencies by population for Ladue Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Ladue Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.

<b>2018</b>	.92	3.87	1.67	.41	.95	1.02
<b>2019</b>	.92	3.44	1.87	.75	1.46	.86
<b>2020</b>	.95	3.56	.92	.88	.75	.34

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Lafayette County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.260 Lake Lafayette Police Dept

Table 1: Rates by Race for Lake Lafayette Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	213	189	16	7	0	0	1
2019 population %	100	88.73	7.51	3.29	0	0	.47
<b>Totals</b>	.	.	.	.	.	.	.
All stops	21	17	4	0	0	0	0
Resident stops	6	5	1	0	0	0	0
Searches	4	4	0	0	0	0	0
Contraband	0	0	0	0	0	0	0
Arrests	1	1	0	0	0	0	0
Citations	7	5	2	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	9.86	8.99	25	0	.	.	0
Stop rate, residents	2.82	2.65	6.25	0	.	.	0
Search rate	19.05	23.53	0	.	.	.	.
Contraband hit rate	0	0	.	.	.	.	.
Arrest rate	4.76	5.88	0	.	.	.	.
Citation rate	33.33	29.41	50	.	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

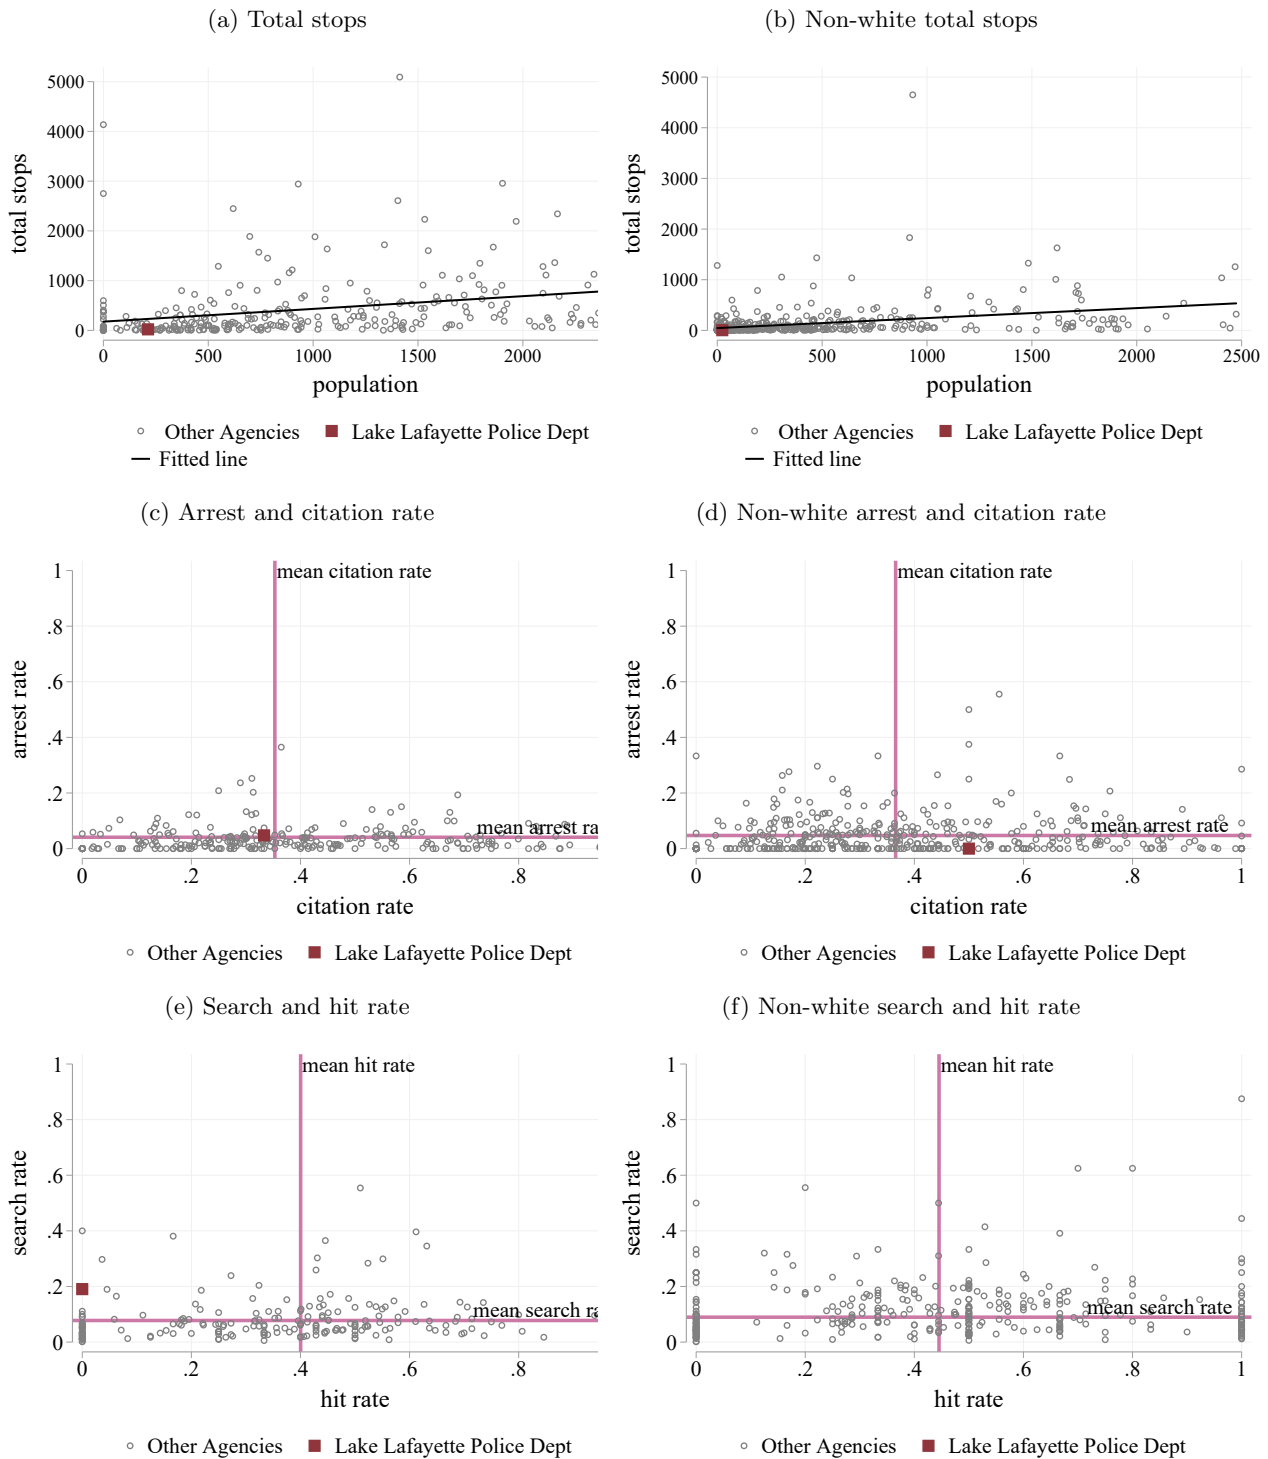

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Lake Lafayette is a small community with a part-time police department, which conducts very few stops.

Figure 1: Comparison to other agencies by population for Lake Lafayette Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Lake Lafayette Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	213	189	16	7	0	0	1

Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Lake Lotawana Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Contraband hit rate	41.25	40.43	56.25	0	.	.	.
Arrest rate	4.43	4.26	8.93	5.41	0	0	0
Citation rate	56.7	56.49	54.46	67.57	63.64	56.25	68.75

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

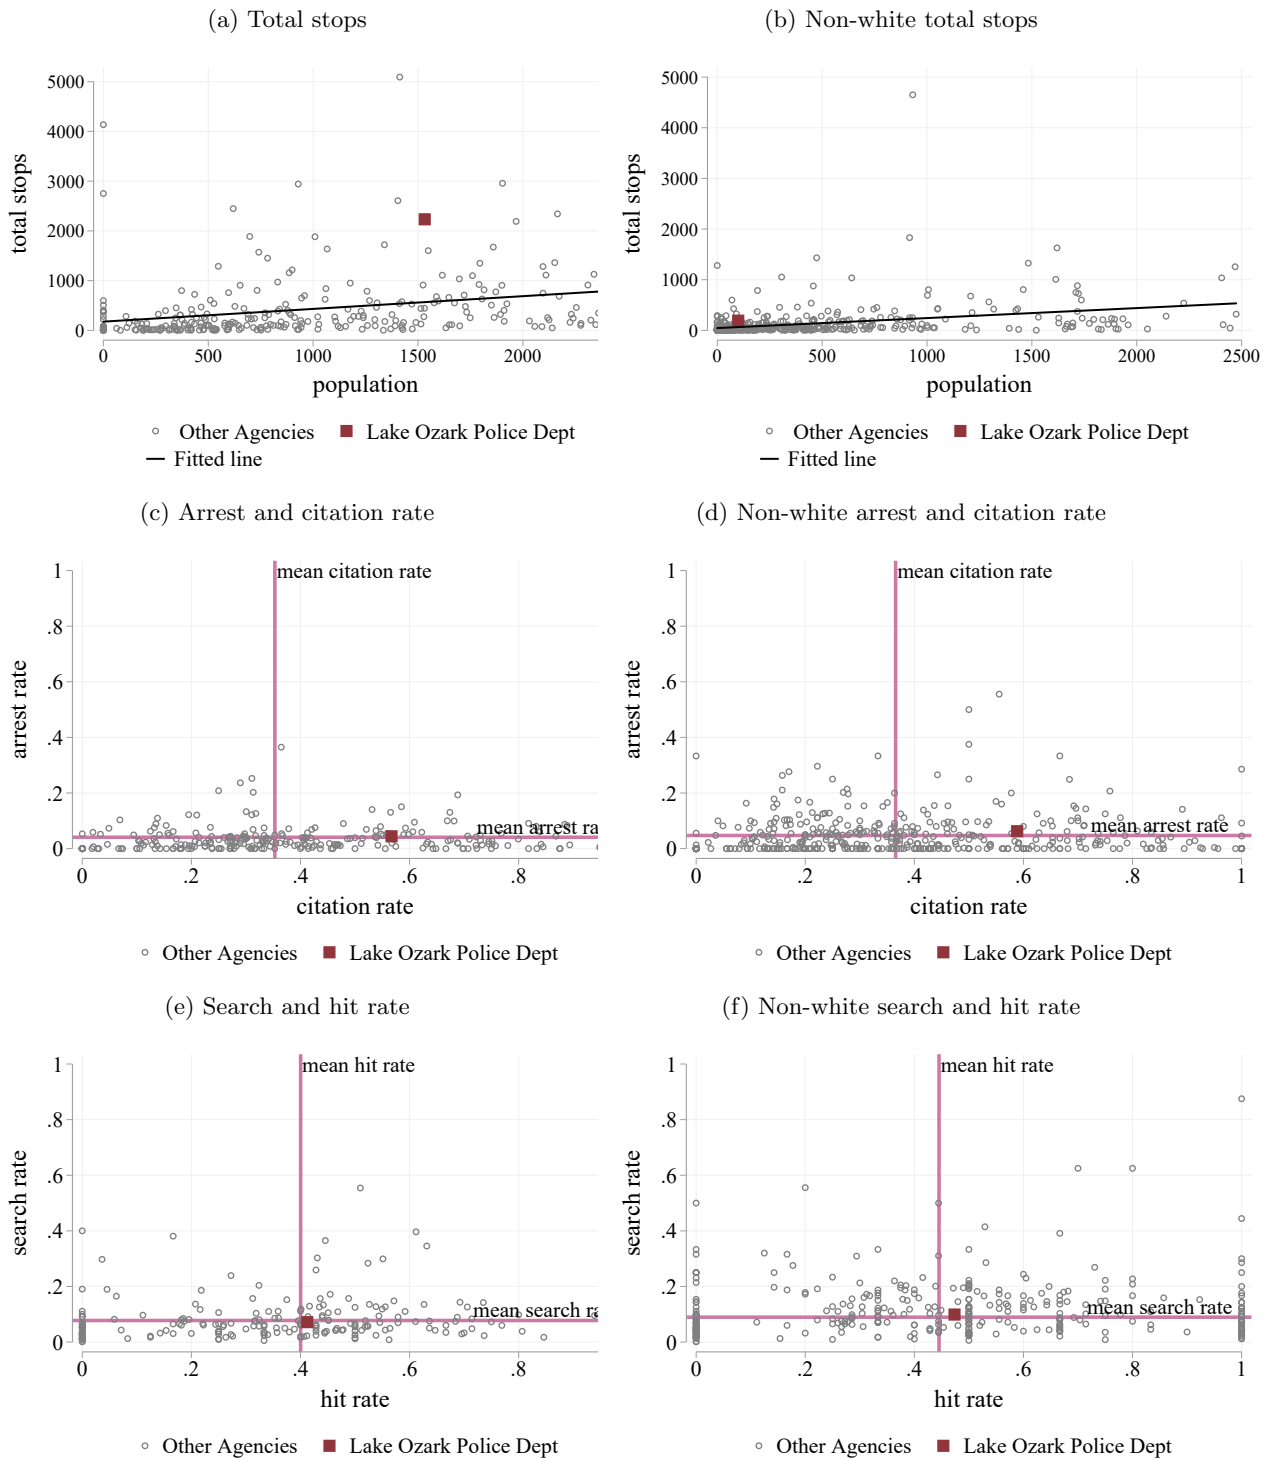

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Lake Ozark Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Lake Ozark Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>

<b>2017</b>	.92	3.34	.93	.12	.4	1.23
<b>2018</b>	.93	3.14	.86	.29	.48	.99
<b>2019</b>	.94	2.84	.64	.62	.54	1.29
<b>2020</b>	.94	6.1	.33	.15	.73	.27

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Lake St. Louis Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 1: Rates by Race for Lake Tapawingo Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	733	700	2	16	0	8	7
2019 population %	100	95.5	.27	2.18	0	1.09	.95
<b>Totals</b>	.	.	.	.	.	.	.
All stops	805	650	94	30	0	3	28
Resident stops	33	32	0	1	0	0	0
Searches	25	20	4	0	0	0	1
Contraband	5	4	0	0	0	0	1
Arrests	34	27	5	1	0	0	1
Citations	432	353	51	14	0	1	13
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	109.82	92.86	4700	187.5	.	37.5	400
Stop rate, residents	4.5	4.57	0	6.25	.	0	0
Search rate	3.11	3.08	4.26	0	.	0	3.57
Contraband hit rate	20	20	0	.	.	.	100
Arrest rate	4.22	4.15	5.32	3.33	.	0	3.57
Citation rate	53.66	54.31	54.26	46.67	.	33.33	46.43

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

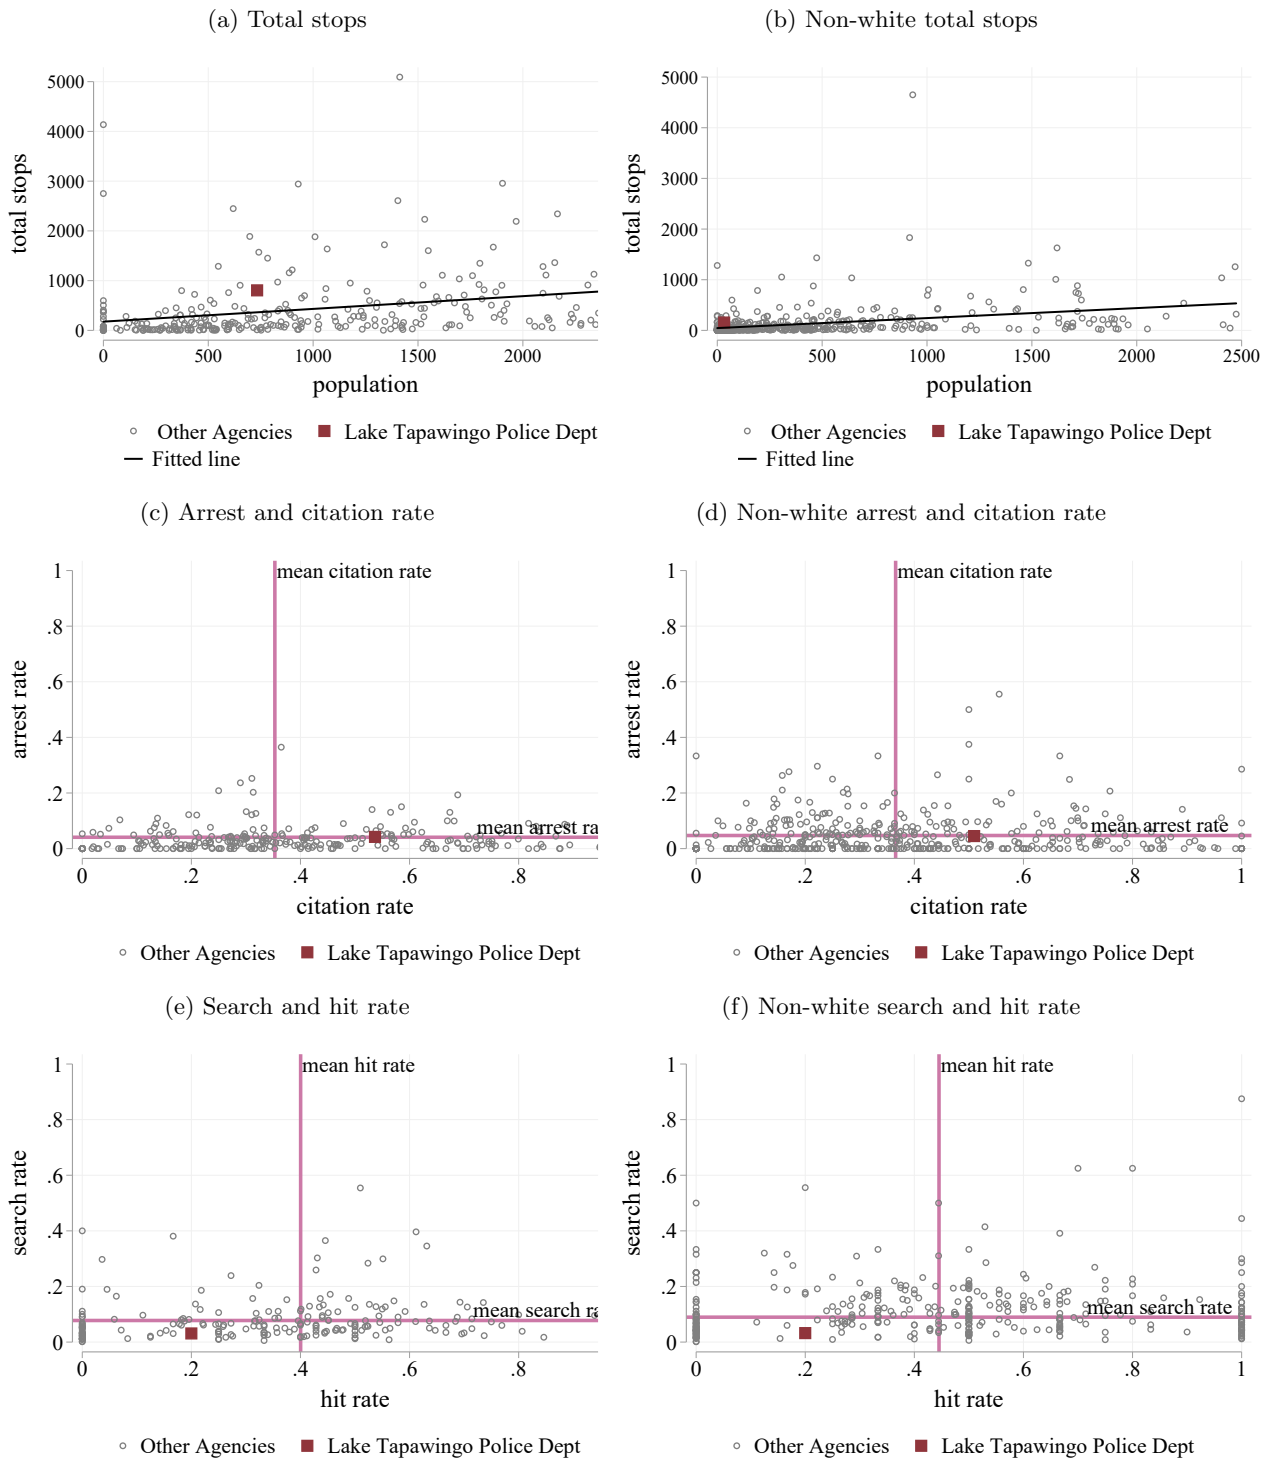

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Lake Tapawingo Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Lake Tapawingo Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.

<b>2016</b>	.9	32.97	1.05	.	1.35	4.44
<b>2017</b>	.93	28.1	1.4	.	.66	2.56
<b>2018</b>	.91	36.63	.98	.	.75	2.91
<b>2019</b>	.91	34.94	1.75	.	1.69	1.46
<b>2020</b>	.93	1.21	1.83	0	1.74	8.4

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Lake Winnebago Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.266 Lakeshire Police Dept

Table 1: Rates by Race for Lakeshire Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1259	1209	5	27	0	18	0
2019 population %	100	96.03	.4	2.14	0	1.43	0
<b>Totals</b>	.	.	.	.	.	.	.
All stops	99	89	5	1	0	2	2
Resident stops	10	10	0	0	0	0	0
Searches	1	0	0	1	0	0	0
Contraband	0	0	0	0	0	0	0
Arrests	1	0	0	1	0	0	0
Citations	75	68	4	1	0	1	1
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	7.86	7.36	100	3.7	.	11.11	.
Stop rate, residents	.79	.83	0	0	.	0	.
Search rate	1.01	0	0	100	.	0	0
Contraband hit rate	0	.	.	0	.	.	.
Arrest rate	1.01	0	0	100	.	0	0
Citation rate	75.76	76.4	80	100	.	50	50

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

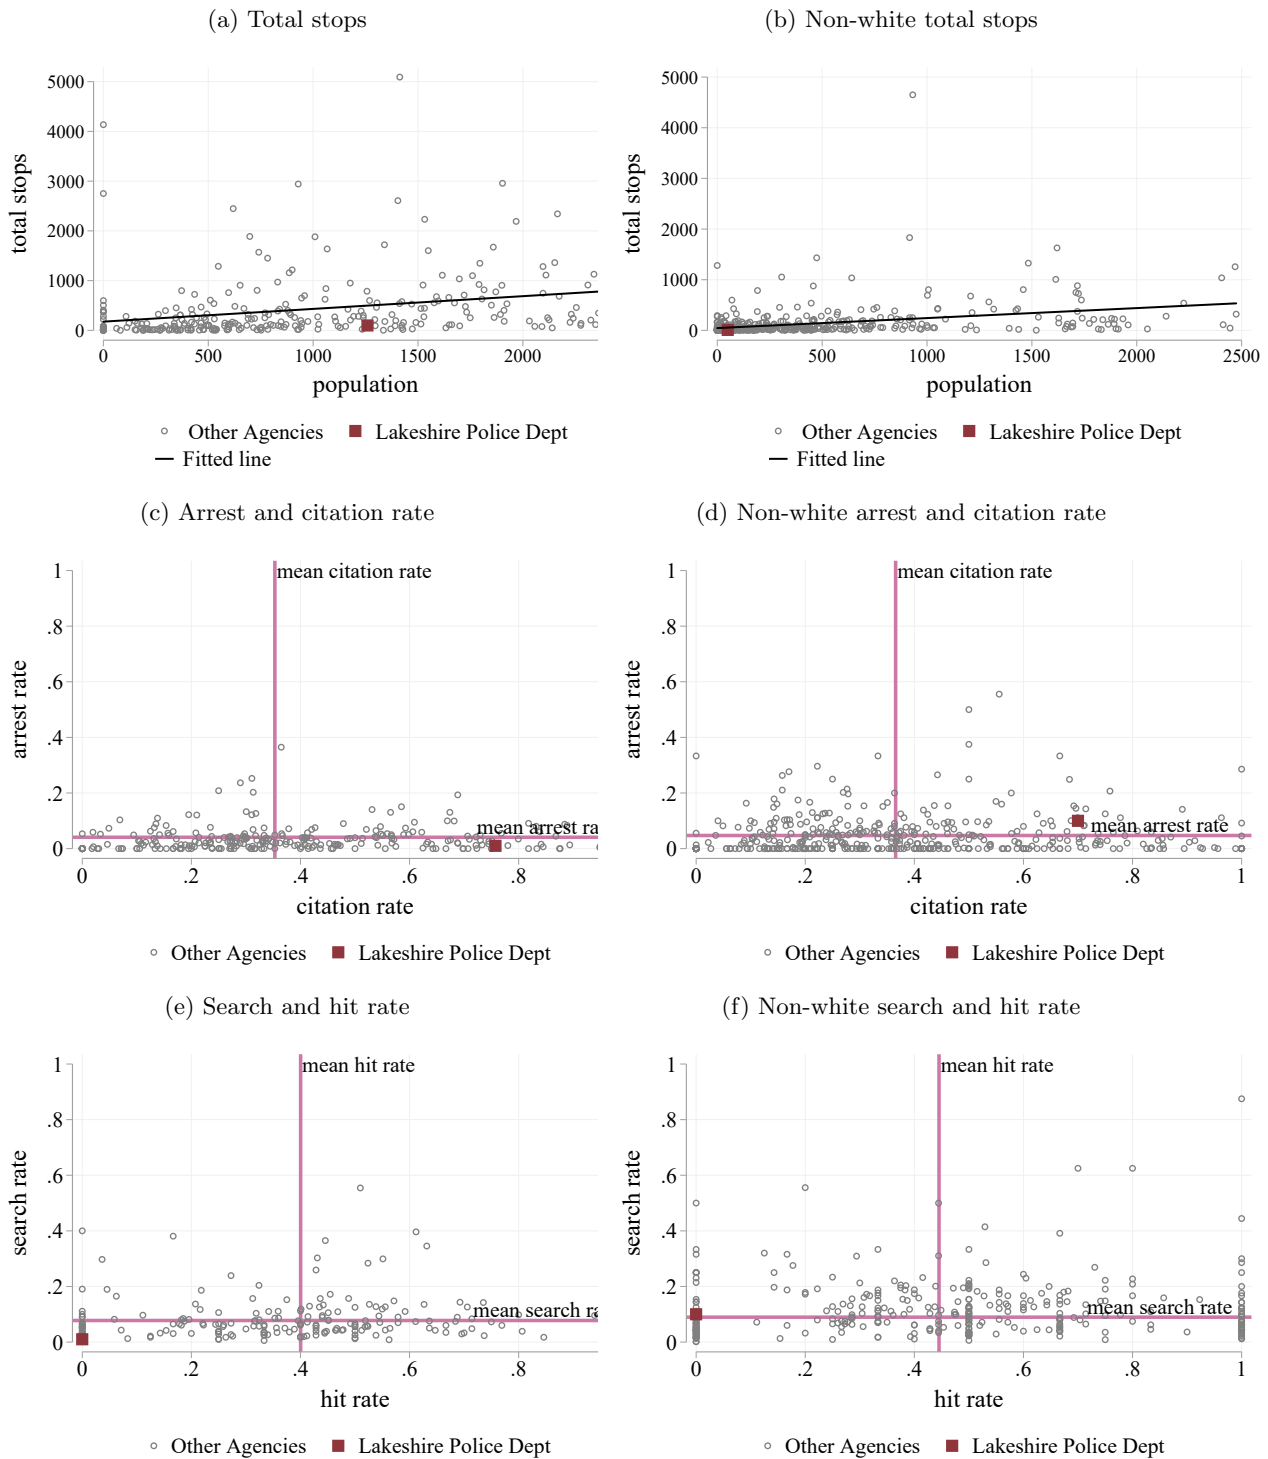

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Lakeshire Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Lakeshire Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1259	1209	5	27	0	18	0

<b>2018</b>	1	2.59	1.47	1	1.9	.11
<b>2019</b>	1.01	2.94	.78	.75	2.59	.11
<b>2020</b>	1.02	1.33	1.57	.	.	.03

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Lamar Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	.	.	.	.	.	.	.
Stop rate, residents	.	.	.	.	.	.	.
Search rate	3.01	1.45	4.48	20	0	11.11	0
Contraband hit rate	0	0	0	0	.	0	.
Arrest rate	1.37	.48	2.99	0	0	0	0
Citation rate	32.6	27.54	40.3	0	0	77.78	12.5

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

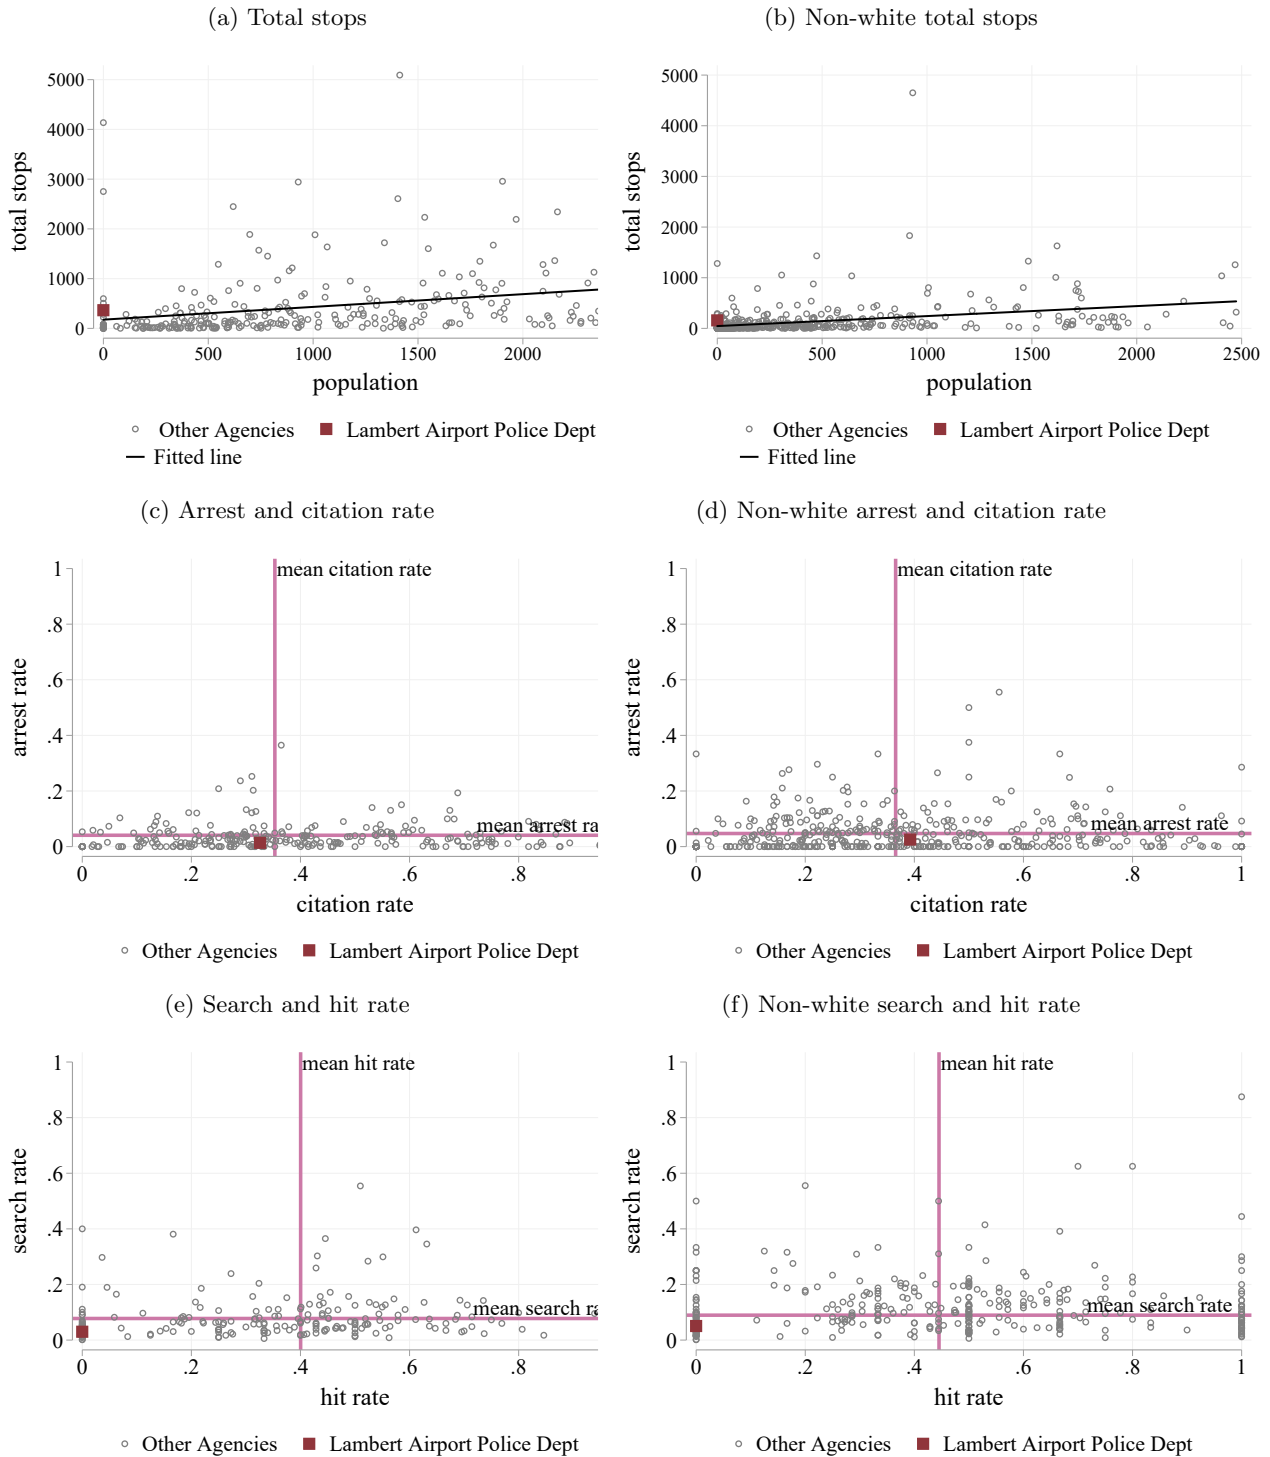

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Lambert Airport Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.270 Lathrop Police Dept

Table 1: Rates by Race for Lathrop Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1674	1551	33	31	9	14	39
2019 population %	100	92.65	1.97	1.85	.54	.84	2.33
<b>Totals</b>	.	.	.	.	.	.	.
All stops	552	536	10	4	0	2	0
Resident stops	324	322	1	1	0	0	0
Searches	36	33	2	1	0	0	0
Contraband	6	5	1	0	0	0	0
Arrests	15	14	0	1	0	0	0
Citations	186	181	5	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	32.97	34.56	30.3	12.9	0	14.29	0
Stop rate, residents	19.35	20.76	3.03	3.23	0	0	0
Search rate	6.52	6.16	20	25	.	0	.
Contraband hit rate	16.67	15.15	50	0	.	.	.
Arrest rate	2.72	2.61	0	25	.	0	.
Citation rate	33.7	33.77	50	0	.	0	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

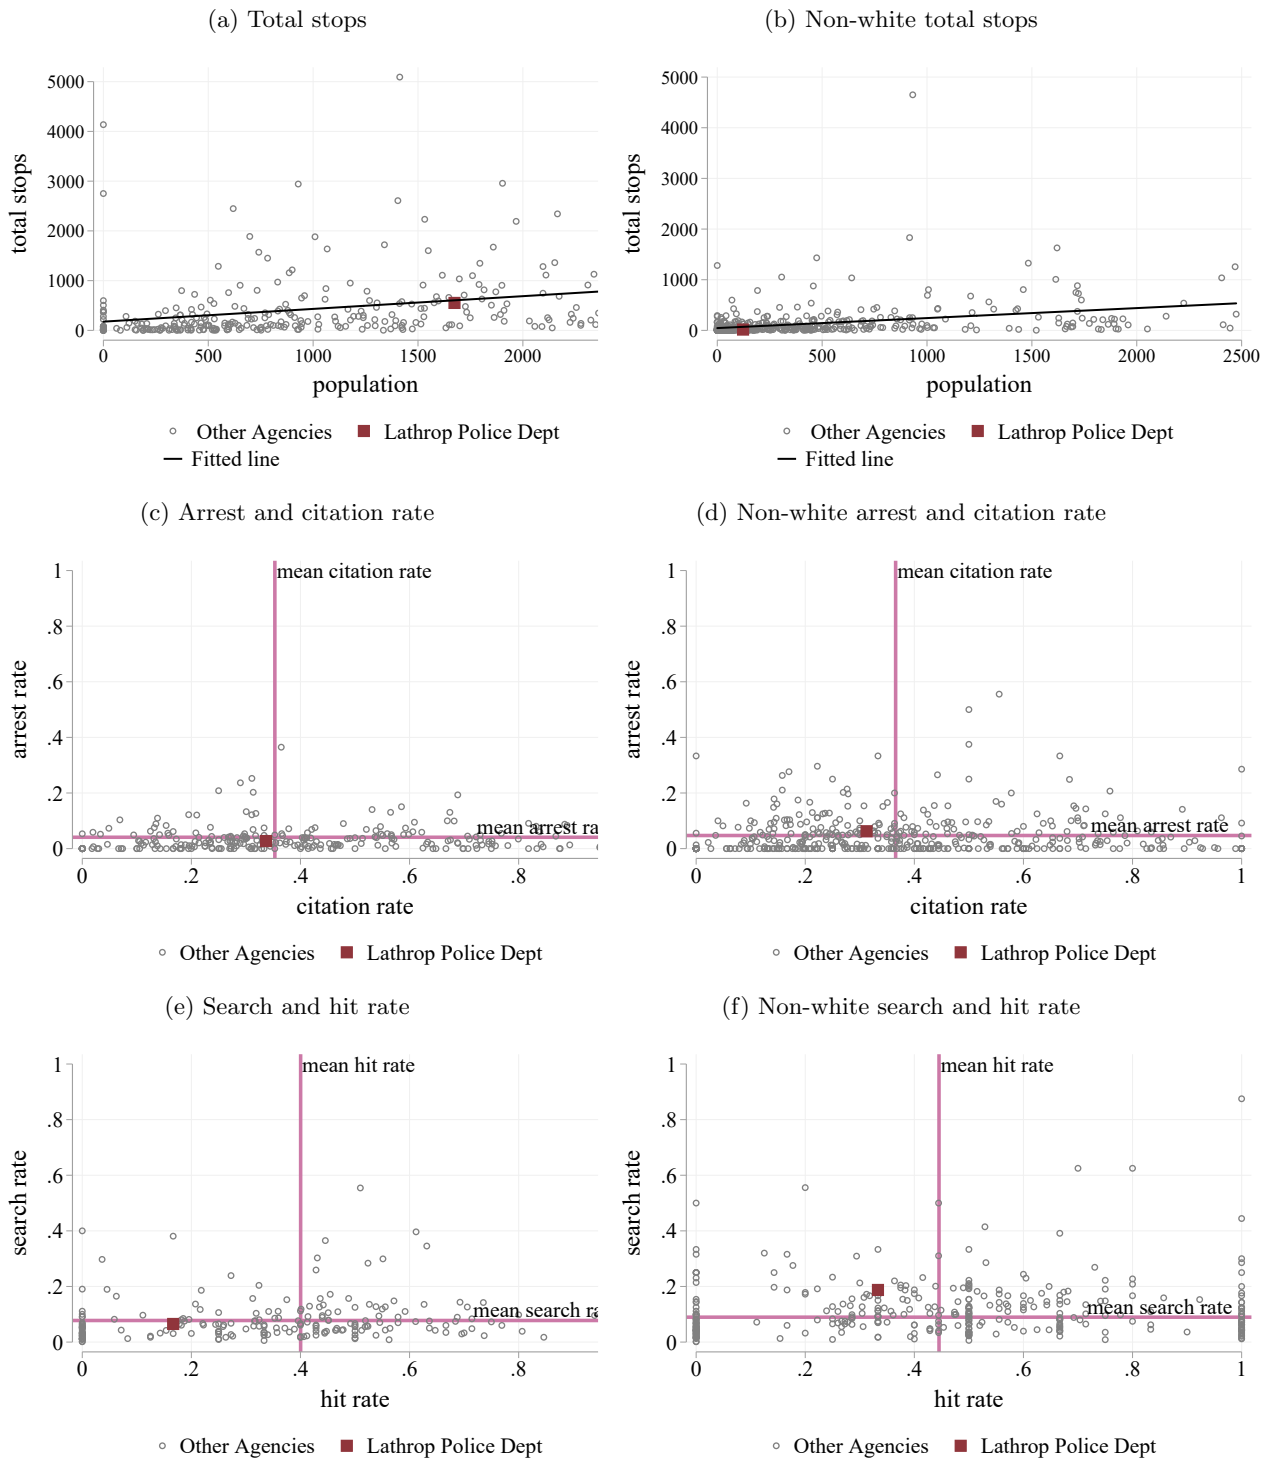

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Lathrop Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Lathrop Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.

## 1.272 Lawrence County Sheriff's Dept

Table 1: Rates by Race for Lawrence County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	29627	27064	94	1729	249	14	849
2019 population %	100	91.35	.32	5.84	.84	.05	2.87
<b>Totals</b>	.	.	.	.	.	.	.
All stops	1447	1307	24	90	0	13	13
Resident stops	858	791	10	50	0	2	5
Searches	44	40	1	3	0	0	0
Contraband	22	19	1	2	0	0	0
Arrests	40	36	1	3	0	0	0
Citations	84	70	1	12	0	0	1
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	4.88	4.83	25.53	5.21	0	92.86	1.53
Stop rate, residents	2.9	2.92	10.64	2.89	0	14.29	.59
Search rate	3.04	3.06	4.17	3.33	.	0	0
Contraband hit rate	50	47.5	100	66.67	.	.	.
Arrest rate	2.76	2.75	4.17	3.33	.	0	0
Citation rate	5.81	5.36	4.17	13.33	.	0	7.69

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

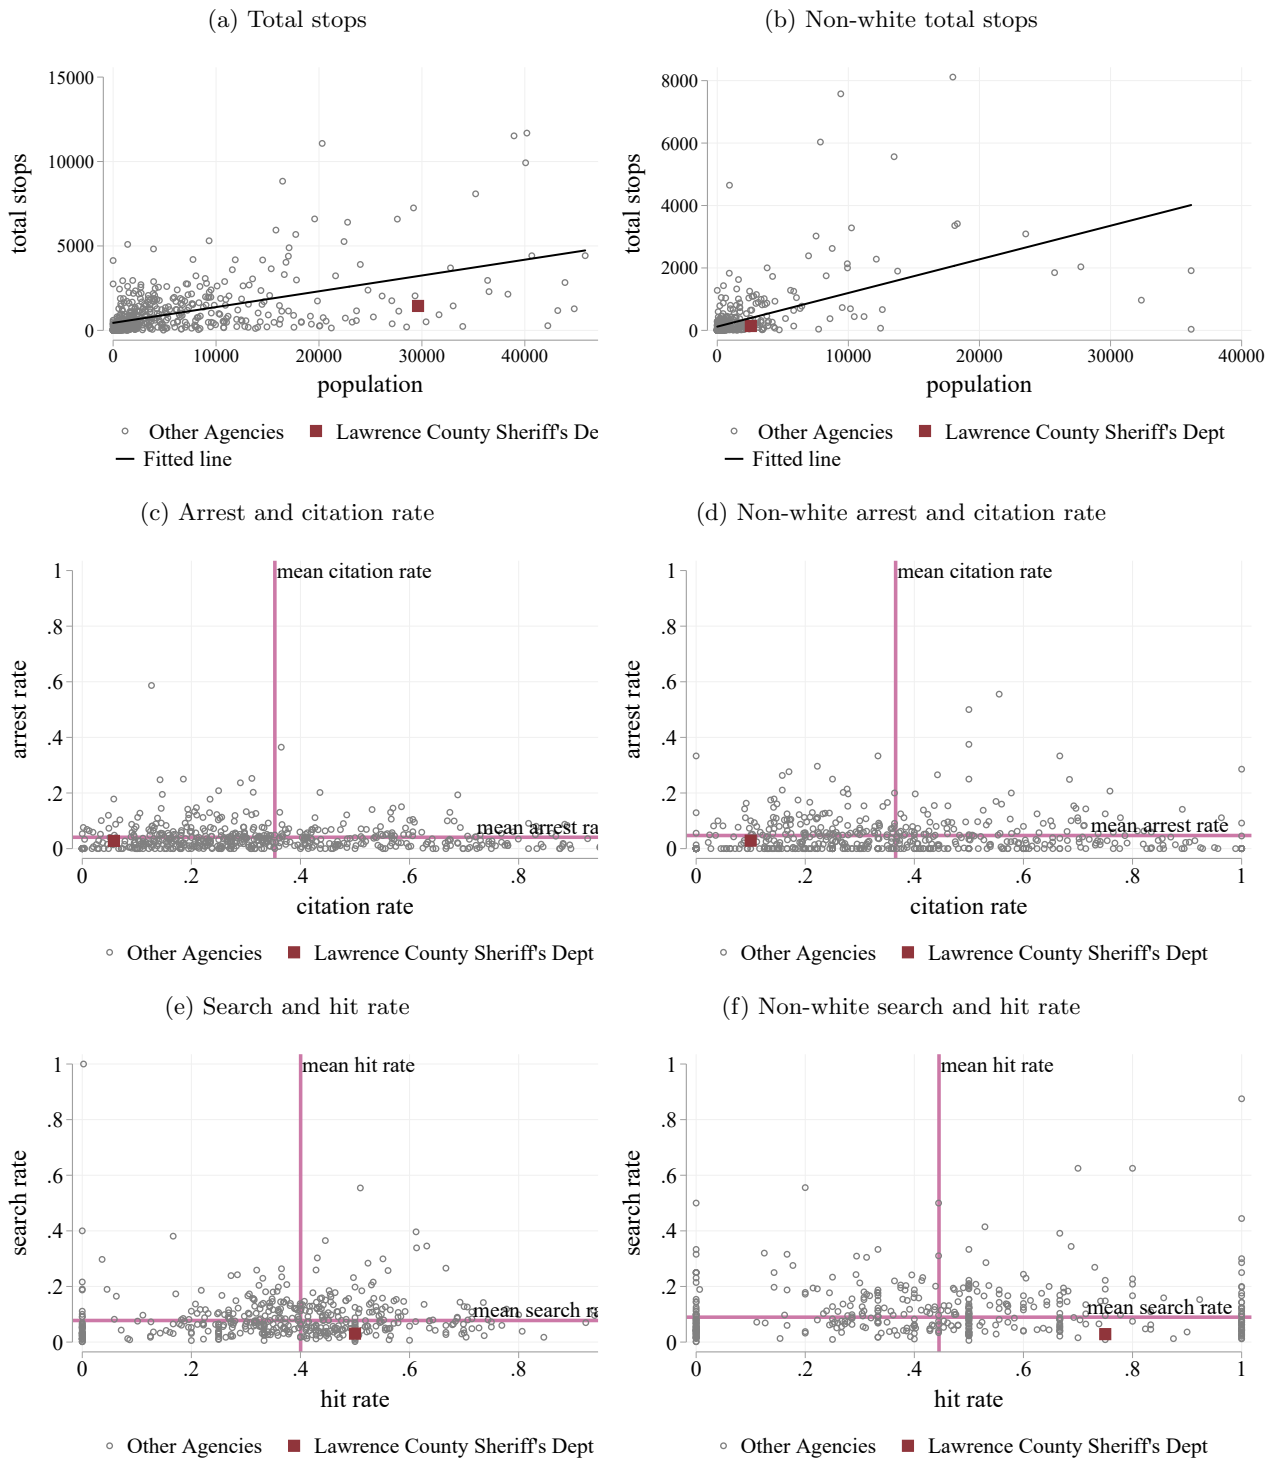

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Lawrence County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Lawrence County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	29627	27064	94	1729	249	14	849
2019 population %	100	91.35	.32	5.84	.84	.05	2.87
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1447	1307	24	90	0	13	13
Resident stops	858	791	10	50	0	2	5
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.989	5.228	1.066	0	19.012	.314
Resident stops	.	1.009	3.673	.999	0	4.933	.203

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

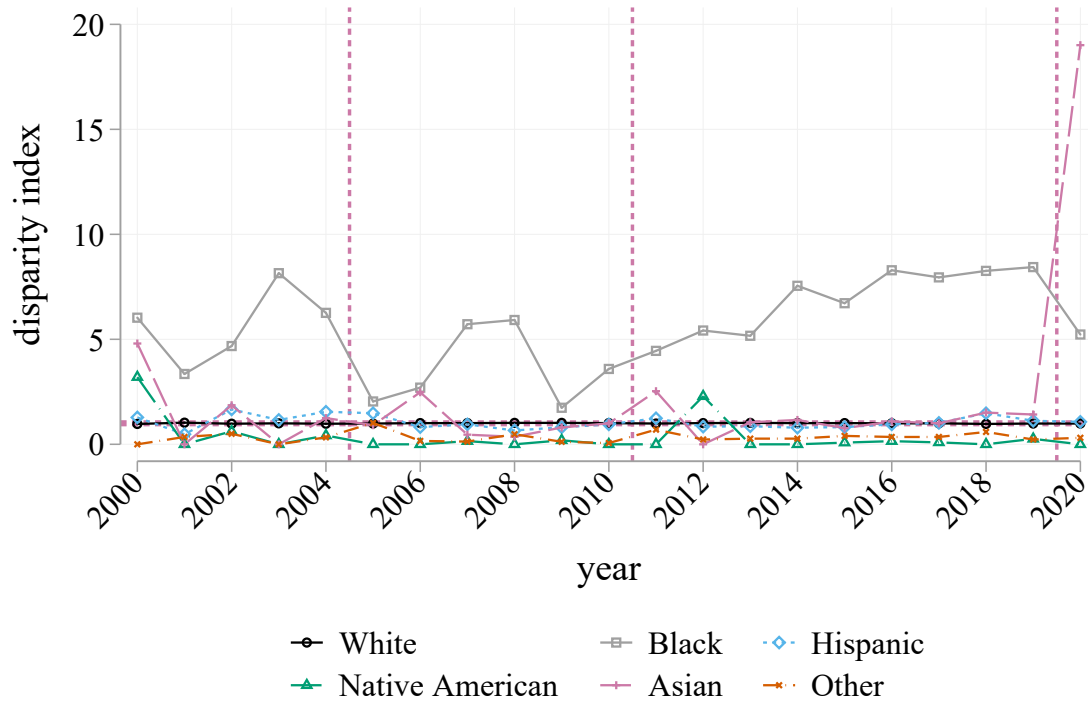

Table 3: Disparity Index from 2000 to 2020 for Lawrence County Sheriff's Dept

## 1.274 Leadington Police Dept

Table 1: Rates by Race for Leadington Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	466	449	5	6	0	0	6
2019 population %	100	96.35	1.07	1.29	0	0	1.29
<b>Totals</b>	.	.	.	.	.	.	.
All stops	469	446	16	6	1	0	0
Resident stops	26	10	10	6	0	0	0
Searches	33	32	1	0	0	0	0
Contraband	18	17	1	0	0	0	0
Arrests	95	94	0	1	0	0	0
Citations	147	141	4	1	1	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	100.64	99.33	320	100	.	.	0
Stop rate, residents	5.58	2.23	200	100	.	.	0
Search rate	7.04	7.17	6.25	0	0	.	.
Contraband hit rate	54.55	53.13	100	.	.	.	.
Arrest rate	20.26	21.08	0	16.67	0	.	.
Citation rate	31.34	31.61	25	16.67	100	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

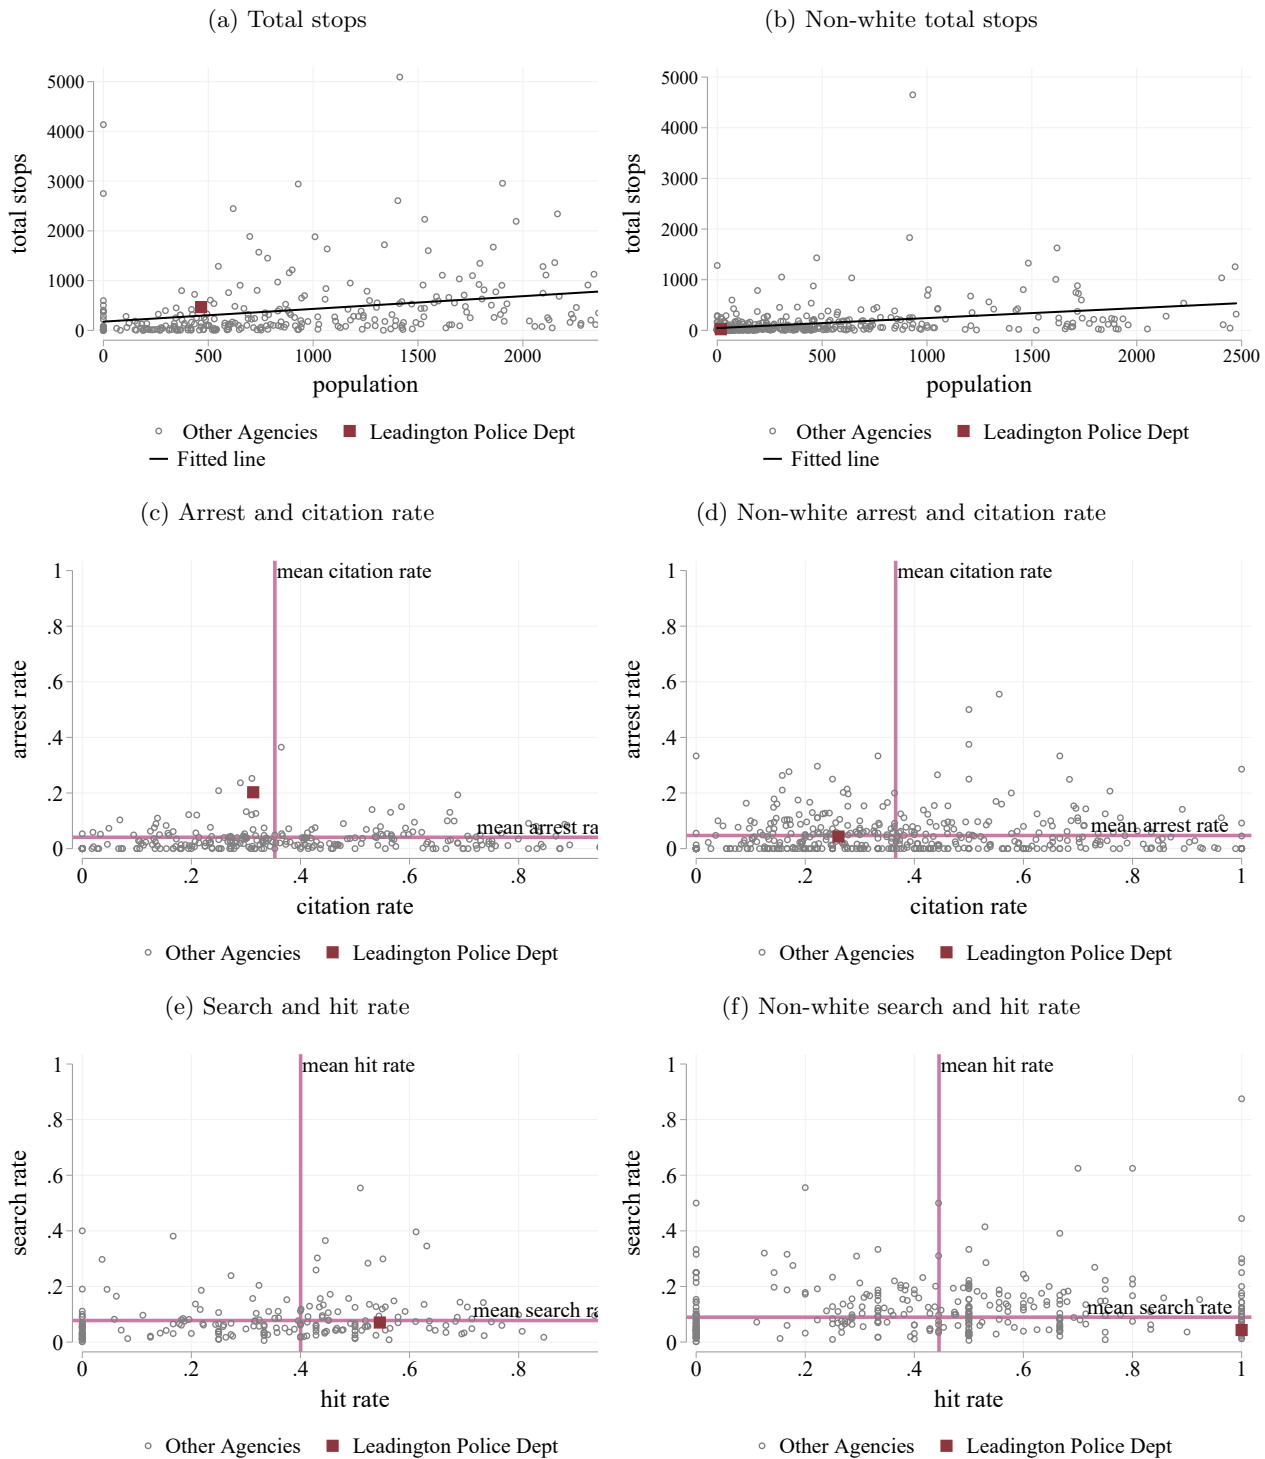

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Leadington Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Leadington Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	466	449	5	6	0	0	6
2019 population %	100	96.35	1.07	1.29	0	0	1.29
<b>Stops</b>	.	.	.	.	.	.	.
All stops	469	446	16	6	1	0	0
Resident stops	26	10	10	6	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.987	3.18	.994	.	.	0
Resident stops	.	.399	35.846	17.923	.	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Leadington Police Dept

<b>2011</b>	1.01	11.34	.46	0	.73	0
<b>2012</b>	1.01	10.58	.75	.78	0	0
<b>2013</b>	1.01	7.3	.3	.73	.55	.51
<b>2014</b>	1.01	10.86	.47	0	.65	.04
<b>2015</b>	1.03	5.31	.44	0	1.33	.13
<b>2016</b>	1.02	10.27	.16	0	.16	.12
<b>2017</b>	1.02	9.92	.18	.22	1.08	.06
<b>2018</b>	.	.	.	.	.	.
<b>2019</b>	1	12.53	.46	.61	.15	.24
<b>2020</b>	.99	3.18	.99	.	.	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Leadington Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.276 Lebanon Police Dept

Table 1: Rates by Race for Lebanon Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	11171	10135	166	384	58	75	429
2019 population %	100	90.73	1.49	3.44	.52	.67	3.84
<b>Totals</b>	.	.	.	.	.	.	.
All stops	837	786	28	10	4	6	3
Resident stops	466	442	17	4	0	3	0
Searches	136	133	2	1	0	0	0
Contraband	62	60	1	1	0	0	0
Arrests	1	1	0	0	0	0	0
Citations	179	171	5	3	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	7.49	7.76	16.87	2.6	6.9	8	.7
Stop rate, residents	4.17	4.36	10.24	1.04	0	4	0
Search rate	16.25	16.92	7.14	10	0	0	0
Contraband hit rate	45.59	45.11	50	100	.	.	.
Arrest rate	.12	.13	0	0	0	0	0
Citation rate	21.39	21.76	17.86	30	0	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

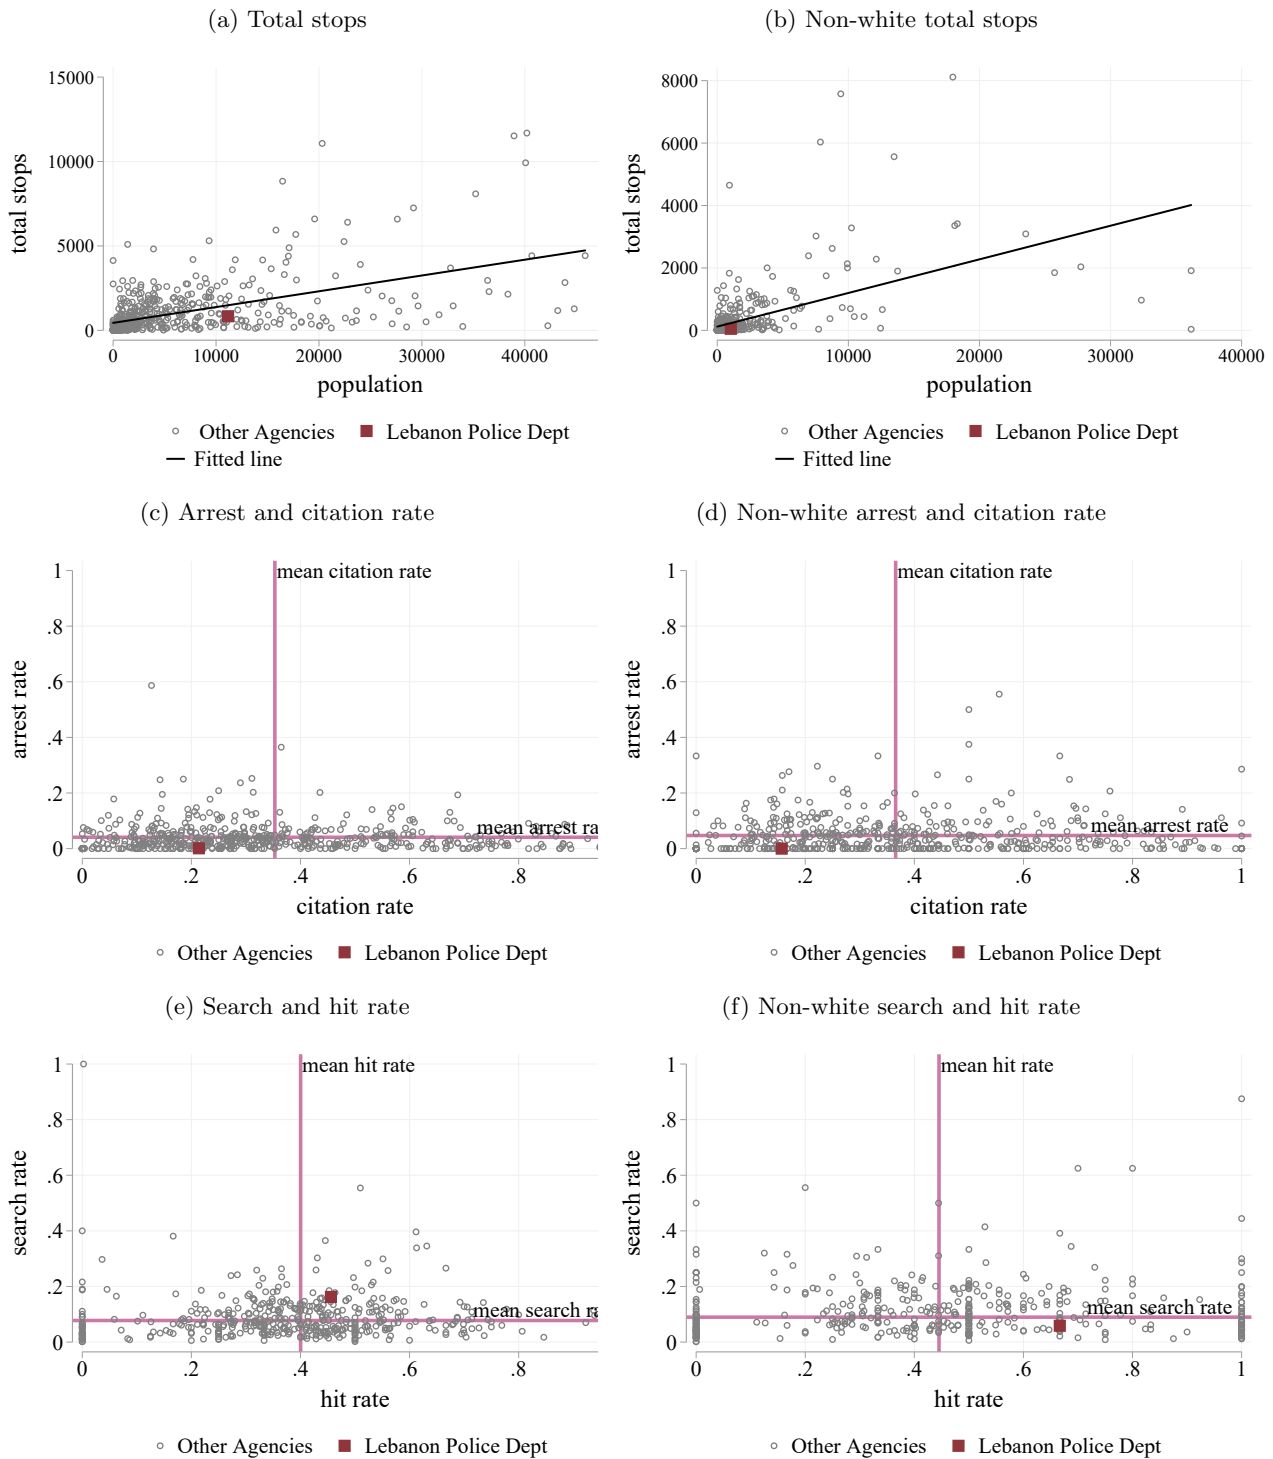

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Lebanon Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Lebanon Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	11171	10135	166	384	58	75	429
2019 population %	100	90.73	1.49	3.44	.52	.67	3.84
<b>Stops</b>	.	.	.	.	.	.	.
All stops	837	786	28	10	4	6	3
Resident stops	466	442	17	4	0	3	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.035	2.251	.348	.92	1.068	.093
Resident stops	.	1.045	2.455	.25	0	.959	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

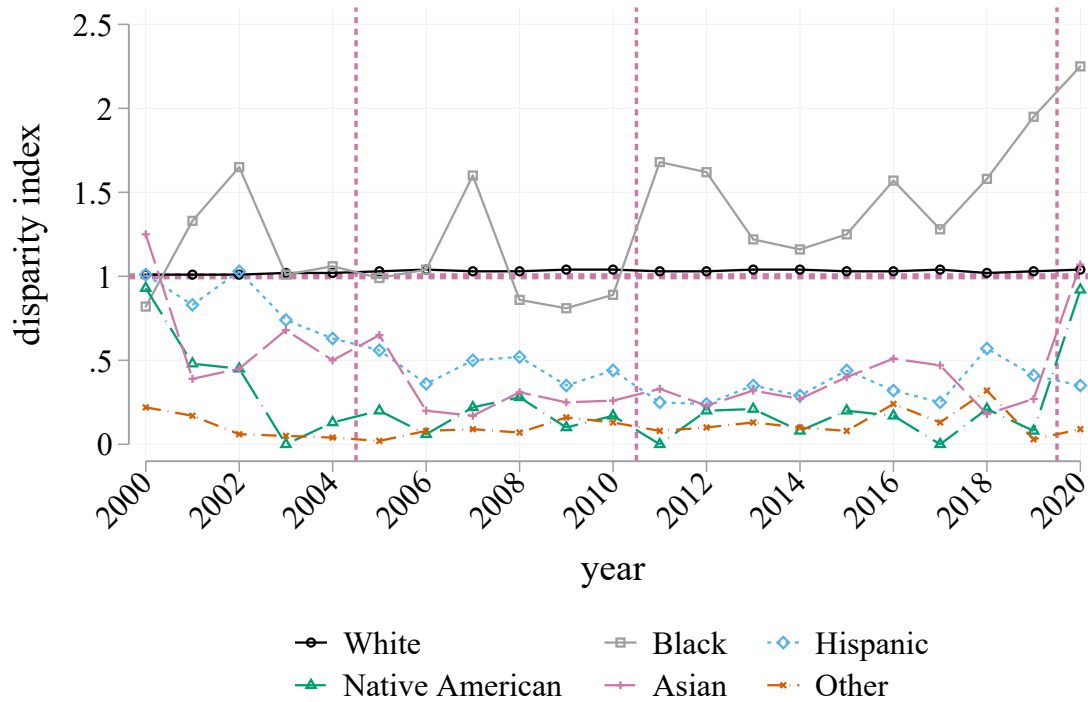

Table 3: Disparity Index from 2000 to 2020 for Lebanon Police Dept

## 1.278 Leeton Police Dept

Table 1: Rates by Race for Leeton Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	366	339	0	10	0	0	17
2019 population %	100	92.62	0	2.73	0	0	4.64
<b>Totals</b>	.	.	.	.	.	.	.
All stops	307	307	0	0	0	0	0
Resident stops	287	287	0	0	0	0	0
Searches	11	11	0	0	0	0	0
Contraband	0	0	0	0	0	0	0
Arrests	112	112	0	0	0	0	0
Citations	112	112	0	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	83.88	90.56	.	0	.	.	0
Stop rate, residents	78.42	84.66	.	0	.	.	0
Search rate	3.58	3.58	.	.	.	.	.
Contraband hit rate	0	0	.	.	.	.	.
Arrest rate	36.48	36.48	.	.	.	.	.
Citation rate	36.48	36.48	.	.	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

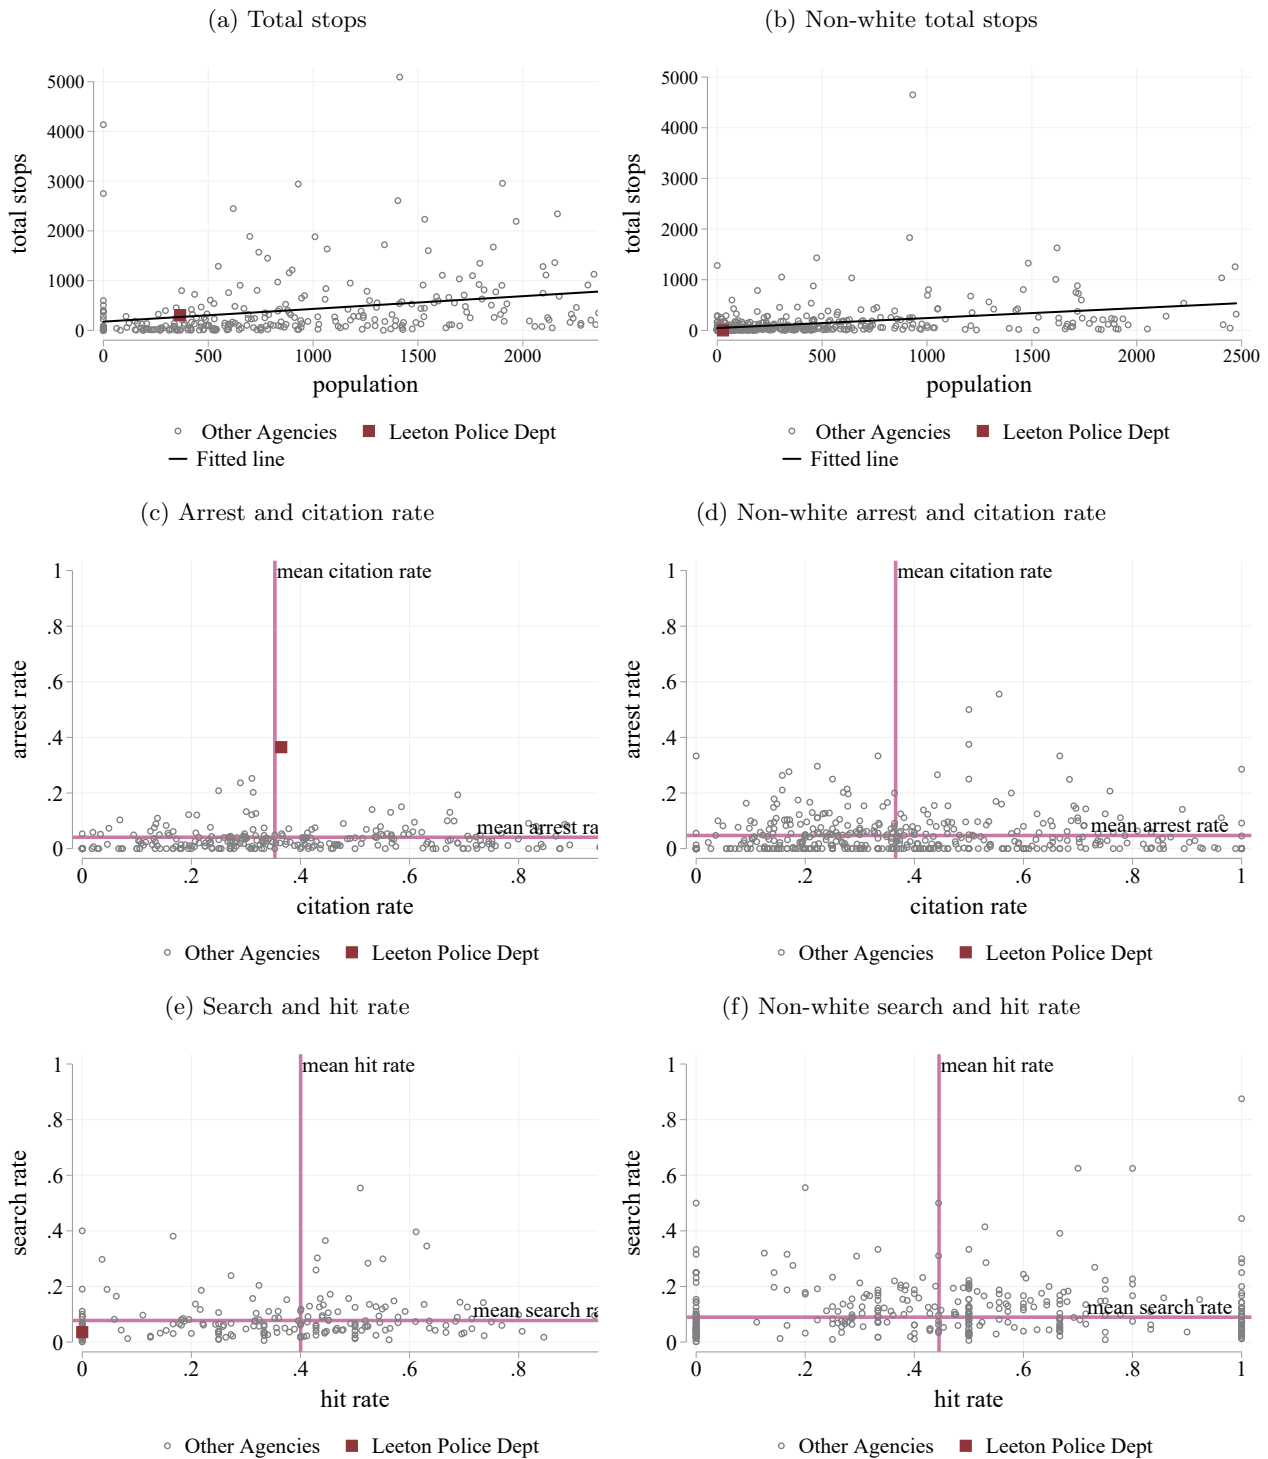

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Leeton Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Leeton Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	366	339	0	10	0	0	17
2019 population %	100	92.62	0	2.73	0	0	4.64
<b>Stops</b>	.	.	.	.	.	.	.
All stops	307	307	0	0	0	0	0
Resident stops	287	287	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.08	.	0	.	.	0
Resident stops	.	1.08	.	0	.	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Leeton Police Dept

## 1.280 Lexington Police Dept

Table 1: Rates by Race for Lexington Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	3779	3399	168	107	4	46	84
2019 population %	100	89.94	4.45	2.83	.11	1.22	2.22
<b>Totals</b>	.	.	.	.	.	.	.
All stops	734	649	53	25	0	4	3
Resident stops	547	476	45	22	0	2	2
Searches	85	68	9	6	0	0	2
Contraband	48	37	6	3	0	0	2
Arrests	17	16	1	0	0	0	0
Citations	115	102	8	2	0	1	2
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	19.42	19.09	31.55	23.36	0	8.7	3.57
Stop rate, residents	14.47	14	26.79	20.56	0	4.35	2.38
Search rate	11.58	10.48	16.98	24	.	0	66.67
Contraband hit rate	56.47	54.41	66.67	50	.	.	100
Arrest rate	2.32	2.47	1.89	0	.	0	0
Citation rate	15.67	15.72	15.09	8	.	25	66.67

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

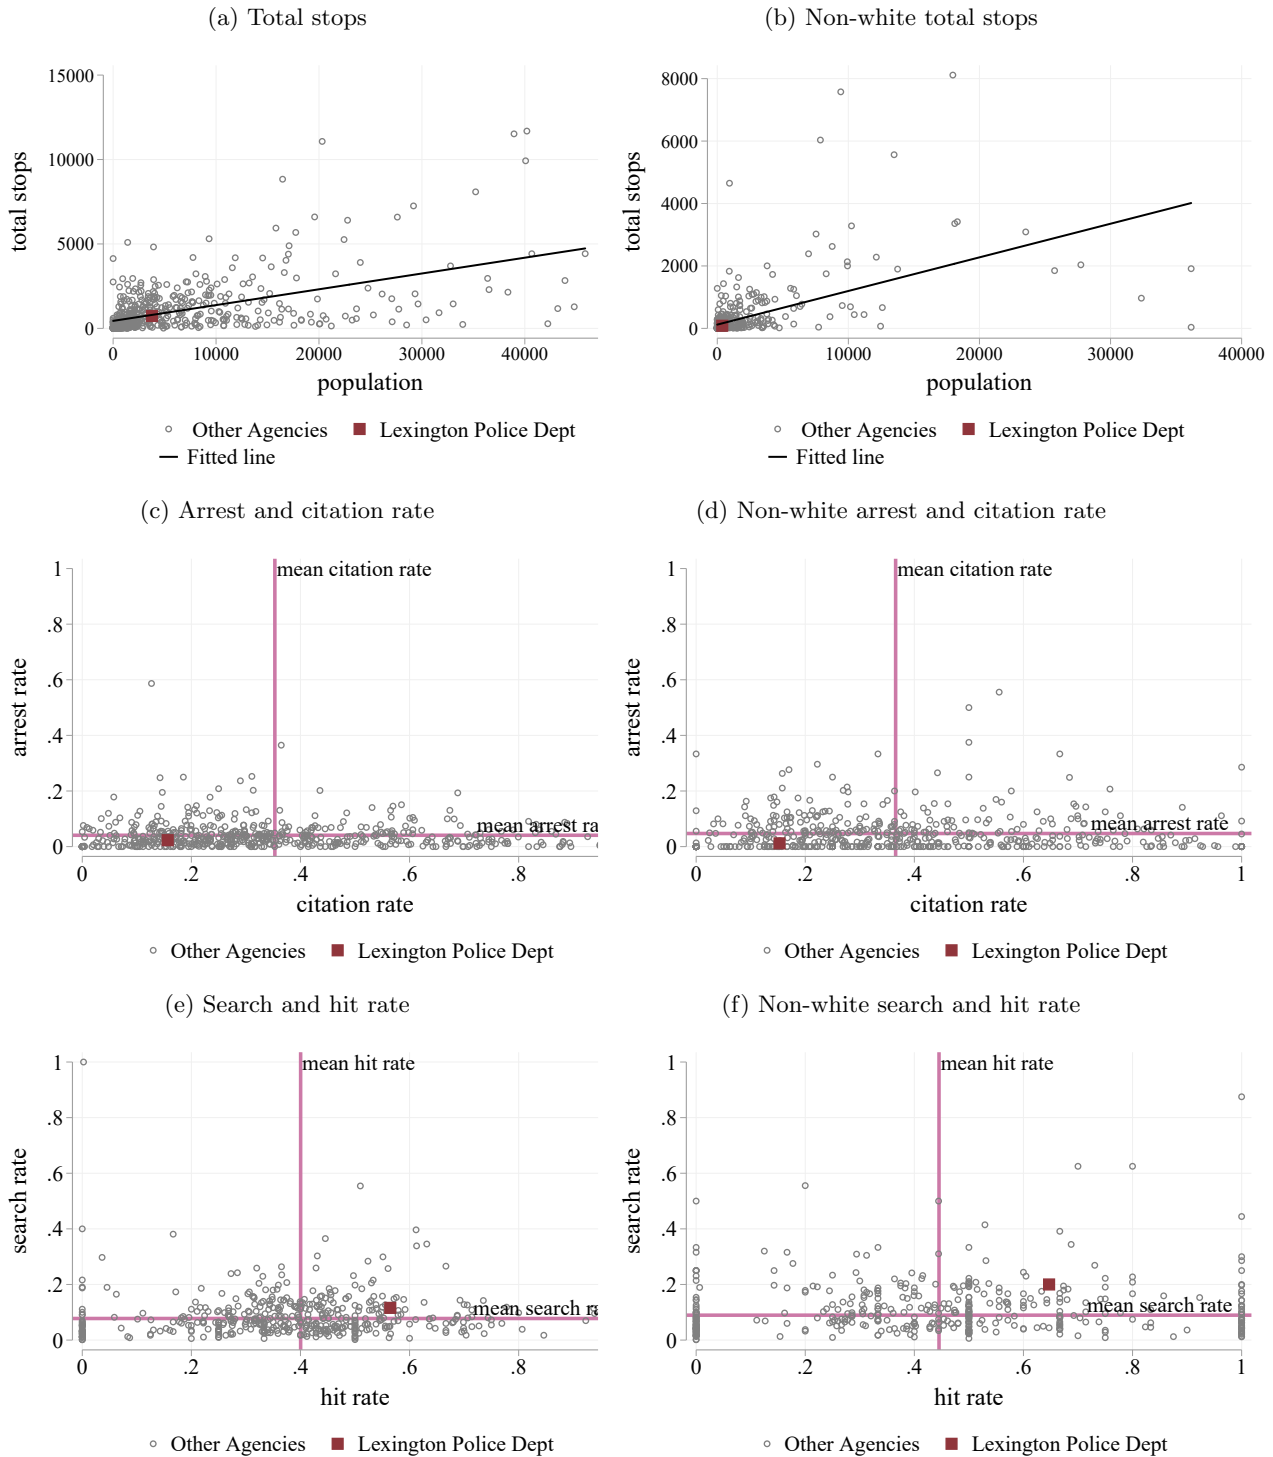

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Lexington Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Lexington Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	3779	3399	168	107	4	46	84
2019 population %	100	89.94	4.45	2.83	.11	1.22	2.22
<b>Stops</b>	.	.	.	.	.	.	.
All stops	734	649	53	25	0	4	3
Resident stops	547	476	45	22	0	2	2
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.983	1.624	1.203	0	.448	.184
Resident stops	.	.967	1.851	1.42	0	.3	.164

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

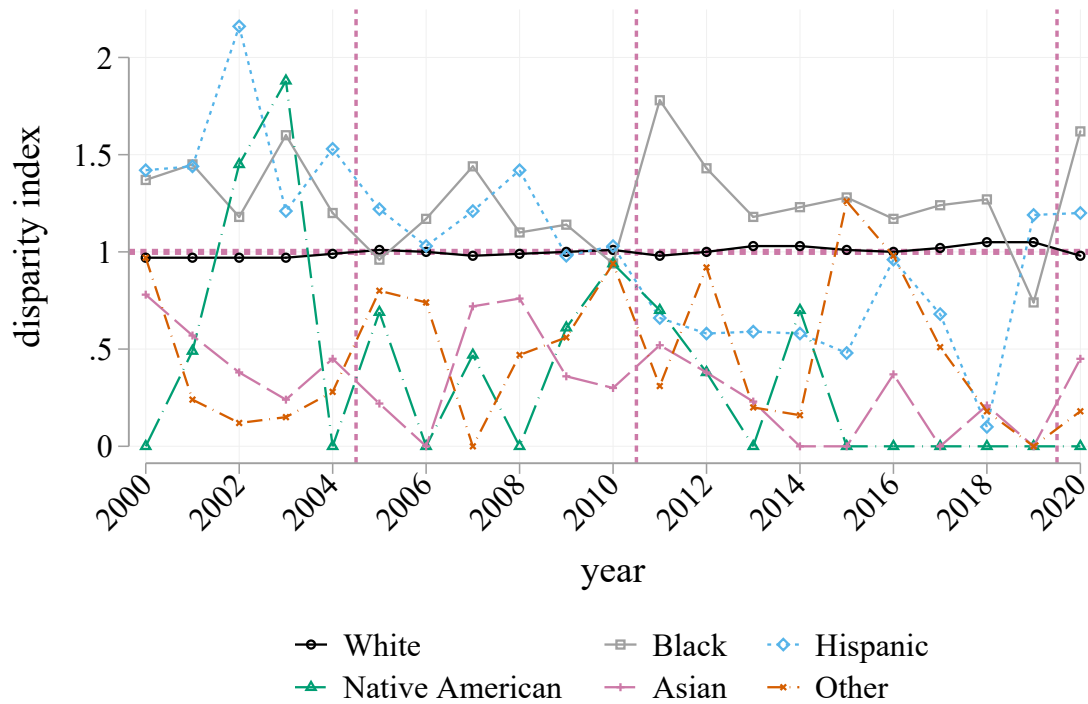

Table 3: Disparity Index from 2000 to 2020 for Lexington Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	.97	1.37	1.42	0	.78	.97
<b>2001</b>	.97	1.45	1.44	.49	.57	.24
<b>2002</b>	.97	1.18	2.16	1.45	.38	.12
<b>2003</b>	.97	1.6	1.21	1.88	.24	.15
<b>2004</b>	.99	1.2	1.53	0	.45	.28
<b>2005</b>	1.01	.96	1.22	.69	.22	.8
<b>2006</b>	1	1.17	1.03	0	0	.74
<b>2007</b>	.98	1.44	1.21	.47	.72	0
<b>2008</b>	.99	1.1	1.42	0	.76	.47
<b>2009</b>	1	1.14	.98	.61	.36	.56
<b>2010</b>	1.01	.94	1.03	.94	.3	.94
<b>2011</b>	.98	1.78	.66	.7	.52	.31
<b>2012</b>	1	1.43	.58	.38	.38	.92
<b>2013</b>	1.03	1.18	.59	0	.23	.2
<b>2014</b>	1.03	1.23	.58	.7	0	.16
<b>2015</b>	1.01	1.28	.48	0	0	1.26
<b>2016</b>	1	1.17	.96	0	.37	.98
<b>2017</b>	1.02	1.24	.68	0	0	.51
<b>2018</b>	1.05	1.27	.1	0	.21	.18
<b>2019</b>	1.05	.74	1.19	0	0	0
<b>2020</b>	.98	1.62	1.2	0	.45	.18

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Lexington Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.282 Liberty Police Dept

Table 1: Rates by Race for Liberty Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	24762	21665	1067	1236	110	191	790
2019 population %	100	87.49	4.31	4.99	.44	.77	3.19
<b>Totals</b>	.	.	.	.	.	.	.
All stops	2385	2027	246	35	1	11	65
Resident stops	750	646	71	10	1	3	19
Searches	103	86	13	0	0	0	4
Contraband	72	58	10	0	0	0	4
Arrests	80	69	10	0	0	0	1
Citations	1606	1390	140	10	0	9	57
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	9.63	9.36	23.06	2.83	.91	5.76	8.23
Stop rate, residents	3.03	2.98	6.65	.81	.91	1.57	2.41
Search rate	4.32	4.24	5.28	0	0	0	6.15
Contraband hit rate	69.9	67.44	76.92	.	.	.	100
Arrest rate	3.35	3.4	4.07	0	0	0	1.54
Citation rate	67.34	68.57	56.91	28.57	0	81.82	87.69

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

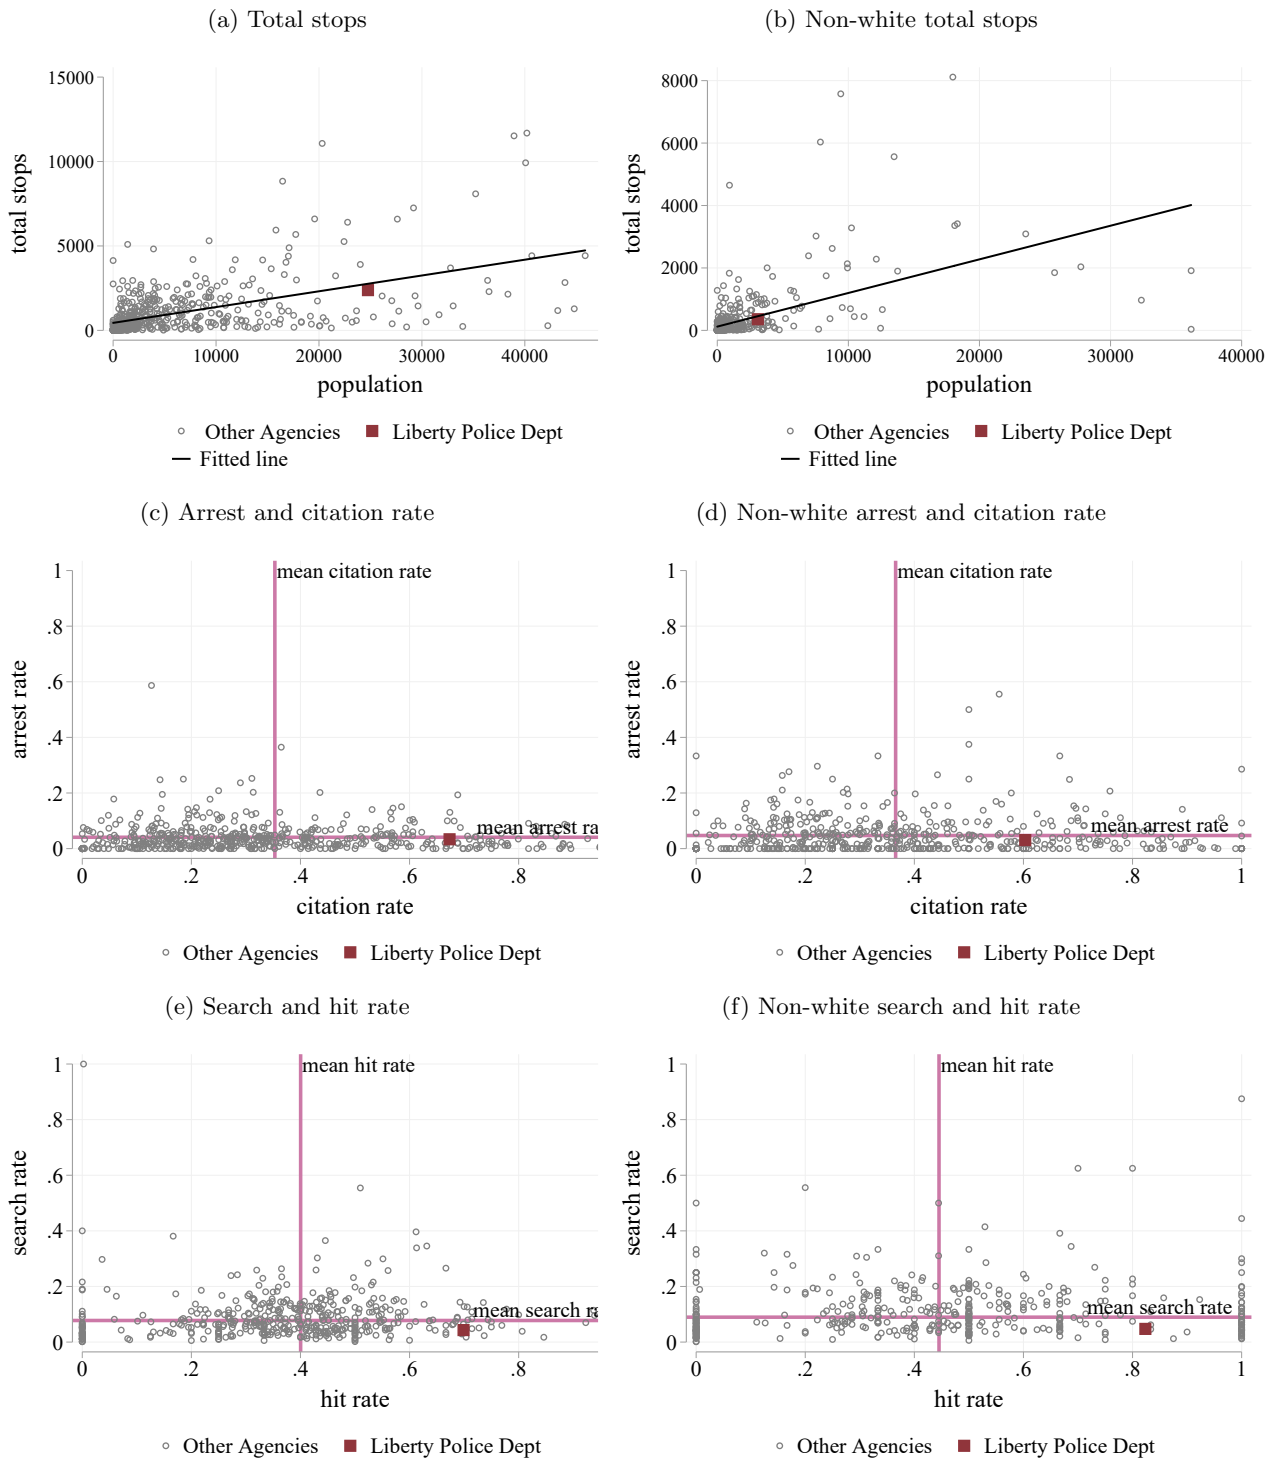

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Liberty Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Liberty Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	24762	21665	1067	1236	110	191	790
2019 population %	100	87.49	4.31	4.99	.44	.77	3.19
<b>Stops</b>	.	.	.	.	.	.	.
All stops	2385	2027	246	35	1	11	65
Resident stops	750	646	71	10	1	3	19
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.971	2.394	.294	.094	.598	.854
Resident stops	.	.984	2.197	.267	.3	.519	.794

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Liberty Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	.98	1.85	1.09	1.07	1	.56

<b>2020</b>	.97	2.39	.29	.09	.6	.85

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Liberty Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.284 Lincoln County Sheriff's Dept

Table 1: Rates by Race for Lincoln County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	43901	41016	913	1043	157	150	804
2019 population %	100	93.43	2.08	2.38	.36	.34	1.83
<b>Totals</b>	.	.	.	.	.	.	.
All stops	2833	2644	114	36	5	2	32
Resident stops	2202	2088	64	23	4	2	21
Searches	180	162	11	4	0	0	3
Contraband	38	33	5	0	0	0	0
Arrests	76	68	5	2	0	0	1
Citations	179	166	9	2	0	0	2
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	6.45	6.45	12.49	3.45	3.18	1.33	3.98
Stop rate, residents	5.02	5.09	7.01	2.21	2.55	1.33	2.61
Search rate	6.35	6.13	9.65	11.11	0	0	9.38
Contraband hit rate	21.11	20.37	45.45	0	.	.	0
Arrest rate	2.68	2.57	4.39	5.56	0	0	3.13
Citation rate	6.32	6.28	7.89	5.56	0	0	6.25

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

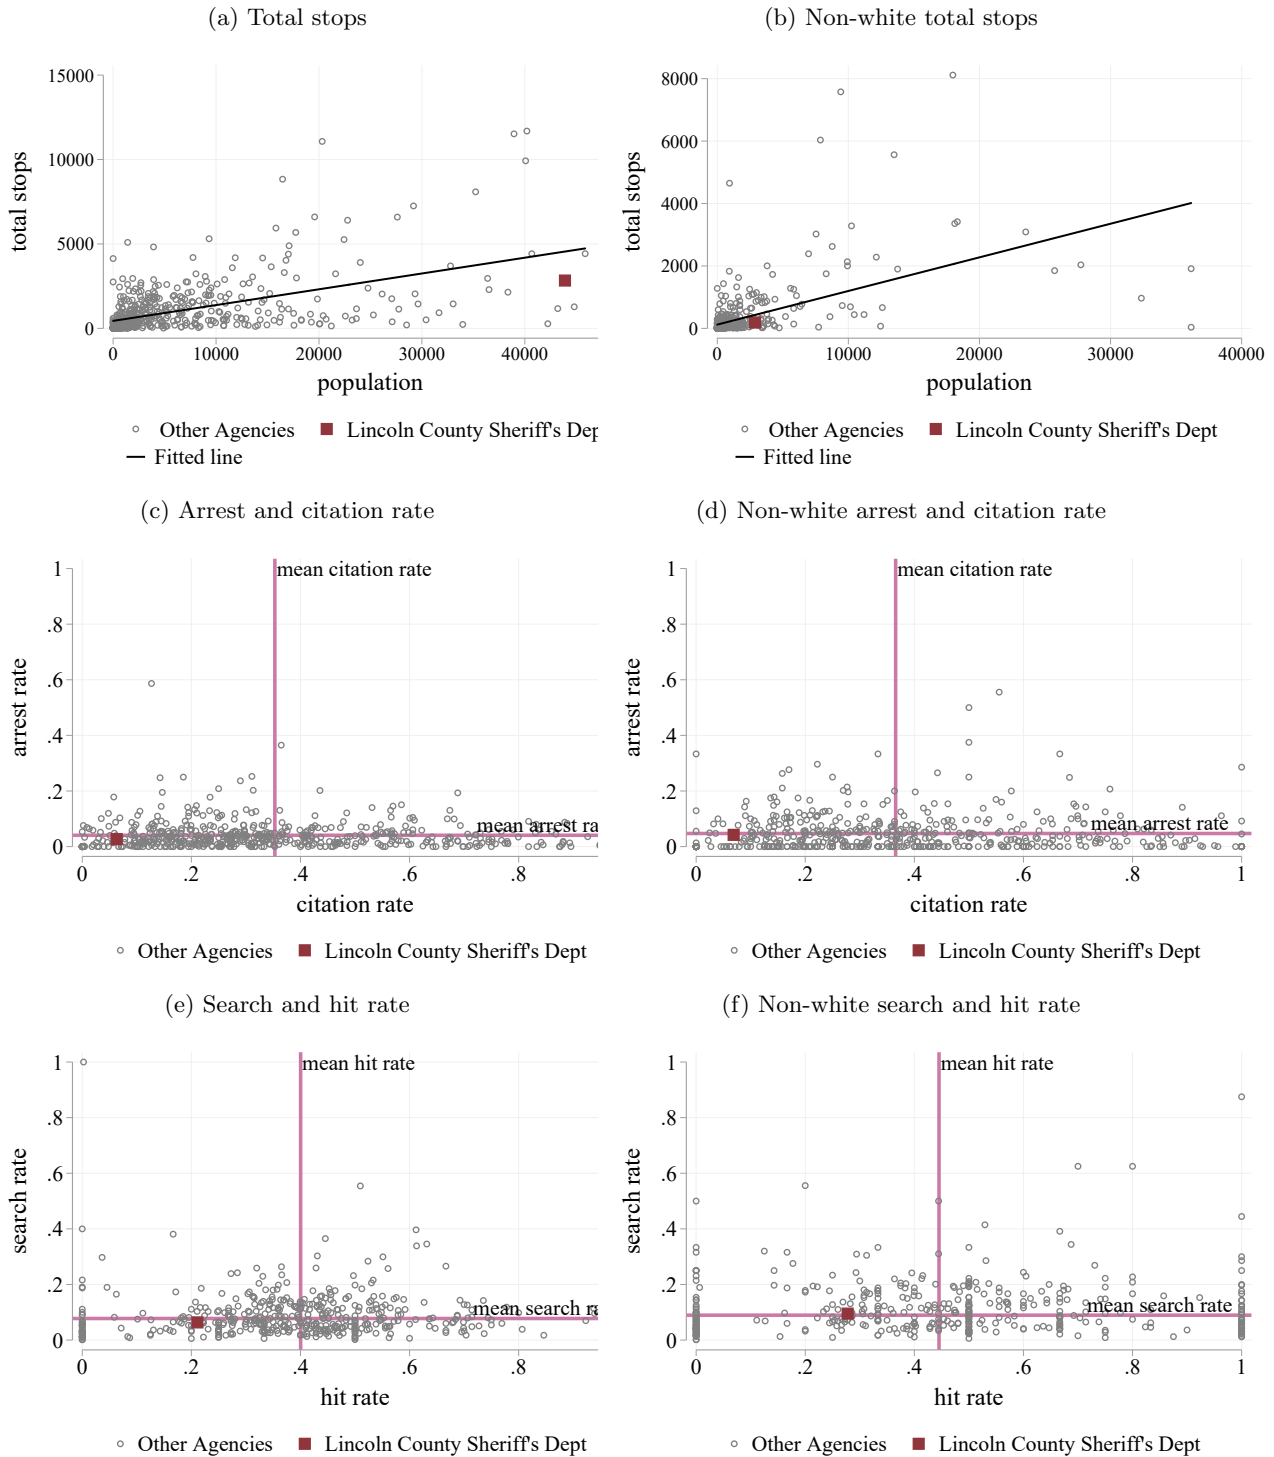

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Lincoln County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Lincoln County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	43901	41016	913	1043	157	150	804
2019 population %	100	93.43	2.08	2.38	.36	.34	1.83
<b>Stops</b>	.	.	.	.	.	.	.
All stops	2833	2644	114	36	5	2	32
Resident stops	2202	2088	64	23	4	2	21
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.999	1.935	.535	.494	.207	.617
Resident stops	.	1.015	1.398	.44	.508	.266	.521

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

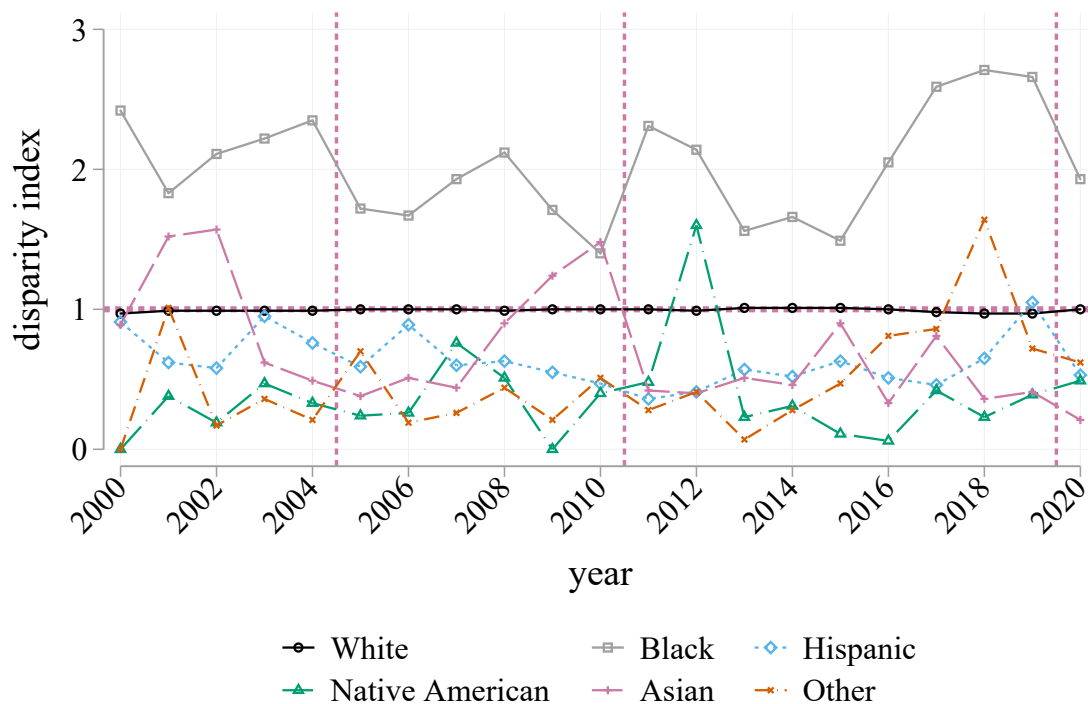

Table 3: Disparity Index from 2000 to 2020 for Lincoln County Sheriff's Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	.97	2.42	.91	0	.89	0

<b>2020</b>	1	1.93	.53	.49	.21	.62

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Lincoln County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	.	.	.	.	.	.	.
Stop rate, residents	.	.	.	.	.	.	.
Search rate	6.1	4.76	6.78	0	.	.	.
Contraband hit rate	40	100	25	.	.	.	.
Arrest rate	7.32	4.76	8.47	0	.	.	.
Citation rate	4.88	4.76	5.08	0	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

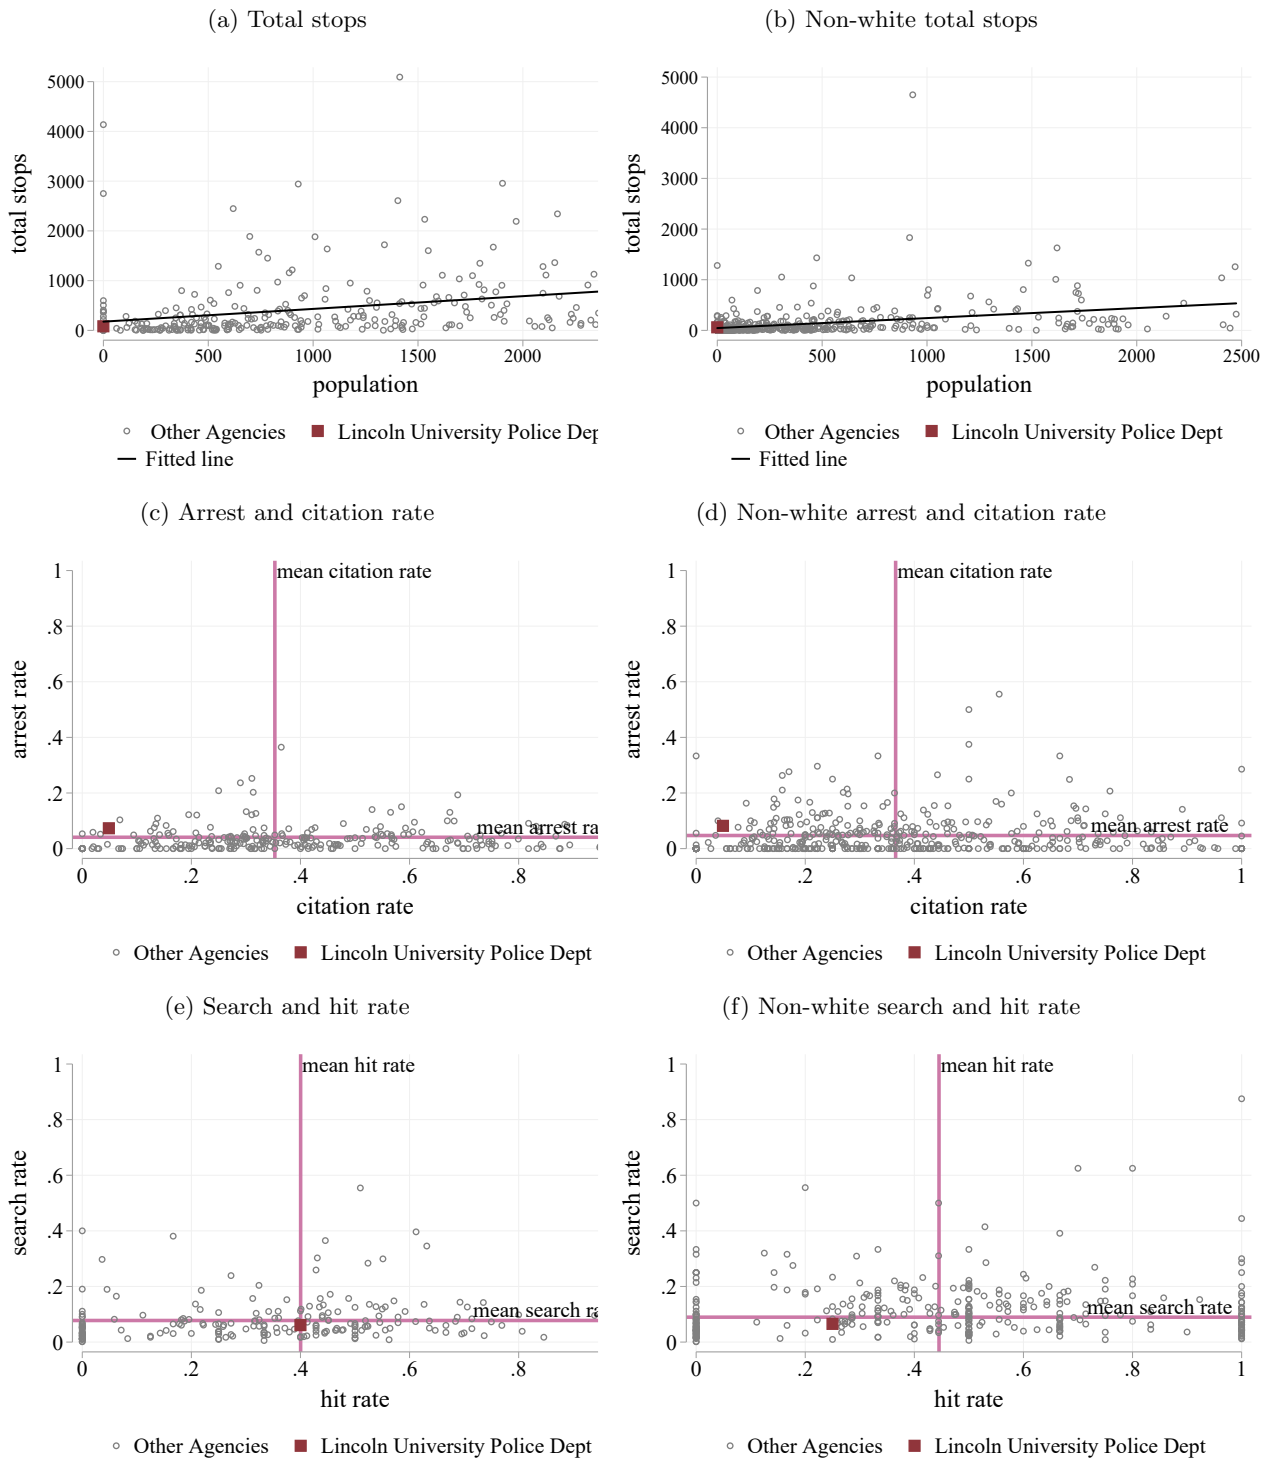

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Lincoln University Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Lincoln University Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	.	.	.	.	.	.	.
2019 population %	.	.	.	.	.	.	.
<b>Stops</b>	.	.	.	.	.	.	.
All stops	82	21	59	2	0	0	0
Resident stops	56	20	35	1	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.	.	.	.	.	.
Resident stops	.	.	.	.	.	.	.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Lincoln University Police Dept

	White	Black	Hispanic	Native American	Asian	Other

<b>2018</b>	.	.	.	.	.	.
<b>2019</b>	.	.	.	.	.	.
<b>2020</b>	.	.	.	.	.	.

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Lincoln University Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

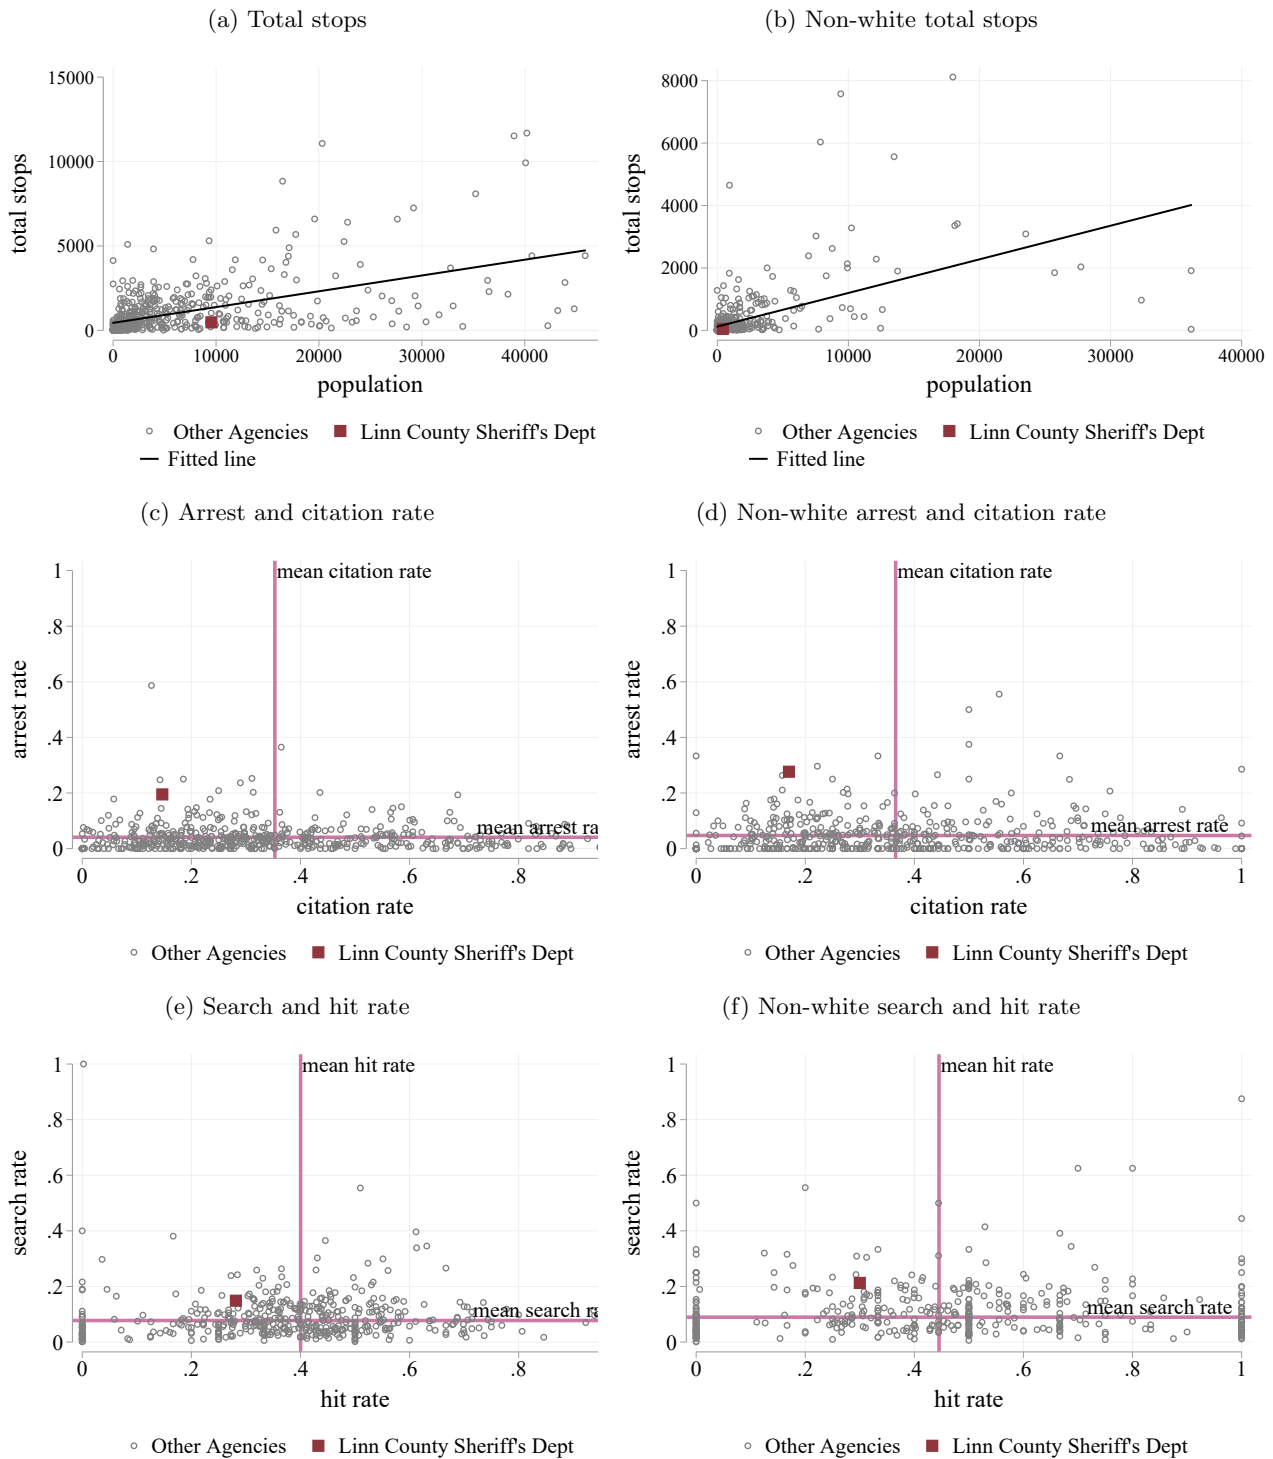

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Linn Creek Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Linn Creek Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.

<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.896	.	.	.	.	4.031
Resident stops	.	1.004	.	.	.	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

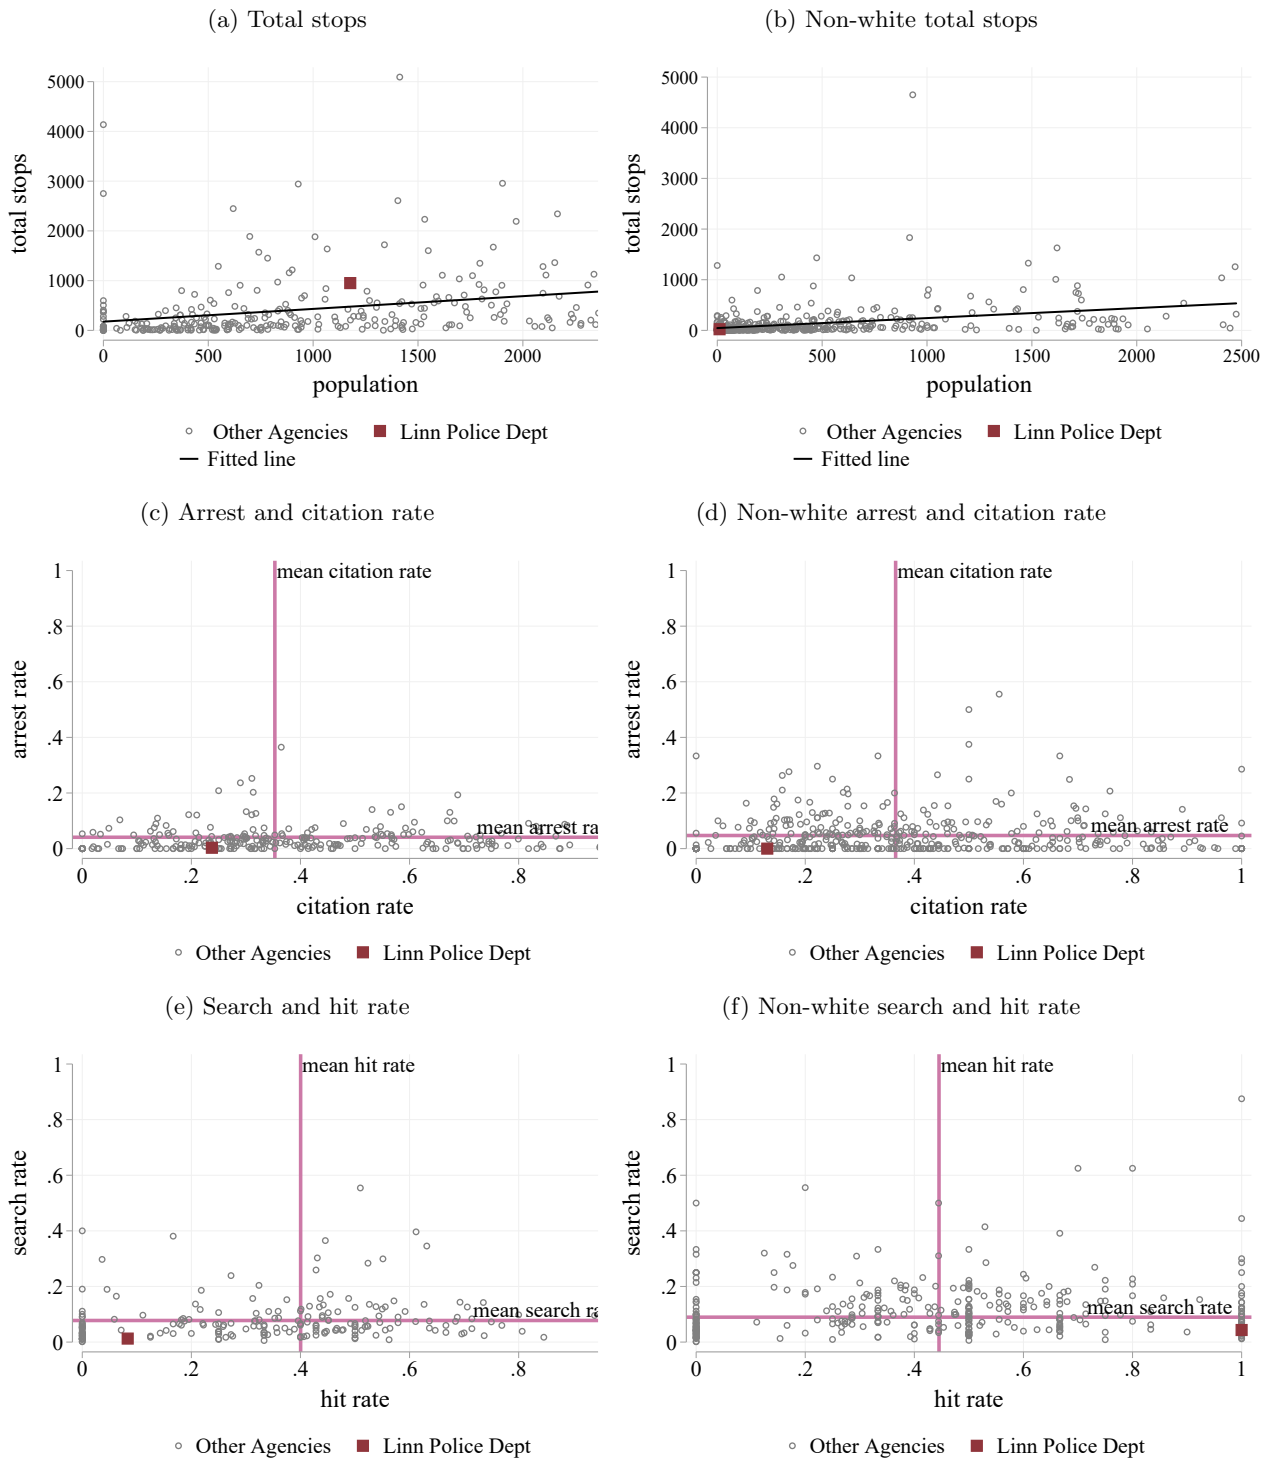

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Livingston County Sheriff's Dept. has US Highway 36 / Interstate 72 and US Highway 65 within its jurisdiction. The department is frequently assigned traffic enforcement overtime grant projects on U.S. 36 and U.S. 65.

Figure 1: Comparison to other agencies by population for Livingston County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Livingston County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	12113	11375	287	172	67	68	202
2019 population %	100	93.91	2.37	1.42	.55	.56	1.67
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1207	1021	109	40	5	11	21
Resident stops	382	369	10	2	0	0	1
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.901	3.811	2.334	.749	1.623	1.043
Resident stops	.	1.029	1.105	.369	0	0	.157

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>2019</b>	.9	2.74	2.69	.23	2.13	5.4
<b>2020</b>	.9	3.81	2.33	.75	1.62	1.04

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Livingston County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

2019 population %	100	90.98	5.45	1.39	.4	.3	1.49
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1882	1555	250	10	3	14	50
Resident stops	84	80	3	0	0	0	1
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.908	2.437	.383	.402	2.502	1.787
Resident stops	.	1.047	.655	0	0	0	.801

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

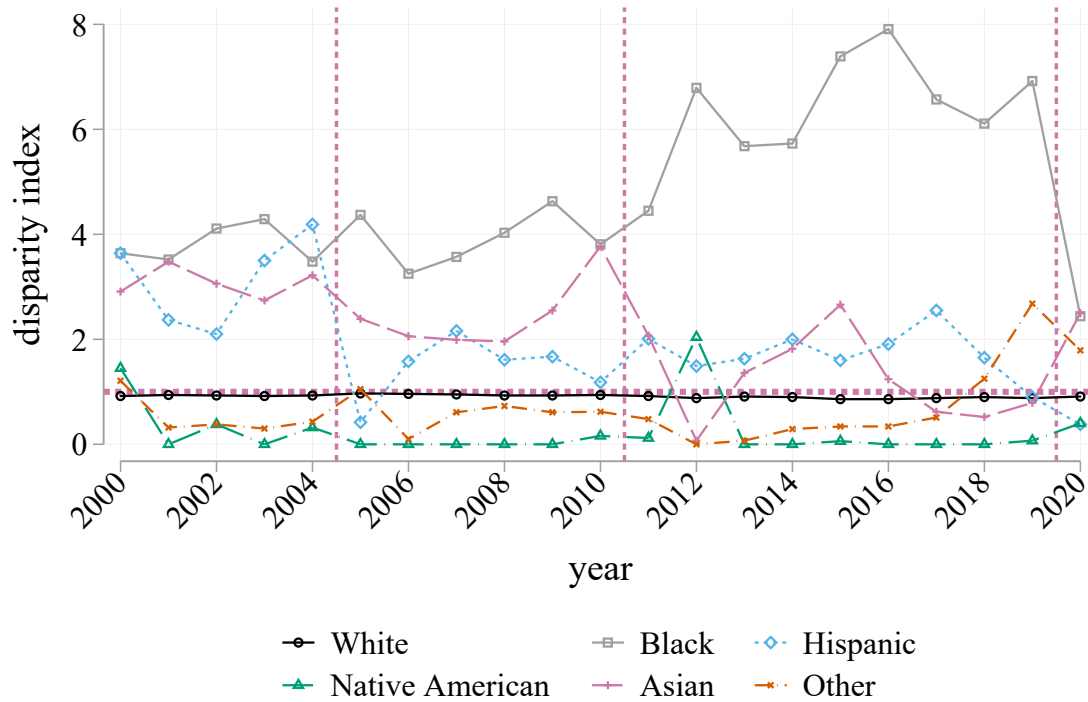

Table 3: Disparity Index from 2000 to 2020 for Lone Jack Police Dept

<b>2020</b>	.91	2.44	.38	.4	2.5	1.79

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Lone Jack Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Arrests	8	6	2	0	0	0	0
Citations	575	496	53	12	1	0	13
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	27.47	27.61	37.36	13.39	20	0	10.5
Stop rate, residents	8.83	8.58	15.52	4.46	0	0	3.87
Search rate	3.26	3.3	3.08	0	100	.	0
Contraband hit rate	25	28.57	0	.	0	.	.
Arrest rate	1.09	.94	3.08	0	0	.	0
Citation rate	78.02	77.86	81.54	80	100	.	68.42

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

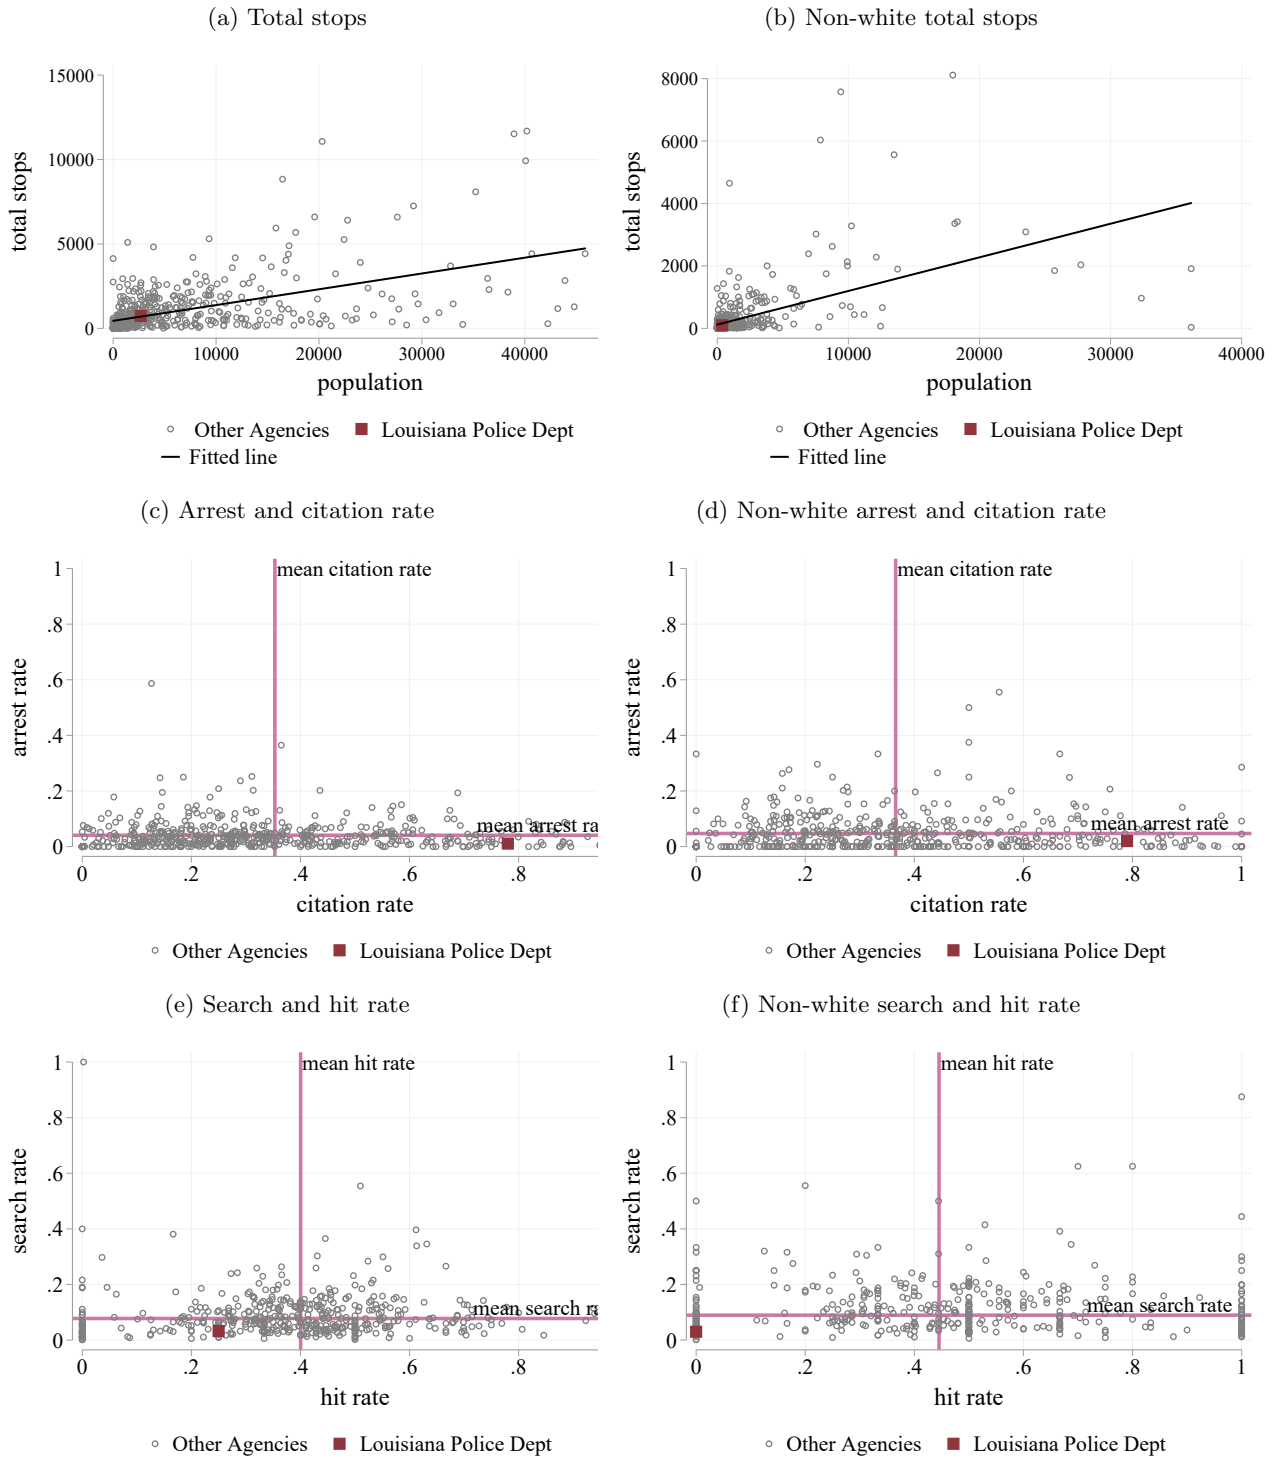

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Louisiana Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

<b>Stops</b>	.	.	.	.	.	.	.
All stops	74	72	0	2	0	0	0
Resident stops	23	23	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.036	0	3.222	0	.	0
Resident stops	.	1.064	0	0	0	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Contraband hit rate	45	38.46	66.67	0	.	.	.
Arrest rate	2.75	2.34	7.69	4.35	0	0	0
Citation rate	13.15	11.69	17.31	21.74	0	40	27.27

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

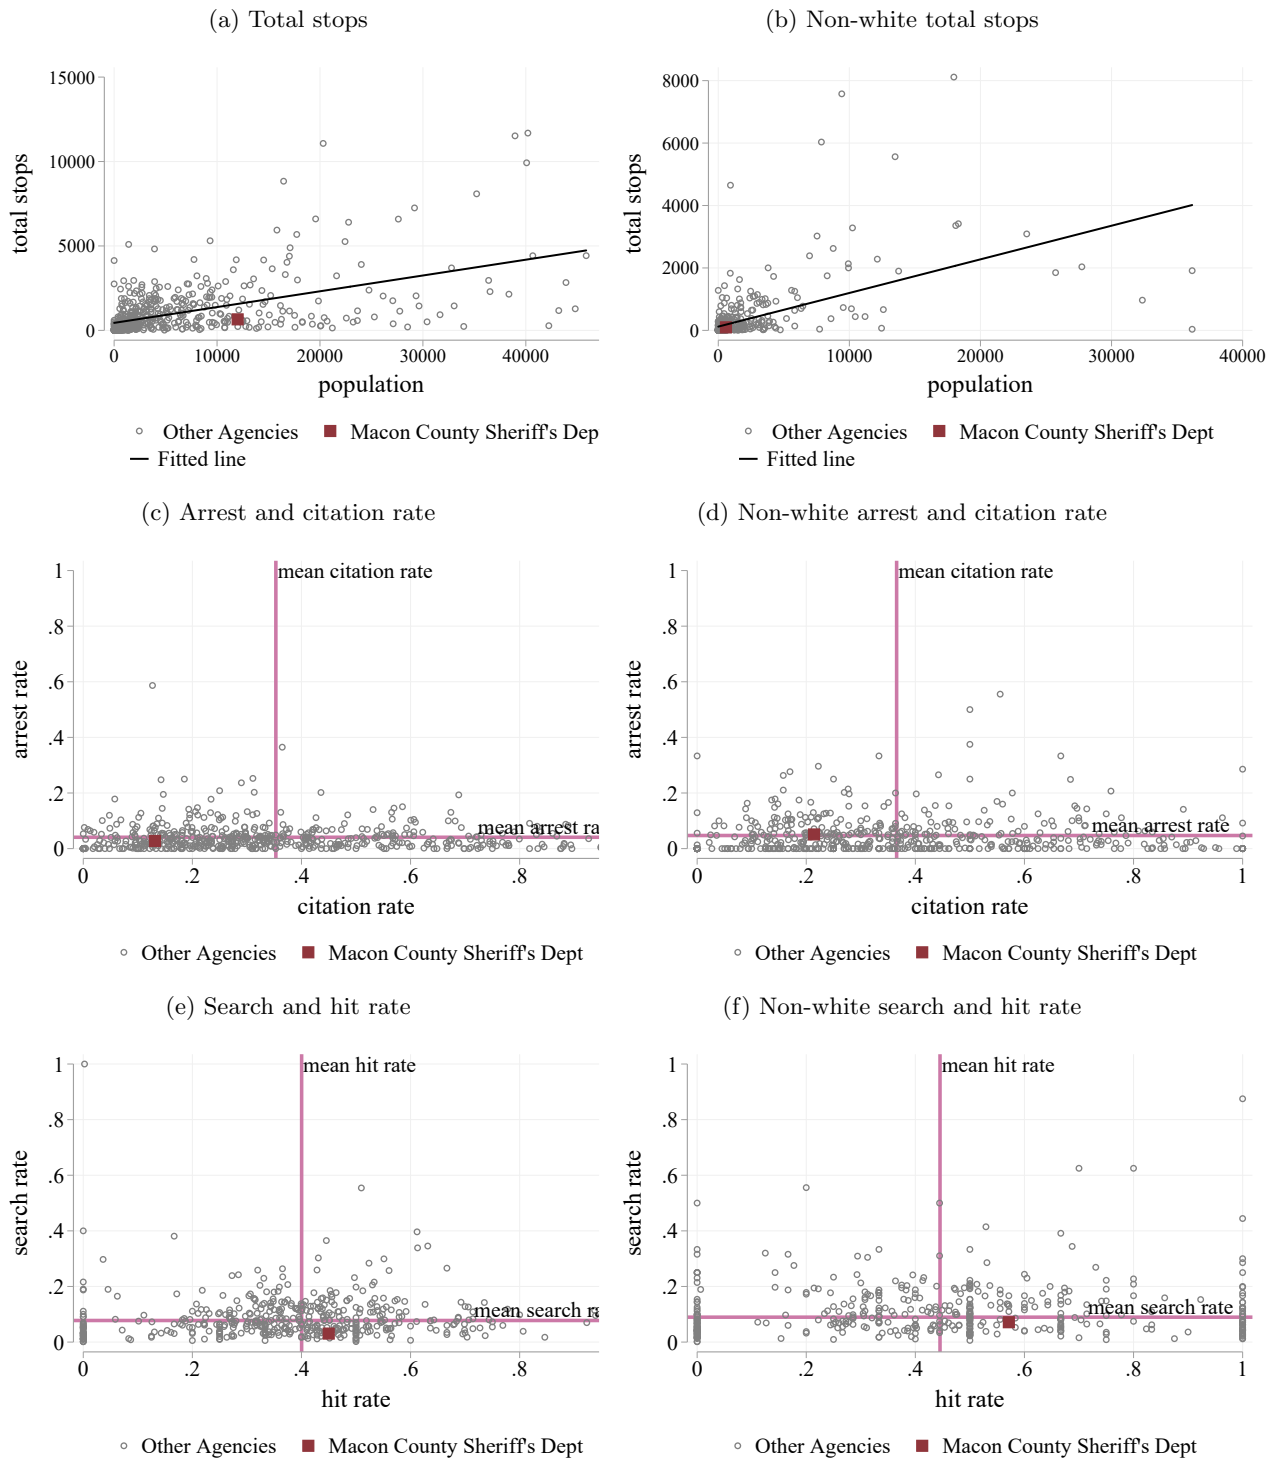

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Macon County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Macon Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	.98	1.44	.76	0	1.53	.53

<b>2019</b>	.99	1.18	1.63	1.08	1.45	.4
<b>2020</b>	.99	1.41	.88	1.13	1.53	.07

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Macon Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	4.47	4.43	19.72	2.82	10	4.08	2.04
Stop rate, residents	2.75	2.87	2.82	.7	0	0	0
Search rate	26.38	28.26	0	0	0	0	0
Contraband hit rate	36.52	36.52	.	.	.	.	.
Arrest rate	20.18	21.62	0	0	0	0	0
Citation rate	43.58	45.21	28.57	25	0	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

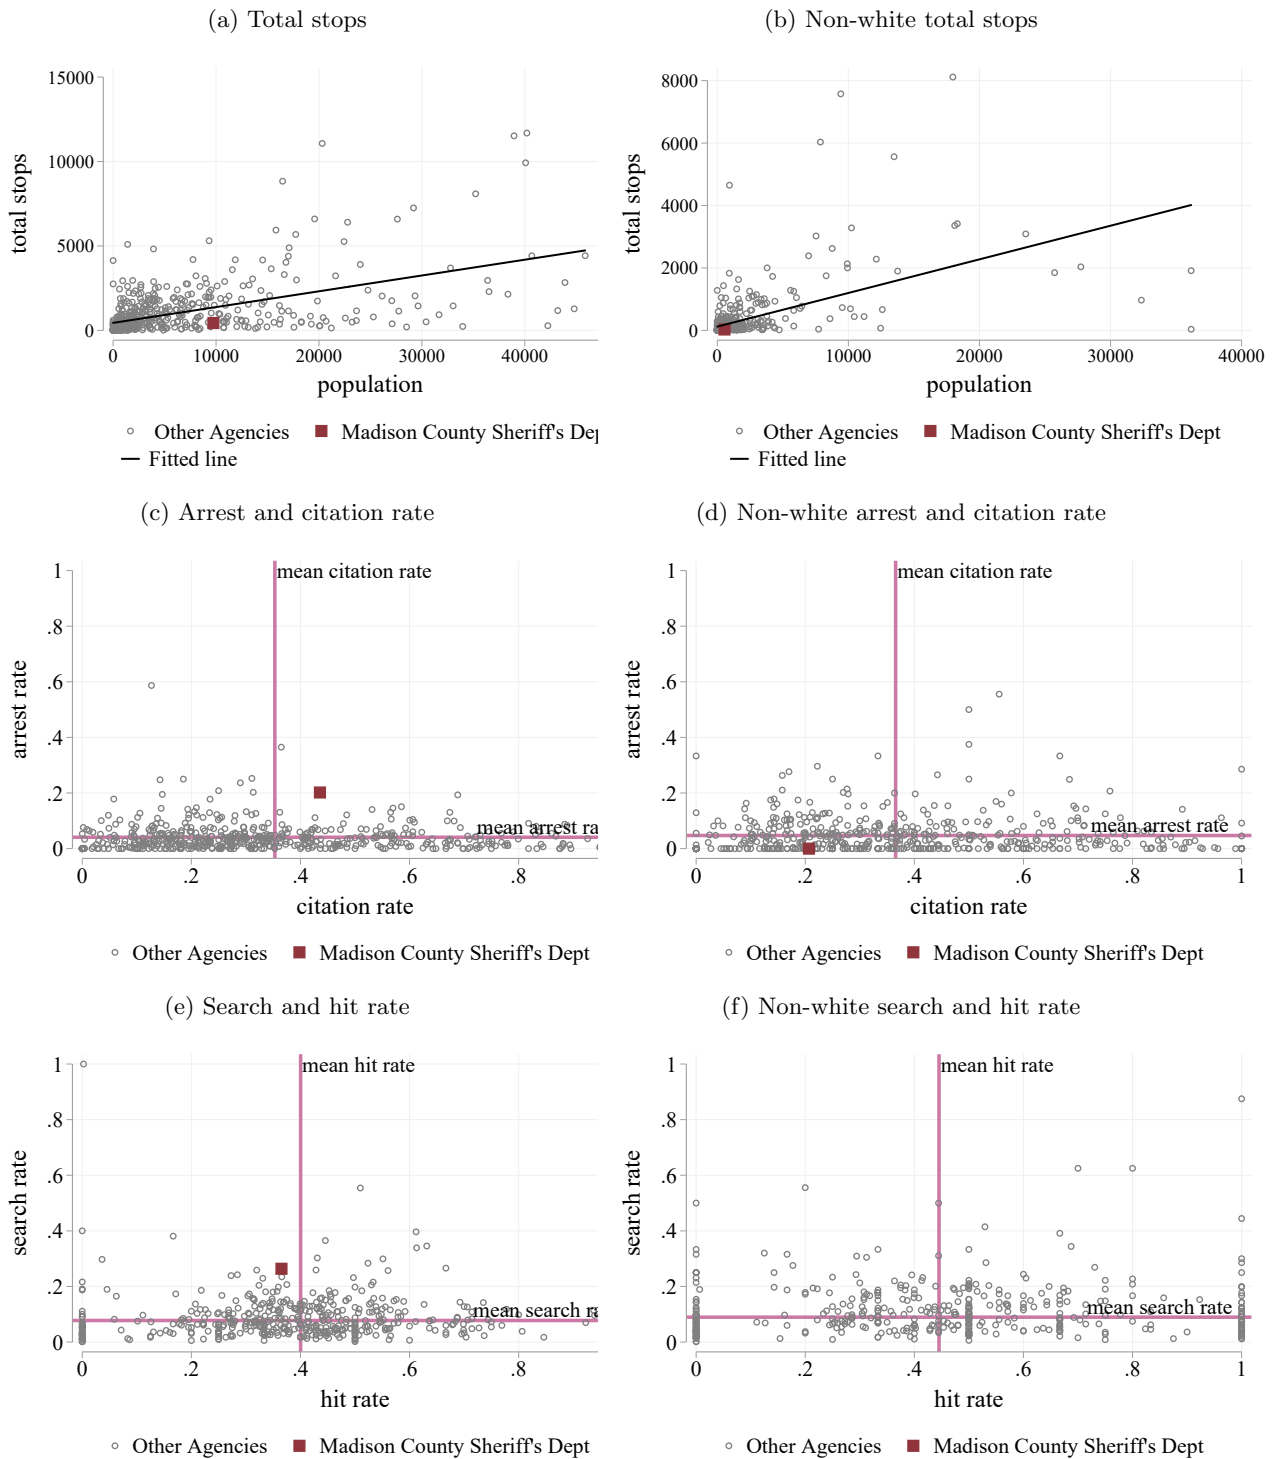

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Madison County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.953	1.134	1.28	.406	.	0
Resident stops	.	.727	1.816	.802	.713	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Malden Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	1.03	1	.36	0	0	0

<b>2018</b>	.98	1.09	1.19	0	0	.88
<b>2019</b>	.96	1.13	1.61	0	.23	.33
<b>2020</b>	.95	1.13	1.28	.41	.	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Malden Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.299 Manchester Police Dept

Table 1: Rates by Race for Manchester Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	14663	12189	548	748	0	923	540
2019 population %	100	83.13	3.74	5.1	0	6.29	3.68
<b>Totals</b>	.	.	.	.	.	.	.
All stops	1700	1380	264	19	2	19	16
Resident stops	210	184	21	1	0	2	2
Searches	124	80	39	2	0	1	2
Contraband	68	43	22	1	0	0	2
Arrests	72	46	24	2	0	0	0
Citations	1225	1016	178	11	1	14	5
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	11.59	11.32	48.18	2.54	.	2.06	2.96
Stop rate, residents	1.43	1.51	3.83	.13	.	.22	.37
Search rate	7.29	5.8	14.77	10.53	0	5.26	12.5
Contraband hit rate	54.84	53.75	56.41	50	.	0	100
Arrest rate	4.24	3.33	9.09	10.53	0	0	0
Citation rate	72.06	73.62	67.42	57.89	50	73.68	31.25

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

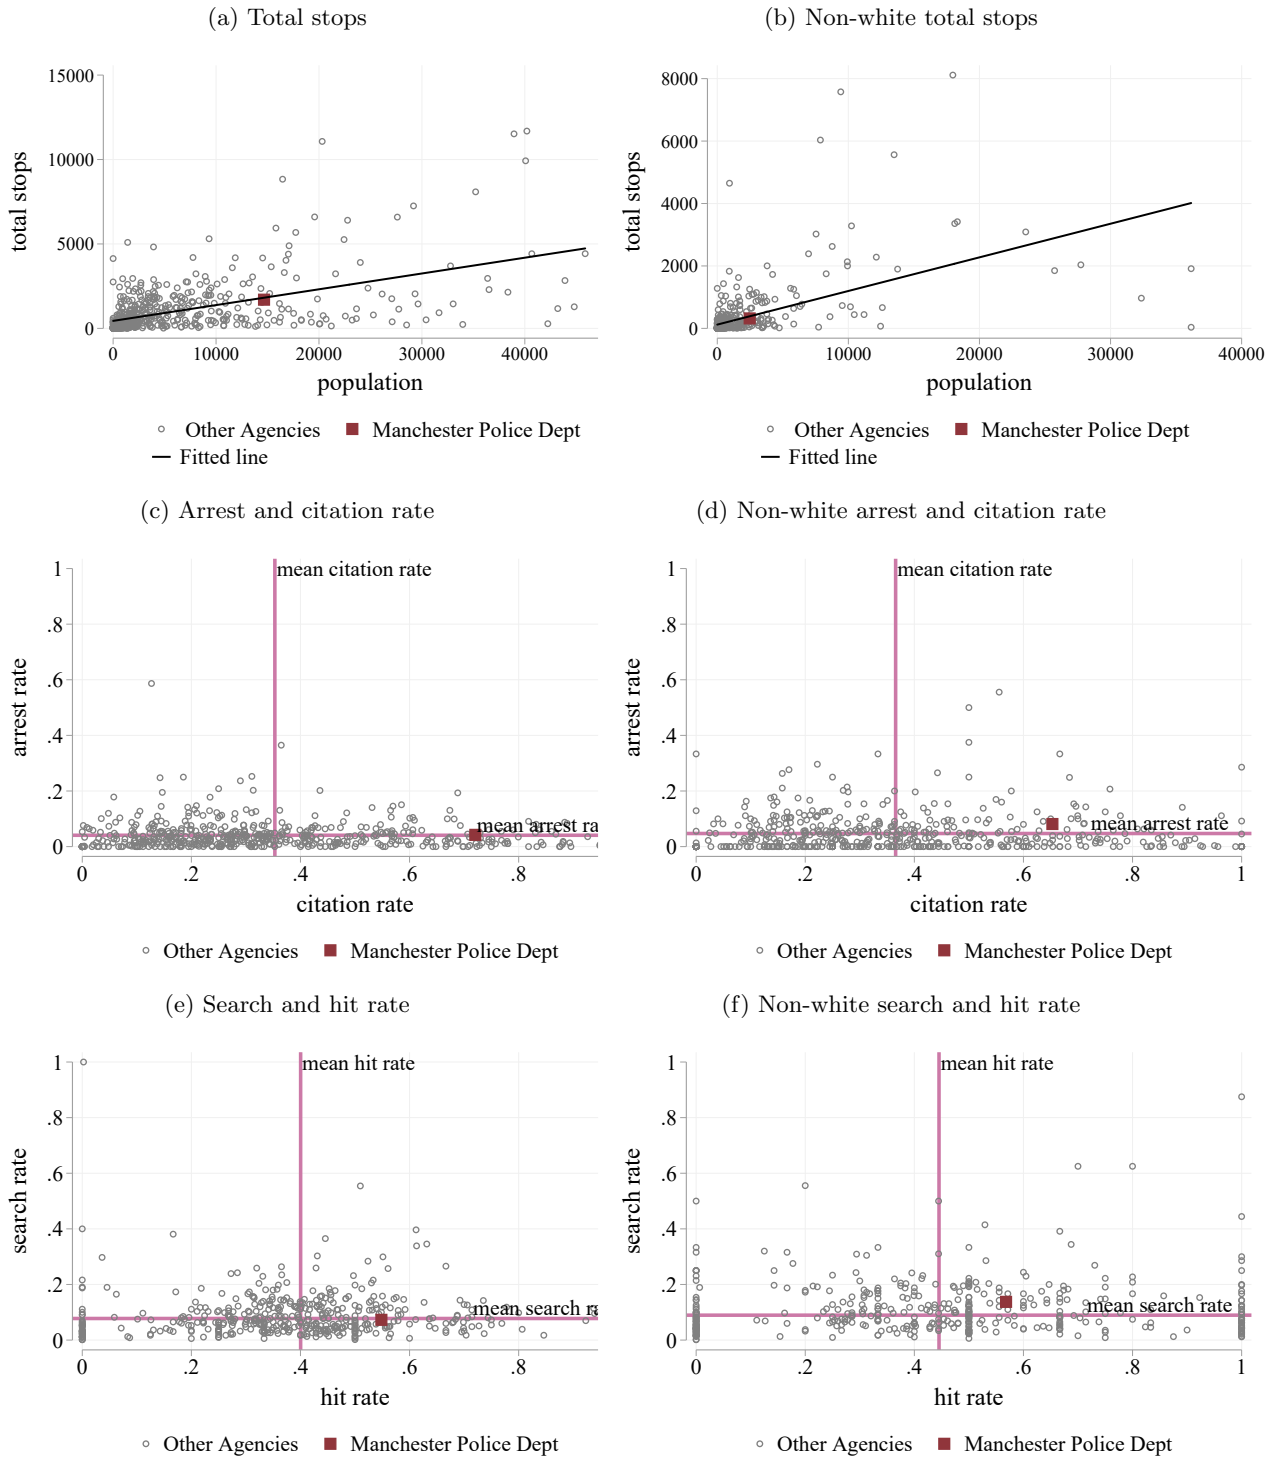

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Manchester Police Dept. covers Manchester RD, Highway 141 and Big Bend and several retail districts. There were some technical difficulties with their software for tracking vehicle stops data this year.

Figure 1: Comparison to other agencies by population for Manchester Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Resident stops	0	0	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.017	.	.468	.936	.	0
Resident stops	.	.	.	.	.	.	.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

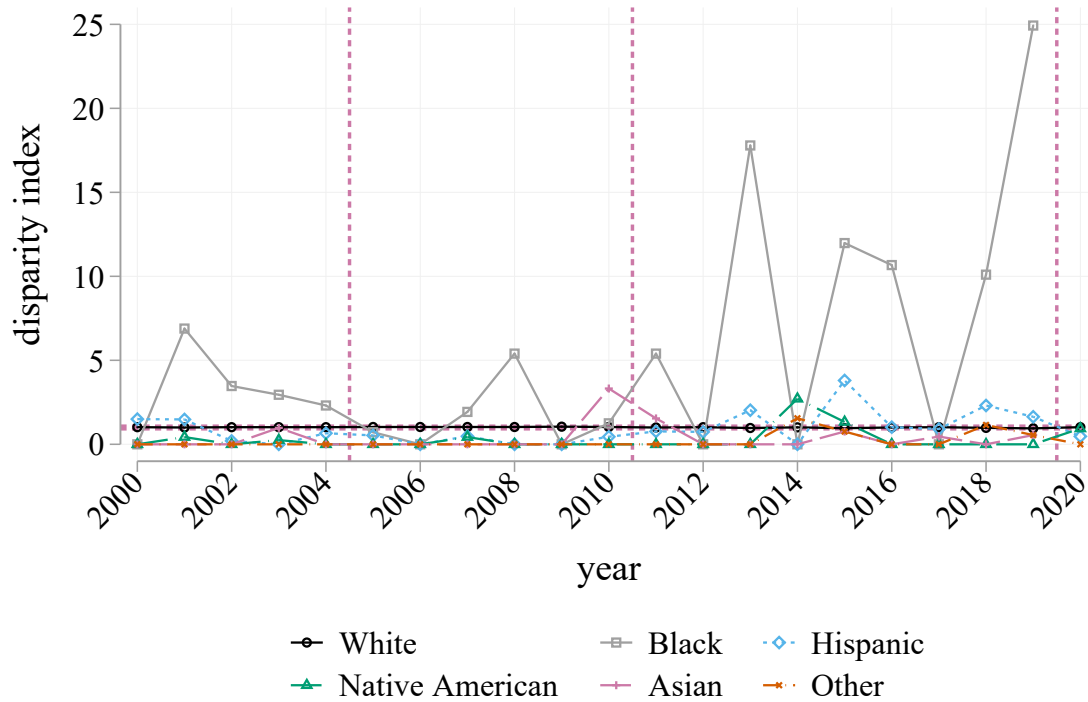

Table 3: Disparity Index from 2000 to 2020 for Mansfield Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	1.02	0	1.5	0	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

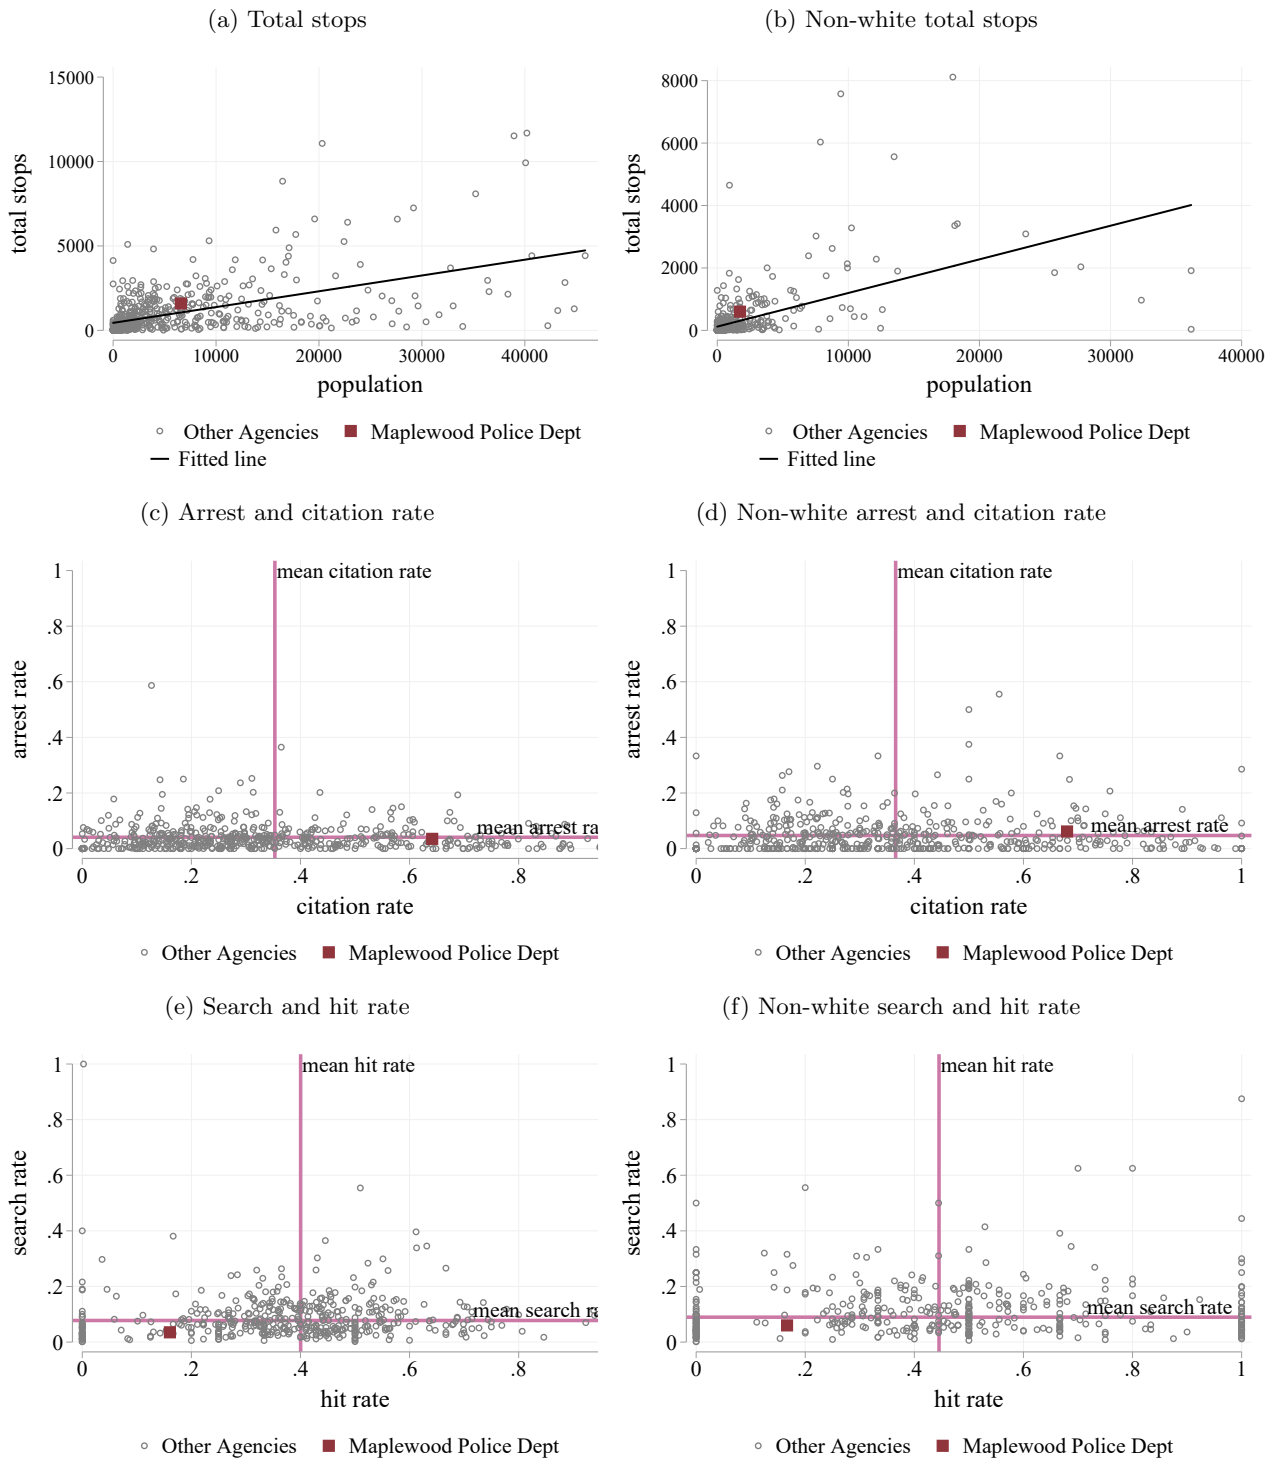

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Maplewood Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.099	.417	.577	0	0	.
Resident stops	.	1.117	0	0	0	0	.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Marble Hill Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Marble Hill Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Arrest rate	1.89	1.78	9.09	0	.	.	0
Citation rate	23.44	23.91	9.09	22.22	.	.	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

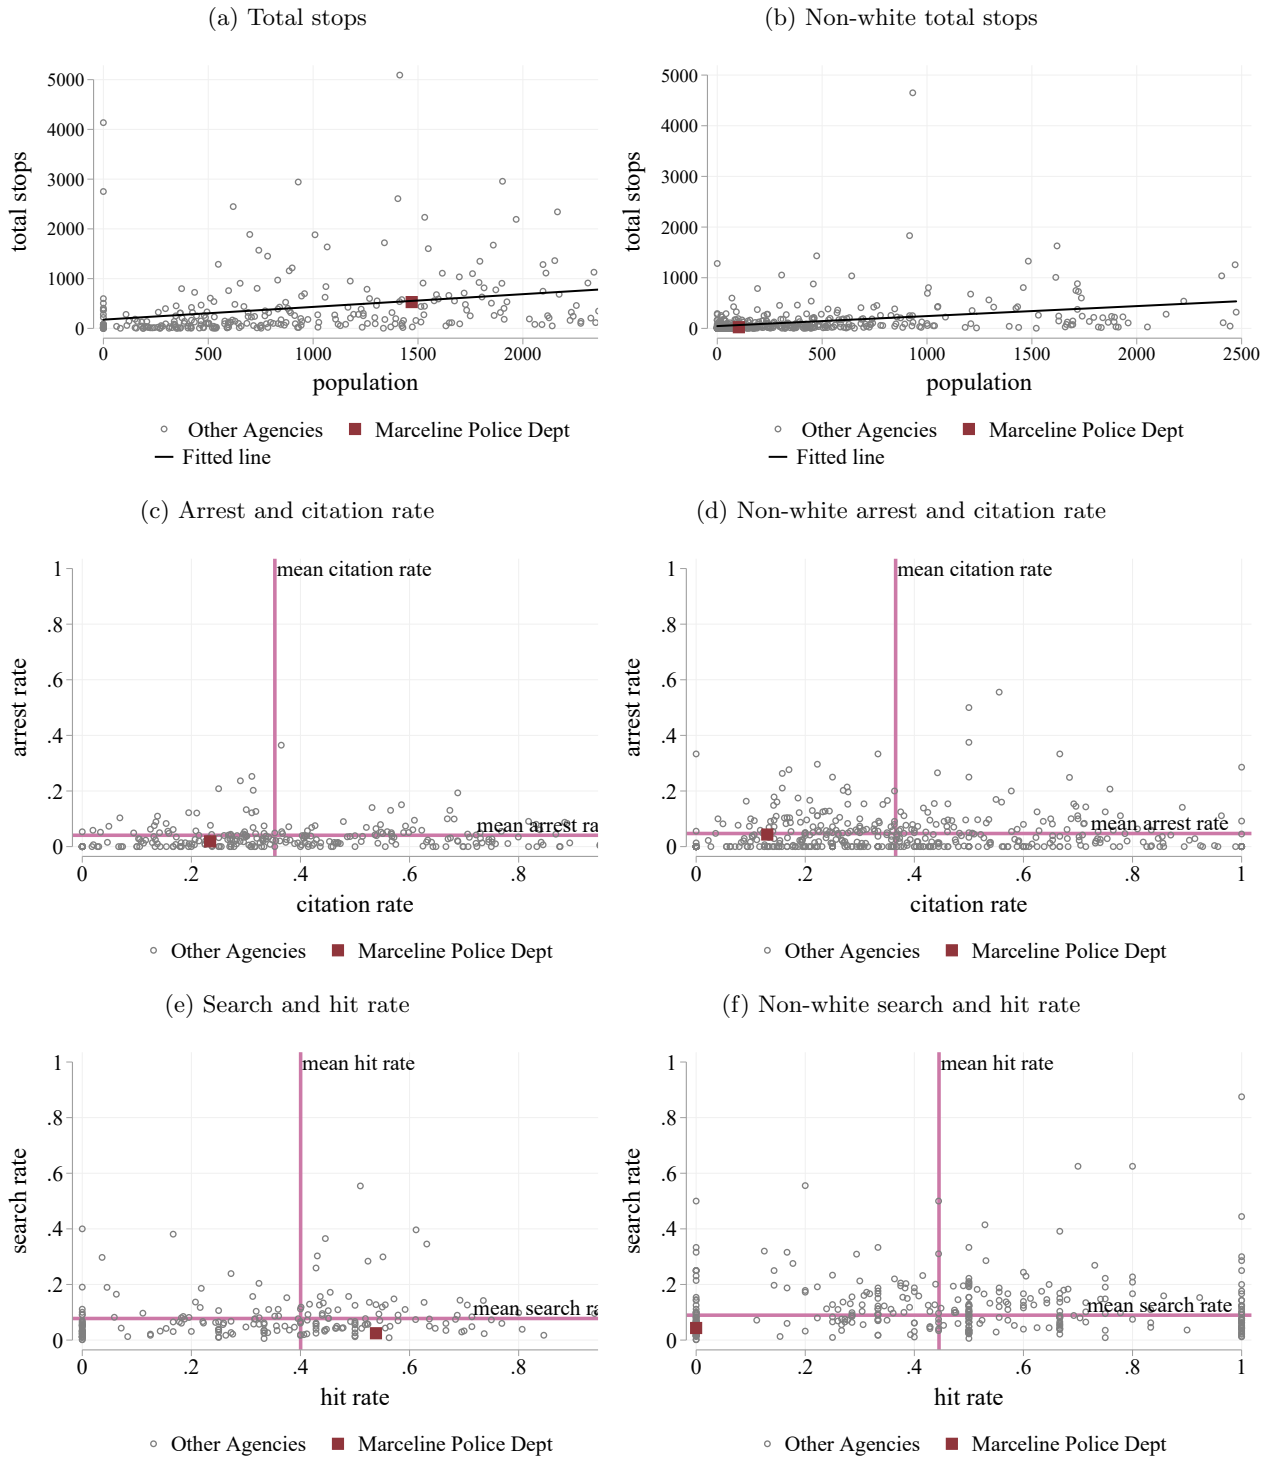

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Marceline Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

<b>2020</b>	1.02	4.43	.8	0	.07	.35

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Maries County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Stop rate, residents	.82	.79	1.84	.89	1.37	0	0
Search rate	7.97	5.92	19.28	16	33.33	0	20
Contraband hit rate	70.69	72.22	75	50	100	.	0
Arrest rate	3.57	2.96	7.23	4	33.33	0	0
Citation rate	22.8	21.38	28.92	32	33.33	25	40

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

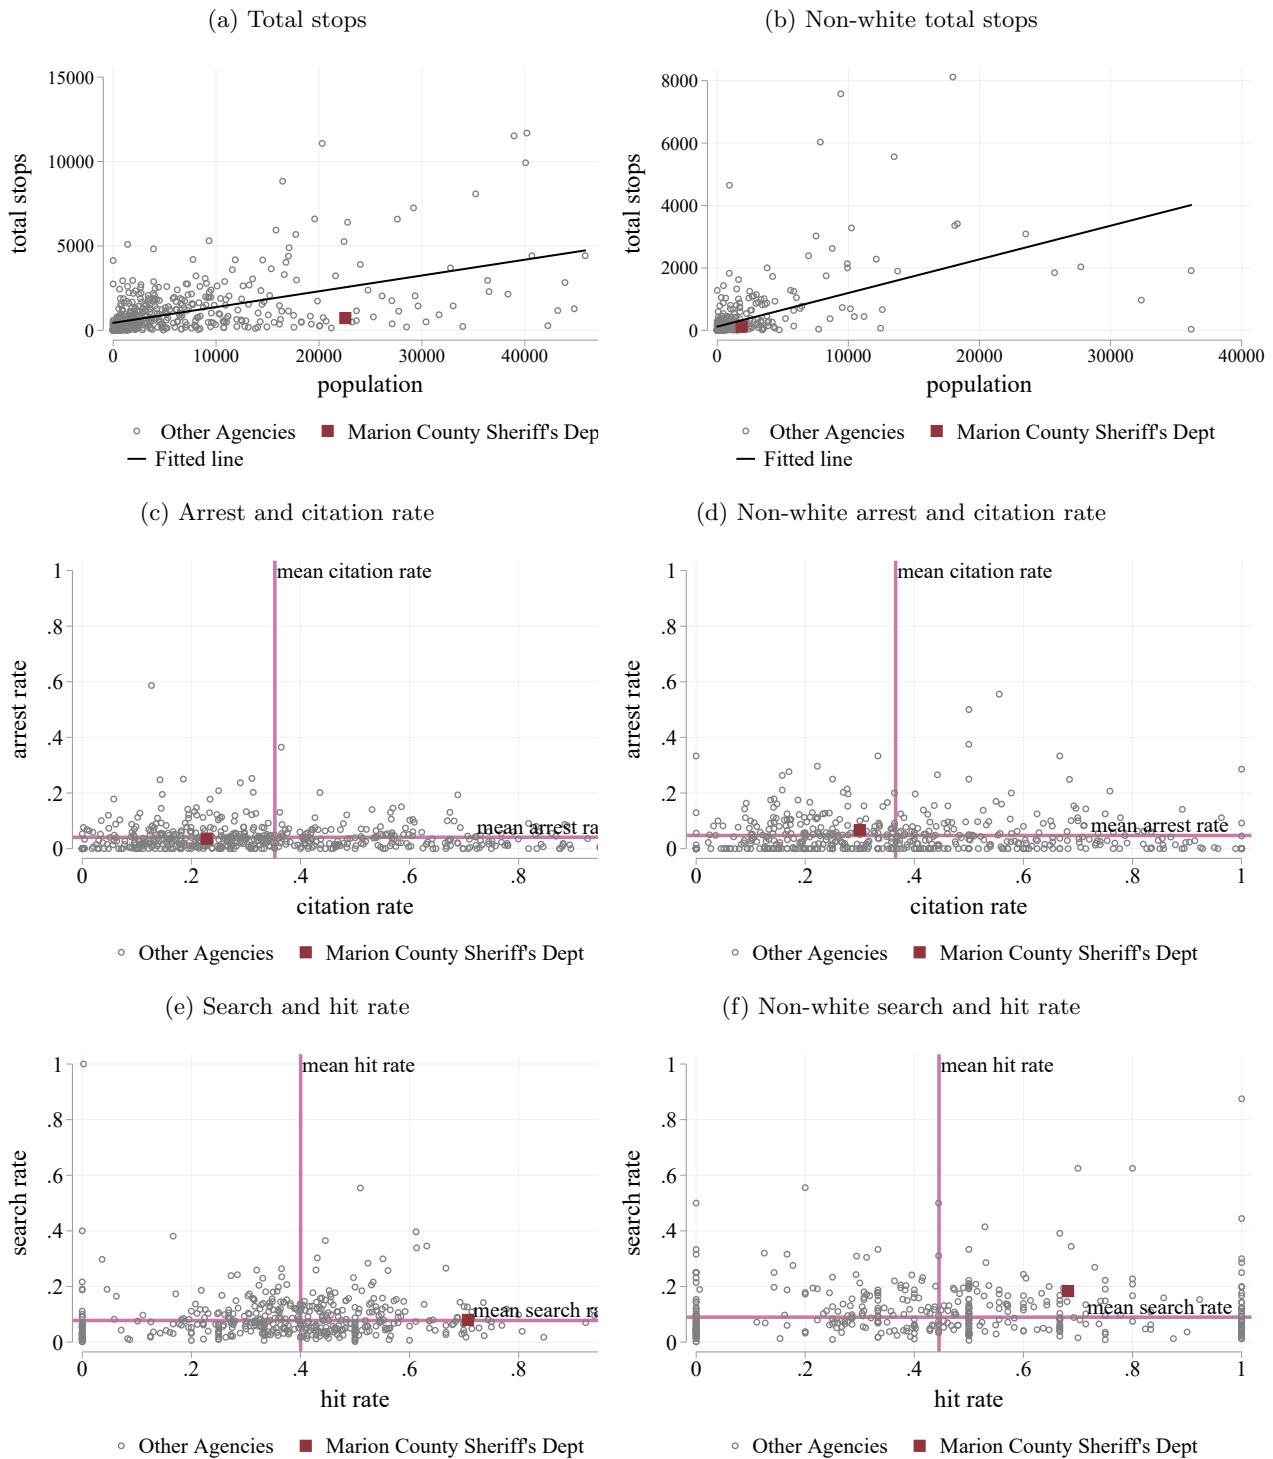

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Marion County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Marion County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Marionville Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Arrests	0	0	0	0	0	0	0
Citations	2	2	0	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	5.36	5.56	.	0	.	.	0
Stop rate, residents	2.23	2.31	.	0	.	.	0
Search rate	0	0	.	.	.	.	.
Contraband hit rate	.	.	.	.	.	.	.
Arrest rate	0	0	.	.	.	.	.
Citation rate	16.67	16.67	.	.	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

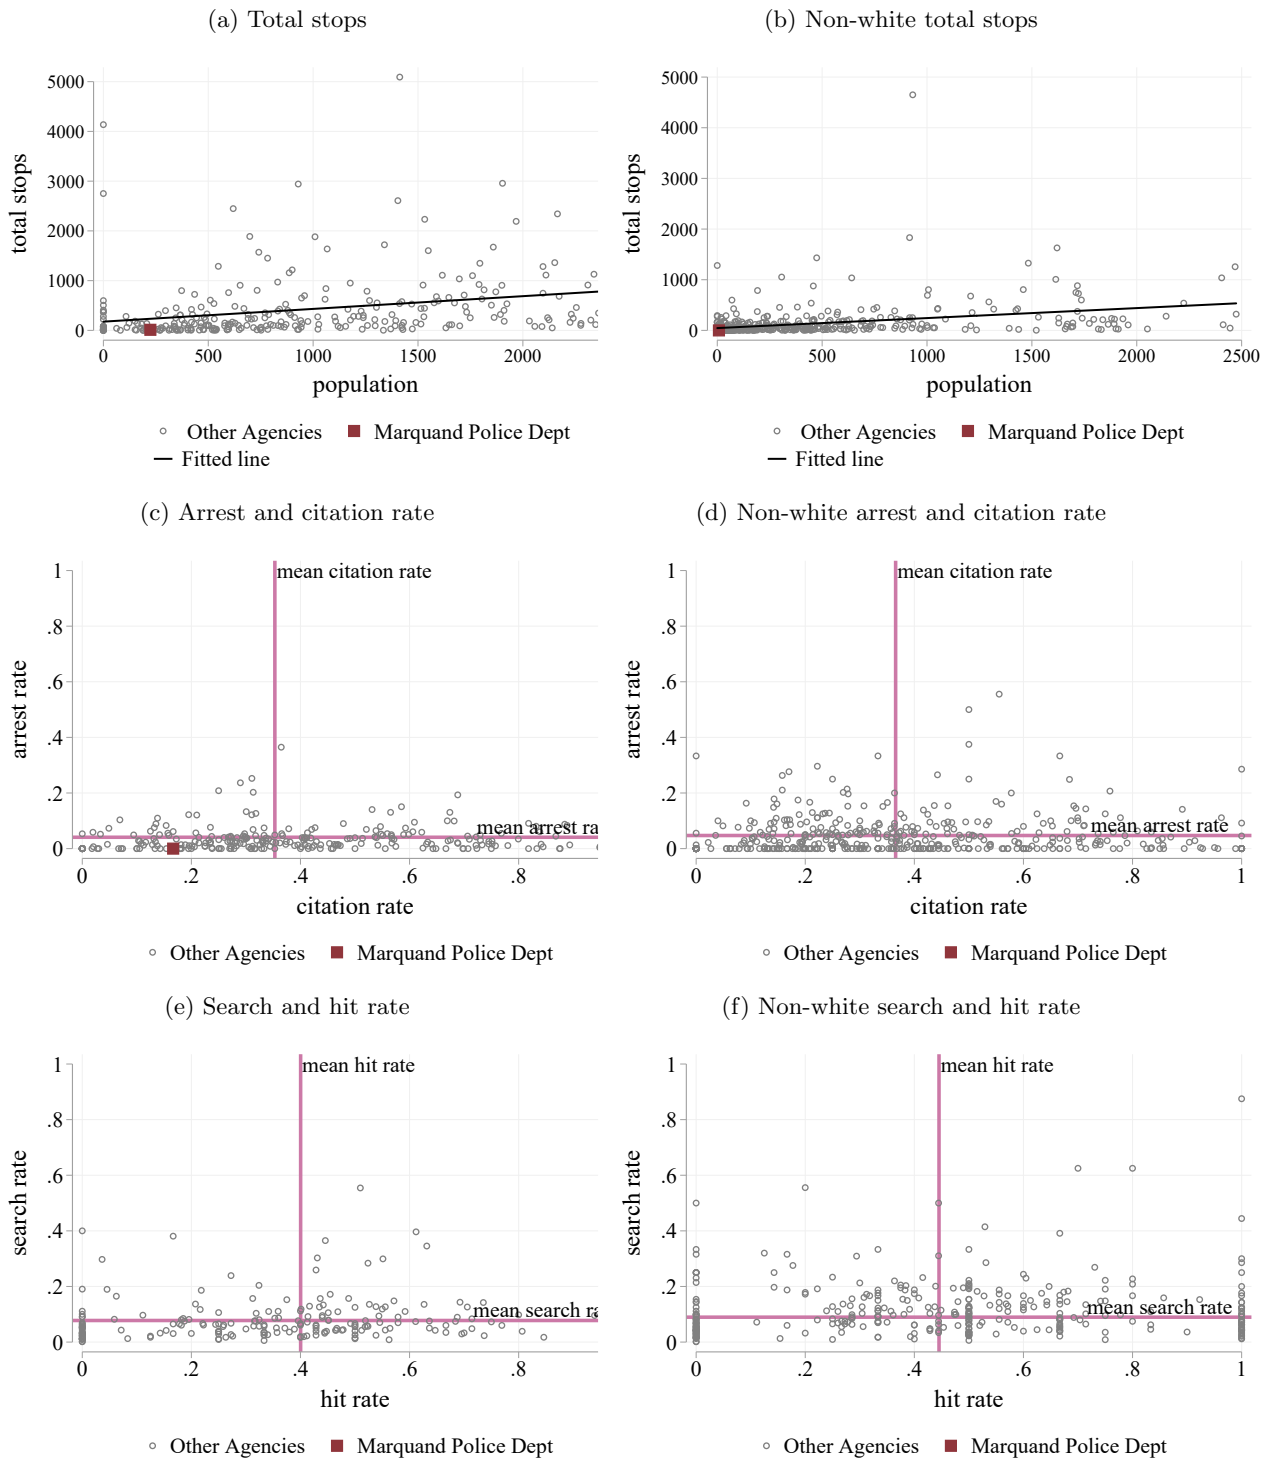

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Marquand Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Marquand Police Dept

<b>2018</b>	.94	1.67	1.04	0	1.02	.3
<b>2019</b>	1	1.48	.82	.63	.57	.13
<b>2020</b>	1.02	1.45	.78	7.69	1.2	.05

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Marshall Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 1: Rates by Race for Marshfield Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	5314	4885	79	46	92	9	215
2019 population %	100	91.93	1.49	.87	1.73	.17	4.05
<b>Totals</b>	.	.	.	.	.	.	.
All stops	748	735	8	4	0	1	0
Resident stops	515	515	0	0	0	0	0
Searches	47	44	2	1	0	0	0
Contraband	13	13	0	0	0	0	0
Arrests	51	49	1	1	0	0	0
Citations	316	310	5	1	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	14.08	15.05	10.13	8.7	0	11.11	0
Stop rate, residents	9.69	10.54	0	0	0	0	0
Search rate	6.28	5.99	25	25	.	0	.
Contraband hit rate	27.66	29.55	0	0	.	.	.
Arrest rate	6.82	6.67	12.5	25	.	0	.
Citation rate	42.25	42.18	62.5	25	.	0	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

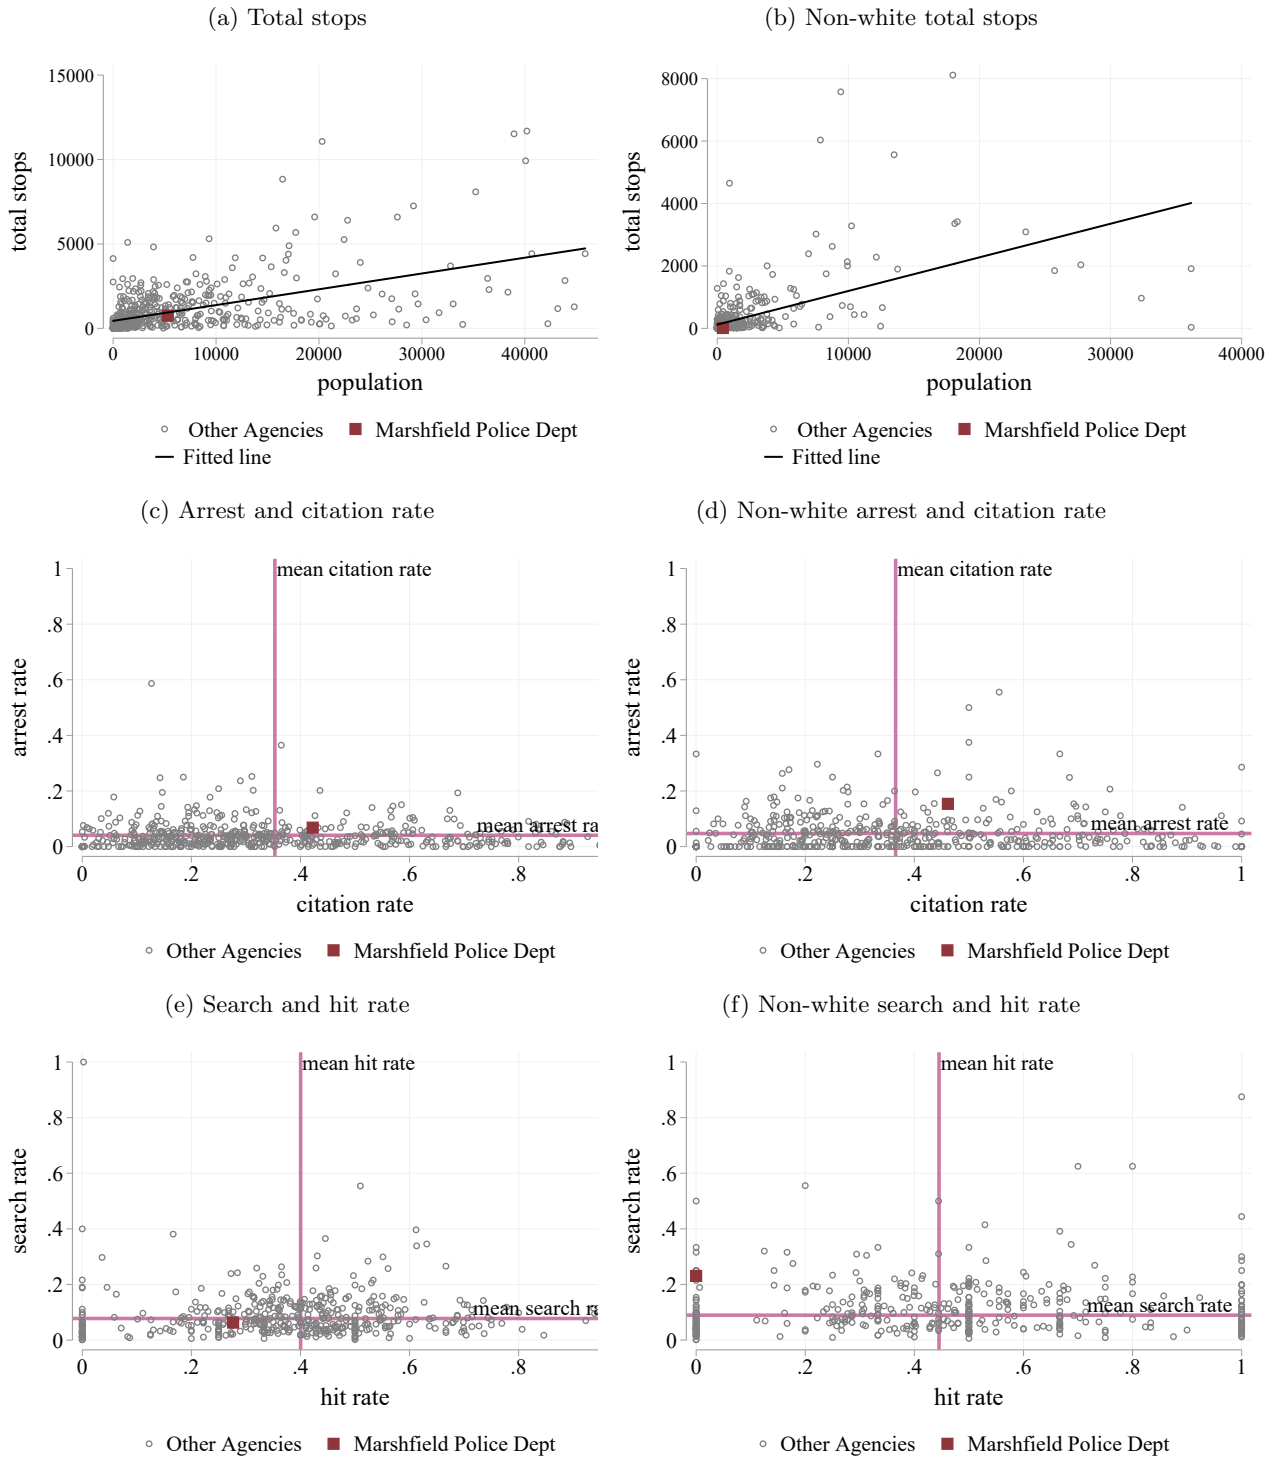

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Marshfield Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Marshfield Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Contraband	0	0	0	0	0	0	0
Arrests	0	0	0	0	0	0	0
Citations	4	4	0	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	8.49	7.83	15	50	.	.	0
Stop rate, residents	.77	.87	0	0	.	.	0
Search rate	0	0	0	0	.	.	.
Contraband hit rate	.	.	.	.	.	.	.
Arrest rate	0	0	0	0	.	.	.
Citation rate	18.18	22.22	0	0	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

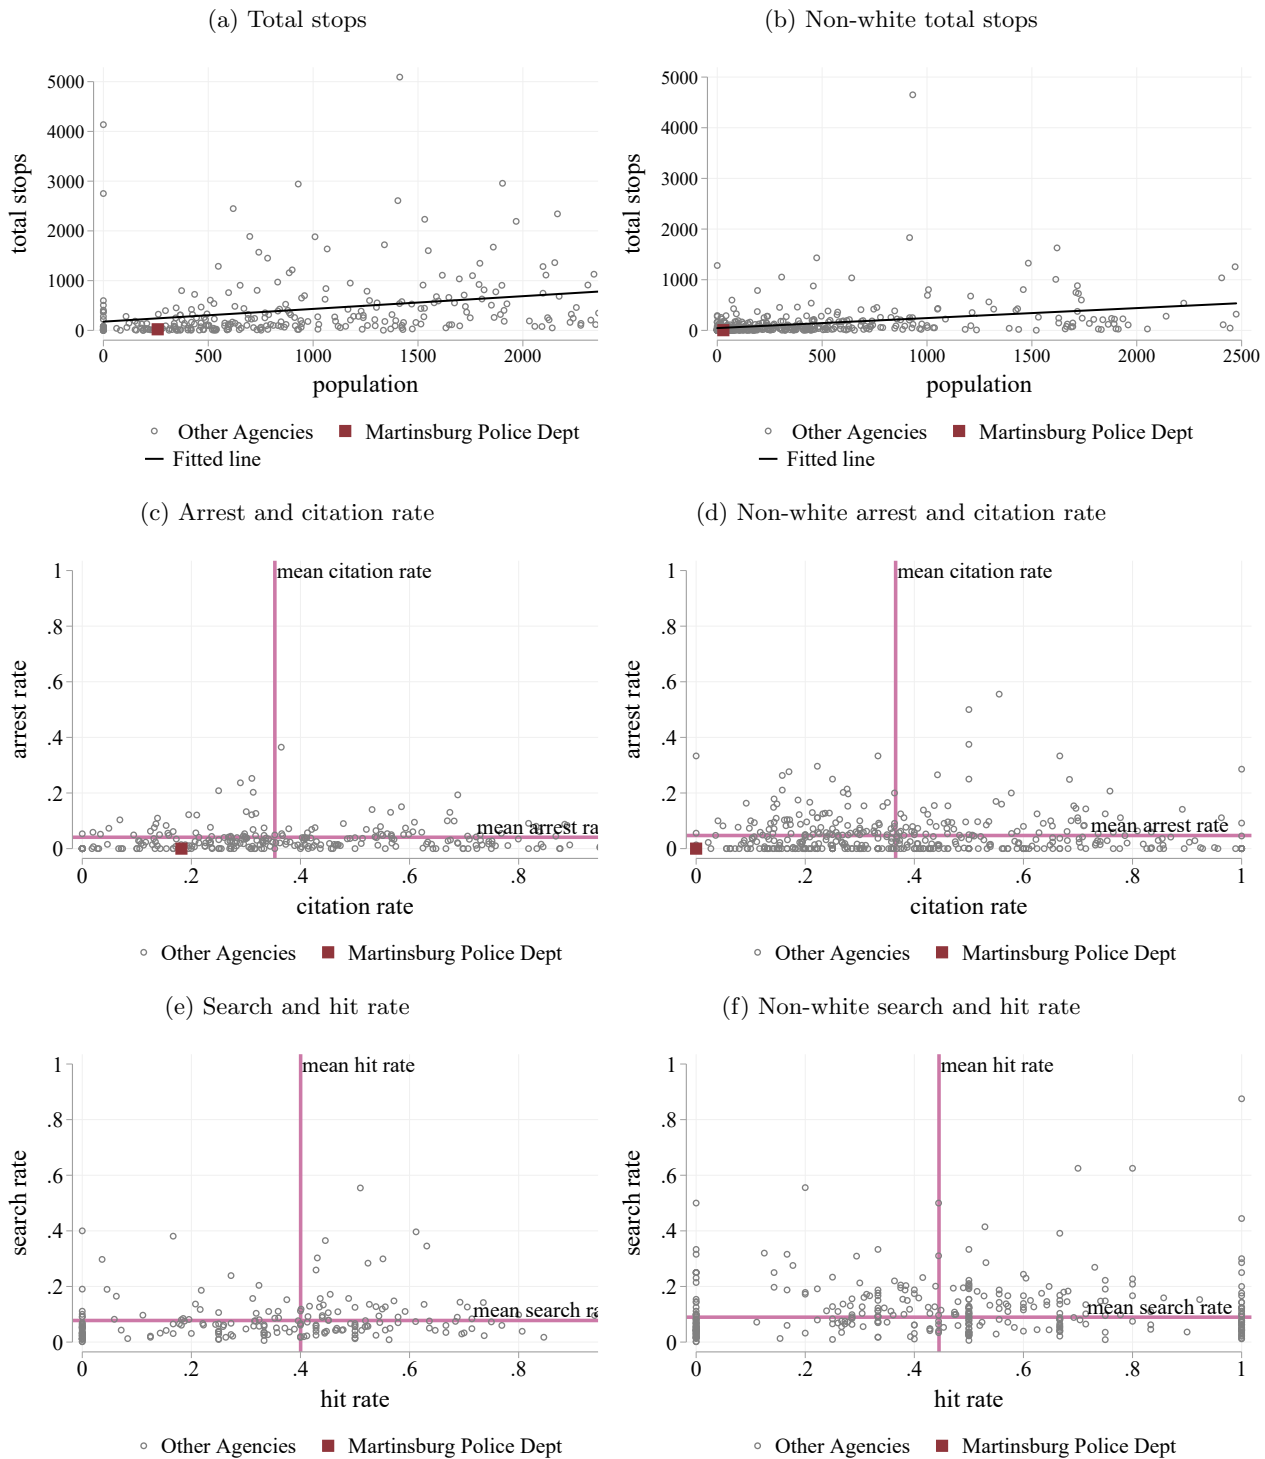

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Martinsburg Police Dept. is a part time police department with part time officers.

Figure 1: Comparison to other agencies by population for Martinsburg Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Martinsburg Police Dept

Arrests	214	180	19	10	1	3	1
Citations	484	422	31	14	4	9	4
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	18.14	17.86	27.68	19.07	17.95	16.45	3.7
Stop rate, residents	6.11	6.03	5.79	5.12	15.38	9.96	3.24
Search rate	9.09	8.92	10.85	12.2	0	7.89	12.5
Contraband hit rate	39.53	40.94	42.86	20	.	0	0
Arrest rate	11.3	10.78	14.73	24.39	14.29	7.89	12.5
Citation rate	25.57	25.27	24.03	34.15	57.14	23.68	50

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

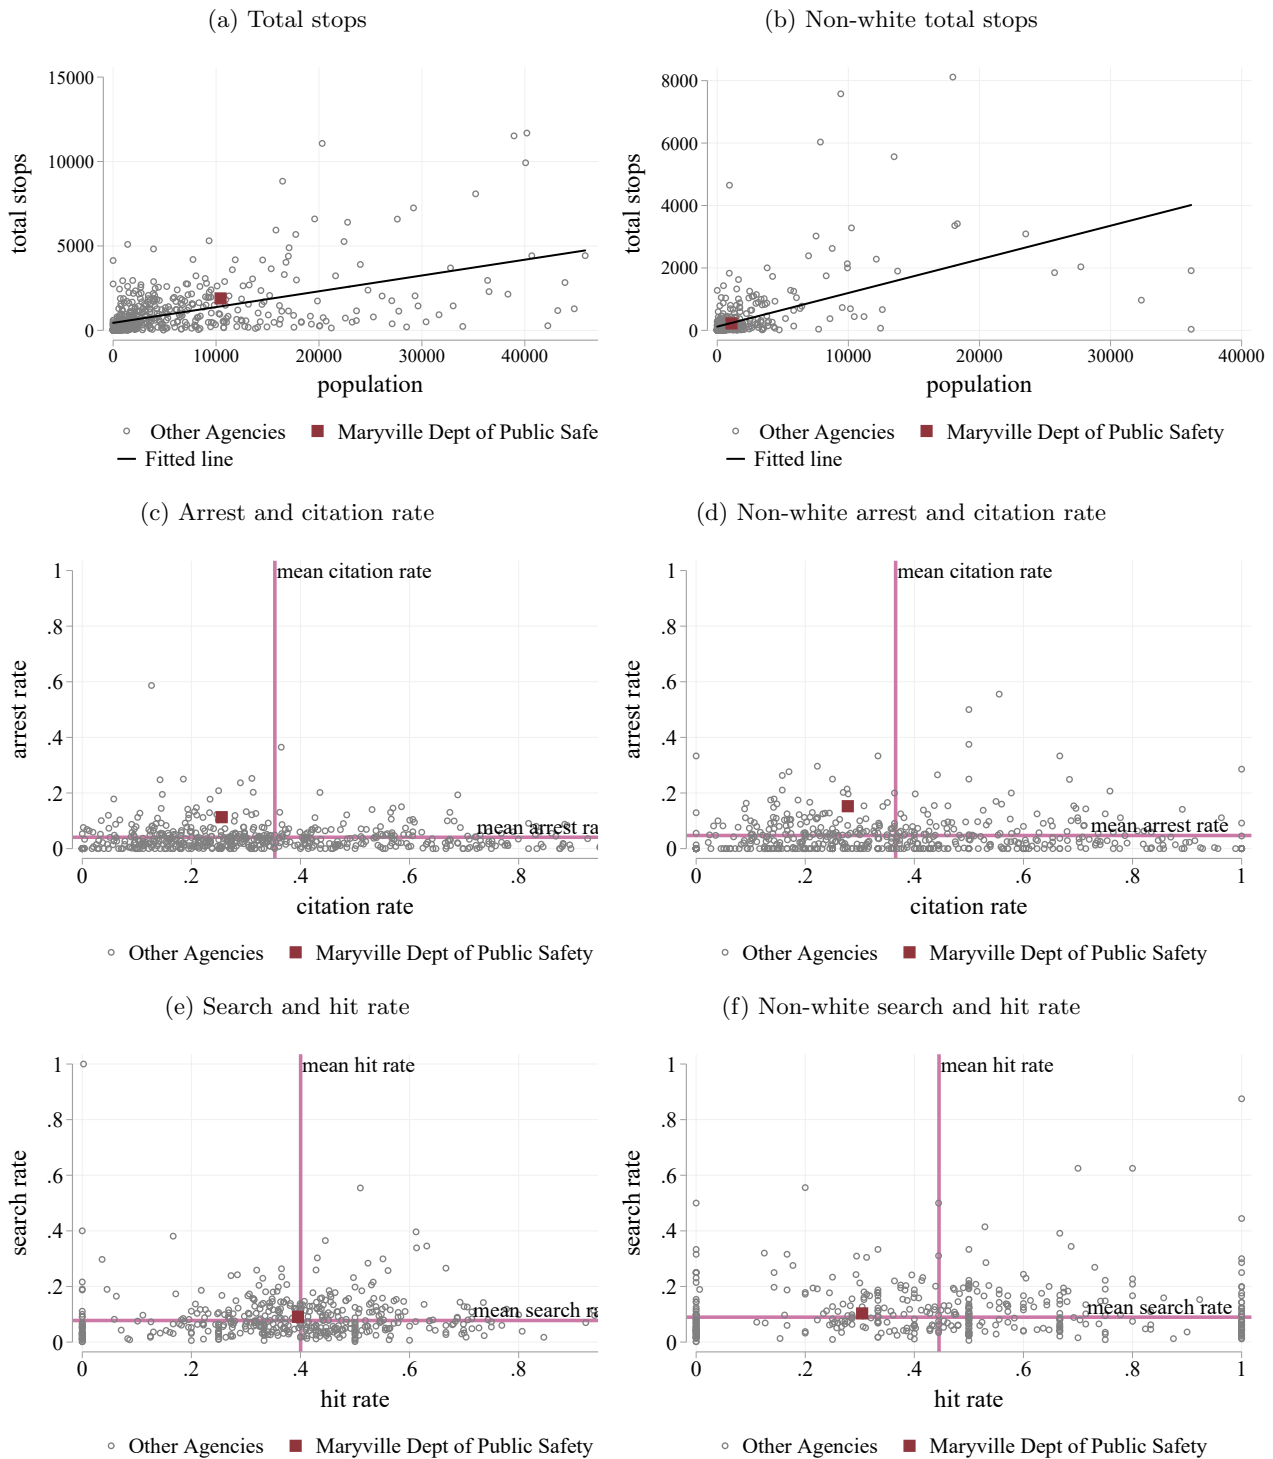

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Maryville Dept of Public Safety

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Maryville Dept of Public Safety

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	10438	9350	466	215	39	231	216
2019 population %	100	89.58	4.46	2.06	.37	2.21	2.07
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1893	1670	129	41	7	38	8
Resident stops	638	564	27	11	6	23	7
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.985	1.526	1.052	.99	.907	.204
Resident stops	.	.987	.948	.837	2.517	1.629	.53

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

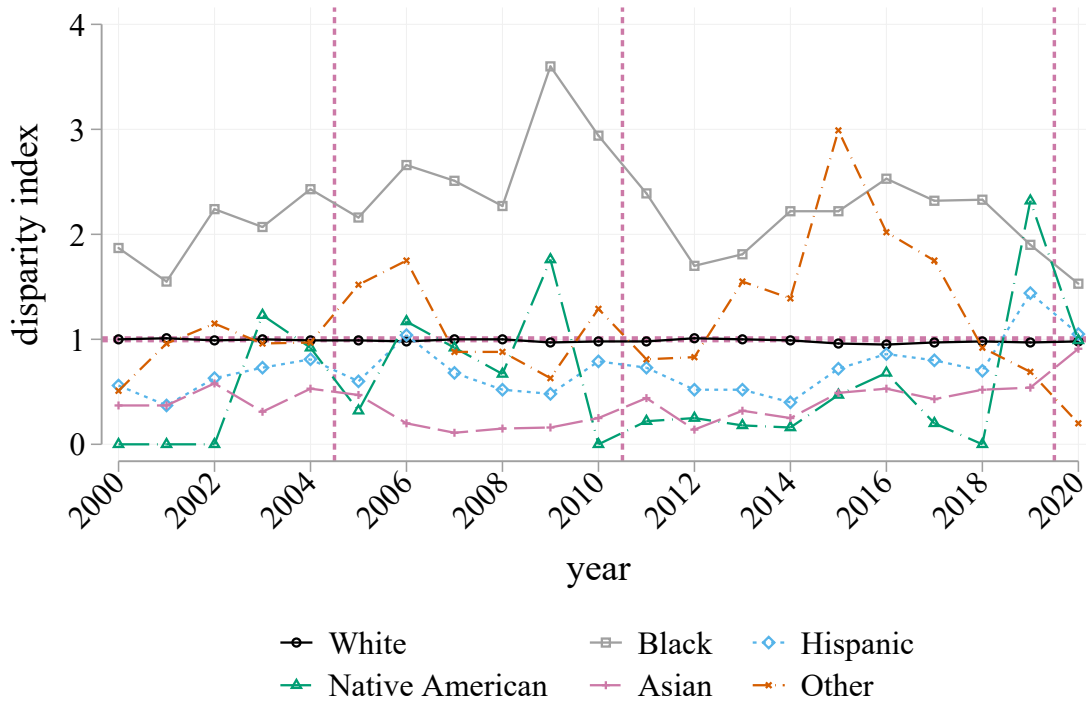

Table 3: Disparity Index from 2000 to 2020 for Maryville Dept of Public Safety

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>

<b>2020</b>	.98	1.53	1.05	.99	.91	.2

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Maryville Dept of Public Safety

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 1: Rates by Race for McDonald County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	17569	14140	297	1601	534	286	1015
2019 population %	100	80.48	1.69	9.11	3.04	1.63	5.78
<b>Totals</b>	.	.	.	.	.	.	.
All stops	186	142	10	28	4	2	0
Resident stops	97	78	2	15	1	1	0
Searches	16	13	0	2	1	0	0
Contraband	11	10	0	0	1	0	0
Arrests	4	4	0	0	0	0	0
Citations	7	5	0	2	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	1.06	1	3.37	1.75	.75	.7	0
Stop rate, residents	.55	.55	.67	.94	.19	.35	0
Search rate	8.6	9.15	0	7.14	25	0	.
Contraband hit rate	68.75	76.92	.	0	100	.	.
Arrest rate	2.15	2.82	0	0	0	0	.
Citation rate	3.76	3.52	0	7.14	0	0	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

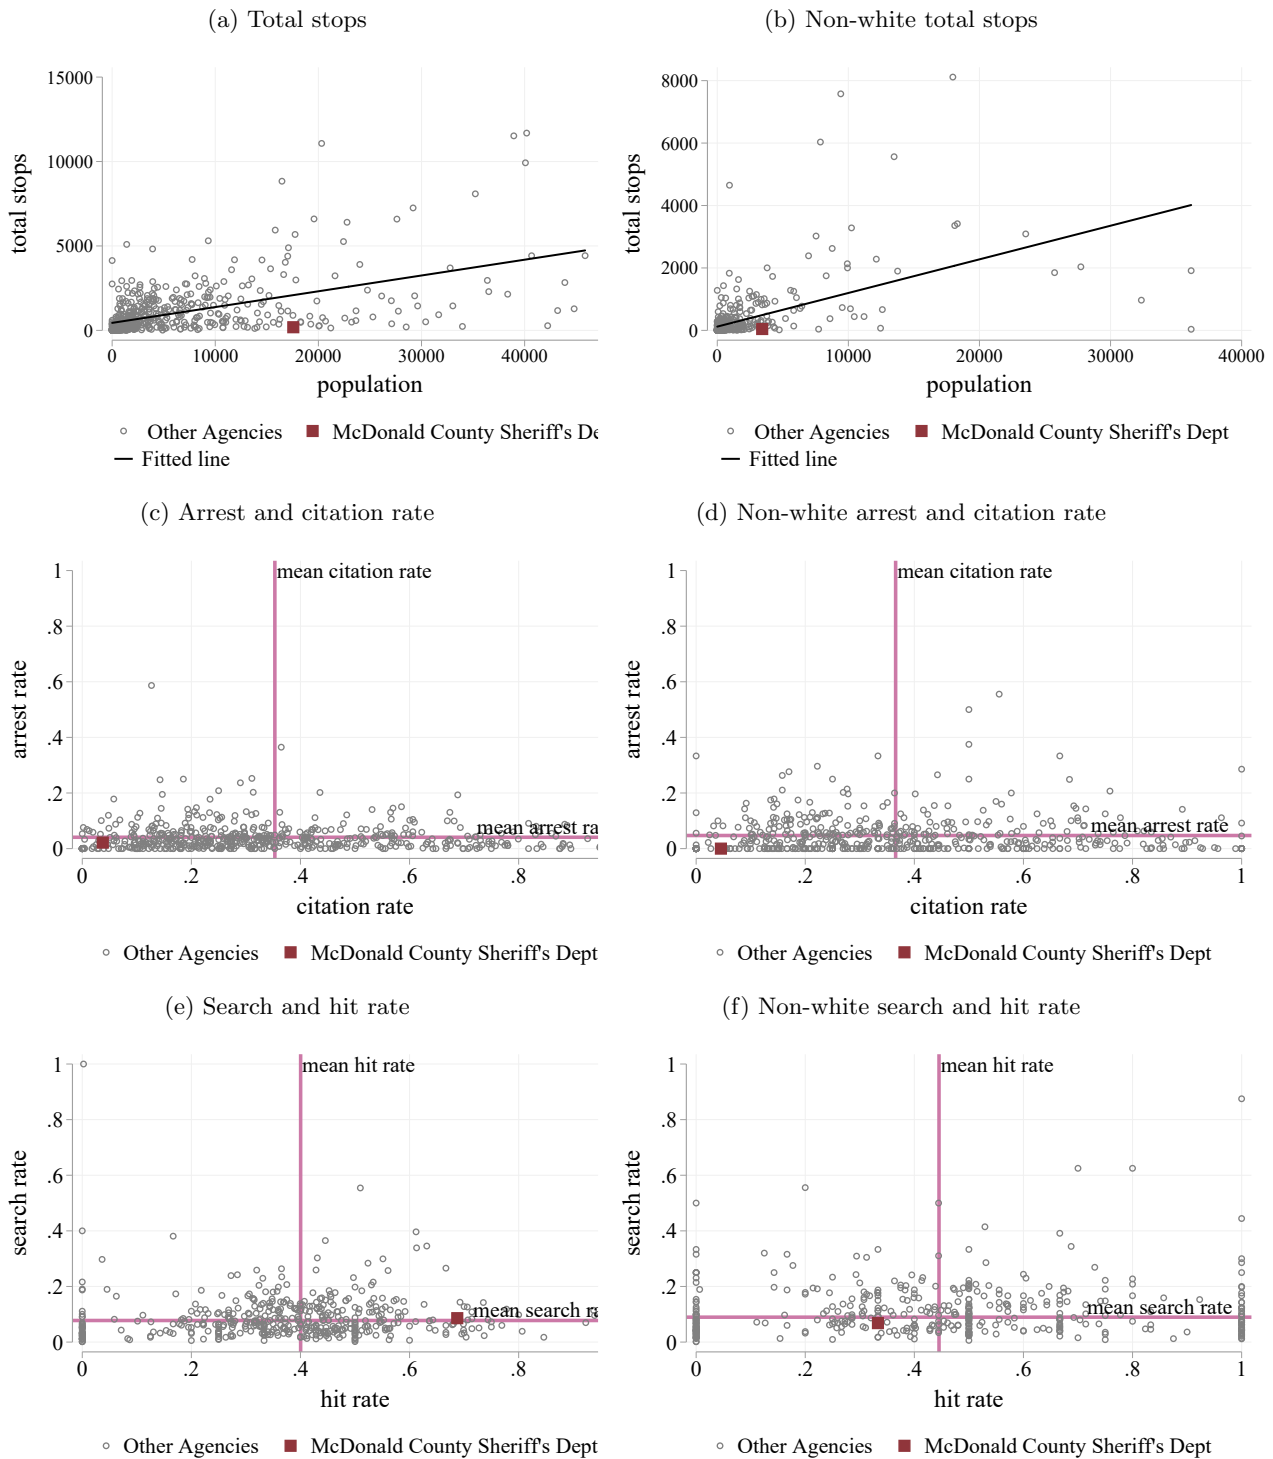

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

McDonald County Sheriff's Dept. covers Interstate 49 and is near the Northwest Arkansas Metropolitan Statistical Area.

Figure 1: Comparison to other agencies by population for McDonald County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for McDonald County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.

### 1.317 Mercer County Sheriff's Dept

Table 1: Rates by Race for Mercer County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	2851	2787	13	51	0	0	11
2019 population %	100	97.76	.46	1.79	0	0	.39
<b>Totals</b>	.	.	.	.	.	.	.
All stops	33	28	0	4	0	1	0
Resident stops	24	20	0	4	0	0	0
Searches	0	0	0	0	0	0	0
Contraband	0	0	0	0	0	0	0
Arrests	4	4	0	0	0	0	0
Citations	16	13	0	3	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	1.16	1	0	7.84	.	.	0
Stop rate, residents	.84	.72	0	7.84	.	.	0
Search rate	0	0	.	0	.	0	.
Contraband hit rate	.	.	.	.	.	.	.
Arrest rate	12.12	14.29	.	0	.	0	.
Citation rate	48.48	46.43	.	75	.	0	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

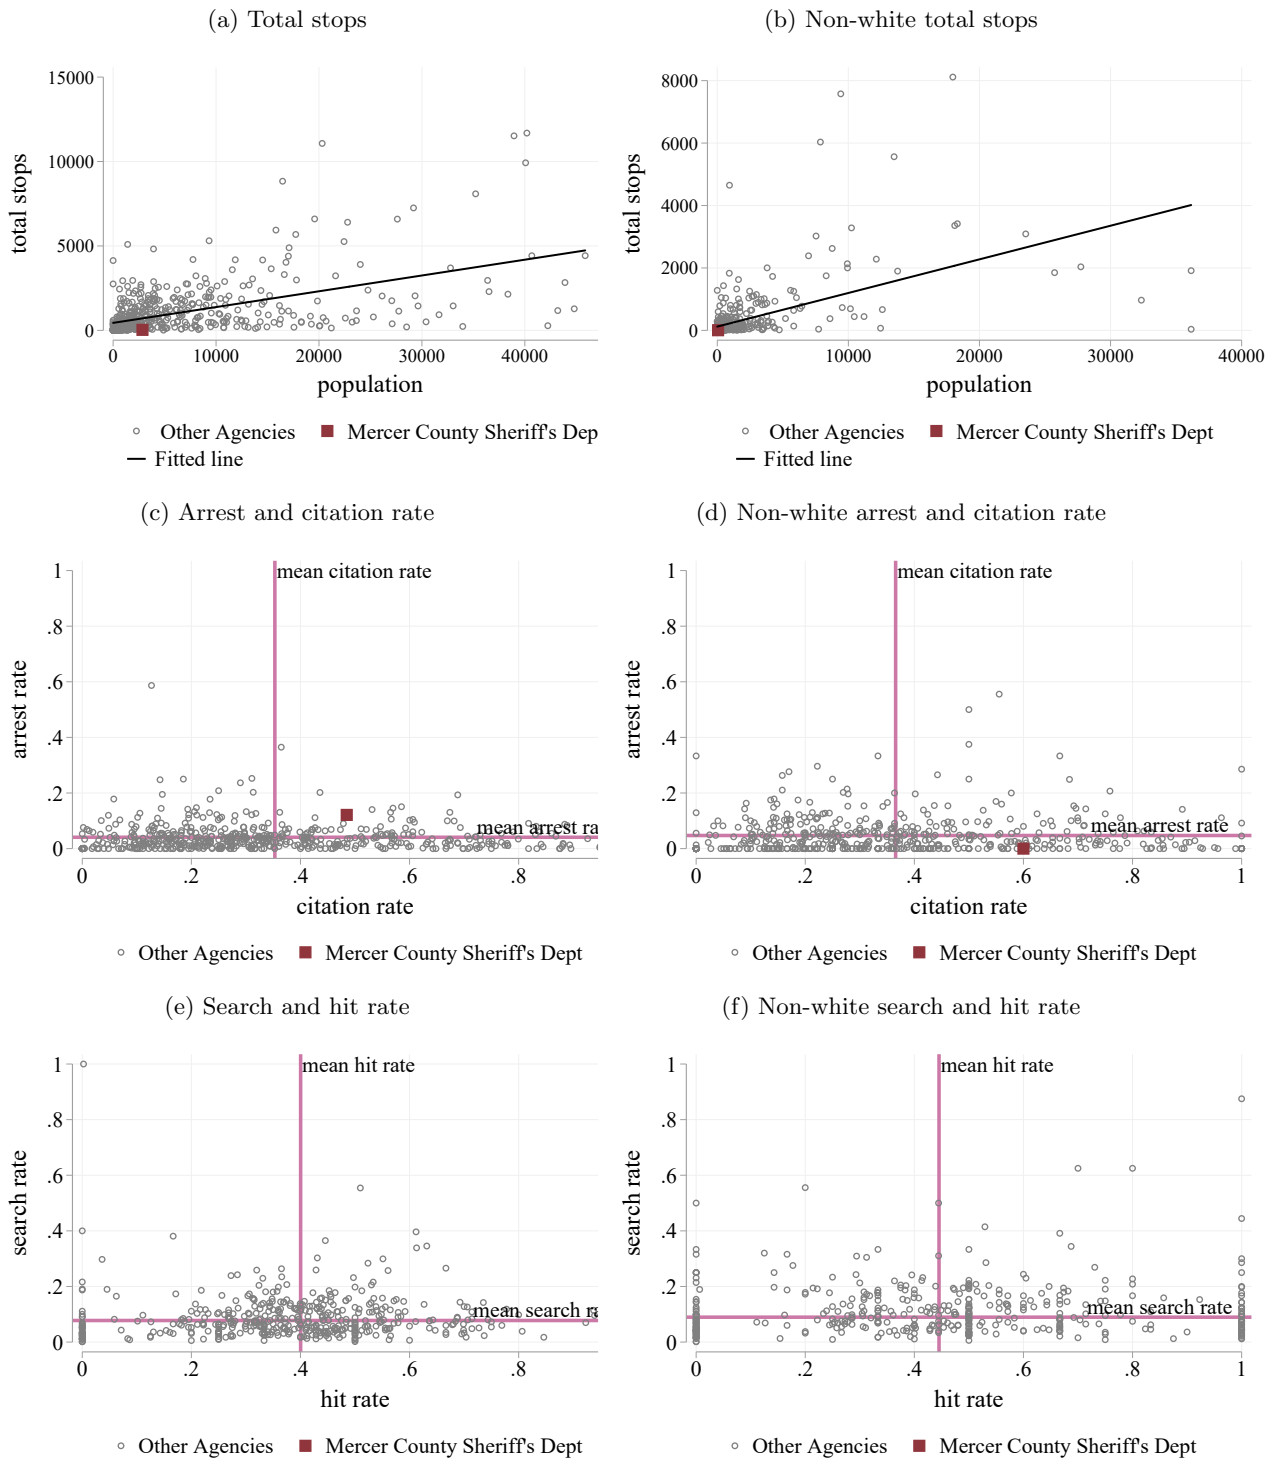

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Mercer County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Mercer County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	2851	2787	13	51	0	0	11
2019 population %	100	97.76	.46	1.79	0	0	.39
<b>Stops</b>	.	.	.	.	.	.	.
All stops	33	28	0	4	0	1	0
Resident stops	24	20	0	4	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.868	0	6.776	.	.	0
Resident stops	.	.852	0	9.317	.	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

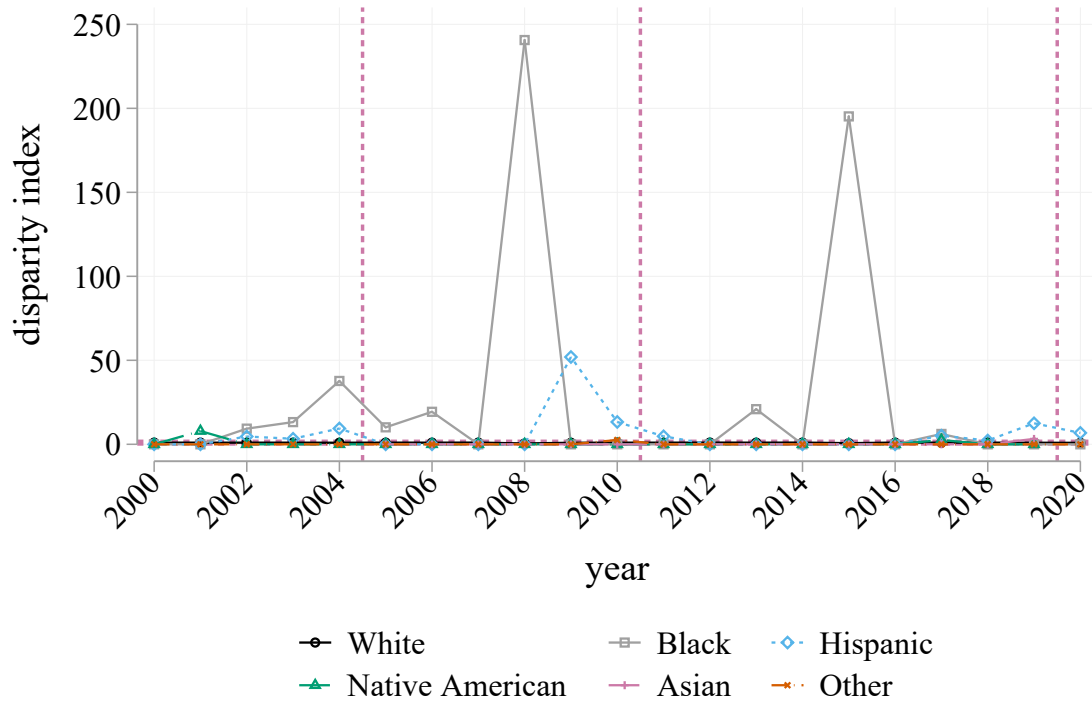

Table 3: Disparity Index from 2000 to 2020 for Mercer County Sheriff's Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>

<b>2014</b>	1.02	0	0	0	0	0
<b>2015</b>	.68	195.2	0	0	0	0
<b>2016</b>	1.02	0	0	0	0	0
<b>2017</b>	.97	6.16	5.14	2.57	0	0
<b>2018</b>	1.01	0	2.26	0	0	0
<b>2019</b>	.93	0	12.51	0	3.22	0
<b>2020</b>	.87	0	6.78	.	.	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Mercer County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Resident stops	1209	942	222	38	0	4	3
Searches	137	91	41	5	0	0	0
Contraband	38	25	13	0	0	0	0
Arrests	129	84	42	3	0	0	0
Citations	361	275	69	15	0	1	1
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	22.13	21.06	44.44	17.78	0	233.33	2.61
Stop rate, residents	13.47	12.14	35.75	11.08	0	133.33	.98
Search rate	6.9	5.57	14.86	8.2	.	0	0
Contraband hit rate	27.74	27.47	31.71	0	.	.	.
Arrest rate	6.5	5.14	15.22	4.92	.	0	0
Citation rate	18.18	16.83	25	24.59	.	14.29	12.5

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

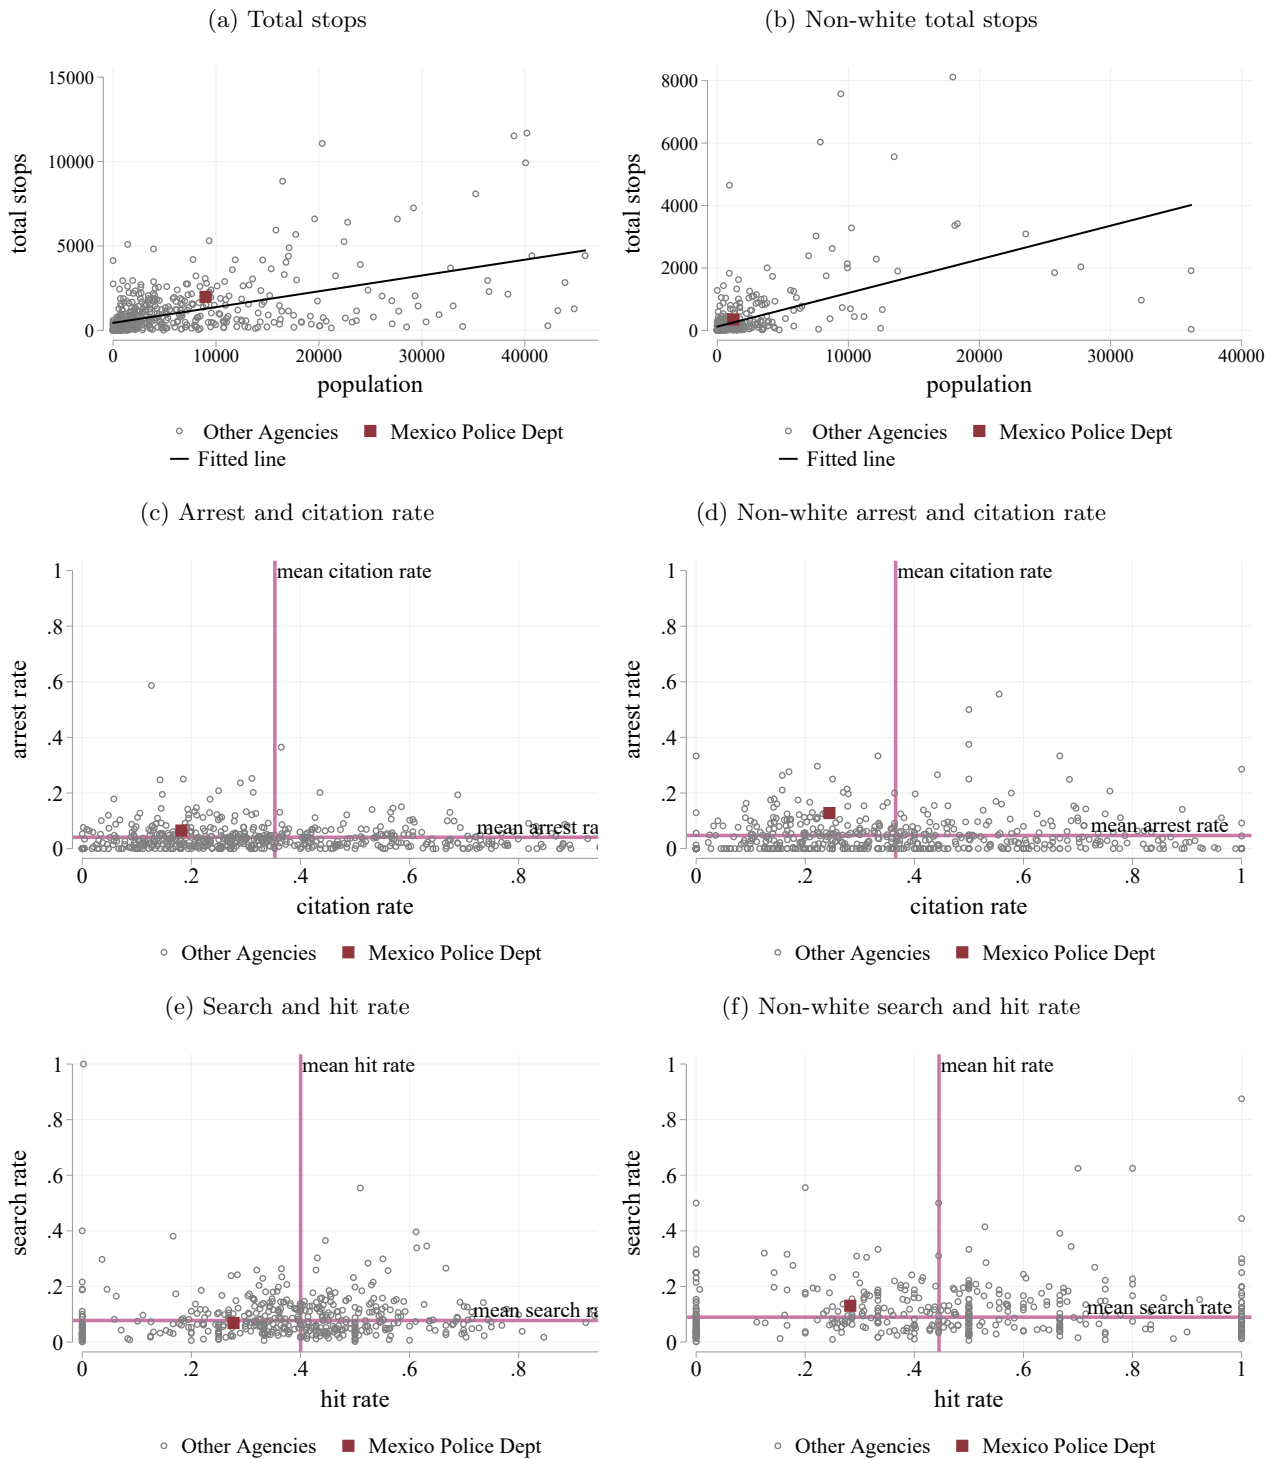

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Mexico Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Mexico Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	8974	7759	621	343	30	3	306
2019 population %	100	86.46	6.92	3.82	.33	.03	3.41
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1986	1634	276	61	0	7	8
Resident stops	1209	942	222	38	0	4	3
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.952	2.008	.804	0	10.543	.118
Resident stops	.	.901	2.654	.822	0	9.897	.073

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

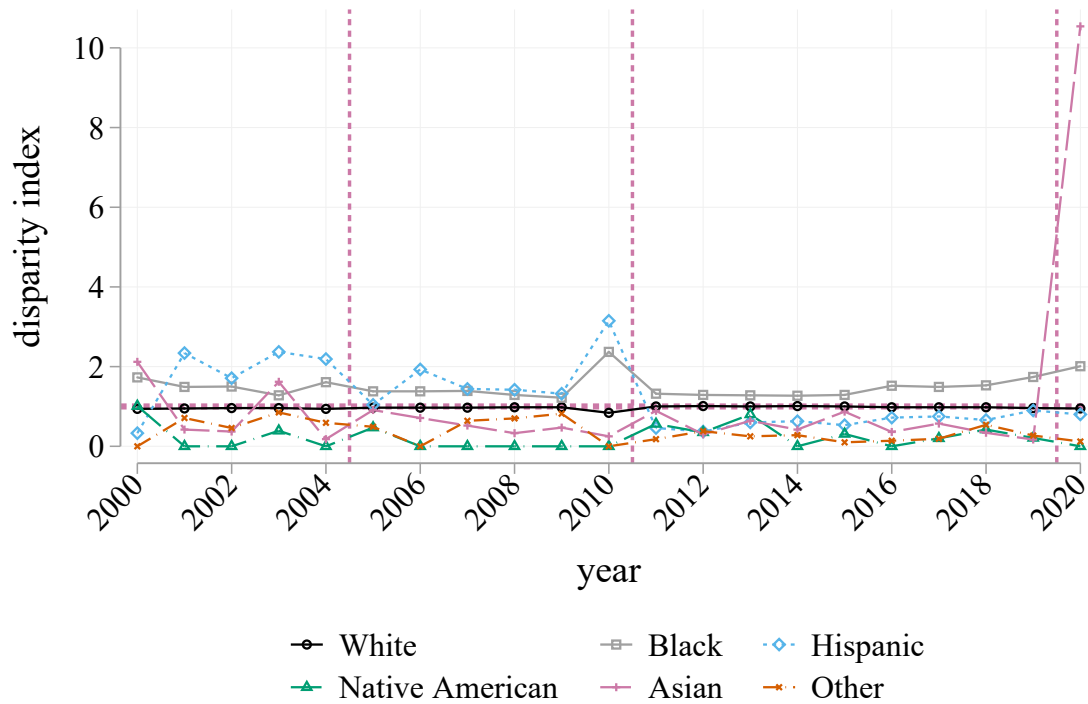

Table 3: Disparity Index from 2000 to 2020 for Mexico Police Dept

### 1.321 Miller County Sheriff's Dept

Table 1: Rates by Race for Miller County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	19853	19001	63	316	303	56	129
2019 population %	100	95.71	.32	1.59	1.53	.28	.65
<b>Totals</b>	.	.	.	.	.	.	.
All stops	1740	1651	51	15	0	6	17
Resident stops	938	927	4	2	0	0	5
Searches	203	185	14	1	0	1	2
Contraband	71	62	7	1	0	0	1
Arrests	232	214	12	4	0	0	2
Citations	358	334	12	6	0	1	5
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	8.76	8.69	80.95	4.75	0	10.71	13.18
Stop rate, residents	4.72	4.88	6.35	.63	0	0	3.88
Search rate	11.67	11.21	27.45	6.67	.	16.67	11.76
Contraband hit rate	34.98	33.51	50	100	.	0	50
Arrest rate	13.33	12.96	23.53	26.67	.	0	11.76
Citation rate	20.57	20.23	23.53	40	.	16.67	29.41

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

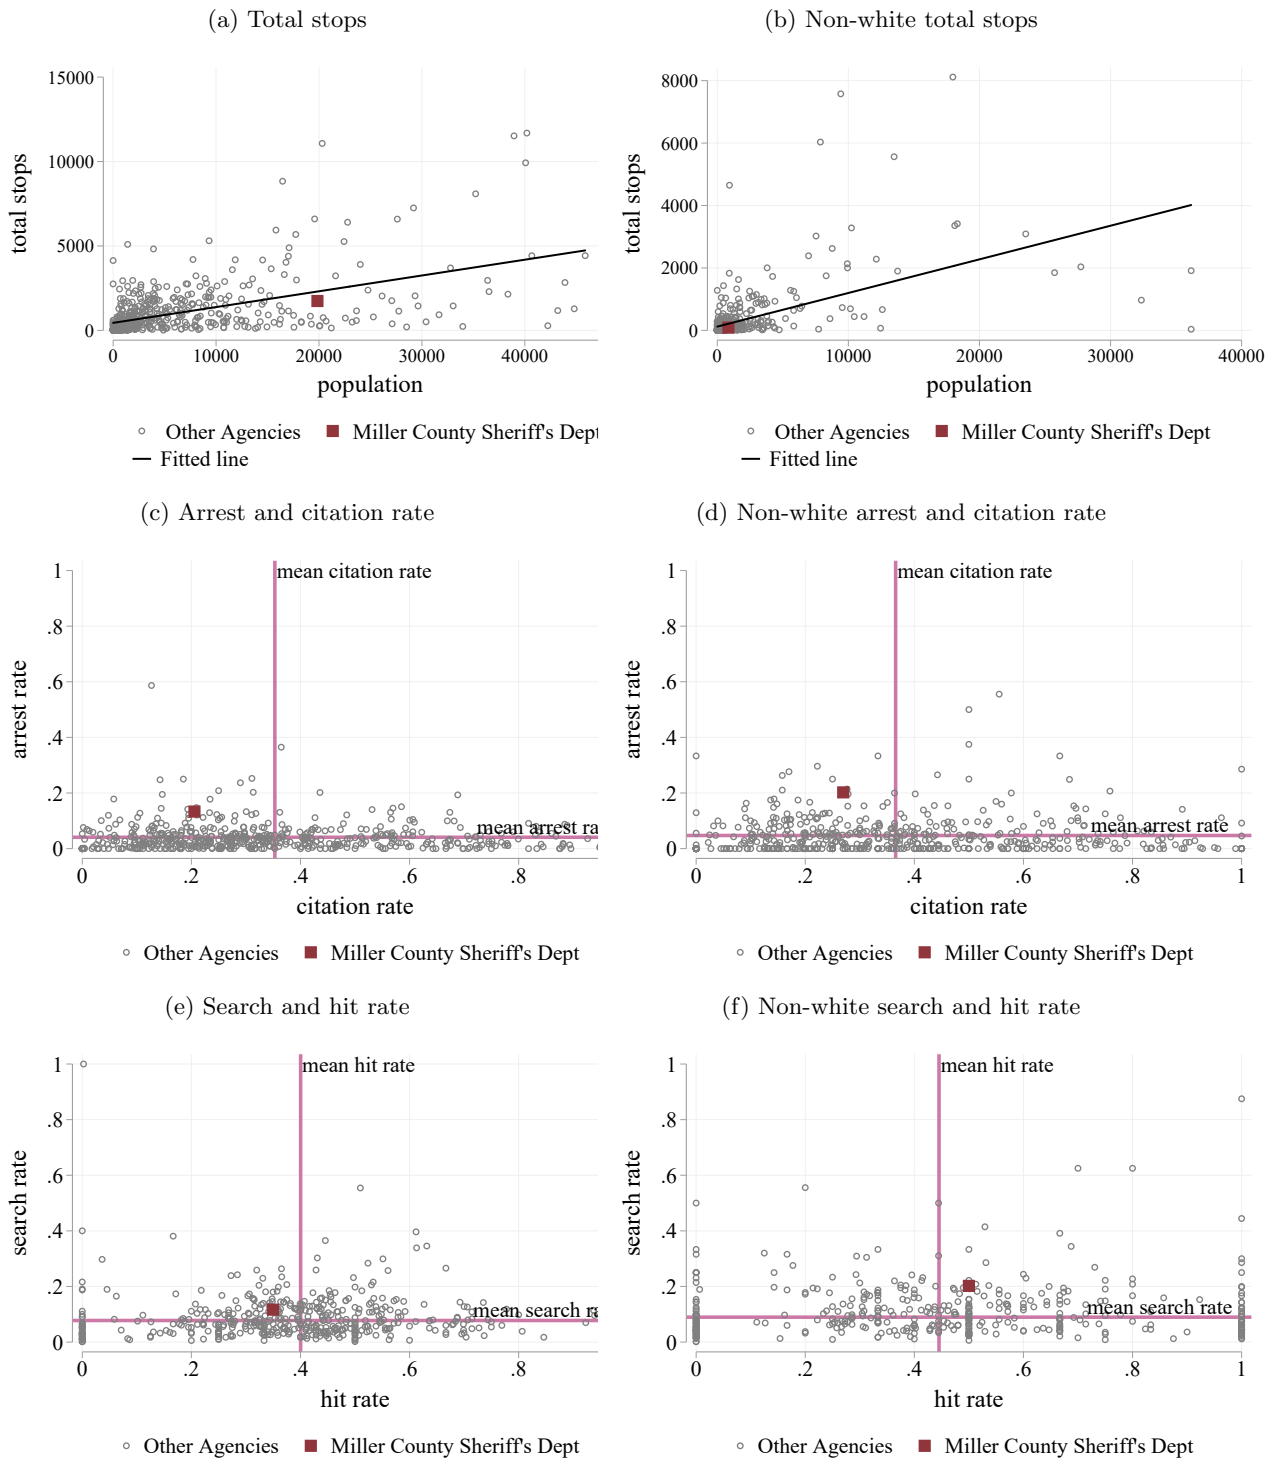

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Miller County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Miller County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	19853	19001	63	316	303	56	129
2019 population %	100	95.71	.32	1.59	1.53	.28	.65
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1740	1651	51	15	0	6	17
Resident stops	938	927	4	2	0	0	5
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.991	9.236	.542	0	1.222	1.504
Resident stops	.	1.033	1.344	.134	0	0	.82

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

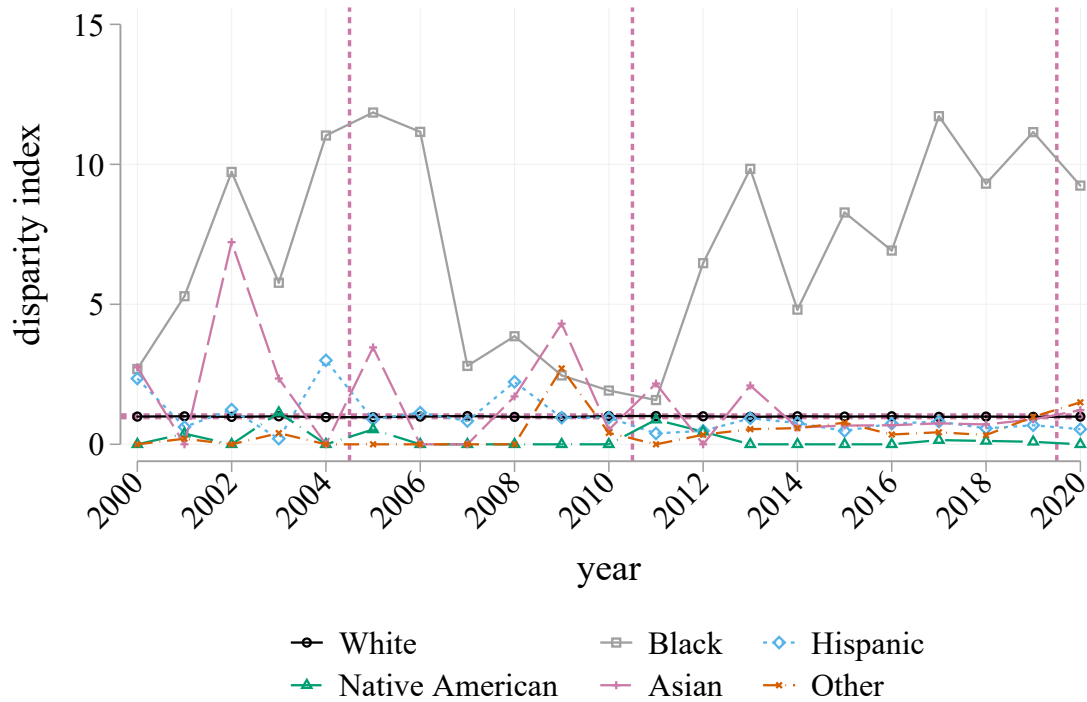

Table 3: Disparity Index from 2000 to 2020 for Miller County Sheriff's Dept

### 1.323 Mississippi County Sheriff's Dept

Table 1: Rates by Race for Mississippi County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	11021	7963	2635	217	122	9	127
2019 population %	100	72.25	23.91	1.97	1.11	.08	1.15
<b>Totals</b>	.	.	.	.	.	.	.
All stops	479	301	97	4	2	1	74
Resident stops	479	301	97	4	2	1	74
Searches	116	73	17	1	1	0	24
Contraband	33	16	7	1	0	0	9
Arrests	0	0	0	0	0	0	0
Citations	19	10	5	2	1	0	1
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	4.35	3.78	3.68	1.84	1.64	11.11	58.27
Stop rate, residents	4.35	3.78	3.68	1.84	1.64	11.11	58.27
Search rate	24.22	24.25	17.53	25	50	0	32.43
Contraband hit rate	28.45	21.92	41.18	100	0	.	37.5
Arrest rate	0	0	0	0	0	0	0
Citation rate	3.97	3.32	5.15	50	50	0	1.35

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

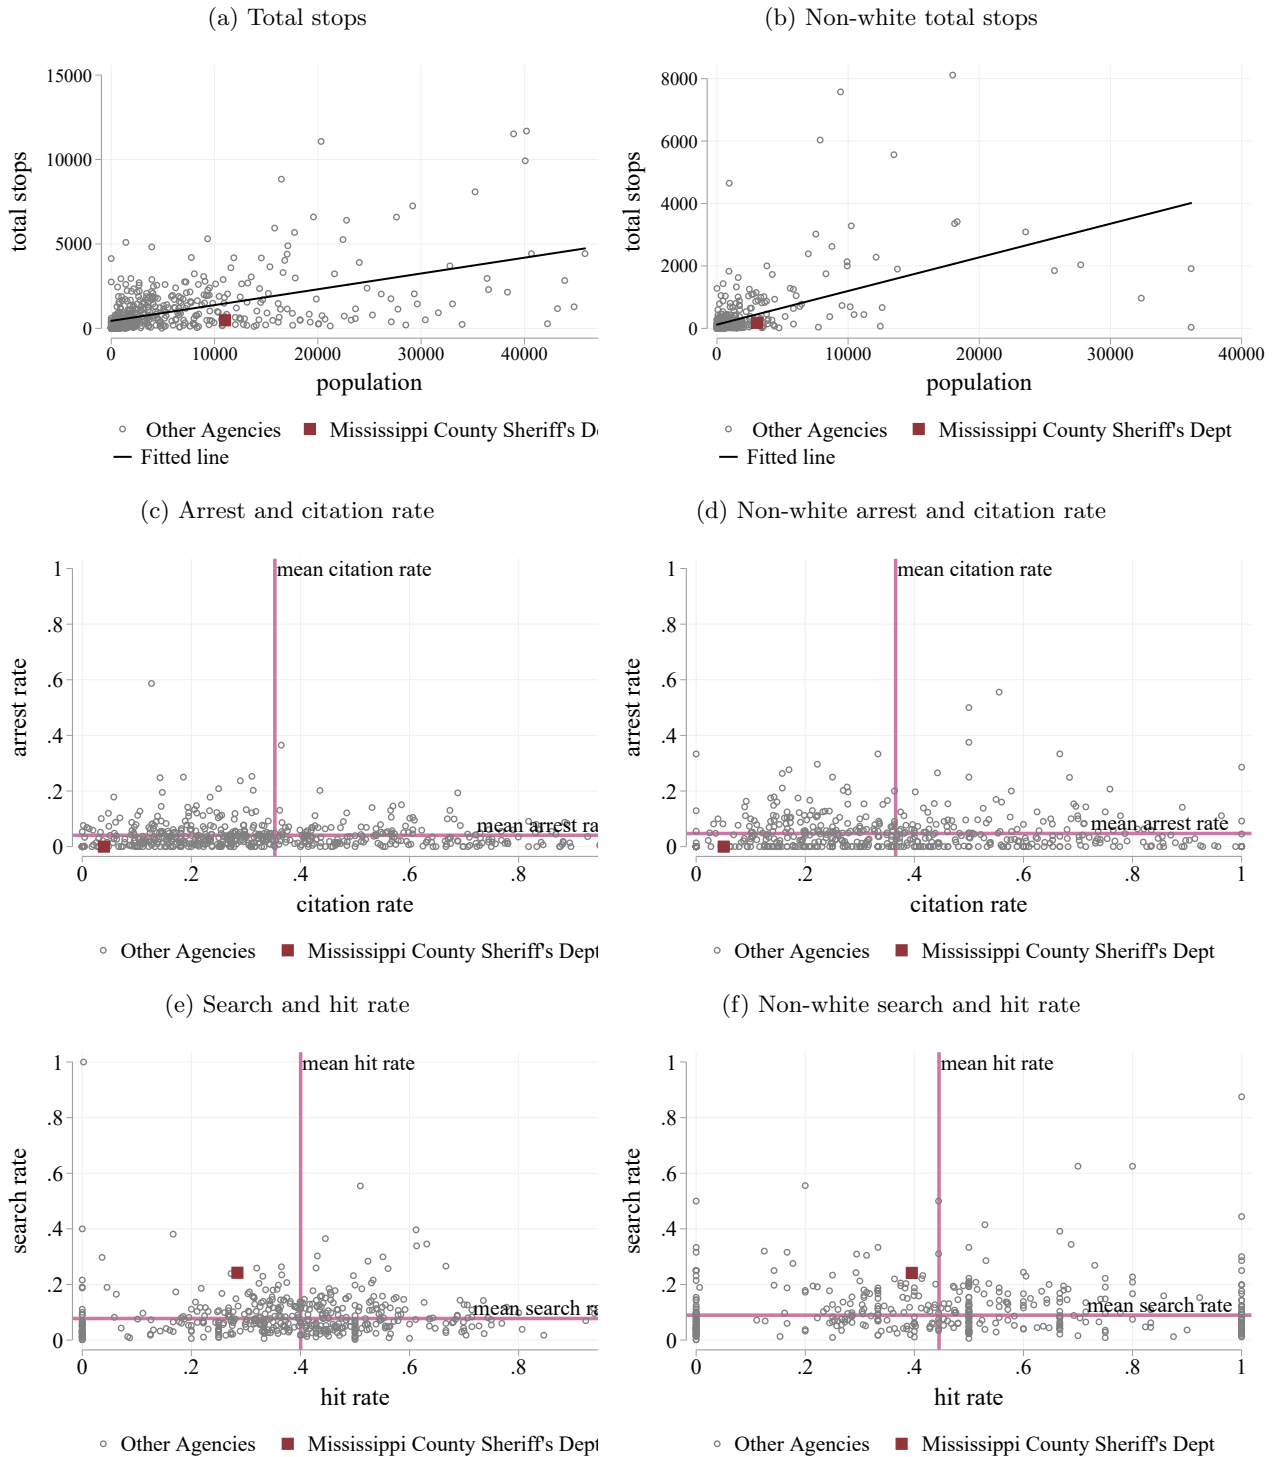

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Mississippi County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Mississippi County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	11021	7963	2635	217	122	9	127
2019 population %	100	72.25	23.91	1.97	1.11	.08	1.15
<b>Stops</b>	.	.	.	.	.	.	.
All stops	479	301	97	4	2	1	74
Resident stops	479	301	97	4	2	1	74
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.87	.847	.424	.377	2.556	13.406
Resident stops	.	.87	.847	.424	.377	2.556	13.406

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

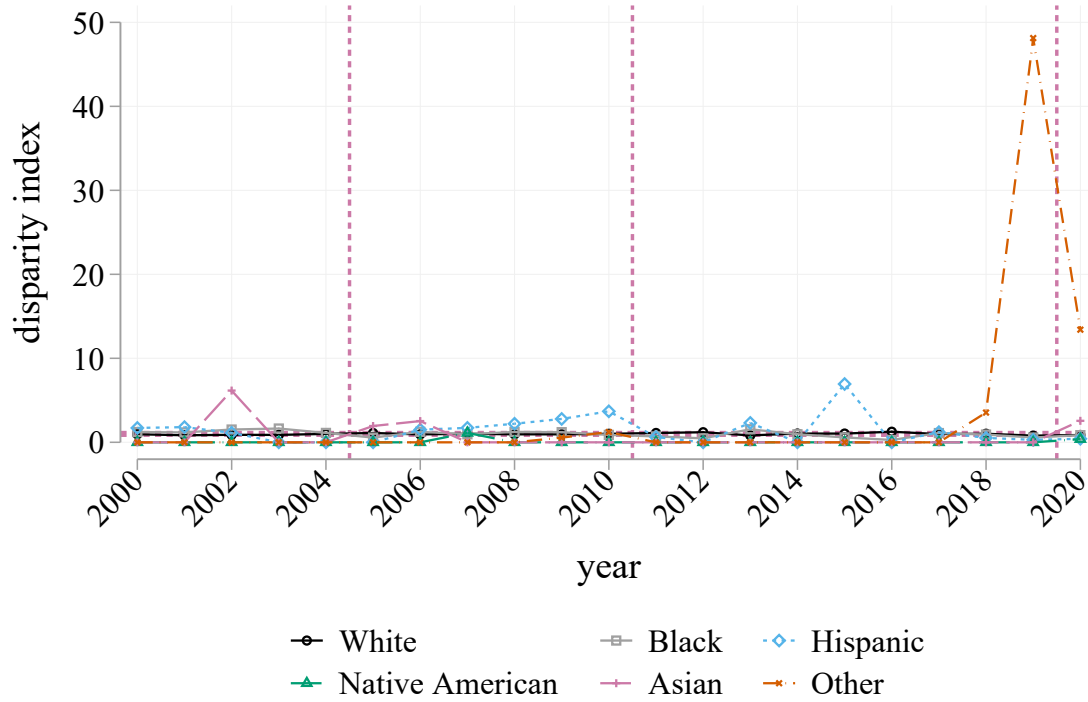

Table 3: Disparity Index from 2000 to 2020 for Mississippi County Sheriff's Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	.96	1.22	1.71	0	0	0

<b>2006</b>	.94	1.25	1.51	0	2.53	0
<b>2007</b>	1.02	.96	1.72	1.12	0	0
<b>2008</b>	.95	1.24	2.21	0	0	0
<b>2009</b>	.95	1.21	2.78	0	0	.56
<b>2010</b>	1.01	.88	3.69	0	0	1.22
<b>2011</b>	1.11	.7	.63	0	0	0
<b>2012</b>	1.2	.47	0	0	0	0
<b>2013</b>	.82	1.55	2.31	0	0	0
<b>2014</b>	1.04	.96	0	0	0	0
<b>2015</b>	1.04	.58	6.94	0	0	0
<b>2016</b>	1.26	.28	0	0	0	0
<b>2017</b>	.98	1.1	1.21	0	0	0
<b>2018</b>	1.02	.92	.52	0	0	3.54
<b>2019</b>	.79	.57	.3	0	0	48.13
<b>2020</b>	.87	.85	.42	.38	2.56	13.41

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Mississippi County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

### 1.325 Missouri Dept Natural Resources-Park Rangers

Table 1: Rates by Race for Missouri Dept Natural Resources-Park Rangers

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	.	.	.	.	.	.	.
2019 population %	.	.	.	.	.	.	.
<b>Totals</b>	.	.	.	.	.	.	.
All stops	2751	2475	97	129	5	25	20
Resident stops	0	0	0	0	0	0	0
Searches	263	253	9	1	0	0	0
Contraband	247	238	8	1	0	0	0
Arrests	80	75	4	1	0	0	0
Citations	909	847	39	13	1	6	3
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	.	.	.	.	.	.	.
Stop rate, residents	.	.	.	.	.	.	.
Search rate	9.56	10.22	9.28	.78	0	0	0
Contraband hit rate	93.92	94.07	88.89	100	.	.	.
Arrest rate	2.91	3.03	4.12	.78	0	0	0
Citation rate	33.04	34.22	40.21	10.08	20	24	15

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

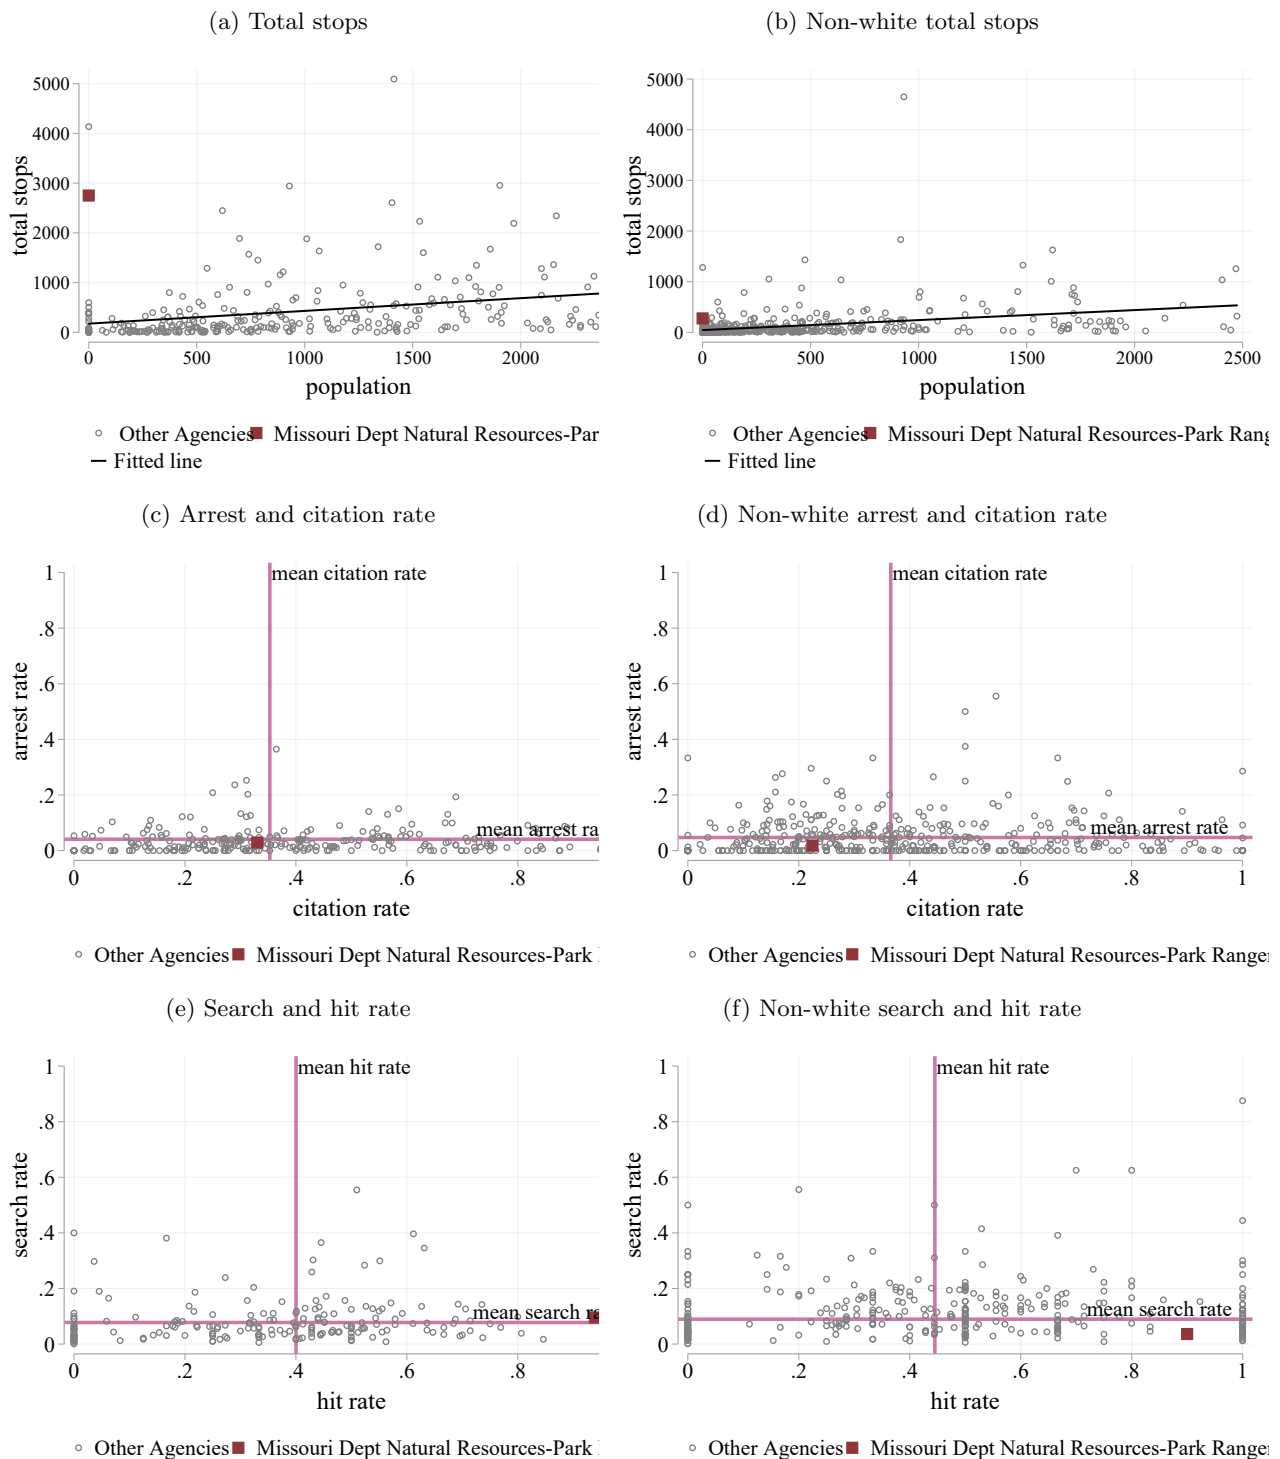

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Missouri Dept Natural Resources-Park Rangers

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Missouri Dept Natural Resources-Park Rangers

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	.	.	.	.	.	.	.
2019 population %	.	.	.	.	.	.	.
<b>Stops</b>	.	.	.	.	.	.	.
All stops	2751	2475	97	129	5	25	20
Resident stops	0	0	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.	.	.	.	.	.
Resident stops	.	.	.	.	.	.	.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

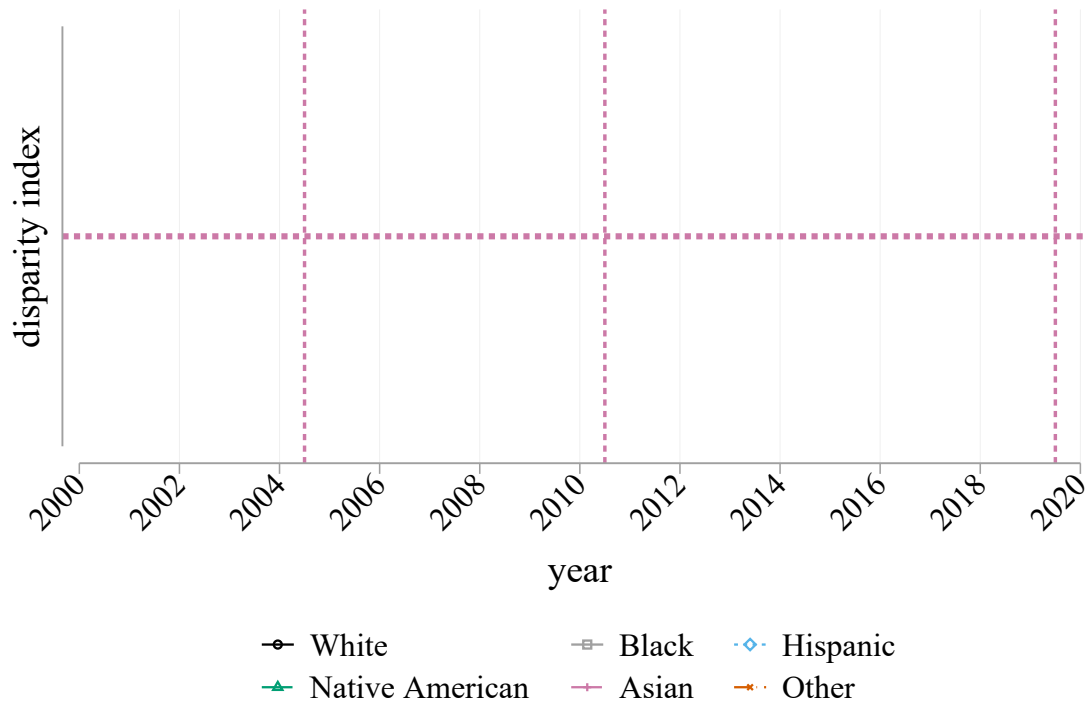

Table 3: Disparity Index from 2000 to 2020 for Missouri Dept Natural Resources-Park Rangers

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	.	.	.	.	.	.

<b>2013</b>	.	.	.	.	.	.
<b>2014</b>	.	.	.	.	.	.
<b>2015</b>	.	.	.	.	.	.
<b>2016</b>	.	.	.	.	.	.
<b>2017</b>	.	.	.	.	.	.
<b>2018</b>	.	.	.	.	.	.
<b>2019</b>	.	.	.	.	.	.
<b>2020</b>	.	.	.	.	.	.

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Missouri Dept Natural Resources-Park Rangers

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Missouri Southern State University

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Missouri Southern State University

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	.	.	.	.	.	.	.
2019 population %	.	.	.	.	.	.	.
<b>Stops</b>	.	.	.	.	.	.	.
All stops	13	8	5	0	0	0	0
Resident stops	8	3	5	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.	.	.	.	.	.
Resident stops	.	.	.	.	.	.	.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Contraband hit rate	42.86	42.86	.	.	.	.	.
Arrest rate	2.85	2.78	0	33.33	.	0	0
Citation rate	10.32	10.32	8.33	33.33	.	9.09	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

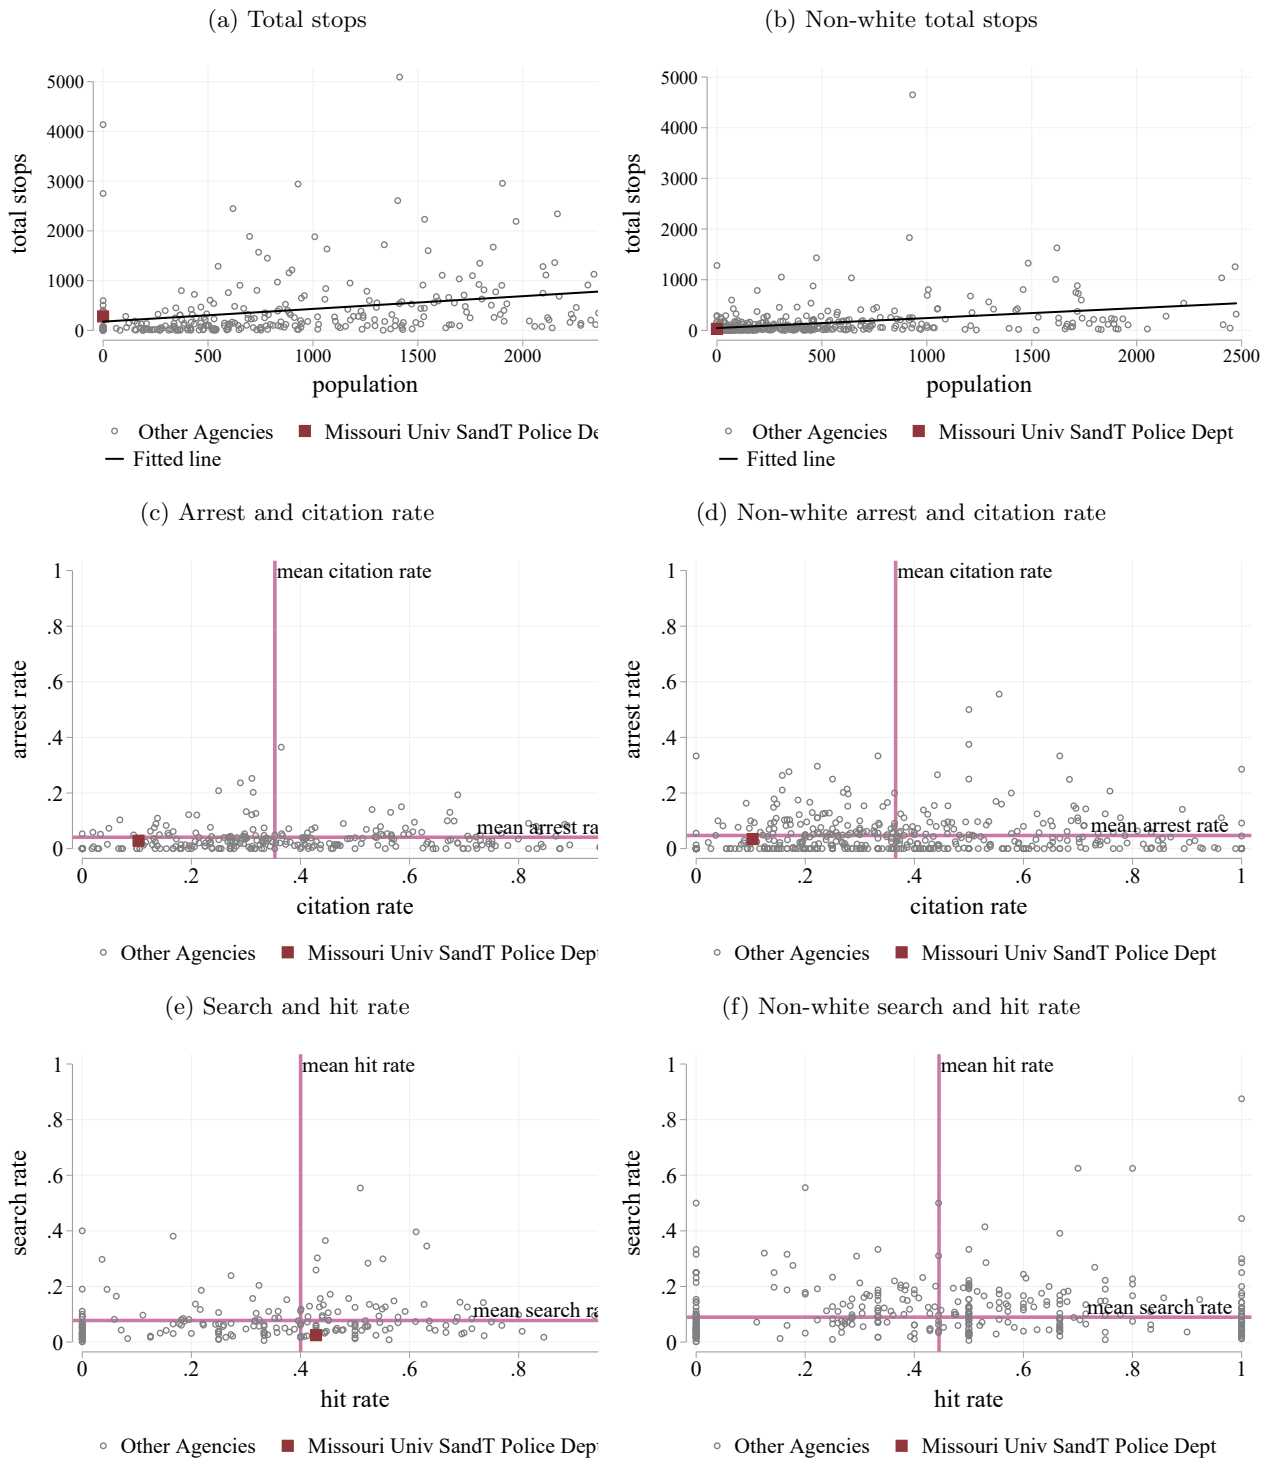

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Missouri Univ SandT Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Missouri Univ SandT Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.

<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.	.	.	.	.	.
Resident stops	.	.	.	.	.	.	.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.054	.988	.239	.129	.116	.17
Resident stops	.	1.031	1.161	.236	.1	.09	.264

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>2018</b>	1.02	1.1	.23	0	.45	.11
<b>2019</b>	1.01	1.19	.46	0	.08	.05
<b>2020</b>	1.05	.99	.24	.13	.12	.17

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Moberly Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Contraband hit rate	.	.	.	.	.	.	.
Arrest rate	0	0	0	0	.	0	0
Citation rate	98.86	97.83	98.89	100	.	100	100

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

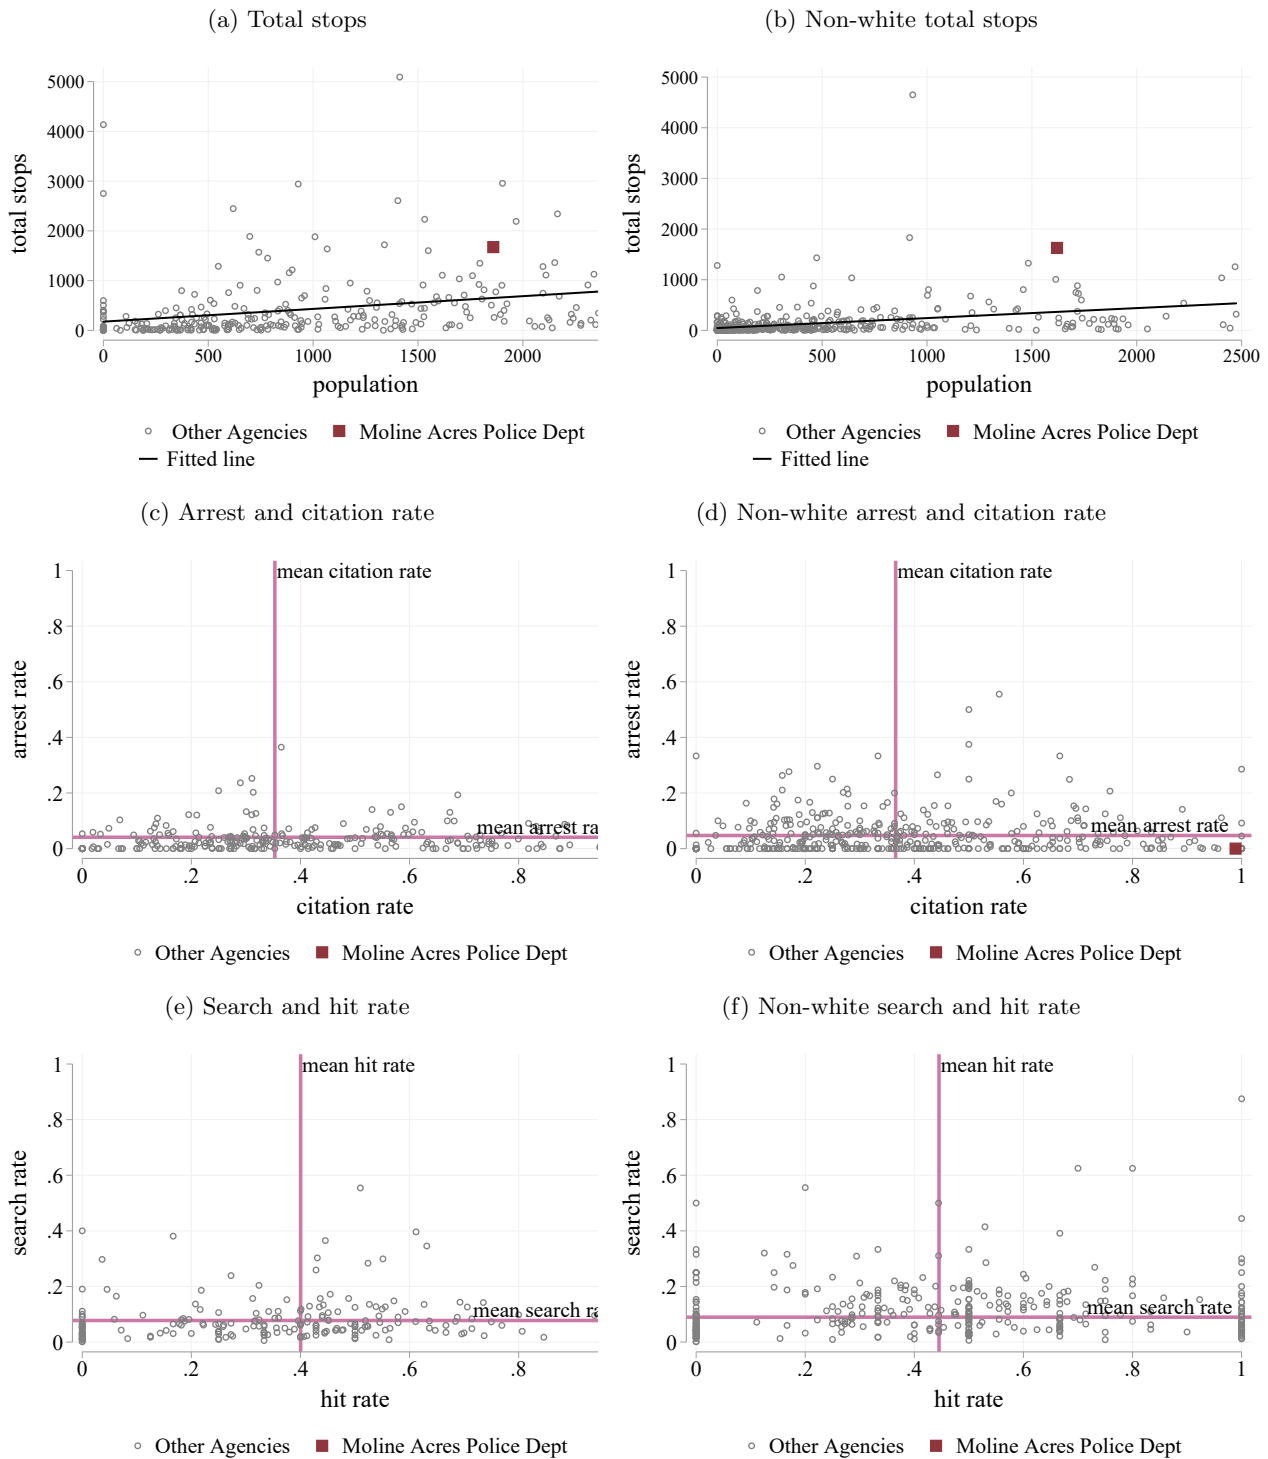

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Moline Acres Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.099	.	.71	0	.807	.094
Resident stops	.	1.014	.	.953	0	.894	.098

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

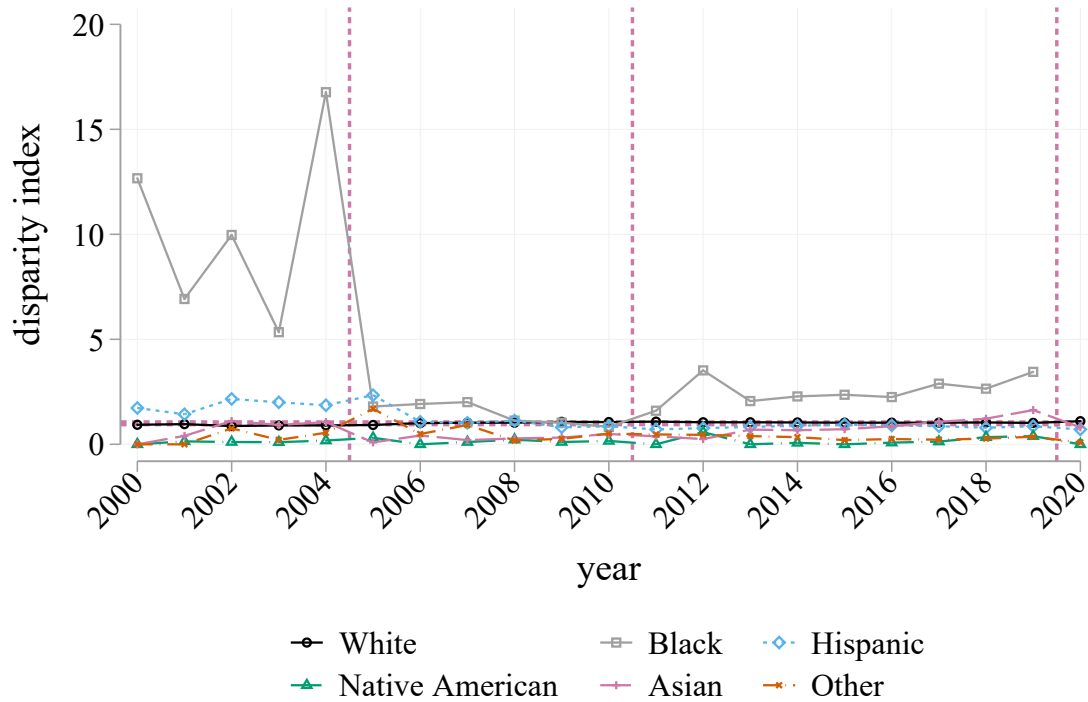

Table 3: Disparity Index from 2000 to 2020 for Monett Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>

<b>2018</b>	1.04	2.65	.79	.34	1.22	.27
<b>2019</b>	1.02	3.45	.86	.39	1.63	.36
<b>2020</b>	1.1	.	.71	0	.81	.09

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Monett Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Stop rate	4.34	4.28	6.62	4.41	0	0	0
Stop rate, residents	1.92	1.96	1.14	2.11	0	0	0
Search rate	11.03	10.77	13.79	13.04	.	.	.
Contraband hit rate	41.67	37.74	75	66.67	.	.	.
Arrest rate	4.78	5.28	0	0	.	.	.
Citation rate	34.56	33.94	37.93	43.48	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

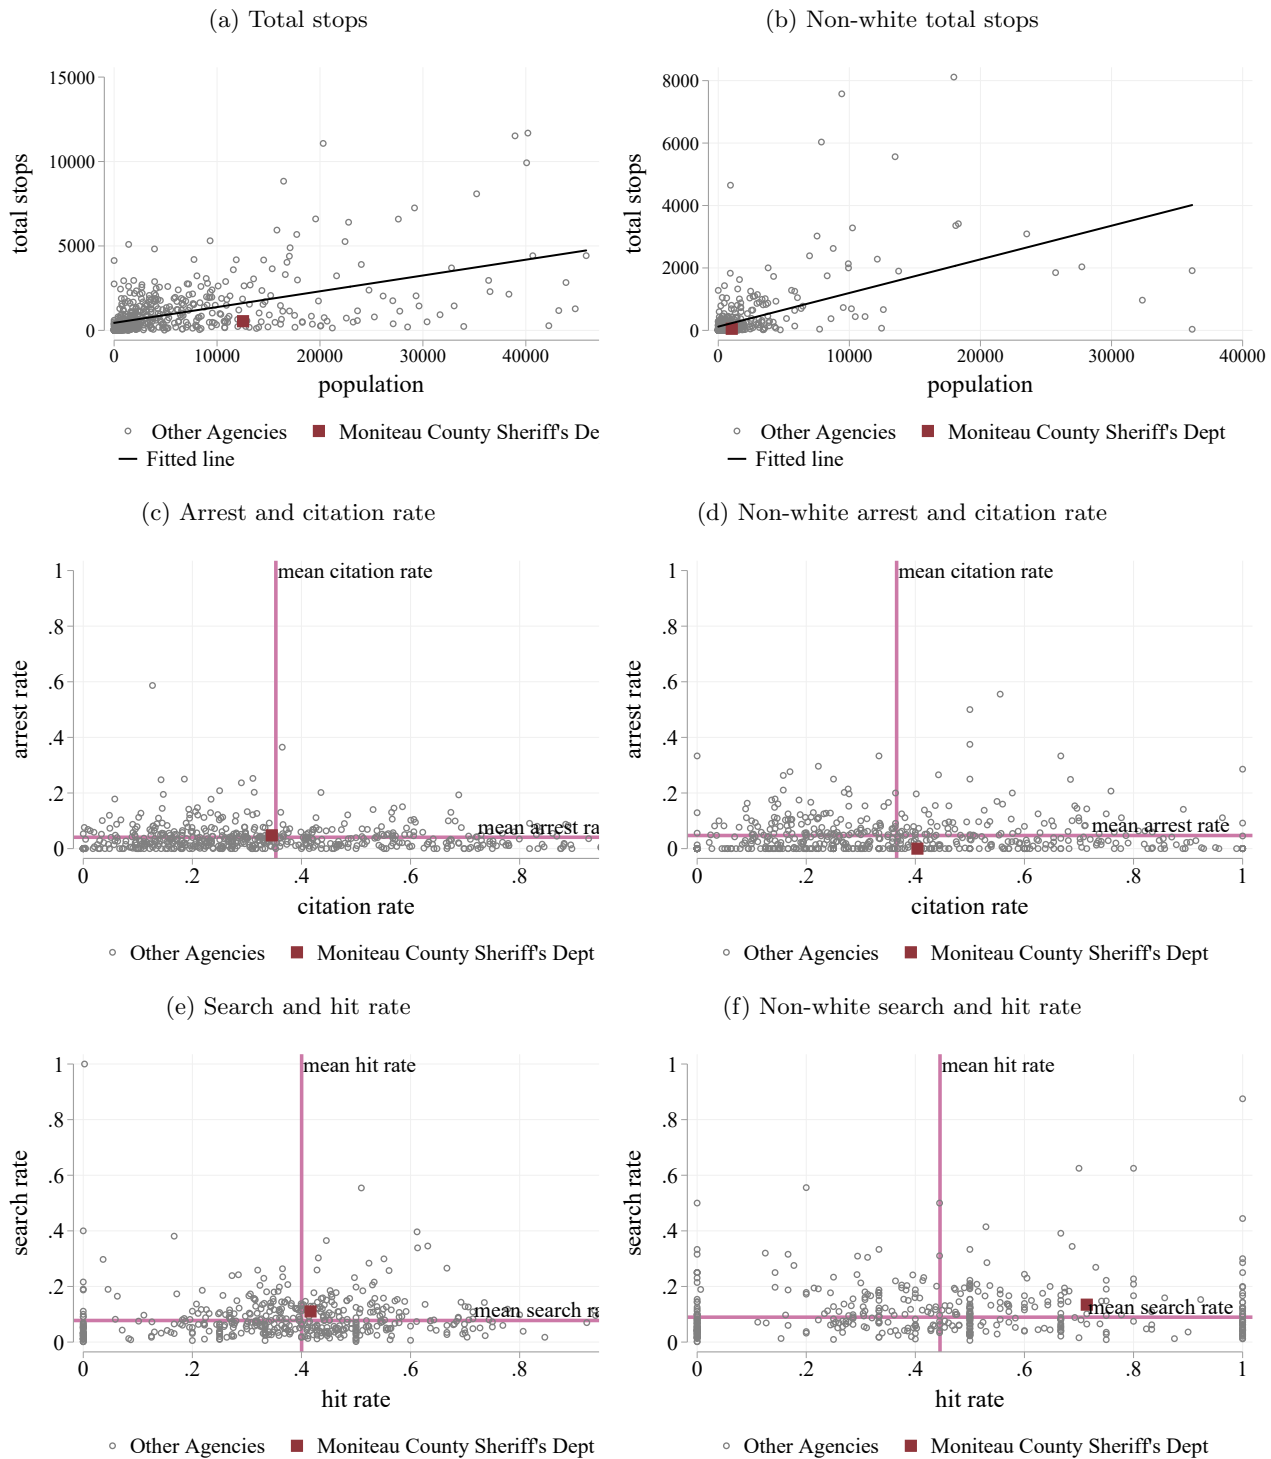

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Moniteau County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Moniteau County Sheriff's Dept

<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.974	1.739	1.096	.297	.5	.679
Resident stops	.	.968	2.321	.435	0	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

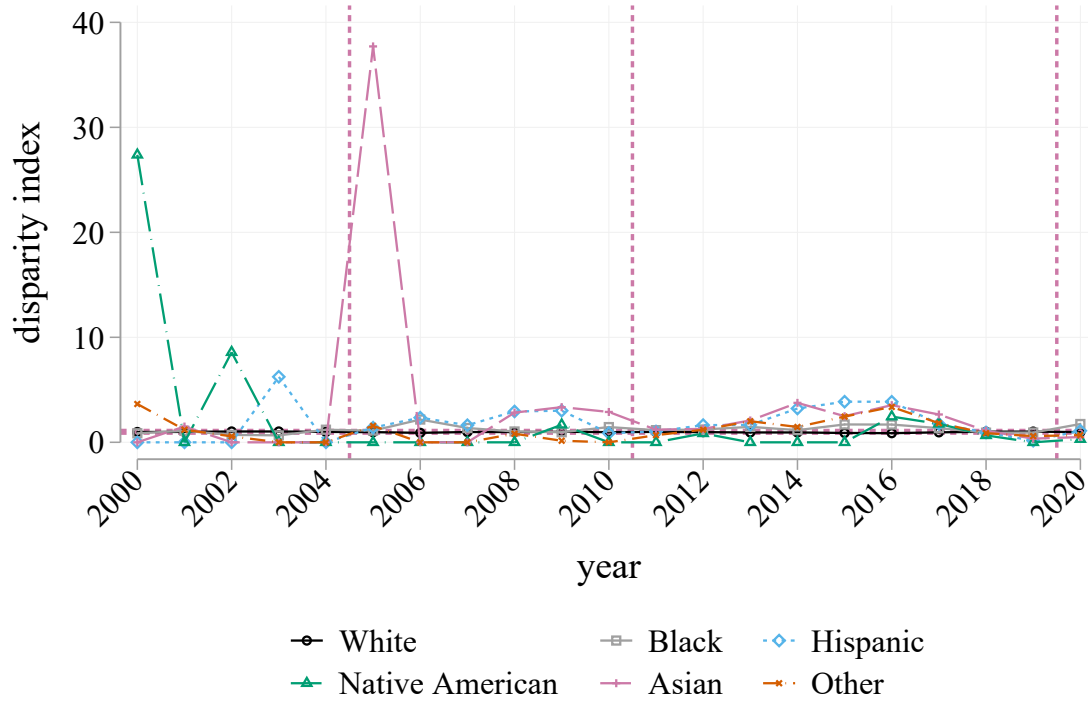

Table 3: Disparity Index from 2000 to 2020 for Monroe City Police Dept

<b>2016</b>	.87	1.69	3.86	2.45	3.54	3.37
<b>2017</b>	.95	1.35	1.76	1.76	2.65	1.82
<b>2018</b>	1.01	.92	.94	.66	1.1	.87
<b>2019</b>	1.02	.93	.15	0	.35	.59
<b>2020</b>	.97	1.74	1.1	.3	.5	.68

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Monroe City Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	2.7	2.61	4.91	3.08	3.7	0	3.85
Stop rate, residents	1.2	1.19	2.68	0	0	0	0
Search rate	4.23	4.09	0	25	0	.	0
Contraband hit rate	37.5	42.86	.	0	.	.	.
Arrest rate	2.12	2.34	0	0	0	.	0
Citation rate	9.52	9.94	0	25	0	.	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

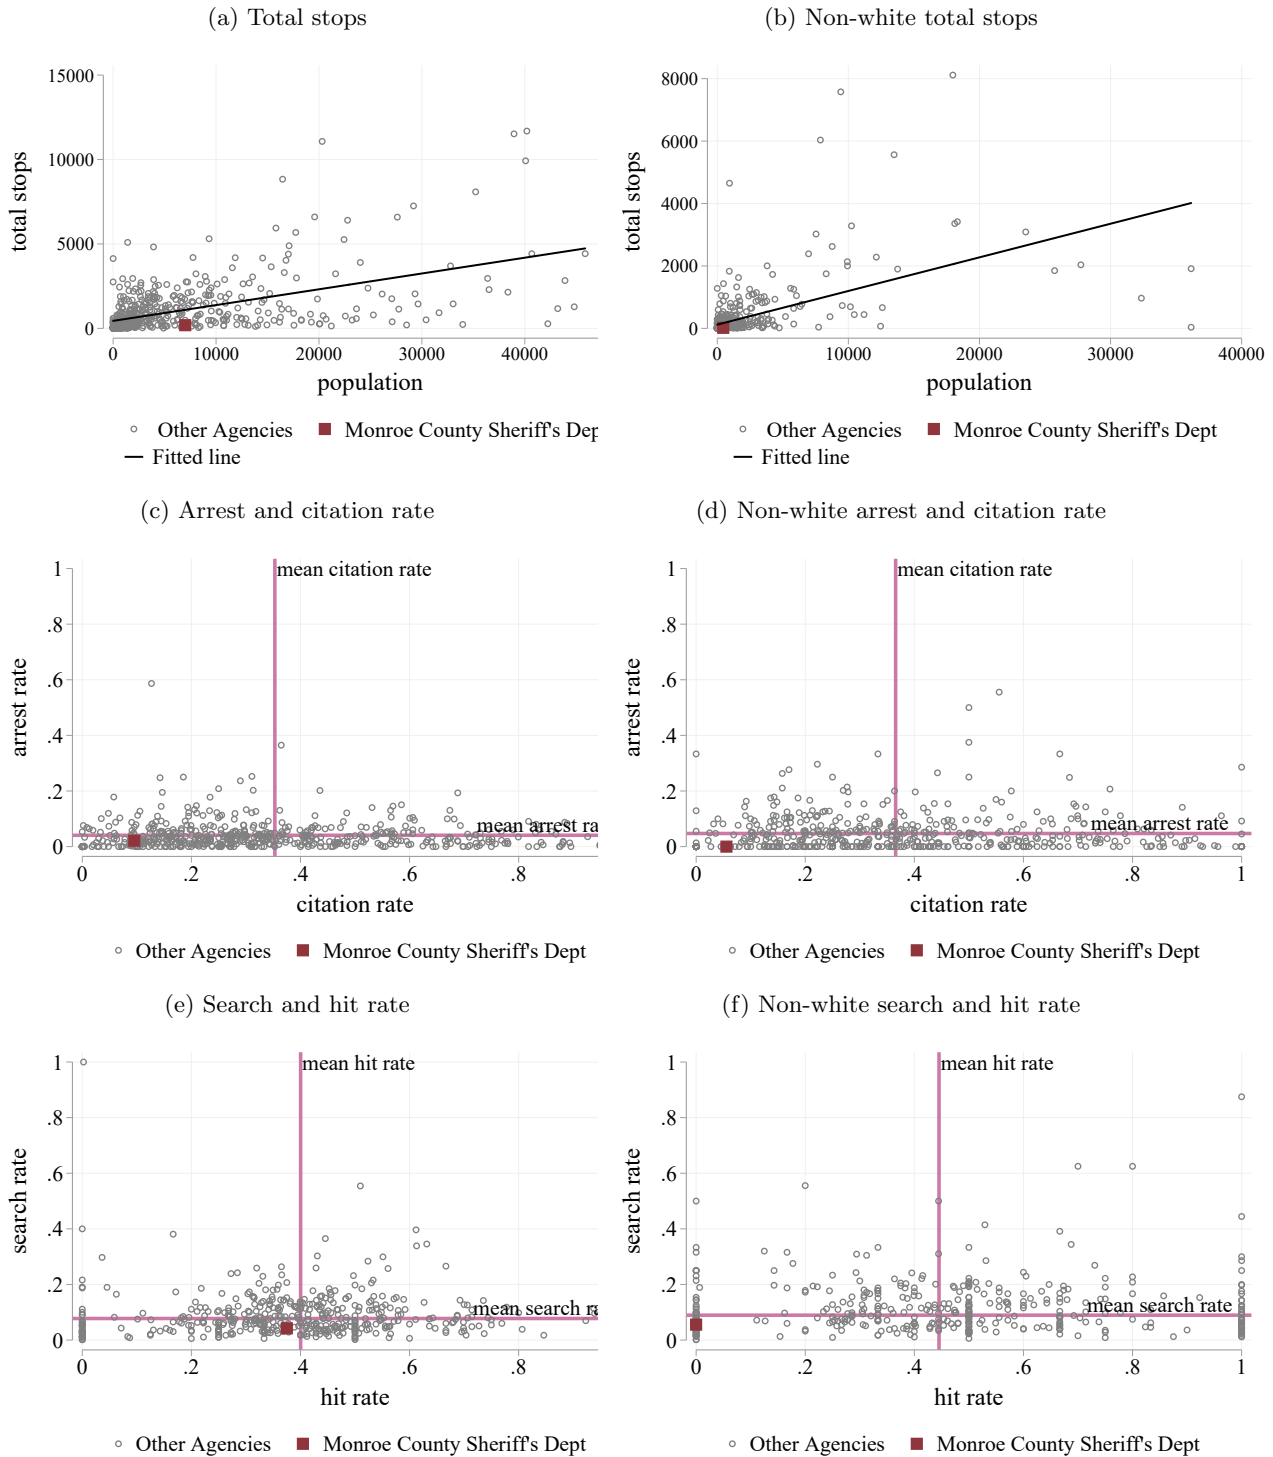

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Monroe County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Montgomery City Police Dept

<b>2020</b>	1.03	1.17	.57	.	2.86	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Montgomery City Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

### 1.338 Montgomery County Sheriff's Dept

Table 1: Rates by Race for Montgomery County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	9246	8729	163	172	3	29	247
2019 population %	100	94.41	1.76	1.86	.03	.31	2.67
<b>Totals</b>	.	.	.	.	.	.	.
All stops	476	426	26	15	0	2	7
Resident stops	116	105	6	4	0	0	1
Searches	67	56	6	4	0	0	1
Contraband	23	19	3	1	0	0	0
Arrests	23	18	2	2	0	0	1
Citations	28	23	2	3	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	5.15	4.88	15.95	8.72	0	6.9	2.83
Stop rate, residents	1.25	1.2	3.68	2.33	0	0	.4
Search rate	14.08	13.15	23.08	26.67	.	0	14.29
Contraband hit rate	34.33	33.93	50	25	.	.	0
Arrest rate	4.83	4.23	7.69	13.33	.	0	14.29
Citation rate	5.88	5.4	7.69	20	.	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

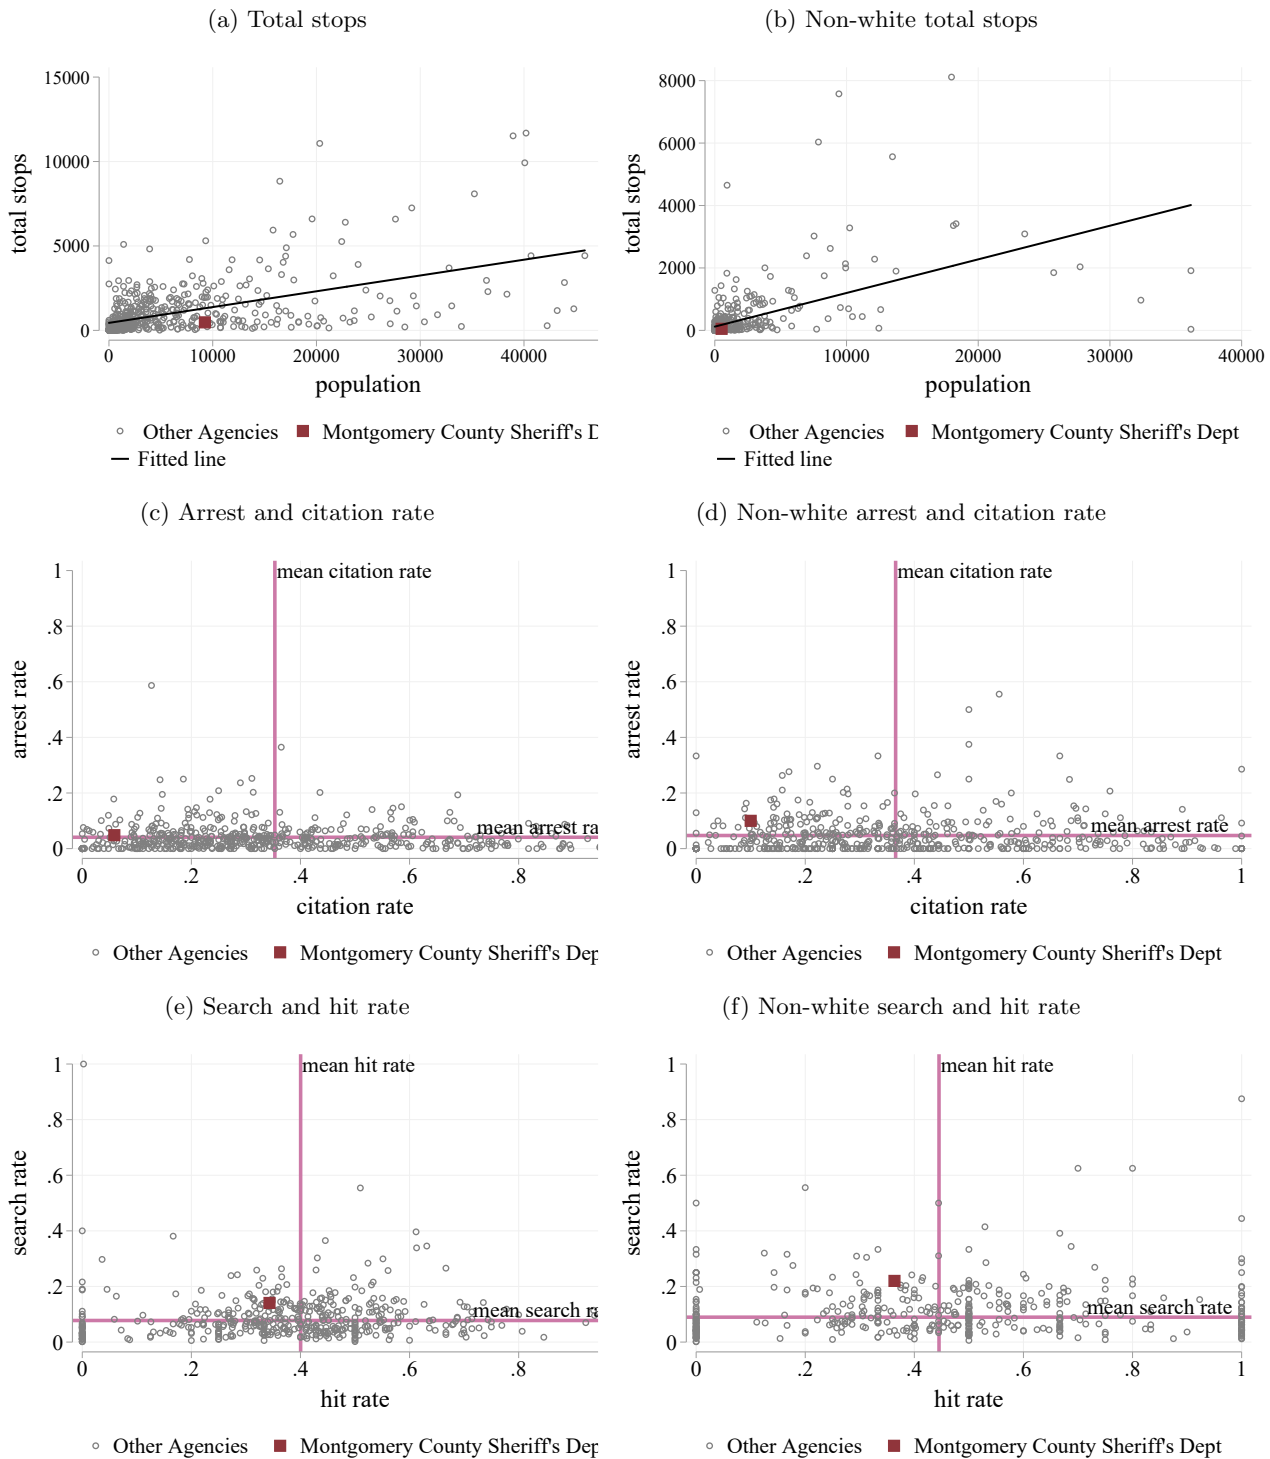

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Montgomery County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

<b>2020</b>	.89	.	0	.	.	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Morehouse Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	16169	15285	133	275	76	182	254
2019 population %	100	94.53	.82	1.7	.47	1.13	1.57
<b>Totals</b>	.	.	.	.	.	.	.
All stops	368	349	10	5	1	2	1
Resident stops	223	218	3	2	0	0	0
Searches	38	32	2	1	1	1	1
Contraband	8	7	1	0	0	0	0
Arrests	6	6	0	0	0	0	0
Citations	41	41	0	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	2.28	2.28	7.52	1.82	1.32	1.1	.39
Stop rate, residents	1.38	1.43	2.26	.73	0	0	0
Search rate	10.33	9.17	20	20	100	50	100
Contraband hit rate	21.05	21.88	50	0	0	0	0
Arrest rate	1.63	1.72	0	0	0	0	0
Citation rate	11.14	11.75	0	0	0	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

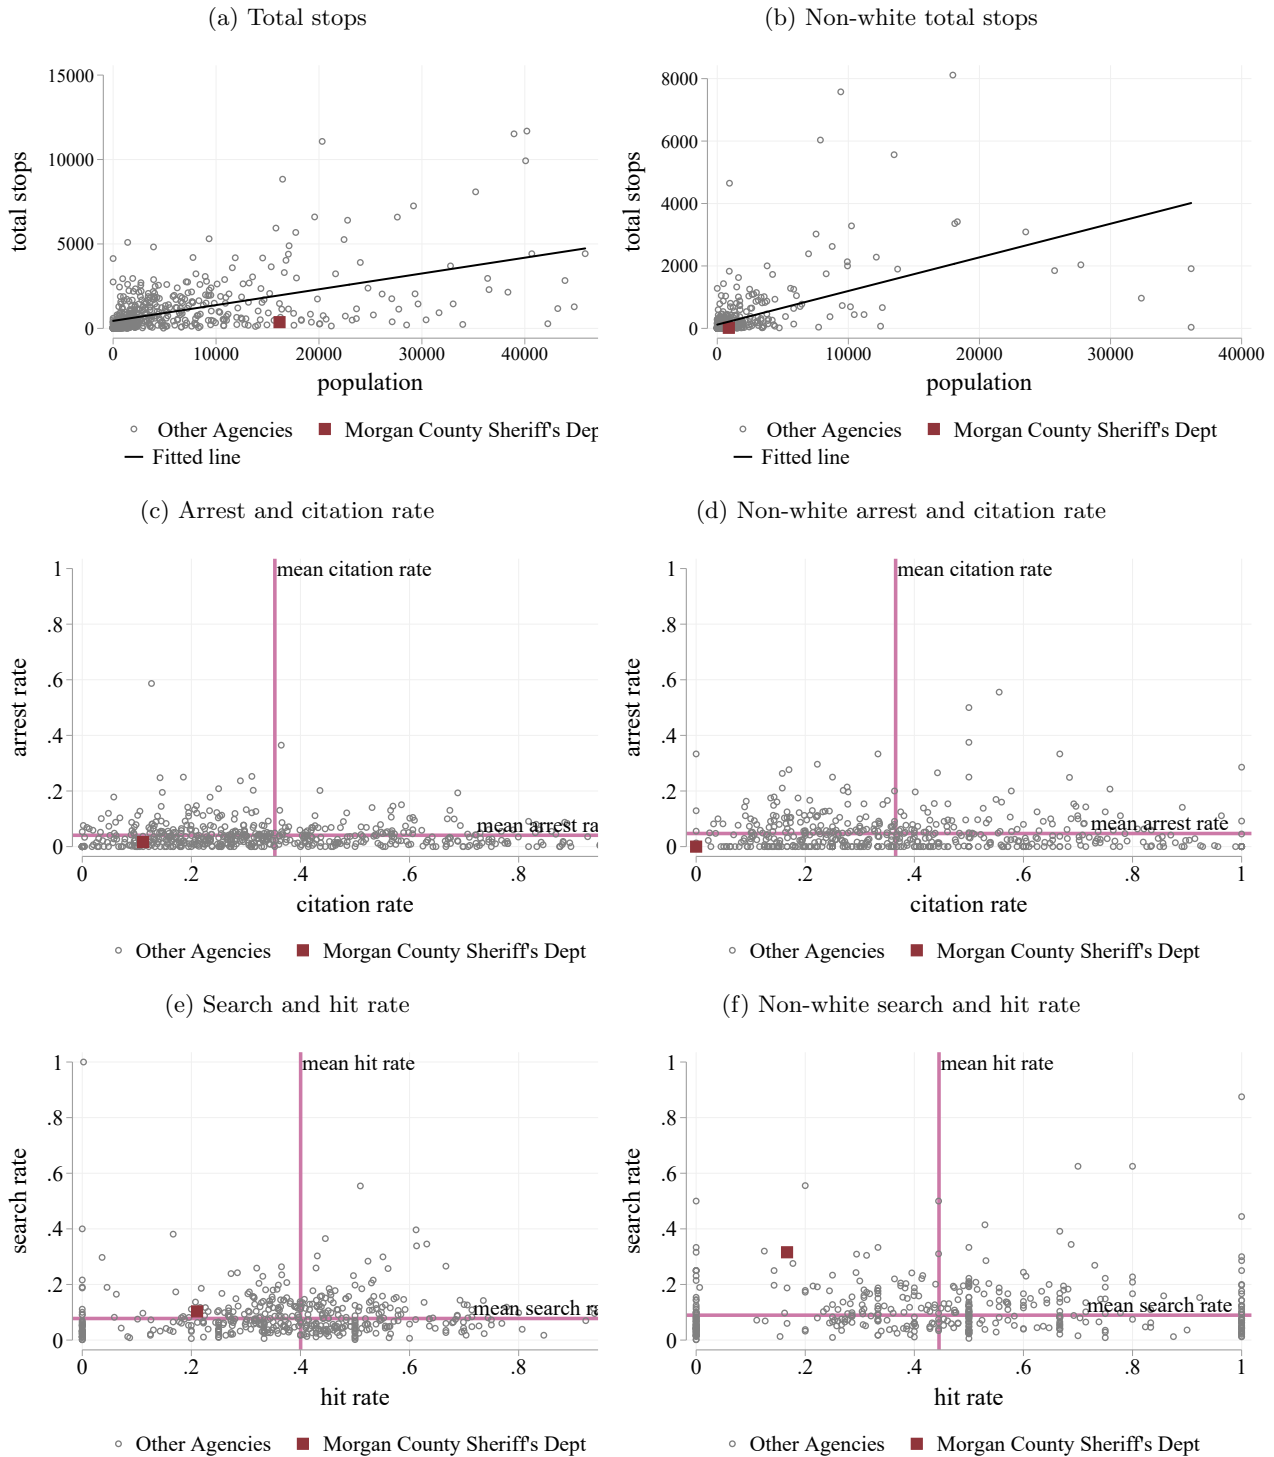

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Morgan County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Morgan County Sheriff's Dept

<b>2019</b>	1.06	0	0	0	.	0
<b>2020</b>	1.06	.87	.68	.	.	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Morley Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	63.29	58.8	291.11	43.14	.	.	0
Stop rate, residents	7.53	7.23	22.22	7.84	.	.	0
Search rate	2.13	2.17	1.53	4.55	0	0	.
Contraband hit rate	27.59	26.92	0	100	.	.	.
Arrest rate	1.98	2.01	1.53	4.55	0	0	.
Citation rate	56.75	56.44	58.78	54.55	100	66.67	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

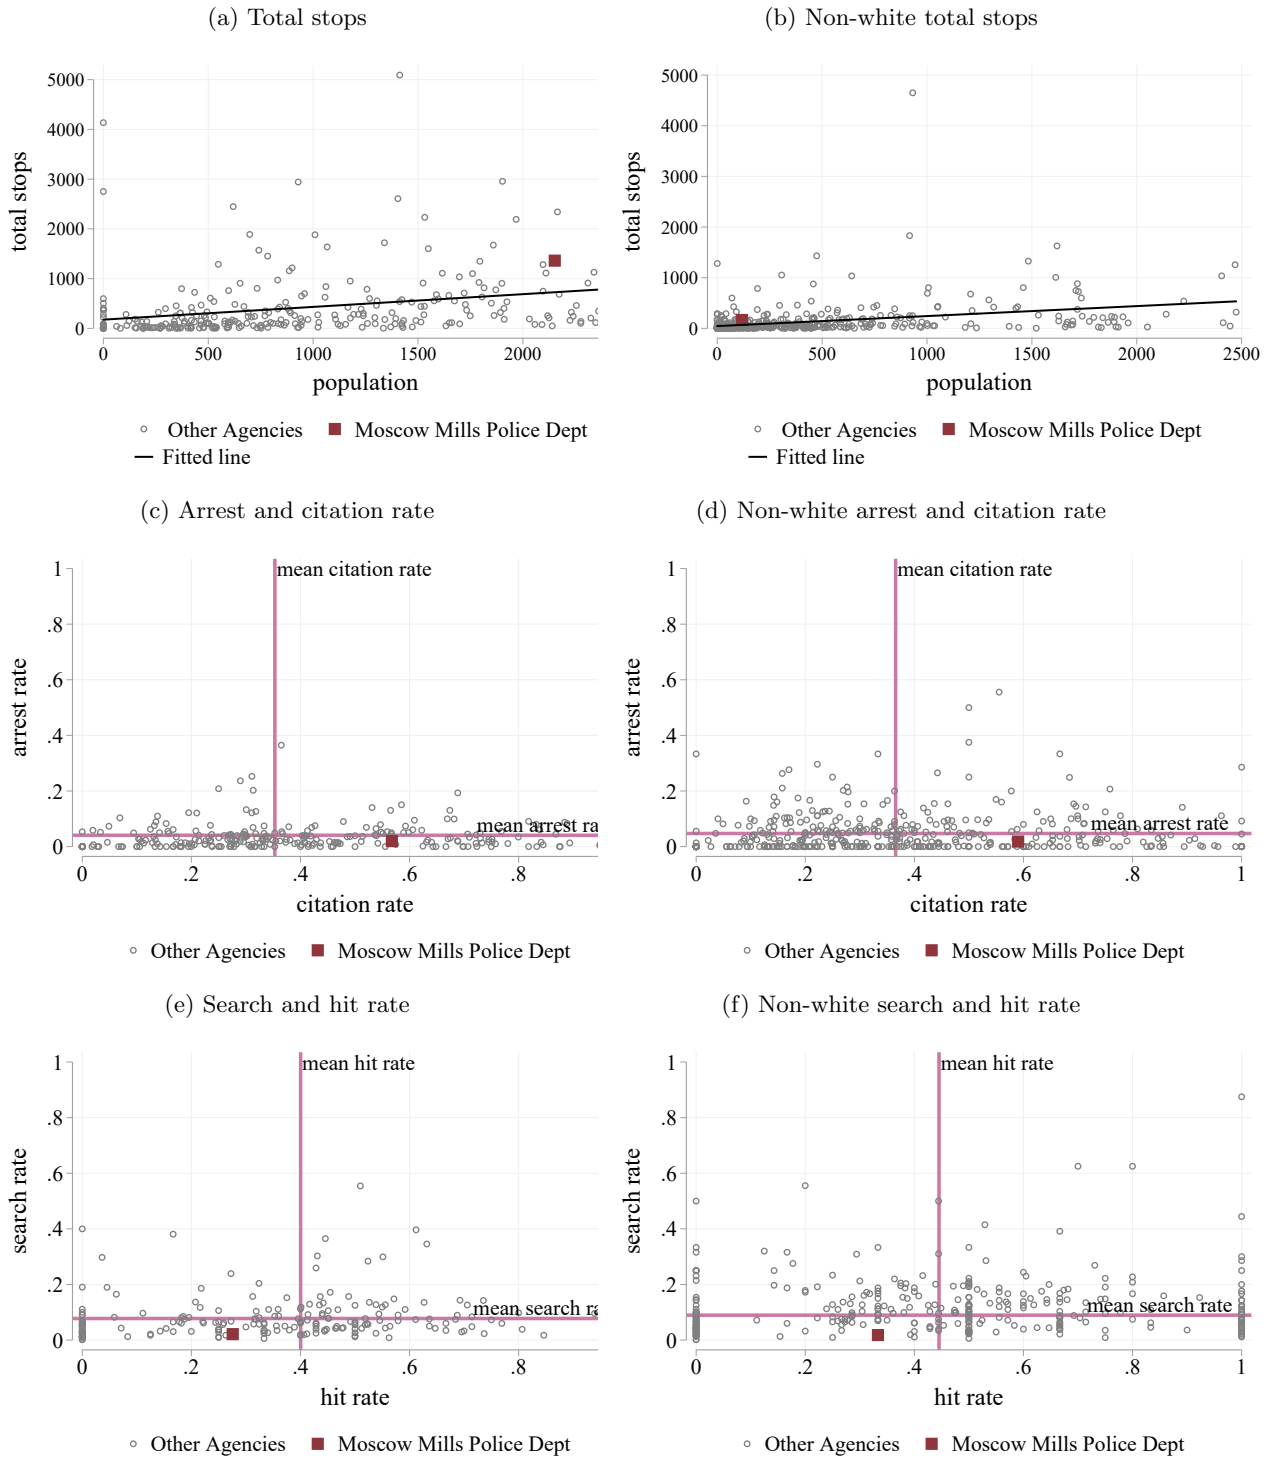

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Moscow Mills Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Moscow Mills Police Dept

Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Mound City Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	36.27	35.88	126.32	111.54	33.33	20	4.71
Stop rate, residents	15.4	15.58	42.11	23.08	0	0	0
Search rate	2.87	2.93	0	3.45	0	0	0
Contraband hit rate	37.84	38.89	.	0	.	.	.
Arrest rate	1.08	1.06	0	3.45	0	0	0
Citation rate	30.98	31.06	25	37.93	0	50	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

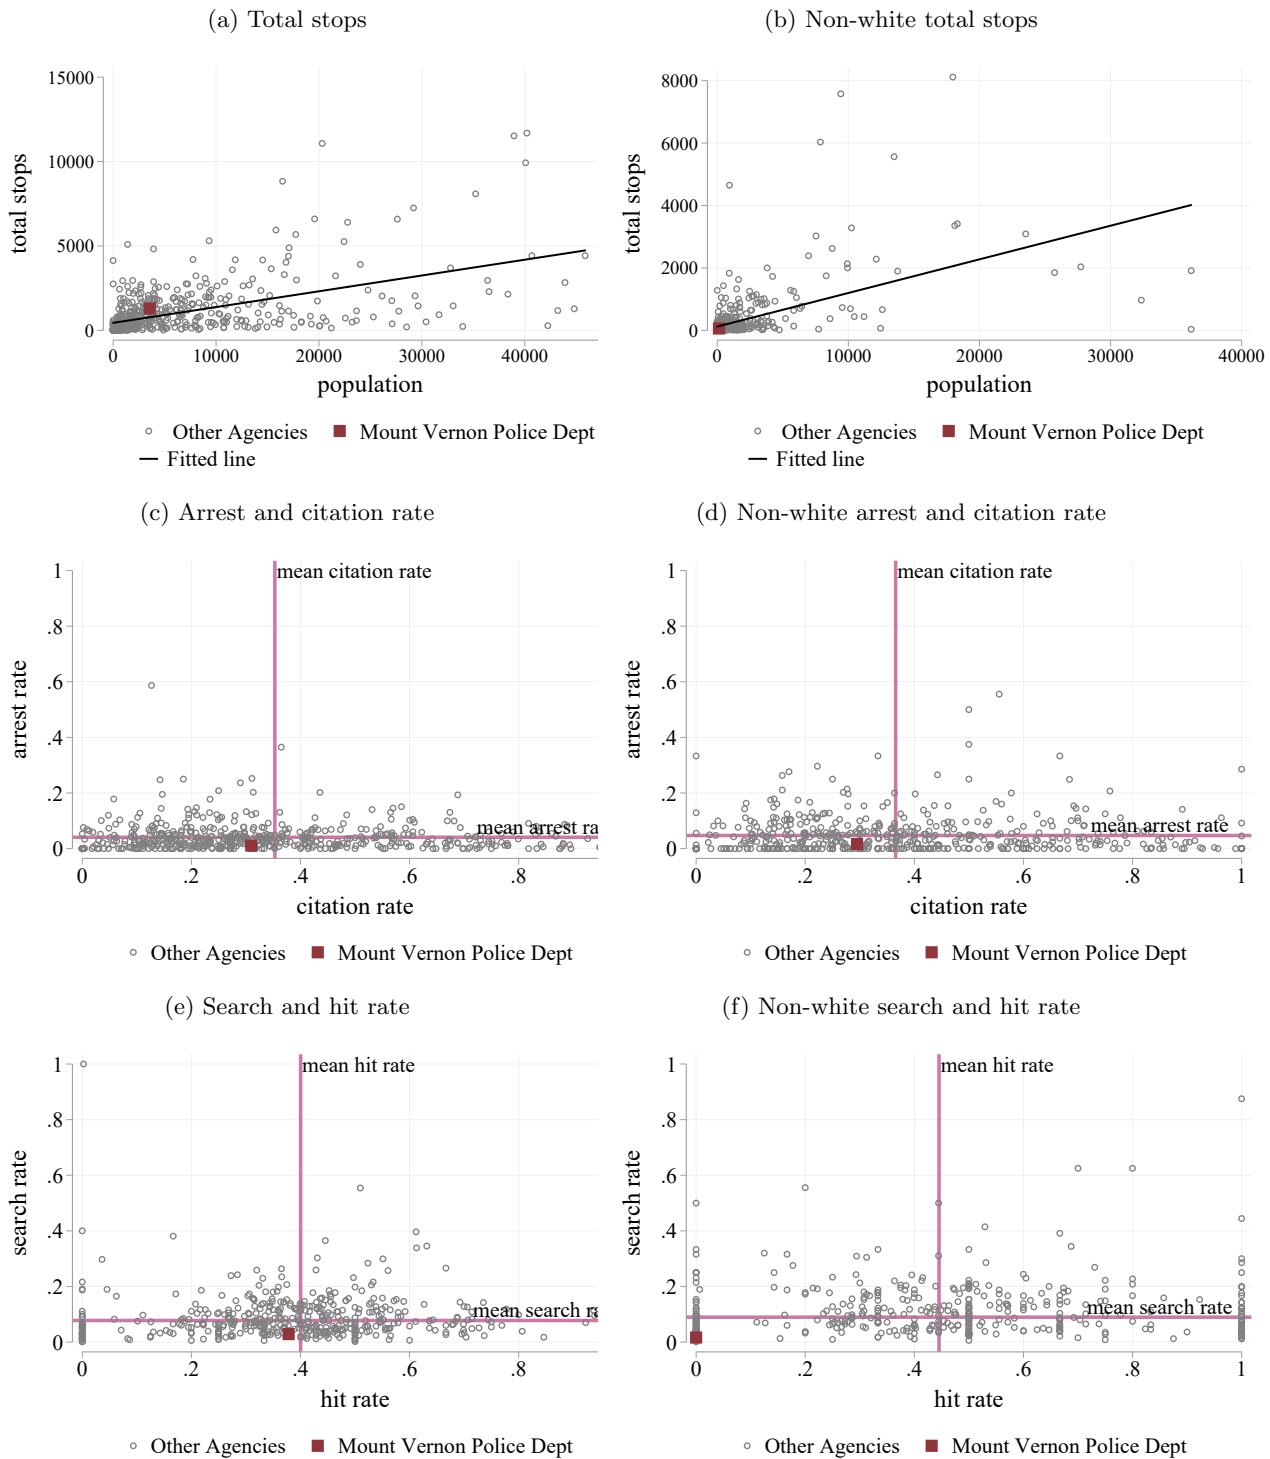

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Mount Vernon Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Mount Vernon Police Dept

Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Arrests	173	173	0	0	0	0	0
Citations	213	201	9	3	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	31.52	31.6	.	81.82	0	4.35	0
Stop rate, residents	14.82	14.95	.	27.27	0	0	0
Search rate	29.93	30.87	0	0	.	0	.
Contraband hit rate	55.12	55.12	.	.	.	.	.
Arrest rate	25.26	26.05	0	0	.	0	.
Citation rate	31.09	30.27	81.82	33.33	.	0	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

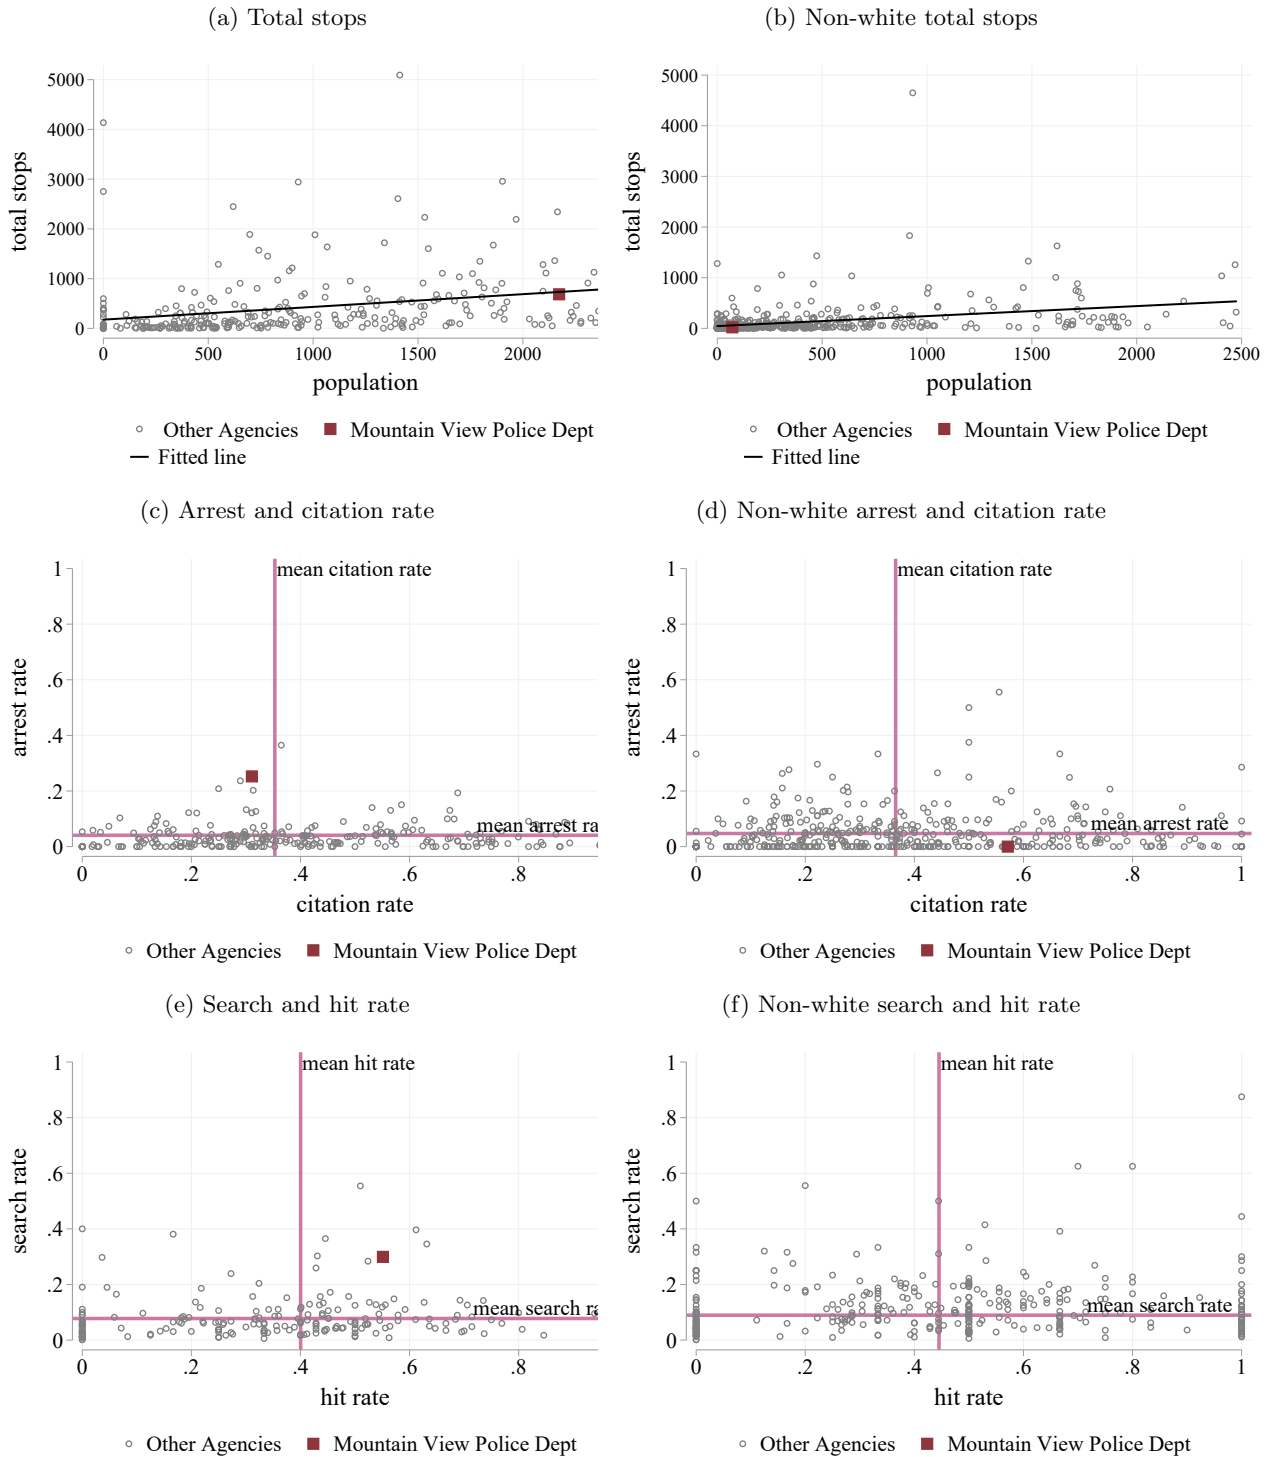

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Mountain View Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Mountain View Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	2173	2101	0	11	19	23	30

### 1.348 Napoleon Police Dept

Table 1: Rates by Race for Napoleon Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	151	147	0	0	4	0	0
2019 population %	100	97.35	0	0	2.65	0	0
<b>Totals</b>	.	.	.	.	.	.	.
All stops	185	183	2	0	0	0	0
Resident stops	11	11	0	0	0	0	0
Searches	4	4	0	0	0	0	0
Contraband	0	0	0	0	0	0	0
Arrests	3	3	0	0	0	0	0
Citations	139	139	0	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	122.52	124.49	.	.	0	.	.
Stop rate, residents	7.28	7.48	.	.	0	.	.
Search rate	2.16	2.19	0	.	.	.	.
Contraband hit rate	0	0	.	.	.	.	.
Arrest rate	1.62	1.64	0	.	.	.	.
Citation rate	75.14	75.96	0	.	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

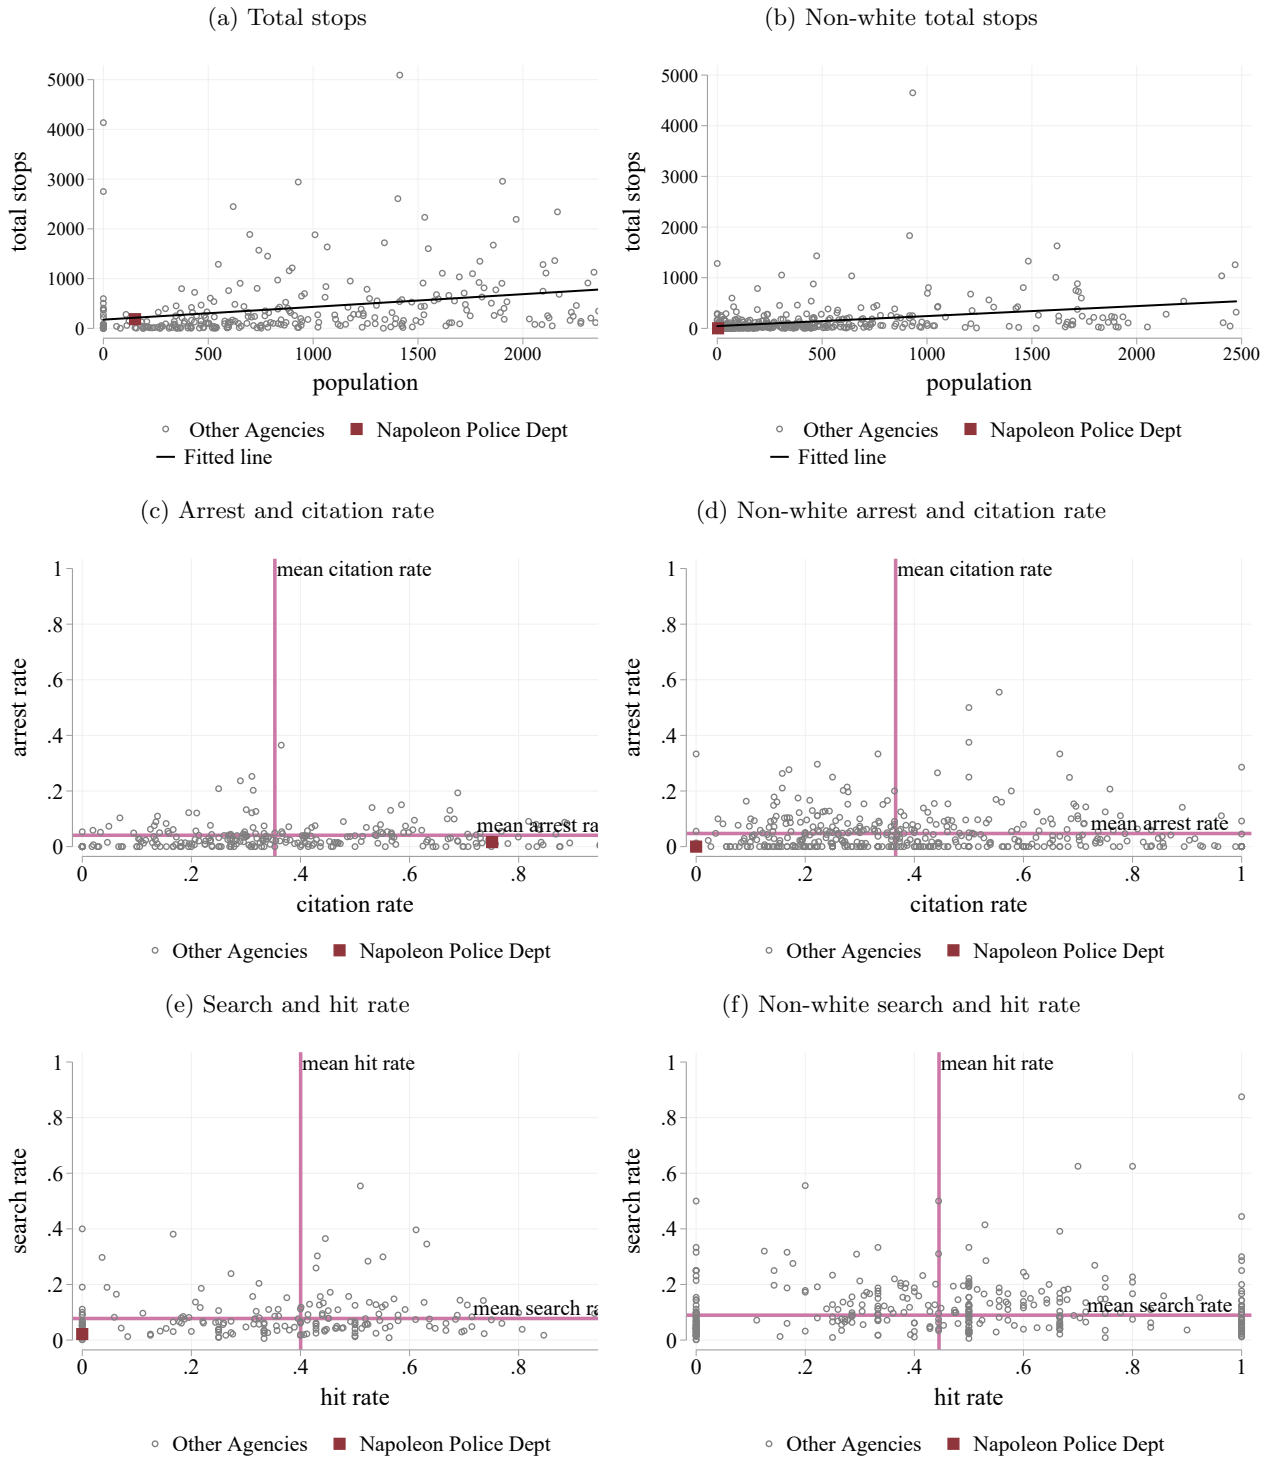

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Napoleon Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Napoleon Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	151	147	0	0	4	0	0
2019 population %	100	97.35	0	0	2.65	0	0
<b>Stops</b>	.	.	.	.	.	.	.
All stops	185	183	2	0	0	0	0
Resident stops	11	11	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.016	.	.	0	.	.
Resident stops	.	1.027	.	.	0	.	.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

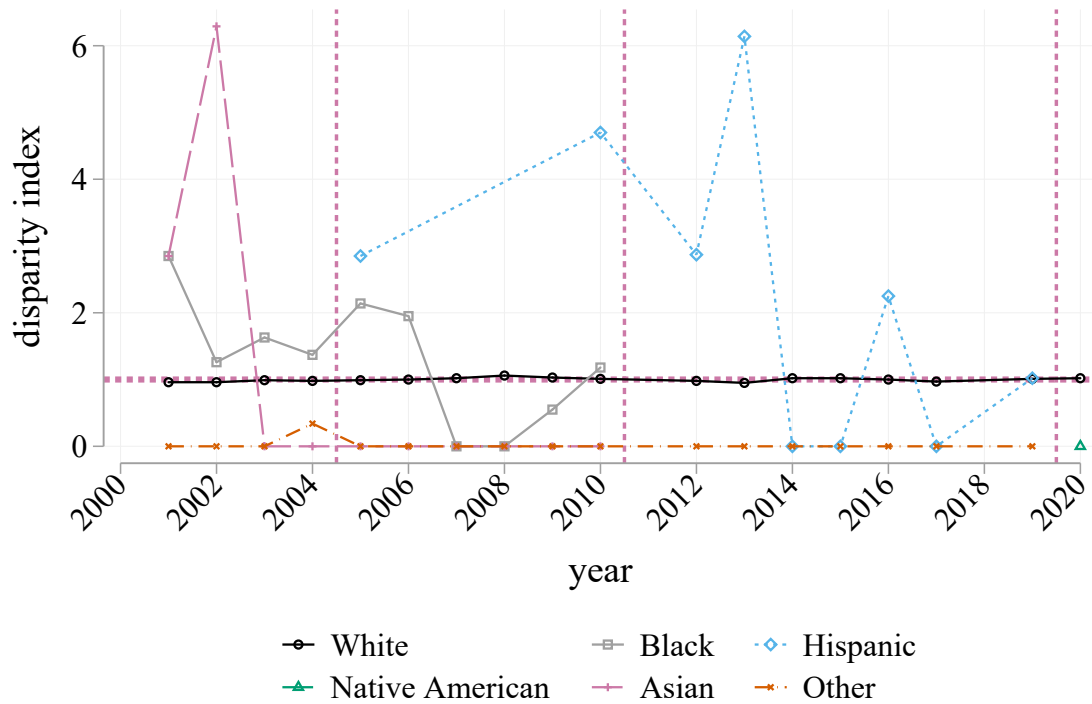

Table 3: Disparity Index from 2000 to 2020 for Napoleon Police Dept

Table 1: Rates by Race for Nevada Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	6530	6107	78	112	34	56	143
2019 population %	100	93.52	1.19	1.72	.52	.86	2.19
<b>Totals</b>	.	.	.	.	.	.	.
All stops	1891	1806	36	26	0	2	21
Resident stops	1205	1157	20	12	0	1	15
Searches	69	66	0	3	0	0	0
Contraband	9	9	0	0	0	0	0
Arrests	129	124	1	3	0	0	1
Citations	895	861	18	15	0	0	1
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	28.96	29.57	46.15	23.21	0	3.57	14.69
Stop rate, residents	18.45	18.95	25.64	10.71	0	1.79	10.49
Search rate	3.65	3.65	0	11.54	.	0	0
Contraband hit rate	13.04	13.64	.	0	.	.	.
Arrest rate	6.82	6.87	2.78	11.54	.	0	4.76
Citation rate	47.33	47.67	50	57.69	.	0	4.76

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

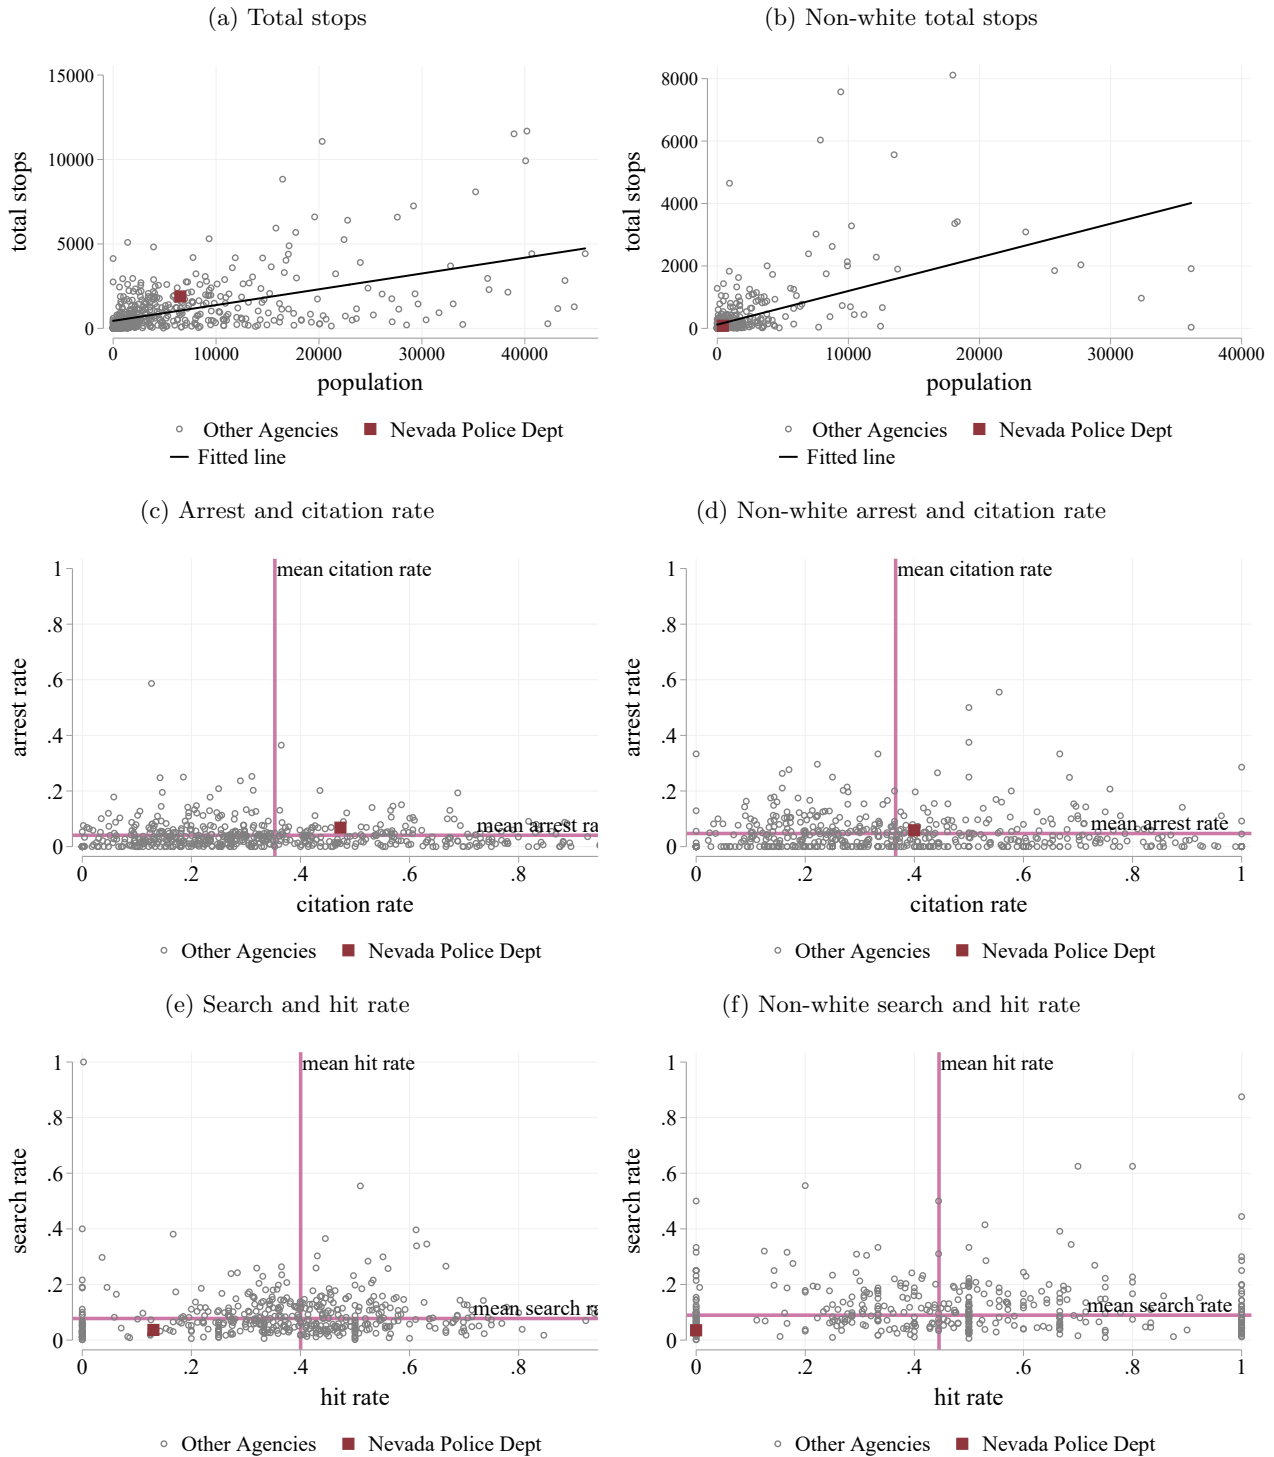

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Nevada Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Nevada Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	6530	6107	78	112	34	56	143
2019 population %	100	93.52	1.19	1.72	.52	.86	2.19
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1891	1806	36	26	0	2	21
Resident stops	1205	1157	20	12	0	1	15
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.021	1.594	.802	0	.123	.507
Resident stops	.	1.027	1.39	.581	0	.097	.568

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Nevada Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	1.03	.58	.7	.12	.24	0

<b>2006</b>	1.03	1.04	.59	.05	.39	0
<b>2007</b>	1.04	.73	.51	.03	.19	.21
<b>2008</b>	1.04	.83	.5	0	.22	.27
<b>2009</b>	1.04	.58	.38	.02	.49	.06
<b>2010</b>	1.04	.88	.45	0	.28	.23
<b>2011</b>	1.03	1.14	.38	.03	.48	.29
<b>2012</b>	1.03	1.4	.27	.49	0	.17
<b>2013</b>	1.03	1.78	.37	.1	.25	.07
<b>2014</b>	1.03	1.28	.26	.06	.79	.17
<b>2015</b>	1.03	1.43	.41	.08	.35	.31
<b>2016</b>	1.02	1.34	.64	.11	.23	.33
<b>2017</b>	1.02	1.17	.53	.06	.32	1.01
<b>2018</b>	1.02	1.66	.51	.04	.22	.56
<b>2019</b>	1.02	1.61	.44	.04	.45	.51
<b>2020</b>	1.02	1.59	.8	0	.12	.51

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Nevada Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

### 1.352 New Florence Police Dept

Table 1: Rates by Race for New Florence Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	615	563	5	34	0	7	40
2019 population %	100	91.54	.81	5.53	0	1.14	6.5
<b>Totals</b>	.	.	.	.	.	.	.
All stops	167	148	13	1	0	1	4
Resident stops	49	48	0	1	0	0	0
Searches	14	14	0	0	0	0	0
Contraband	10	10	0	0	0	0	0
Arrests	5	5	0	0	0	0	0
Citations	165	148	11	1	0	1	4
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	27.15	26.29	260	2.94	.	14.29	10
Stop rate, residents	7.97	8.53	0	2.94	.	0	0
Search rate	8.38	9.46	0	0	.	0	0
Contraband hit rate	71.43	71.43	.	.	.	.	.
Arrest rate	2.99	3.38	0	0	.	0	0
Citation rate	98.8	100	84.62	100	.	100	100

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

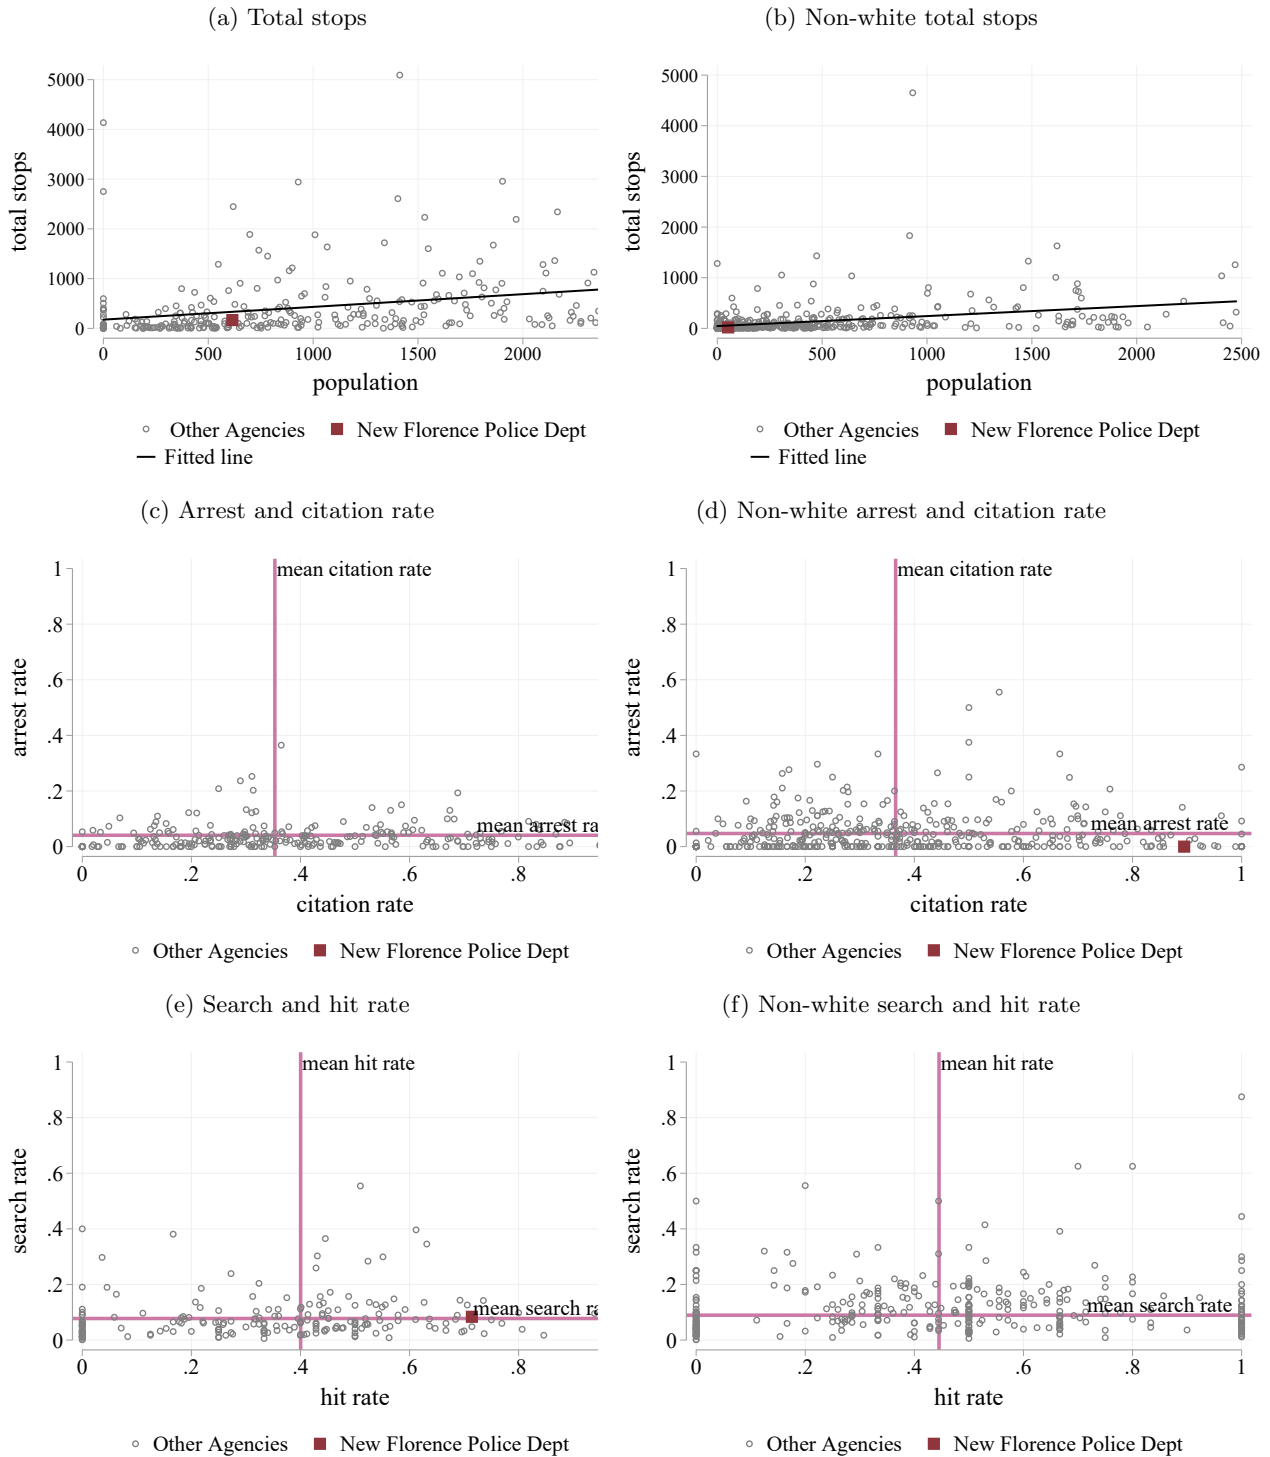

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for New Florence Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for New Florence Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	615	563	5	34	0	7	40
2019 population %	100	91.54	.81	5.53	0	1.14	6.5
<b>Stops</b>	.	.	.	.	.	.	.
All stops	167	148	13	1	0	1	4
Resident stops	49	48	0	1	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.968	9.575	.108	.	.526	.368
Resident stops	.	1.07	0	.369	.	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

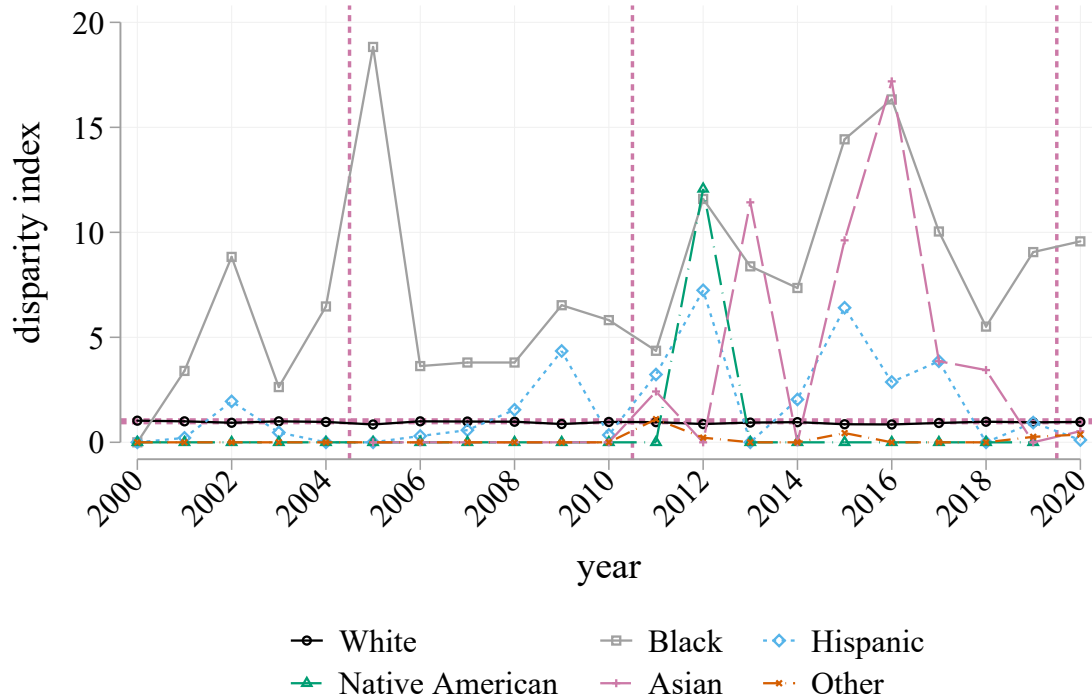

Table 3: Disparity Index from 2000 to 2020 for New Florence Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	1.03	0	0	0	.	0
<b>2001</b>	1	3.4	.21	0	.	0
<b>2002</b>	.93	8.83	1.95	0	.	0

<b>2009</b>	.87	6.53	4.35	0	.	0
<b>2010</b>	.97	5.82	.35	0	0	0
<b>2011</b>	.96	4.36	3.23	0	2.42	1.1
<b>2012</b>	.87	11.59	7.24	12.07	0	.22
<b>2013</b>	.94	8.38	0	0	11.43	0
<b>2014</b>	.96	7.35	2.04	0	0	0
<b>2015</b>	.86	14.43	6.41	0	9.62	.44
<b>2016</b>	.85	16.33	2.87	0	17.19	0
<b>2017</b>	.92	10.04	3.86	0	3.86	0
<b>2018</b>	.98	5.51	0	0	3.44	0
<b>2019</b>	.95	9.06	.94	0	0	.26
<b>2020</b>	.97	9.57	.11	.	.53	.37

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for New Florence Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

### 1.354 New London Police Dept

Table 1: Rates by Race for New London Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	684	588	74	9	0	7	15
2019 population %	100	85.96	10.82	1.32	0	1.02	2.19
<b>Totals</b>	.	.	.	.	.	.	.
All stops	102	84	16	0	0	1	1
Resident stops	13	11	2	0	0	0	0
Searches	13	9	4	0	0	0	0
Contraband	7	4	3	0	0	0	0
Arrests	5	4	1	0	0	0	0
Citations	36	30	6	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	14.91	14.29	21.62	0	.	14.29	6.67
Stop rate, residents	1.9	1.87	2.7	0	.	0	0
Search rate	12.75	10.71	25	.	.	0	0
Contraband hit rate	53.85	44.44	75	.	.	.	.
Arrest rate	4.9	4.76	6.25	.	.	0	0
Citation rate	35.29	35.71	37.5	.	.	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

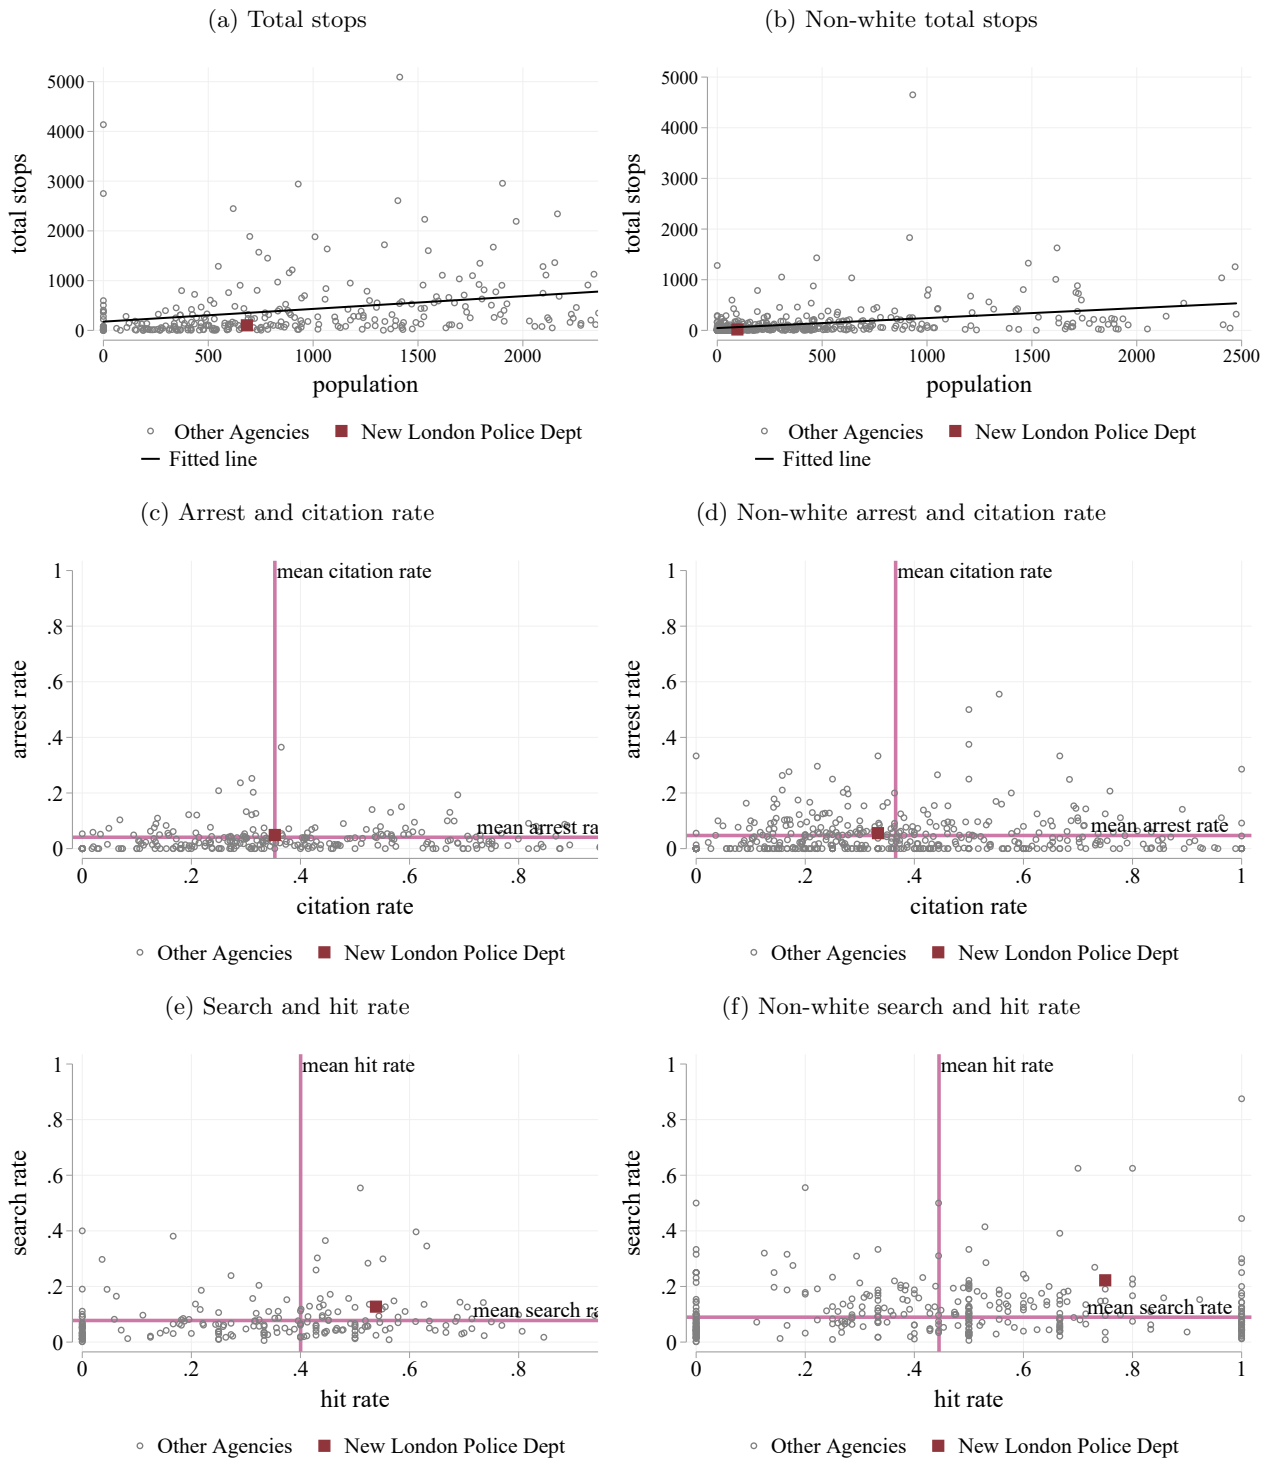

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for New London Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for New London Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	684	588	74	9	0	7	15
2019 population %	100	85.96	10.82	1.32	0	1.02	2.19
<b>Stops</b>	.	.	.	.	.	.	.
All stops	102	84	16	0	0	1	1
Resident stops	13	11	2	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.958	1.45	0	.	.958	.447
Resident stops	.	.984	1.422	0	.	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for New London Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	.97	.89	10.68	0	0	0

<b>2009</b>	1.08	.38	0	0	0	0
<b>2010</b>	.99	1.62	0	0	0	0
<b>2011</b>	1.02	.98	0	0	0	0
<b>2012</b>	1.06	.4	0	0	0	0
<b>2013</b>	1.05	.52	0	0	0	0
<b>2014</b>	1.02	.94	0	0	0	0
<b>2015</b>	1.01	1.07	0	0	0	0
<b>2016</b>	1.01	.82	0	0	7.11	0
<b>2017</b>	.97	1.22	.88	0	5.28	1.76
<b>2018</b>	.98	.87	1.62	3.24	3.24	4.32
<b>2019</b>	.99	1.25	0	0	0	1.97
<b>2020</b>	.96	1.45	0	.	.96	.45

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for New London Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Notes: Data reported by the agency to the Attorney General's Office covering traffic stops in 2020.

### 1.356 New Madrid Police Dept

Table 1: Rates by Race for New Madrid Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	2240	1555	607	34	5	0	39
2019 population %	100	69.42	27.1	1.52	.22	0	1.74
<b>Totals</b>	.	.	.	.	.	.	.
All stops	244	150	87	4	0	0	3
Resident stops	157	98	55	1	0	0	3
Searches	18	14	2	2	0	0	0
Contraband	11	7	1	3	0	0	0
Arrests	12	8	1	3	0	0	0
Citations	23	13	7	3	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	10.89	9.65	14.33	11.76	0	.	7.69
Stop rate, residents	7.01	6.3	9.06	2.94	0	.	7.69
Search rate	7.38	9.33	2.3	50	.	.	0
Contraband hit rate	61.11	50	50	150	.	.	.
Arrest rate	4.92	5.33	1.15	75	.	.	0
Citation rate	9.43	8.67	8.05	75	.	.	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

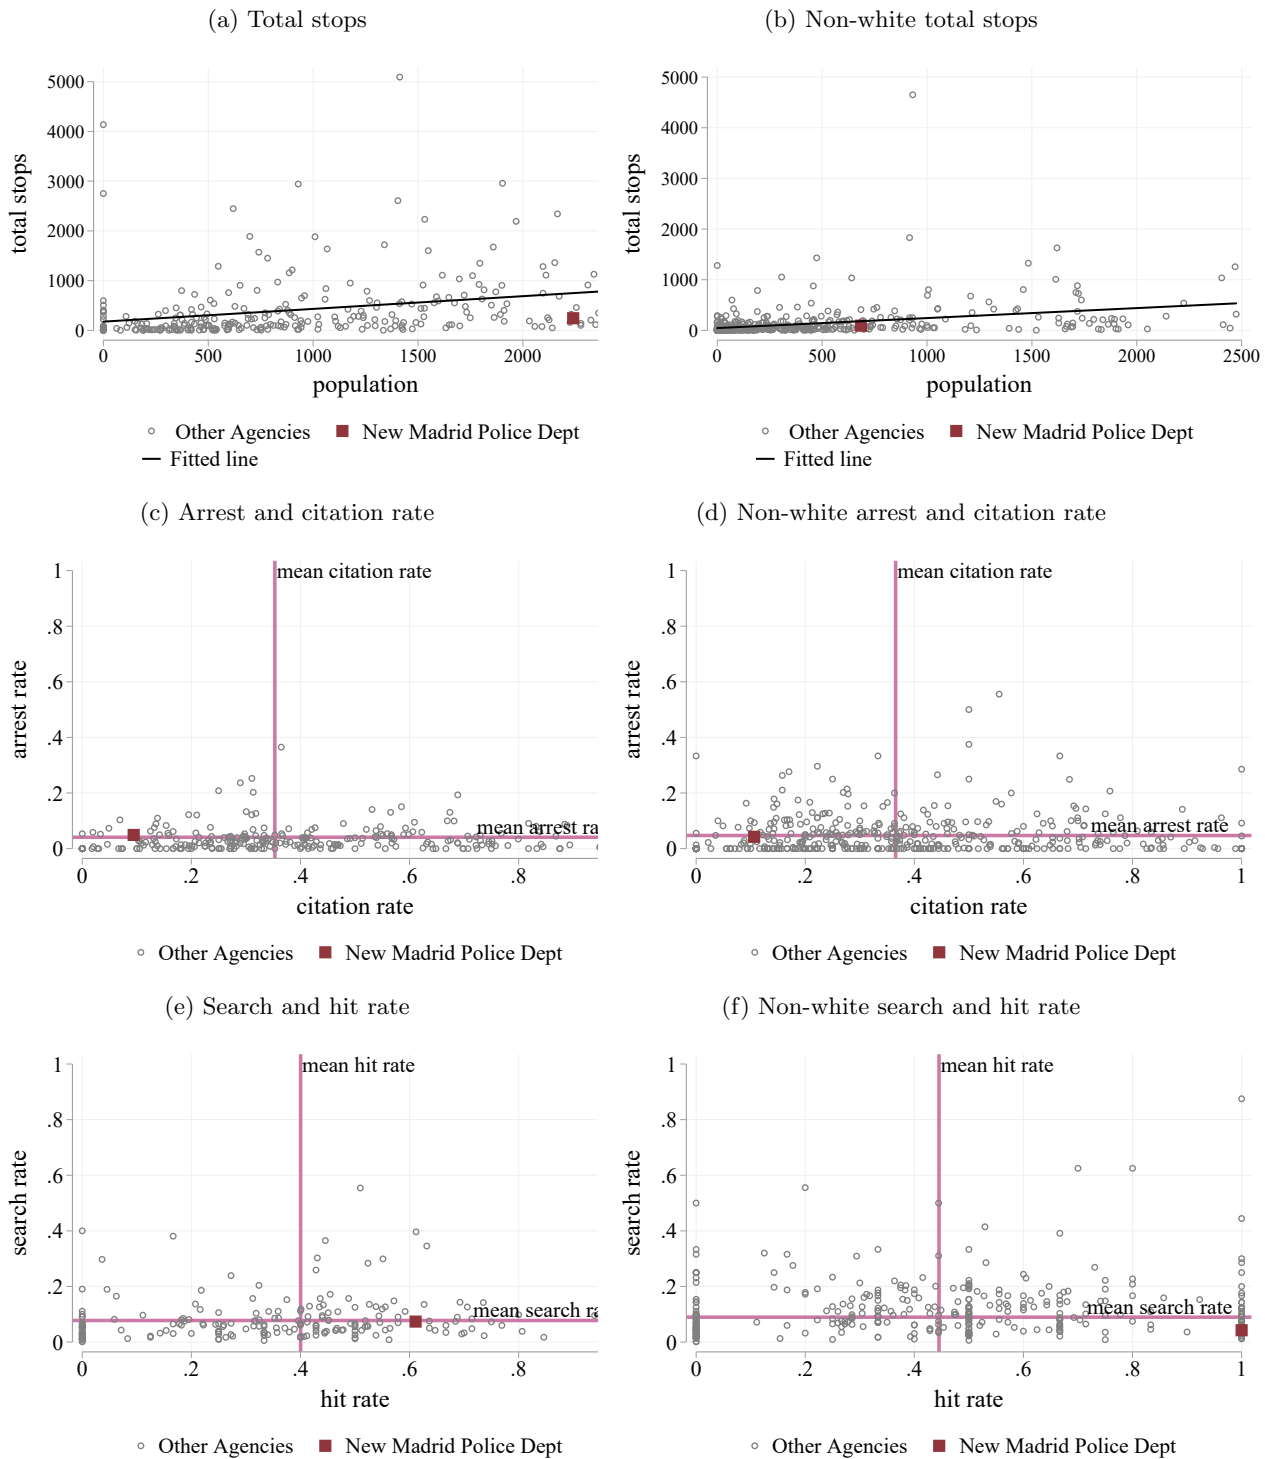

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for New Madrid Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for New Madrid Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	2240	1555	607	34	5	0	39
2019 population %	100	69.42	27.1	1.52	.22	0	1.74
<b>Stops</b>	.	.	.	.	.	.	.
All stops	244	150	87	4	0	0	3
Resident stops	157	98	55	1	0	0	3
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.886	1.316	1.08	0	.	.706
Resident stops	.	.899	1.293	.42	0	.	1.098

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

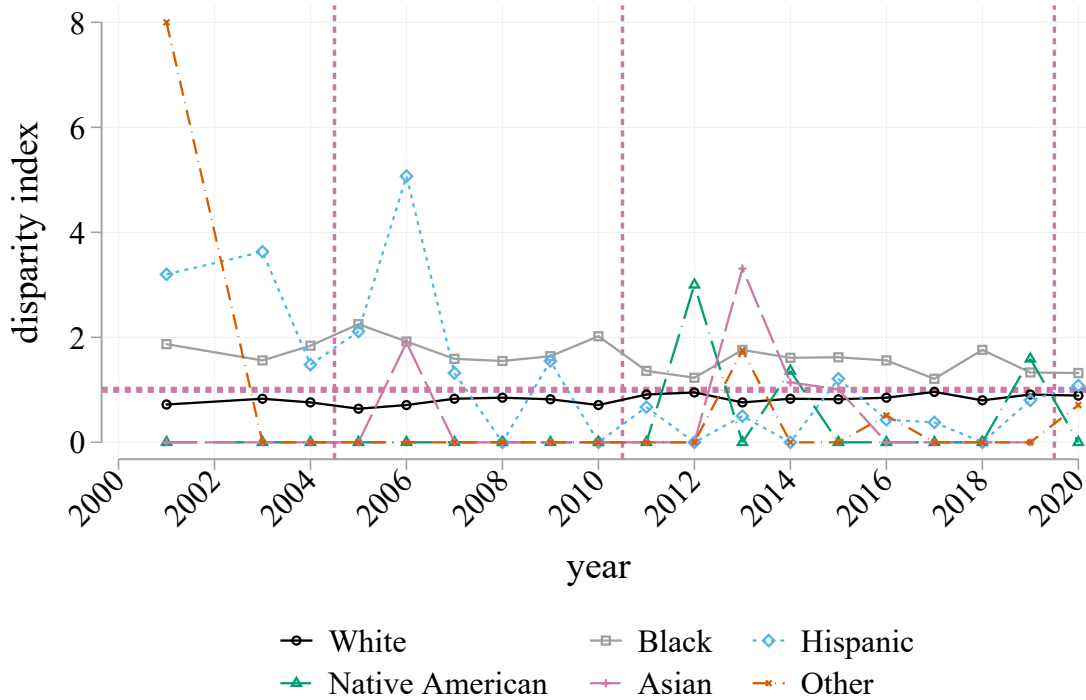

Table 3: Disparity Index from 2000 to 2020 for New Madrid Police Dept

	White	Black	Hispanic	Native American	Asian	Other
<b>2000</b>	.	.	.	.	.	.
<b>2001</b>	.72	1.87	3.2	0	0	8
<b>2002</b>	.	.	.	.	.	.
<b>2003</b>	.83	1.56	3.63	0	0	0
<b>2004</b>	.76	1.84	1.48	0	0	0
<b>2005</b>	.64	2.25	2.11	0	0	0
<b>2006</b>	.71	1.92	5.07	0	1.9	0
<b>2007</b>	.83	1.59	1.32	0	0	0
<b>2008</b>	.85	1.55	0	0	0	0
<b>2009</b>	.82	1.64	1.55	0	0	0
<b>2010</b>	.71	2.02	0	0	0	0
<b>2011</b>	.91	1.36	.67	0	0	0
<b>2012</b>	.95	1.23	0	3	0	0
<b>2013</b>	.76	1.76	.5	0	3.31	1.75
<b>2014</b>	.83	1.61	0	1.36	1.14	0
<b>2015</b>	.82	1.62	1.21	0	1.01	0
<b>2016</b>	.85	1.56	.43	0	0	.51
<b>2017</b>	.96	1.21	.38	0	0	0
<b>2018</b>	.8	1.76	0	0	0	0
<b>2019</b>	.91	1.33	.8	1.59	0	0
<b>2020</b>	.89	1.32	1.08	0	.	.71

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for New Madrid Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Citation rate	12.86	12.44	15.32	15.47	31.82	8.33	25

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

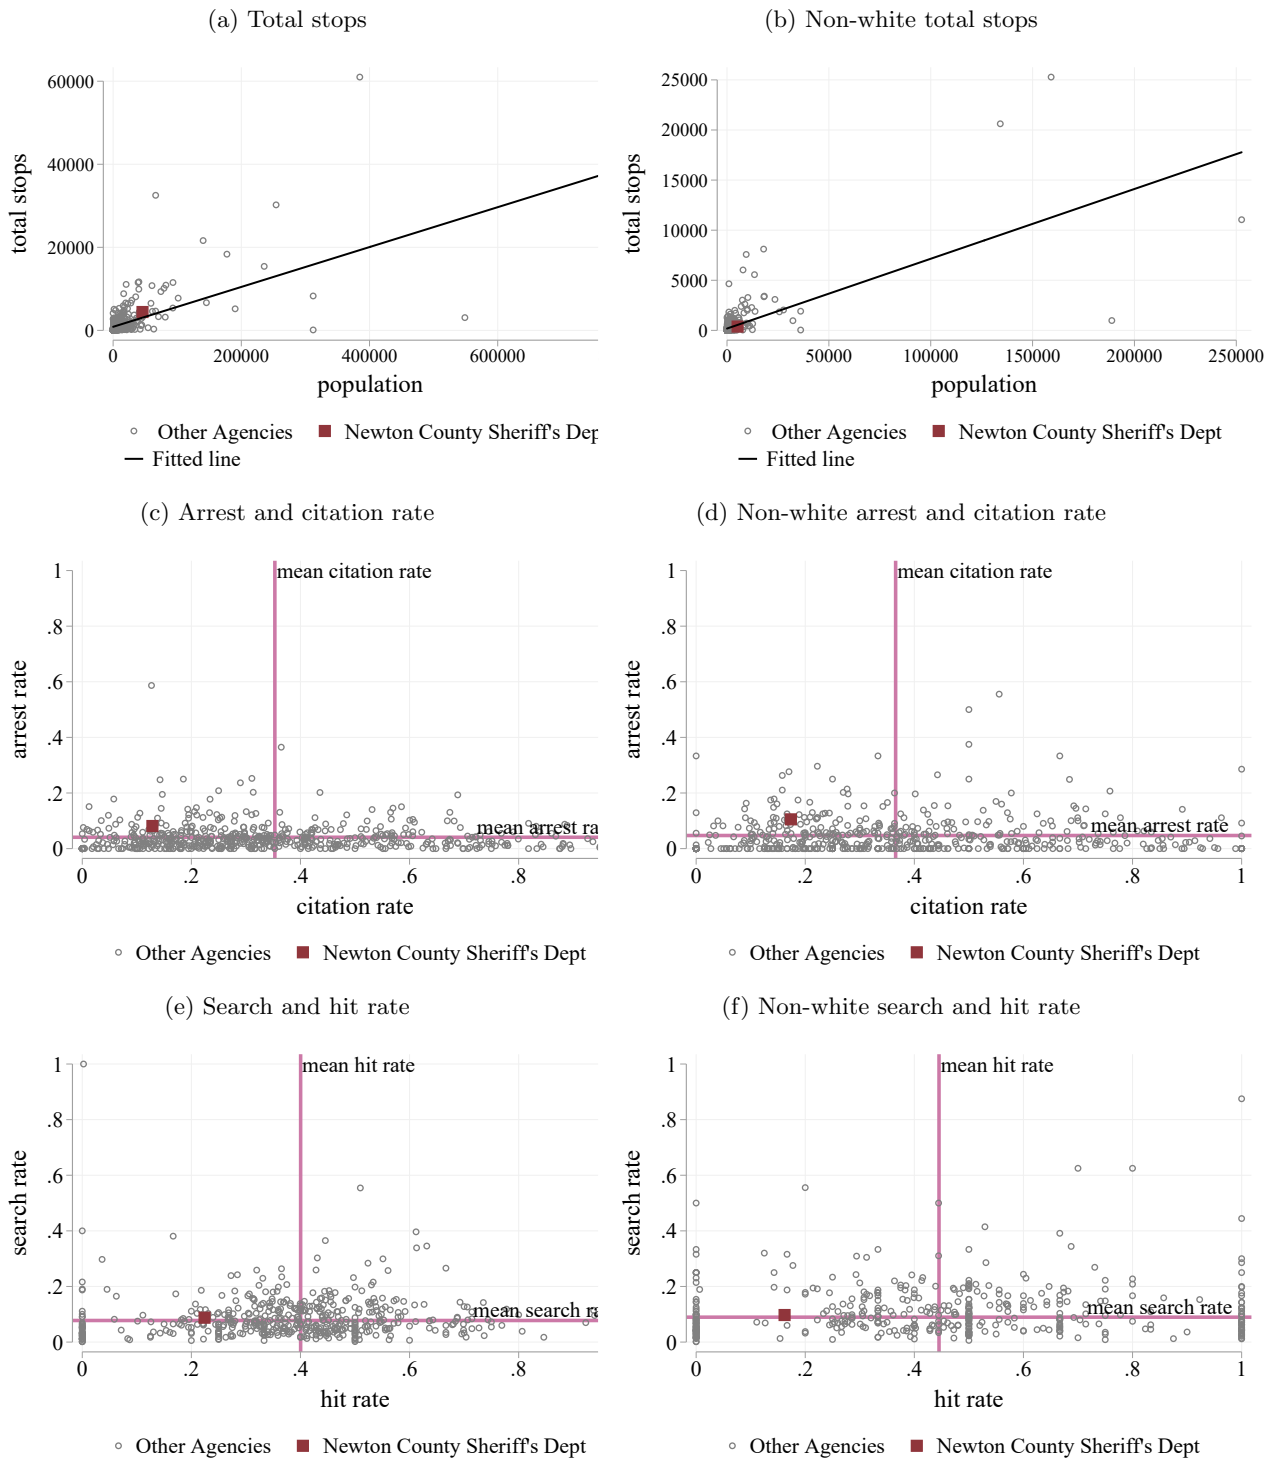

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Newton County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Newton County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>							
2019 population	45865	40660	414	1907	1127	555	1634
2019 population %	100	88.65	.9	4.16	2.46	1.21	3.56
<b>Stops</b>							
All stops	4424	4044	111	181	44	24	20
Resident stops	2550	2374	42	89	23	11	11
<b>Disparity index</b>							
All stops	.	1.031	2.78	.984	.405	.448	.127
Resident stops	.	1.05	1.825	.839	.367	.356	.121

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>2020</b>	1.03	2.78	.98	.4	.45	.13

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Newton County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Nixa Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Nixa Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	16468	15416	85	501	180	199	148
2019 population %	100	93.61	.52	3.04	1.09	1.21	.9
<b>Stops</b>	.	.	.	.	.	.	.
All stops	8834	8401	248	12	1	34	138
Resident stops	4293	4095	95	7	0	18	78
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.016	5.439	.045	.01	.318	1.738
Resident stops	.	1.019	4.287	.054	0	.347	2.022

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Arrest rate	14.04	7.38	13.51	25.55	40	0	41.18
Citation rate	53.13	43.72	54.05	64.23	60	75	100

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

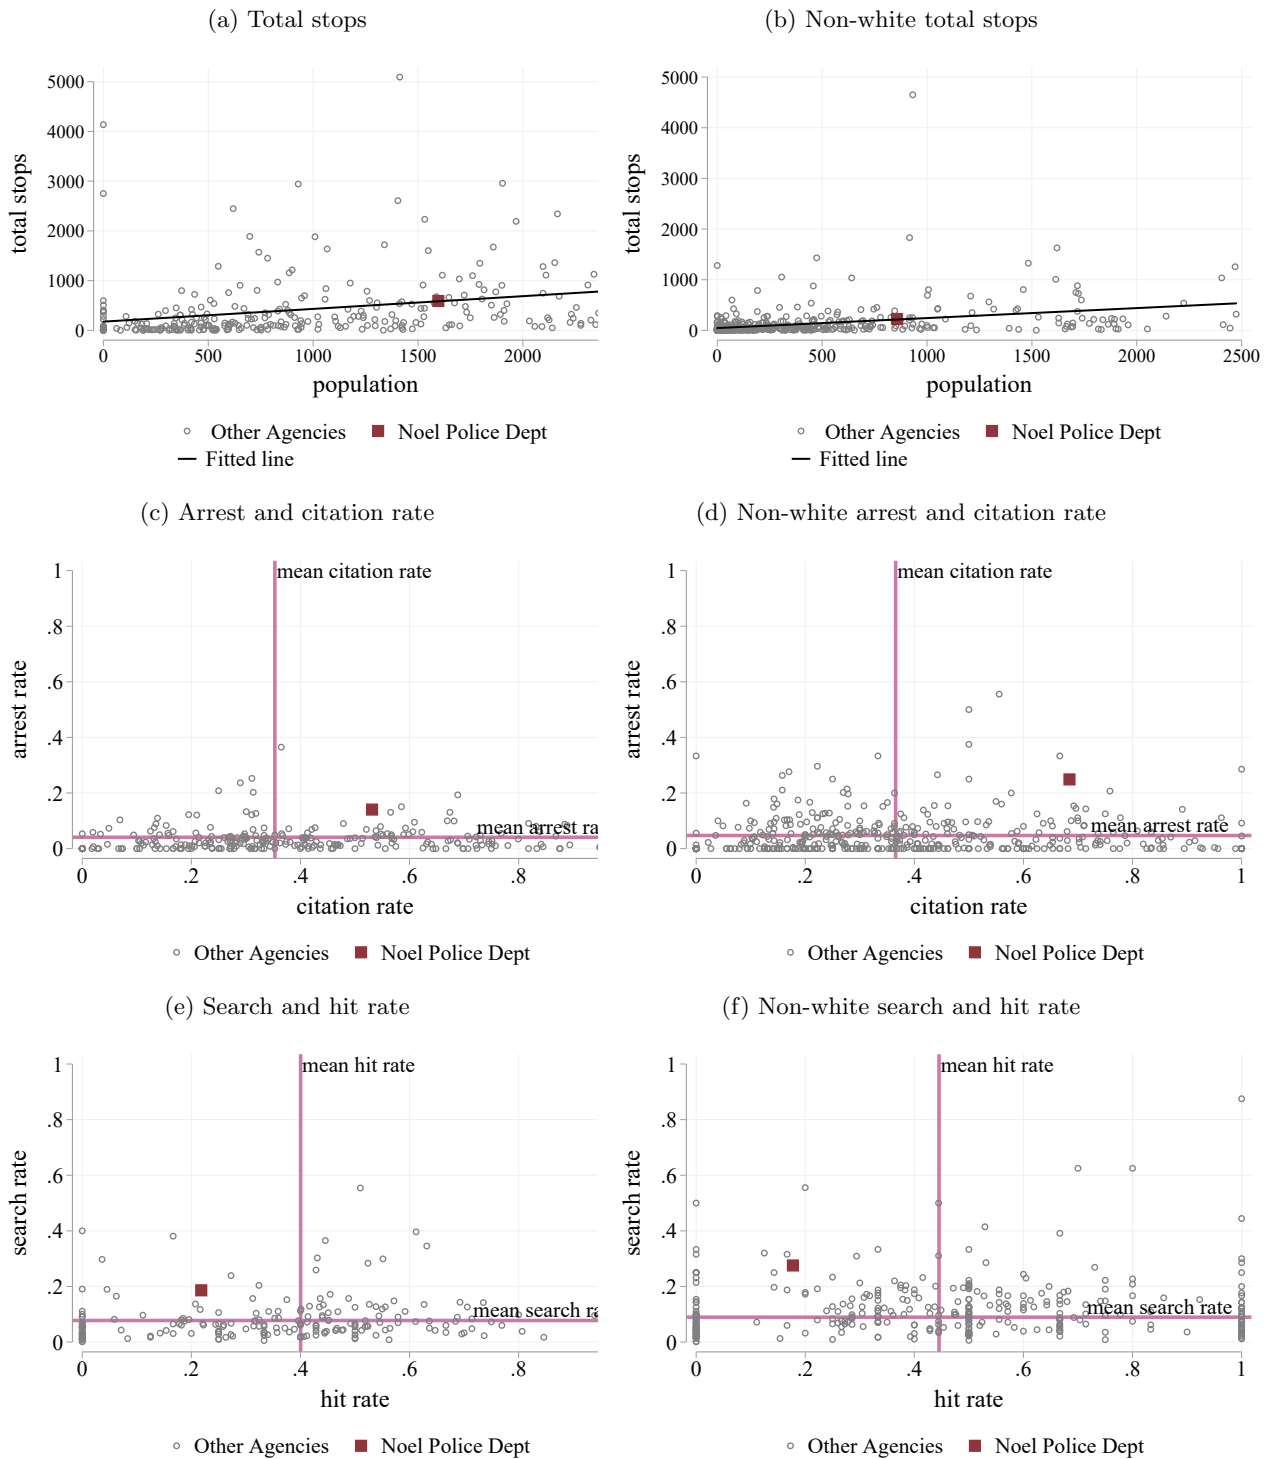

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Noel Police Dept. covers numerous state highways (MO 90, MO 59, RT H, RT DD, and RT TT) passing through their city limits, includes large campgrounds, and borders Arkansas.

Figure 1: Comparison to other agencies by population for Noel Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Noel Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1597	740	183	549	45	8	156
2019 population %	100	46.34	11.46	34.38	2.82	.5	9.77
<b>Stops</b>	.	.	.	.	.	.	.
All stops	591	366	37	137	5	12	34
Resident stops	168	60	23	60	1	2	22
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.336	.546	.674	.3	4.053	.589
Resident stops	.	.771	1.195	1.039	.211	2.376	1.341

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>2011</b>	1.25	1.92	.57	.24	1.4	2.52
<b>2012</b>	1.23	2.74	.55	1.59	0	.41
<b>2013</b>	1.54	2.08	.39	.11	.48	.26
<b>2014</b>	1.59	1.75	.33	0	.35	2.21
<b>2015</b>	1.58	2.34	.27	.29	1.22	0
<b>2016</b>	1.06	3.12	.58	0	.72	4.57
<b>2017</b>	.61	5.67	.8	.1	.12	2.89
<b>2018</b>	1.39	1.91	.41	.39	.66	3.96
<b>2019</b>	1.47	1.45	.34	.92	.78	4.44
<b>2020</b>	1.34	.55	.67	.3	4.05	.59

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Noel Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Normandy Police Dept. is contracted to provide police services to and includes traffic stops for: City of Cool Valley, City of Pasadena Park, City of Pasadena Hills, City of Glen Echo Park, City of Bellerive Acres, and City of Greendale.

Figure 1: Comparison to other agencies by population for Normandy Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Normandy Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	4259	911	2912	44	0	84	338
2019 population %	100	21.39	68.37	1.03	0	1.97	7.94
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1283	289	965	3	1	8	17
Resident stops	35	3	31	0	0	1	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.053	1.1	.226	.	.316	.167
Resident stops	.	.401	1.295	0	.	1.449	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

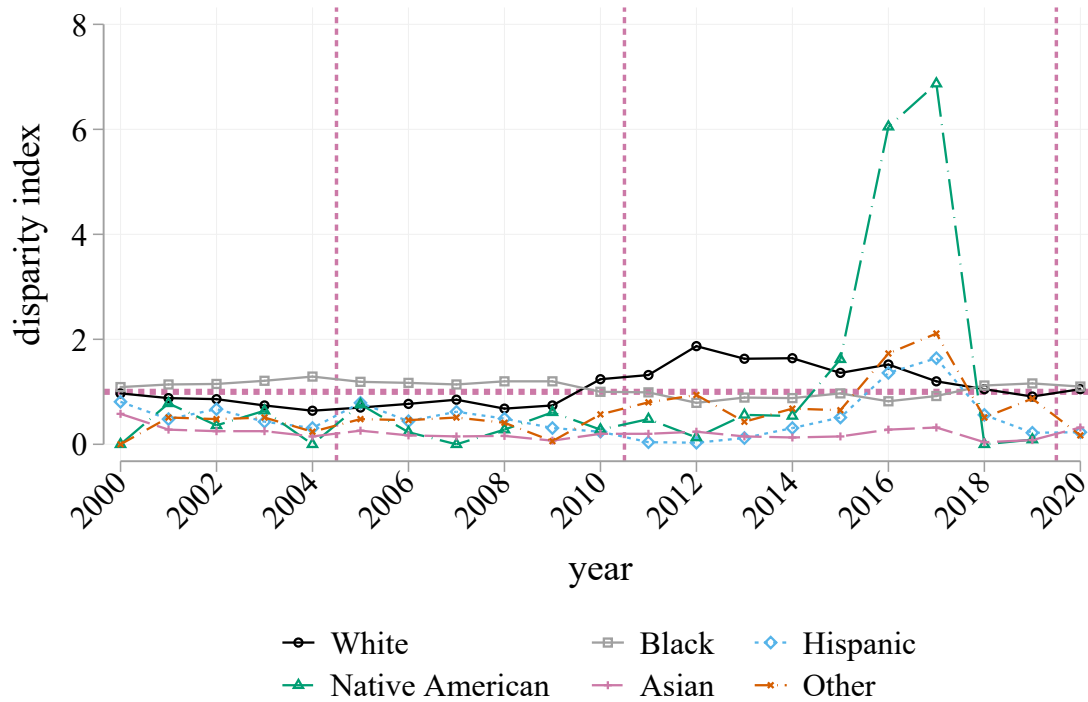

Table 3: Disparity Index from 2000 to 2020 for Normandy Police Dept

Arrests	46	24	20	1	0	0	1
Citations	1319	763	350	140	12	36	18
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	122.94	99.53	770.32	113.81	.	65.38	21.79
Stop rate, residents	7.9	6.75	52.26	5.41	.	2.14	.39
Search rate	3.71	2.74	6.03	3.69	4.08	4.58	3.57
Contraband hit rate	44.13	42.68	44.44	42.86	50	57.14	50
Arrest rate	.95	.8	1.68	.26	0	0	1.79
Citation rate	27.35	25.5	29.31	36.94	24.49	23.53	32.14

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

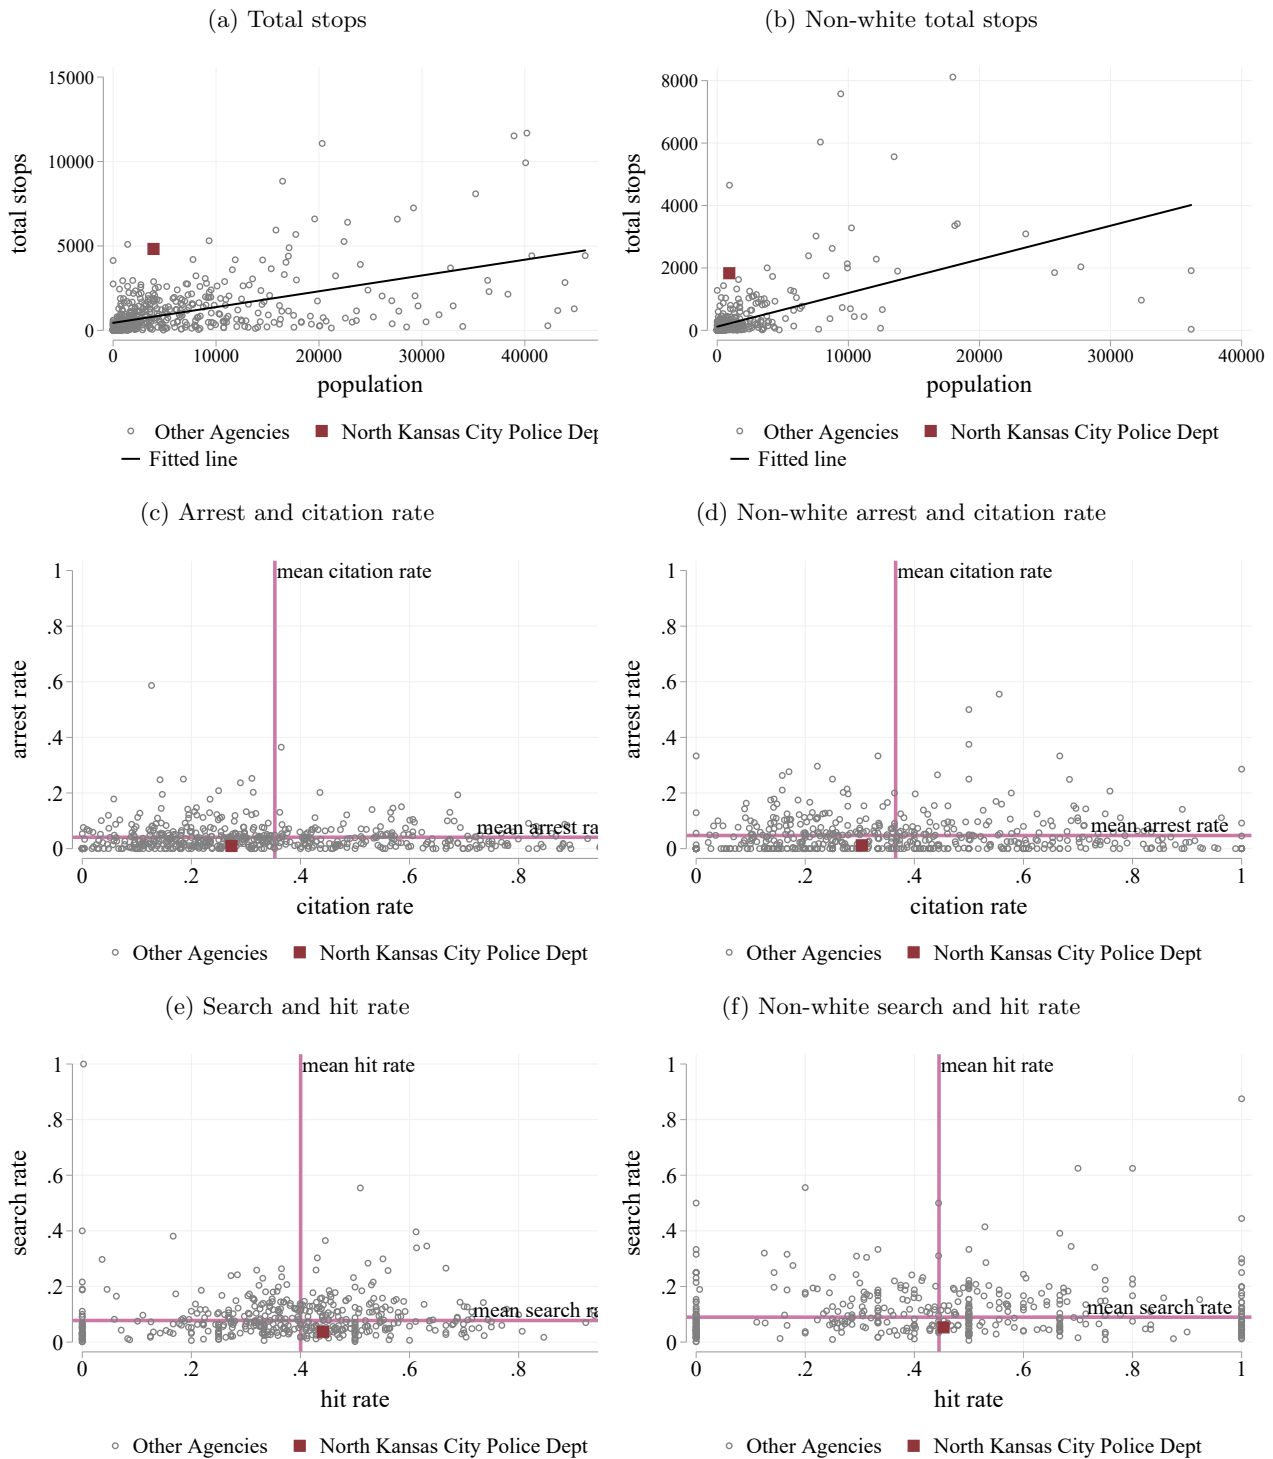

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: North Kansas City Police Dept. is a small department and covers a small jurisdiction but includes six highways.

Figure 1: Comparison to other agencies by population for North Kansas City Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Arrest rate	6.05	6.1	6.86	6.25	.	0	0
Citation rate	83.88	84.15	83.33	81.25	.	75	92.31

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

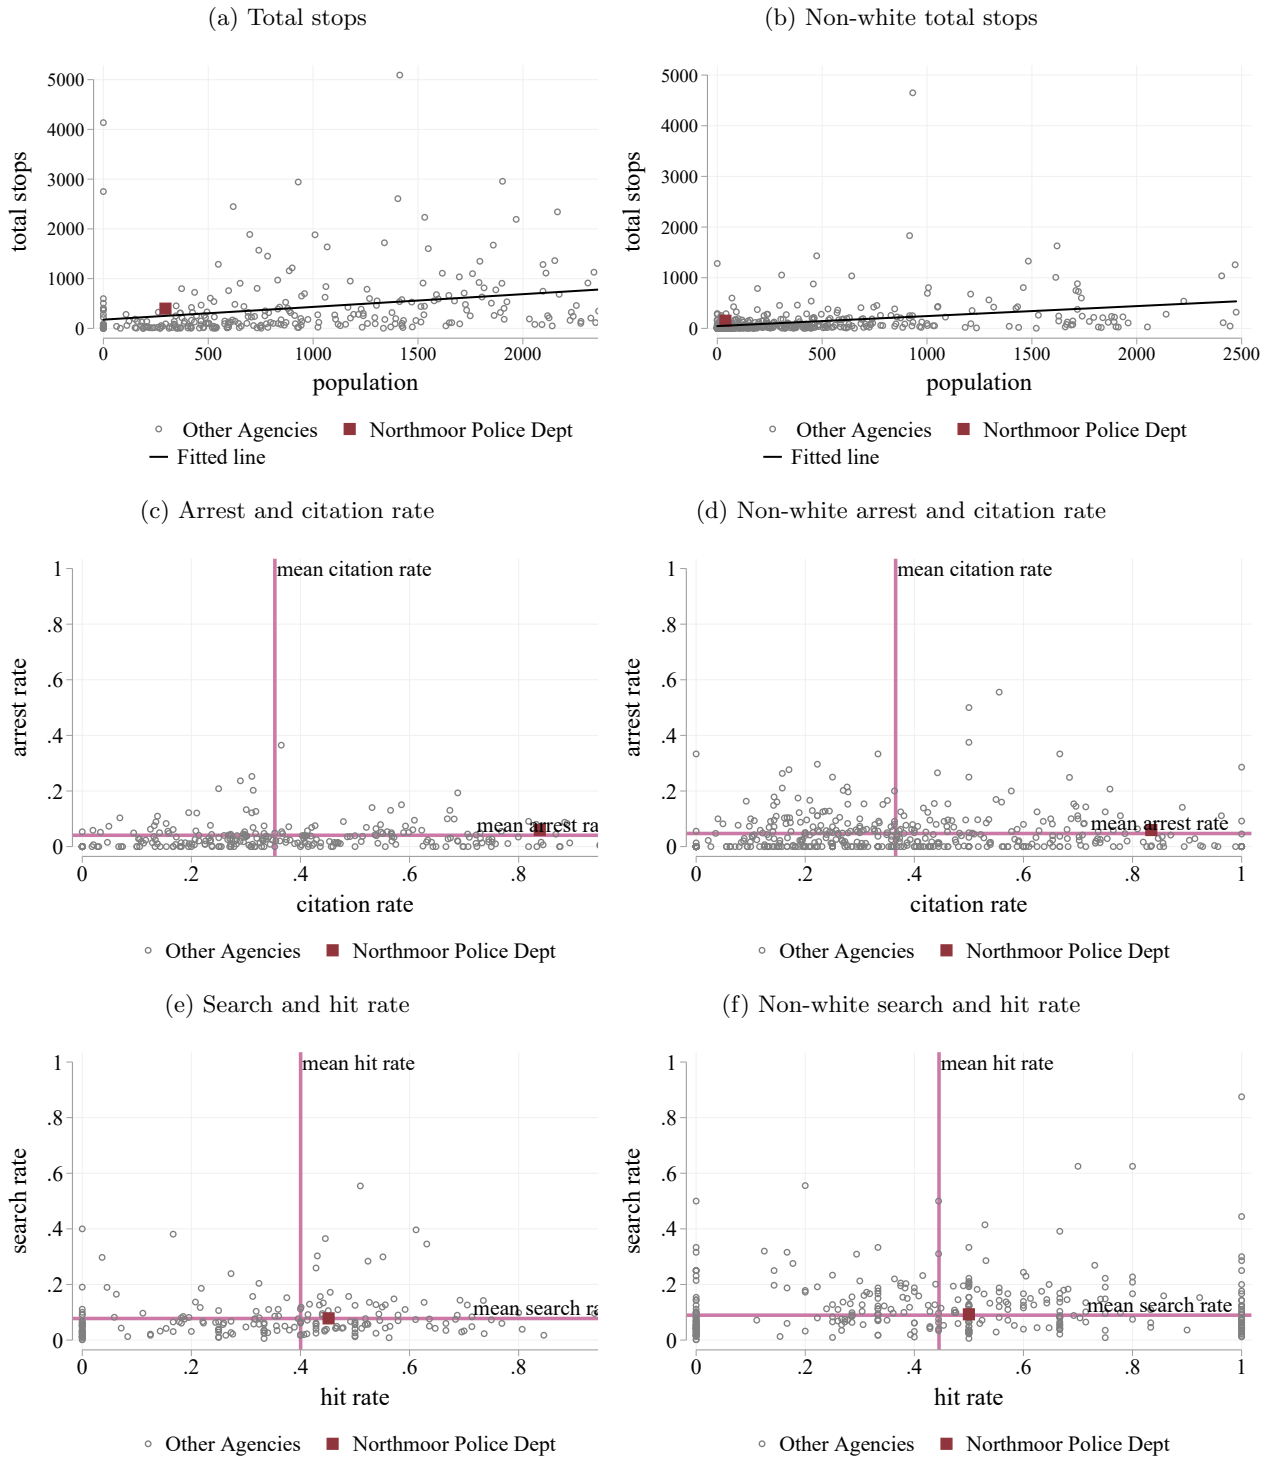

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Northmoor Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Northmoor Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	296	257	20	12	0	2	7
2019 population %	100	86.82	6.76	4.05	0	.68	2.36
<b>Stops</b>	.	.	.	.	.	.	.
All stops	397	246	102	32	0	4	13
Resident stops	3	3	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.714	3.803	1.988	.	1.491	1.385
Resident stops	.	1.152	0	0	.	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 3: Disparity Index from 2000 to 2020 for Northmoor Police Dept

<b>2017</b>	.8	4.99	4.15	0	.57	.
<b>2018</b>	.8	4.99	2.59	0	2.75	.
<b>2019</b>	.76	5.18	3.41	0	2.19	.
<b>2020</b>	.71	3.8	1.99	.	1.49	1.38

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Northmoor Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

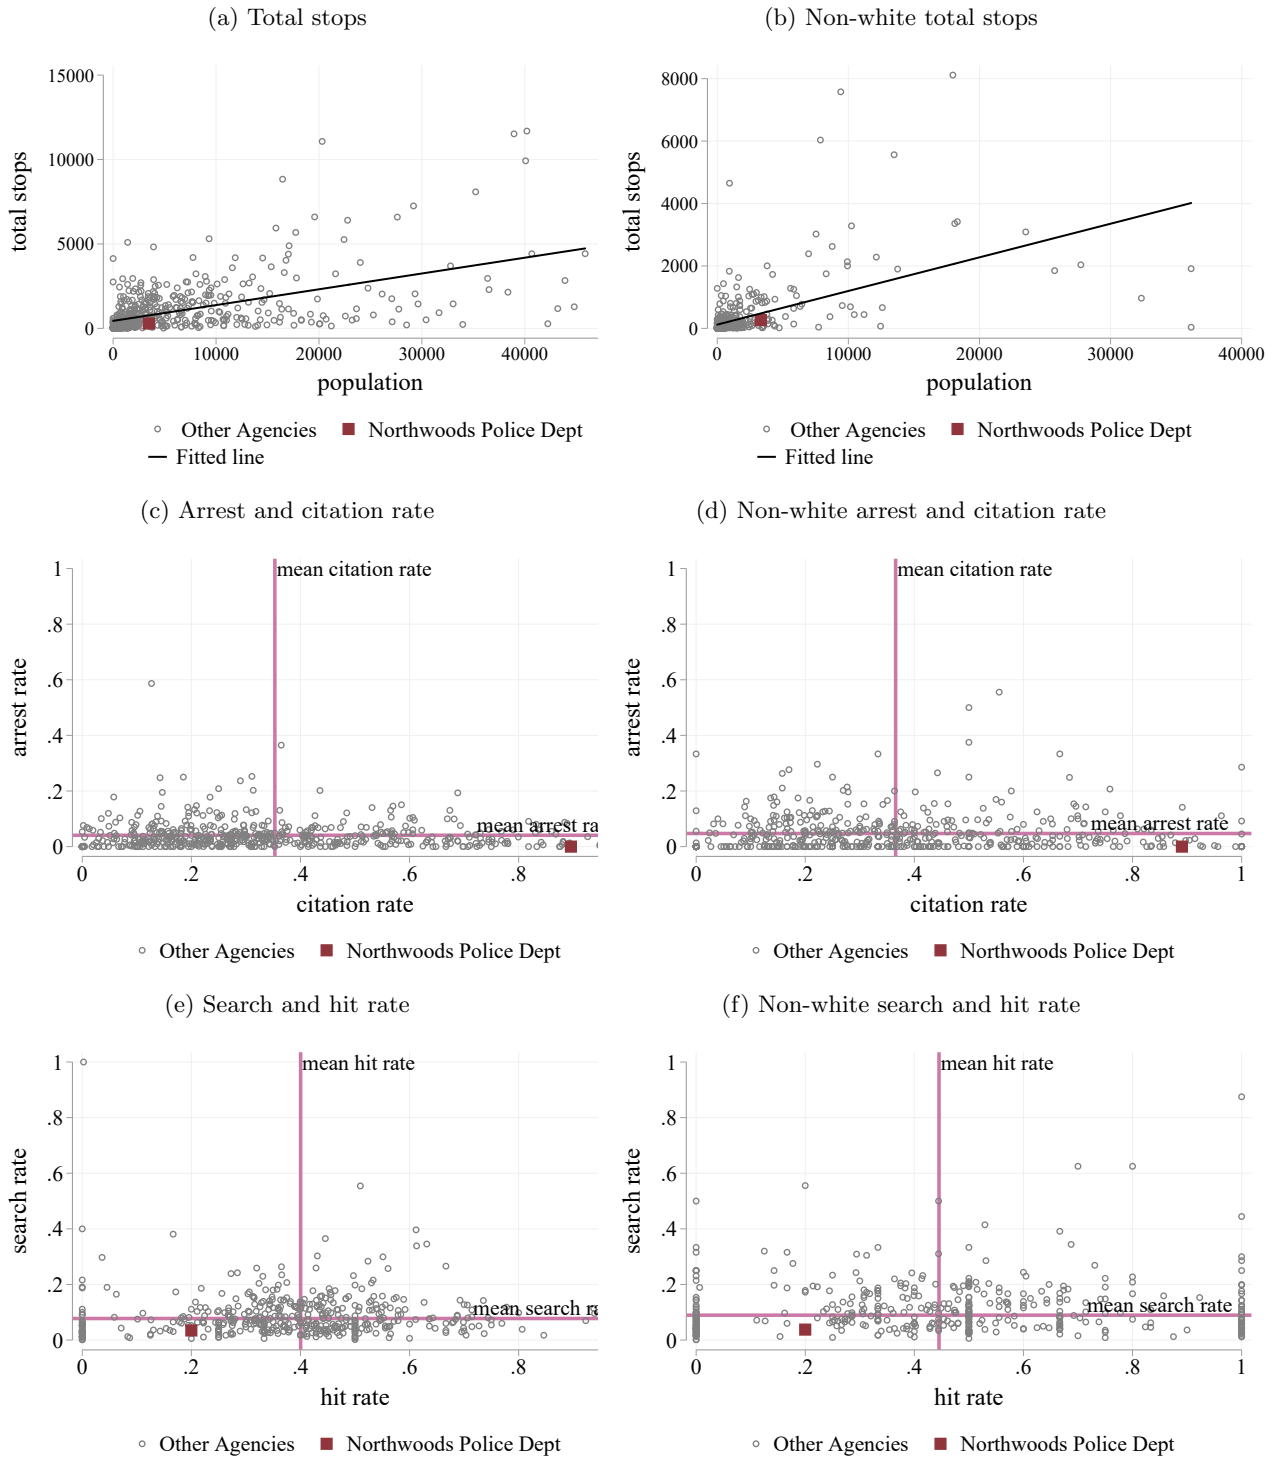

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for O'Fallon Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for O’Fallon Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	66355	58487	3061	1590	101	2092	1426
2019 population %	100	88.14	4.61	2.4	.15	3.15	2.15
<b>Stops</b>	.	.	.	.	.	.	.
All stops	32530	26497	4576	603	148	421	285
Resident stops	12704	10783	1274	243	72	199	133
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.924	3.049	.774	2.989	.41	.408
Resident stops	.	.963	2.174	.798	3.723	.497	.487

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

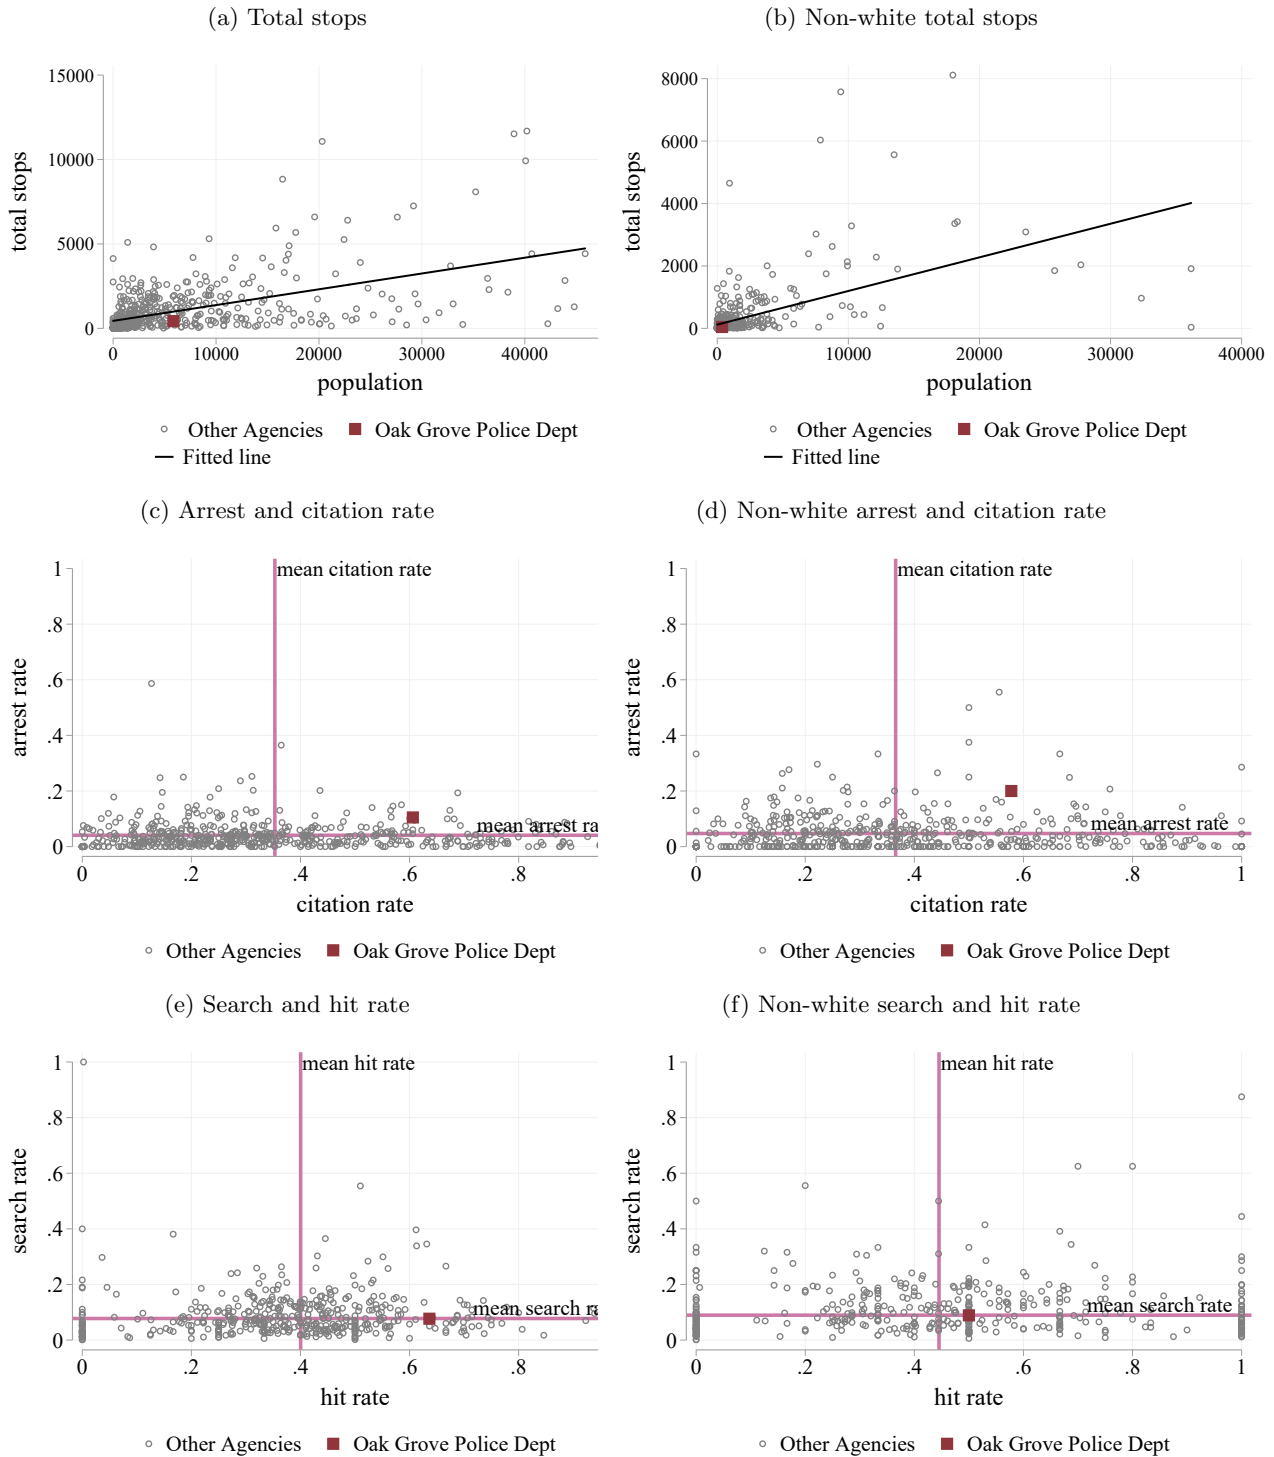

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Oakview Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Oakview Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	345	295	0	17	10	3	20
2019 population %	100	85.51	0	4.93	2.9	.87	5.8
<b>Stops</b>	.	.	.	.	.	.	.

Resident stops	2	1	0	1	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.741	.	1.213	0	5.04	.275
Resident stops	.	.585	.	10.147	0	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Arrest rate	.79	.83	0	0	.	.	.
Citation rate	57.48	56.2	80	100	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

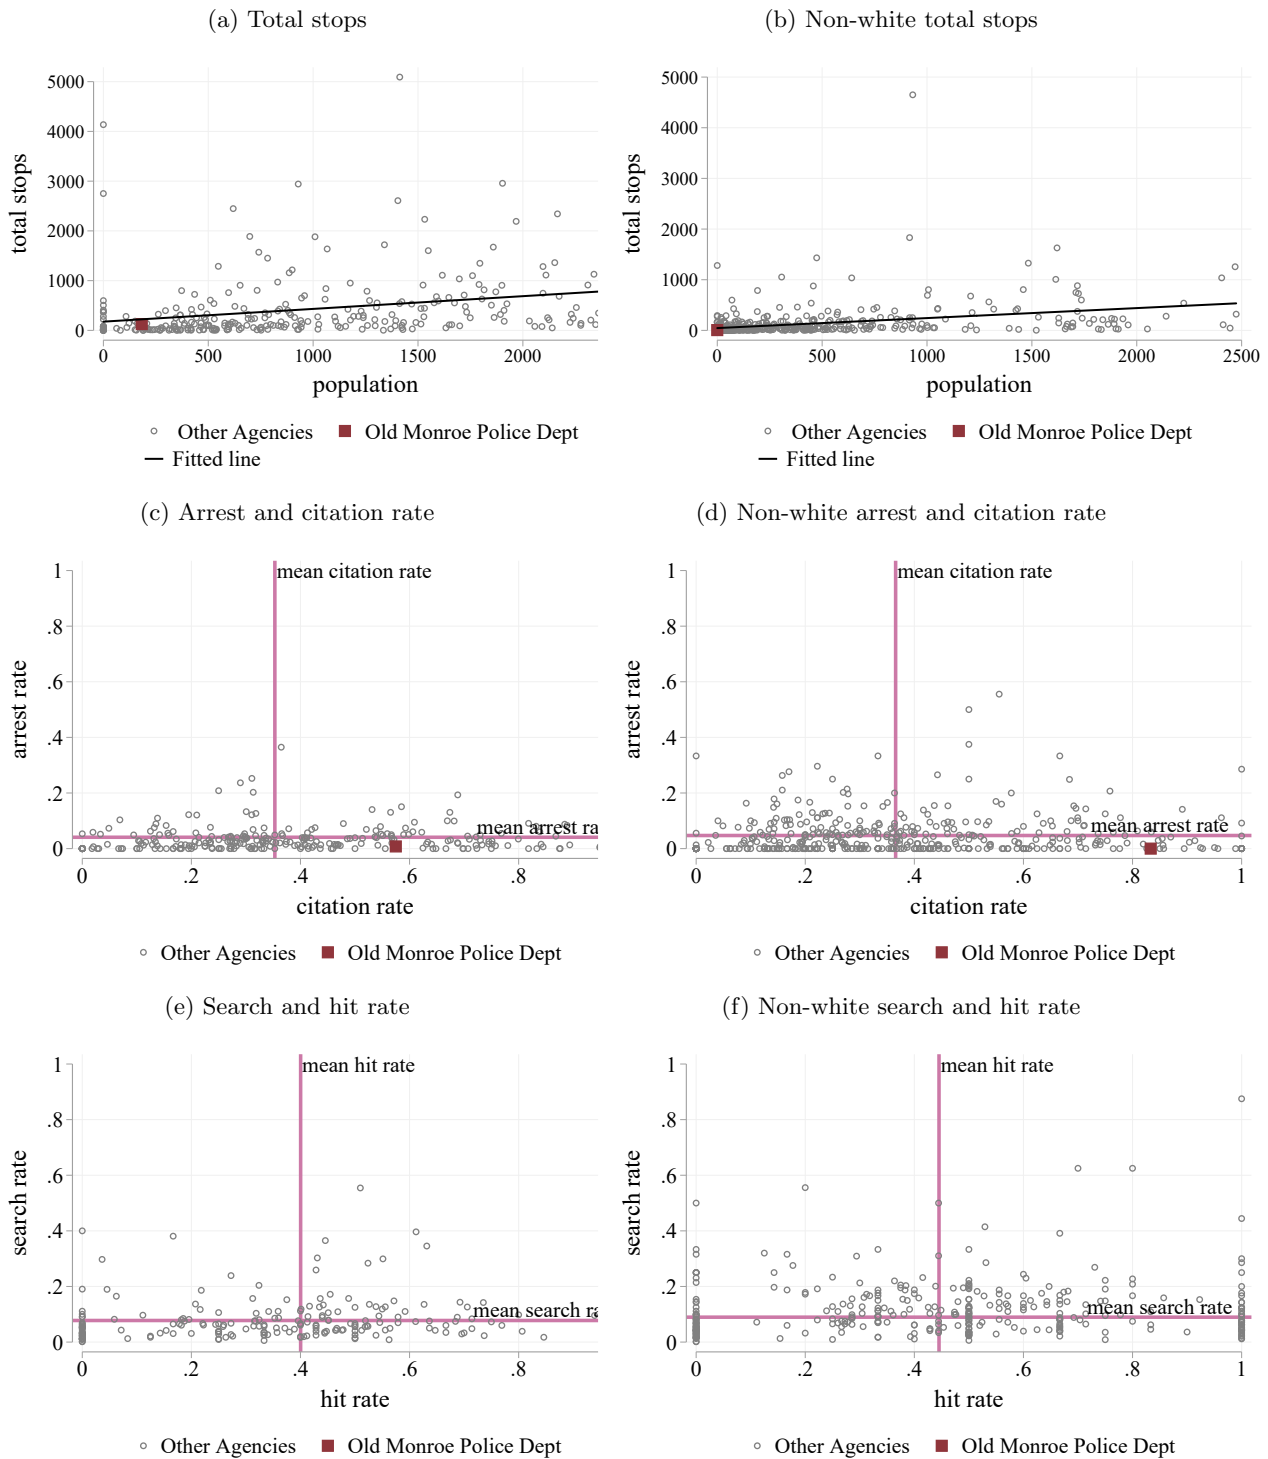

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Old Monroe Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Old Monroe Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	183	183	0	0	0	0	0
2019 population %	100	100	0	0	0	0	0
<b>Stops</b>	.	.	.	.	.	.	.
All stops	127	121	5	1	0	0	0
Resident stops	12	12	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.953	.	.	.	.	.
Resident stops	.	1	.	.	.	.	.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Citation rate	58.46	59.48	59.62	33.33	80	60.44	34.67

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

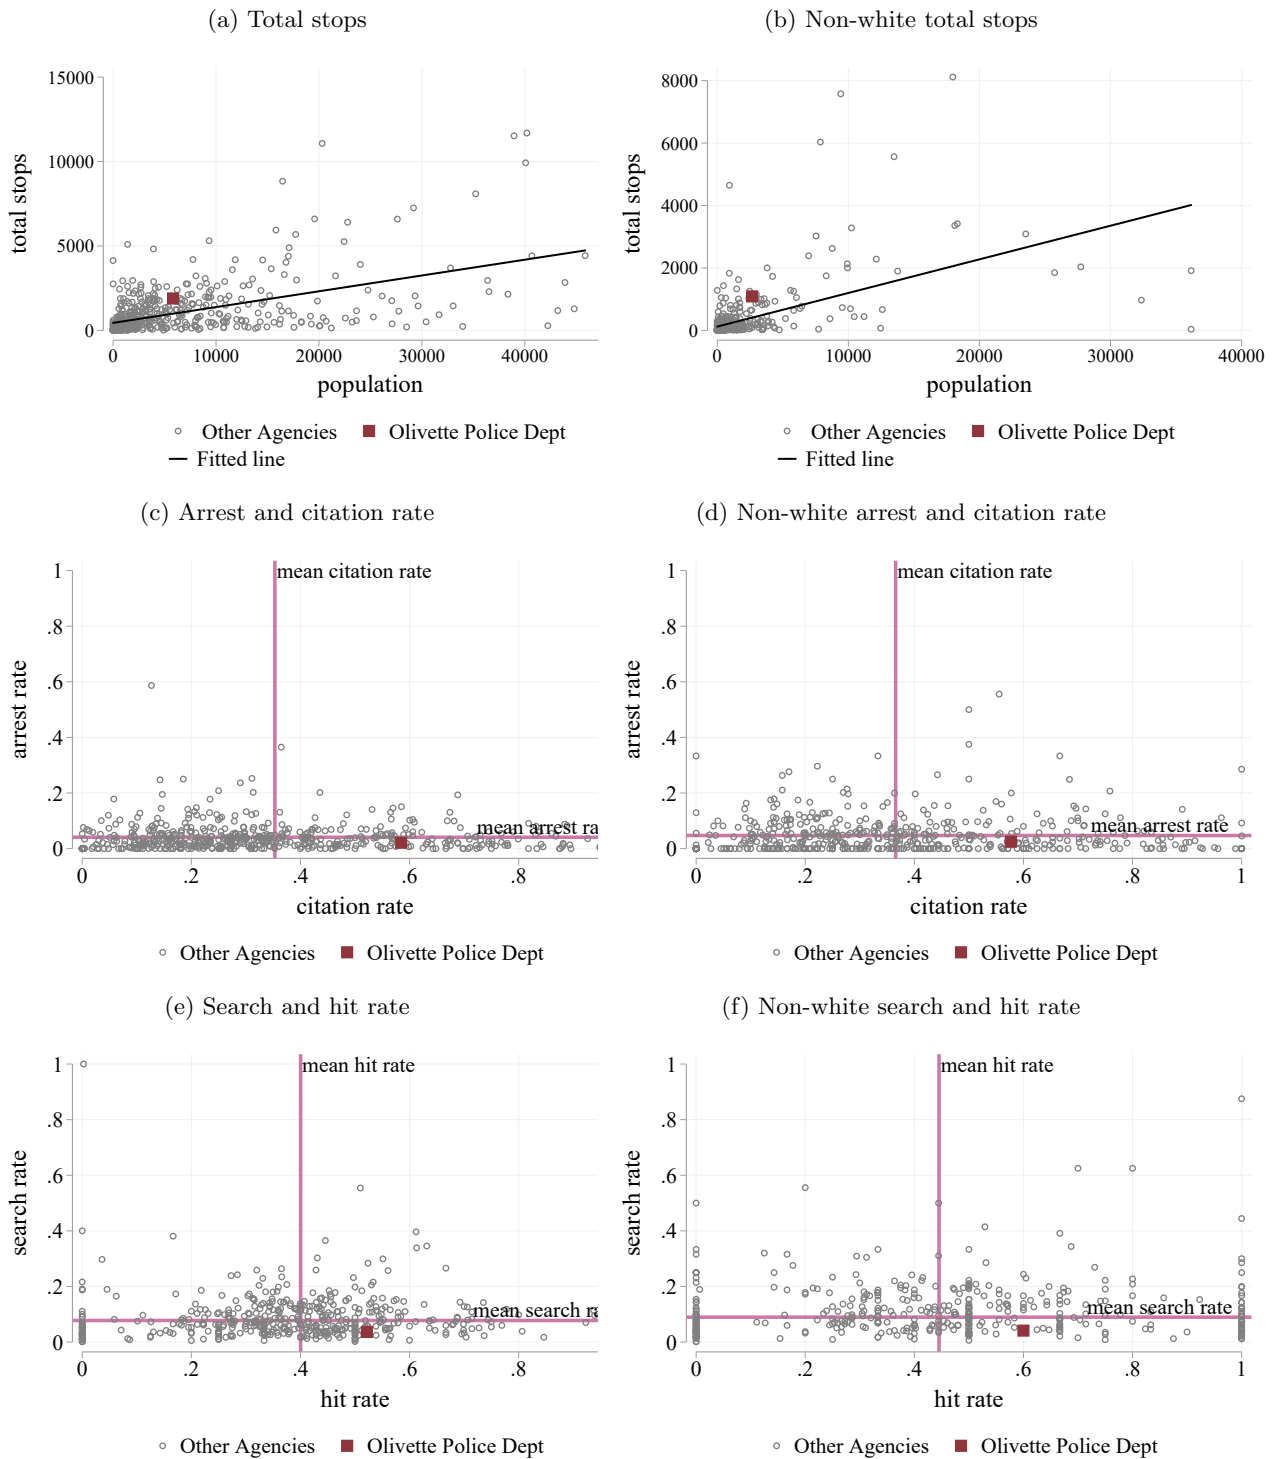

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Olivette Police Dept. provides service to the City of Olivette, which has Interstate 170 and Highway 340 within its boundaries. In 2020, the department revised its policies pertaining to mandatory arrests for certain traffic violations such that officers are no longer mandated to arrest for Driving While Suspended or Revoked, nor are they to issue equipment violations if a driver has received a ticket for the same violation from a regional police department within 60 days.

Figure 1: Comparison to other agencies by population for Olivette Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Stop rate, residents	1.62	1.85	0	0	.	.	0
Search rate	0	0	.	.	.	.	.
Contraband hit rate	.	.	.	.	.	.	.
Arrest rate	0	0	.	.	.	.	.
Citation rate	0	0	.	.	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

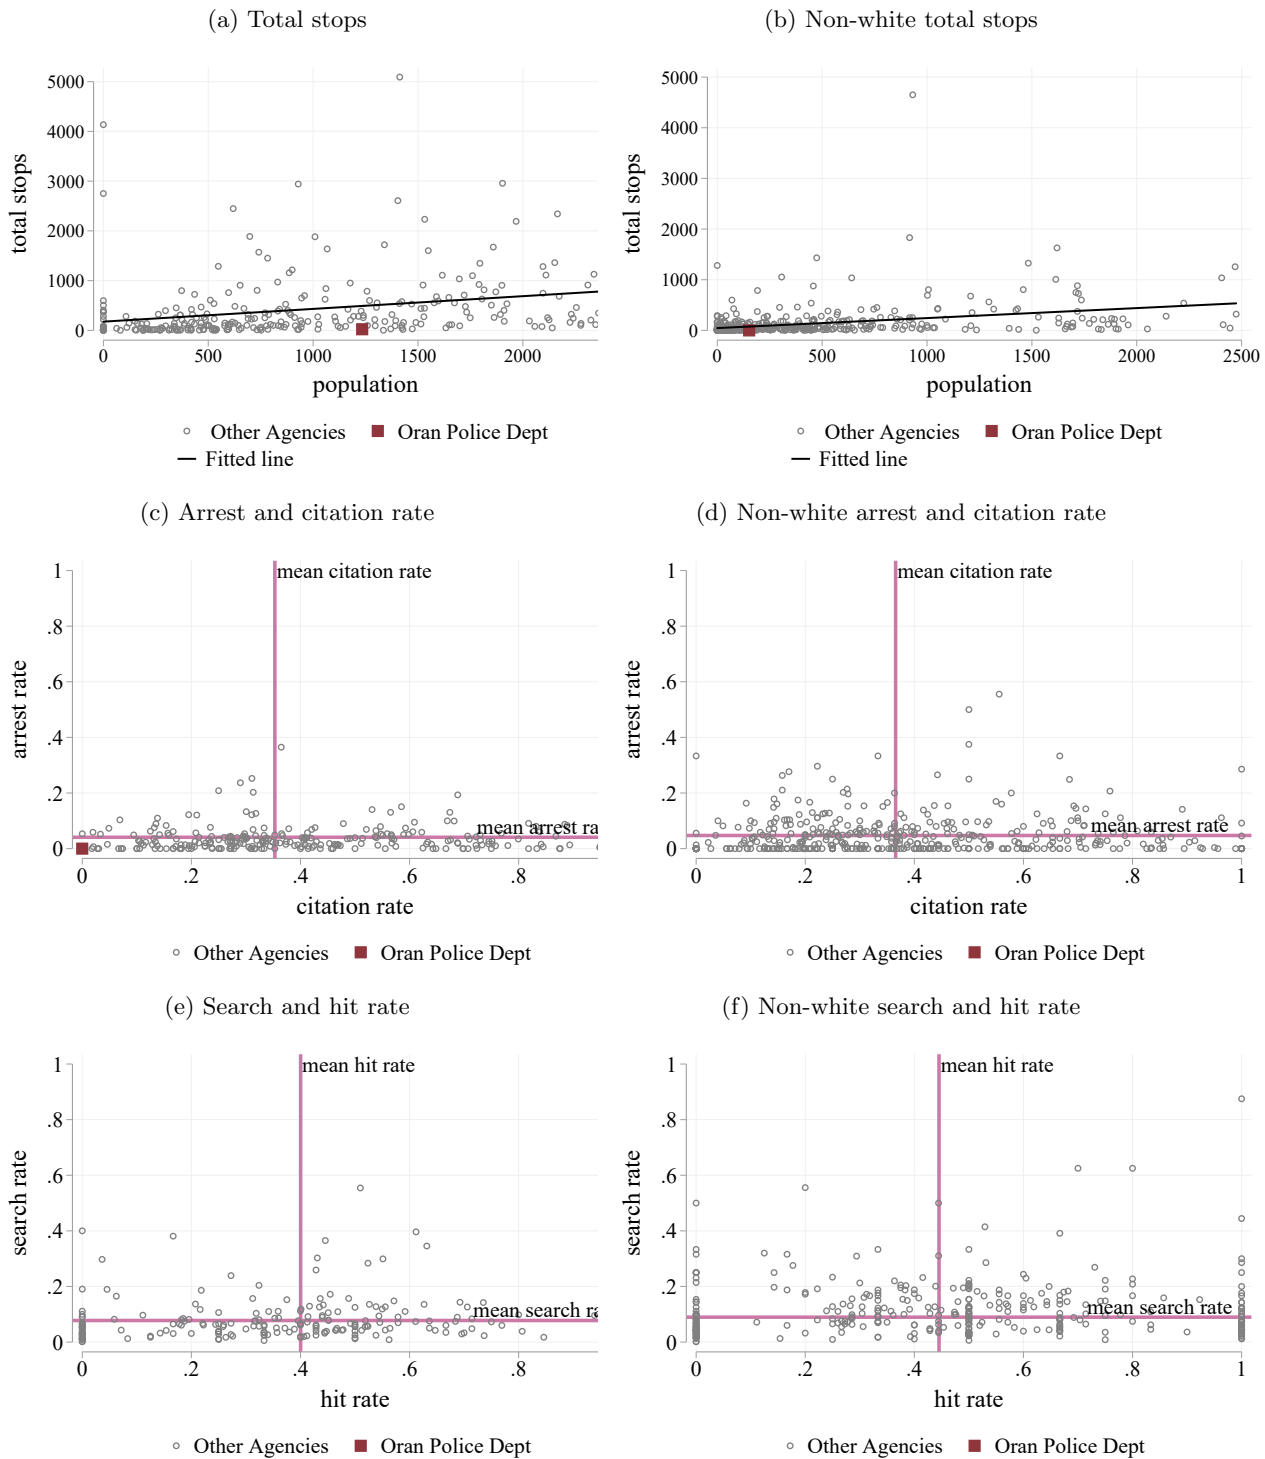

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Oran Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Oran Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	1234	1082	14	85	0	0	53
2019 population %	100	87.68	1.13	6.89	0	0	4.29
<b>Stops</b>	.	.	.	.	.	.	.
All stops	23	23	0	0	0	0	0
Resident stops	20	20	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.14	0	0	.	.	0
Resident stops	.	1.14	0	0	.	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>2019</b>	1.03	0	0	.	.	0
<b>2020</b>	1.14	0	0	.	.	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Oran Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

All stops	4	4	0	0	0	0	0
Resident stops	2	2	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.067	0	0	0	0	0
Resident stops	.	1.067	0	0	0	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>2018</b>	1.02	.	0	0	0	0
<b>2019</b>	1.02	.	0	0	0	0
<b>2020</b>	1.07	0	0	0	0	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Oregon Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Arrest rate	4	1.94	0	54.55	0	0	0
Citation rate	27.21	25.65	48.39	47.27	33.33	27.27	42.86

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

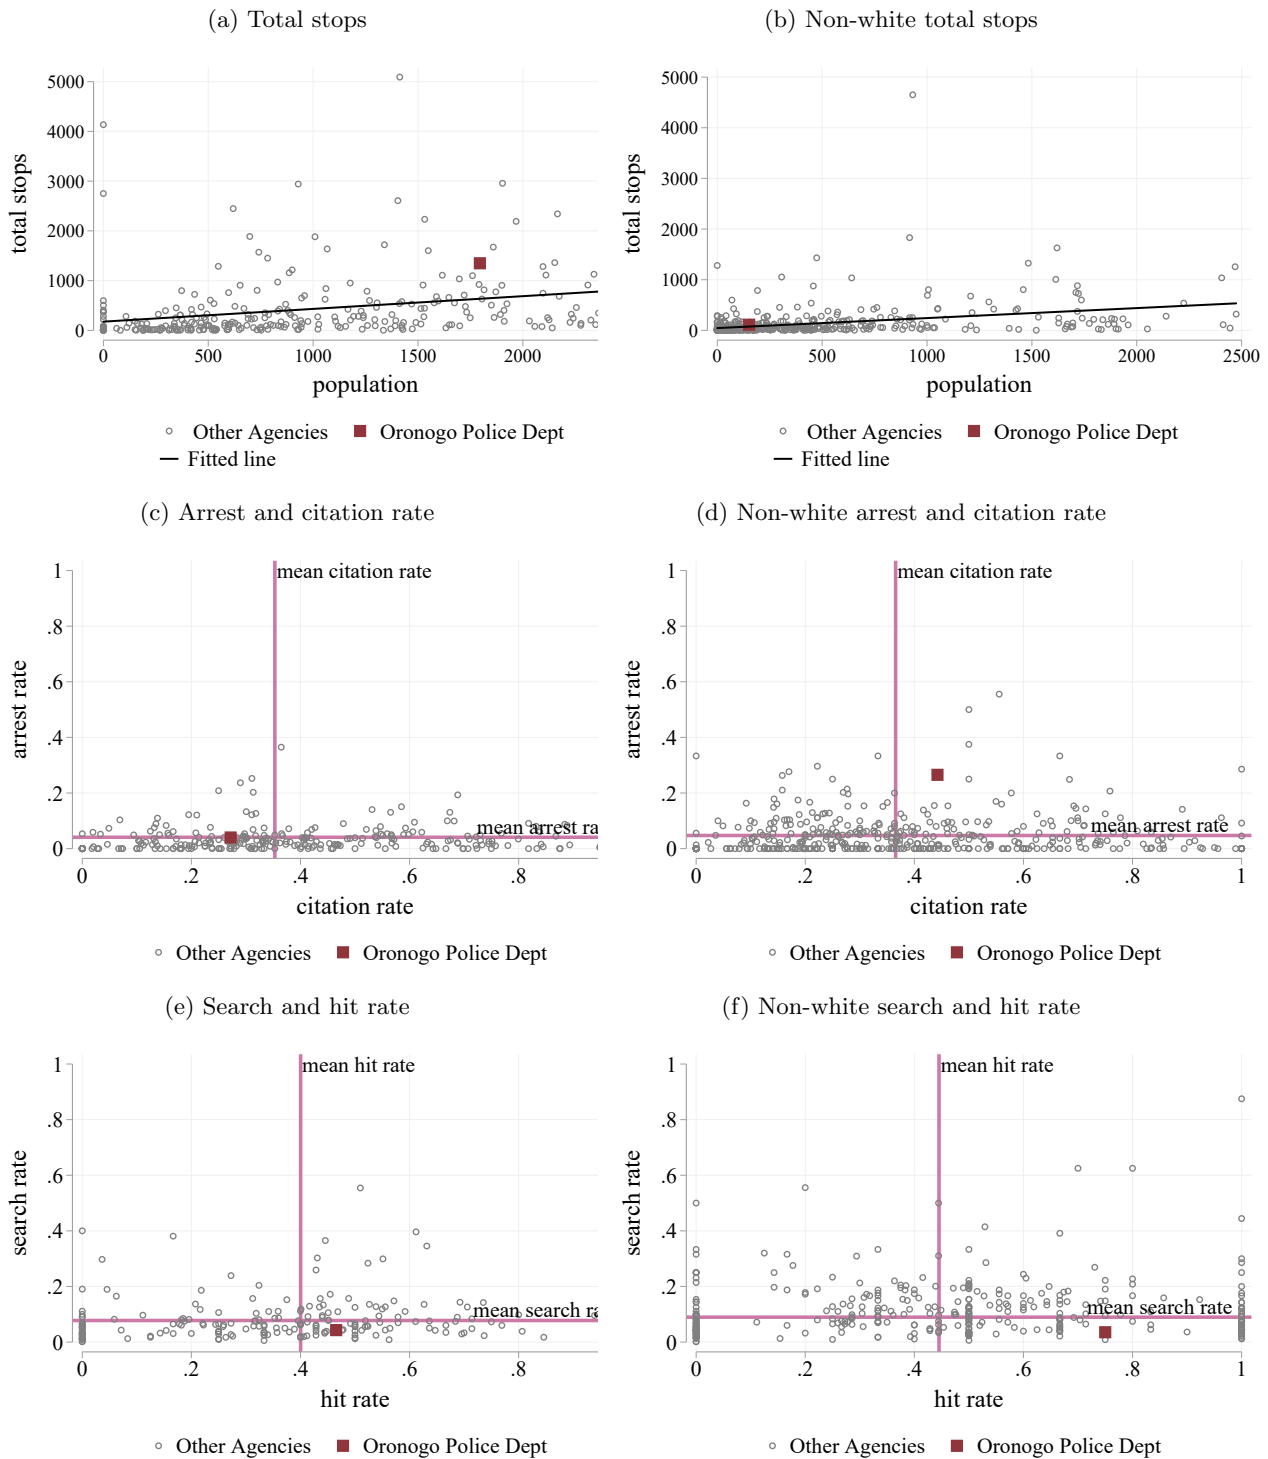

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Oronogo Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Orrick Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Contraband	37	25	11	1	0	0	0
Arrests	67	61	5	1	0	0	0
Citations	561	526	25	5	1	3	1
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	43.23	44.3	129.69	6.52	1.12	.	.
Stop rate, residents	6.81	6.92	15.63	1.63	0	.	.
Search rate	5.16	4.37	20.48	8.33	0	0	0
Contraband hit rate	42.05	35.71	64.71	100	.	.	.
Arrest rate	3.93	3.81	6.02	8.33	0	0	0
Citation rate	32.86	32.88	30.12	41.67	100	33.33	50

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

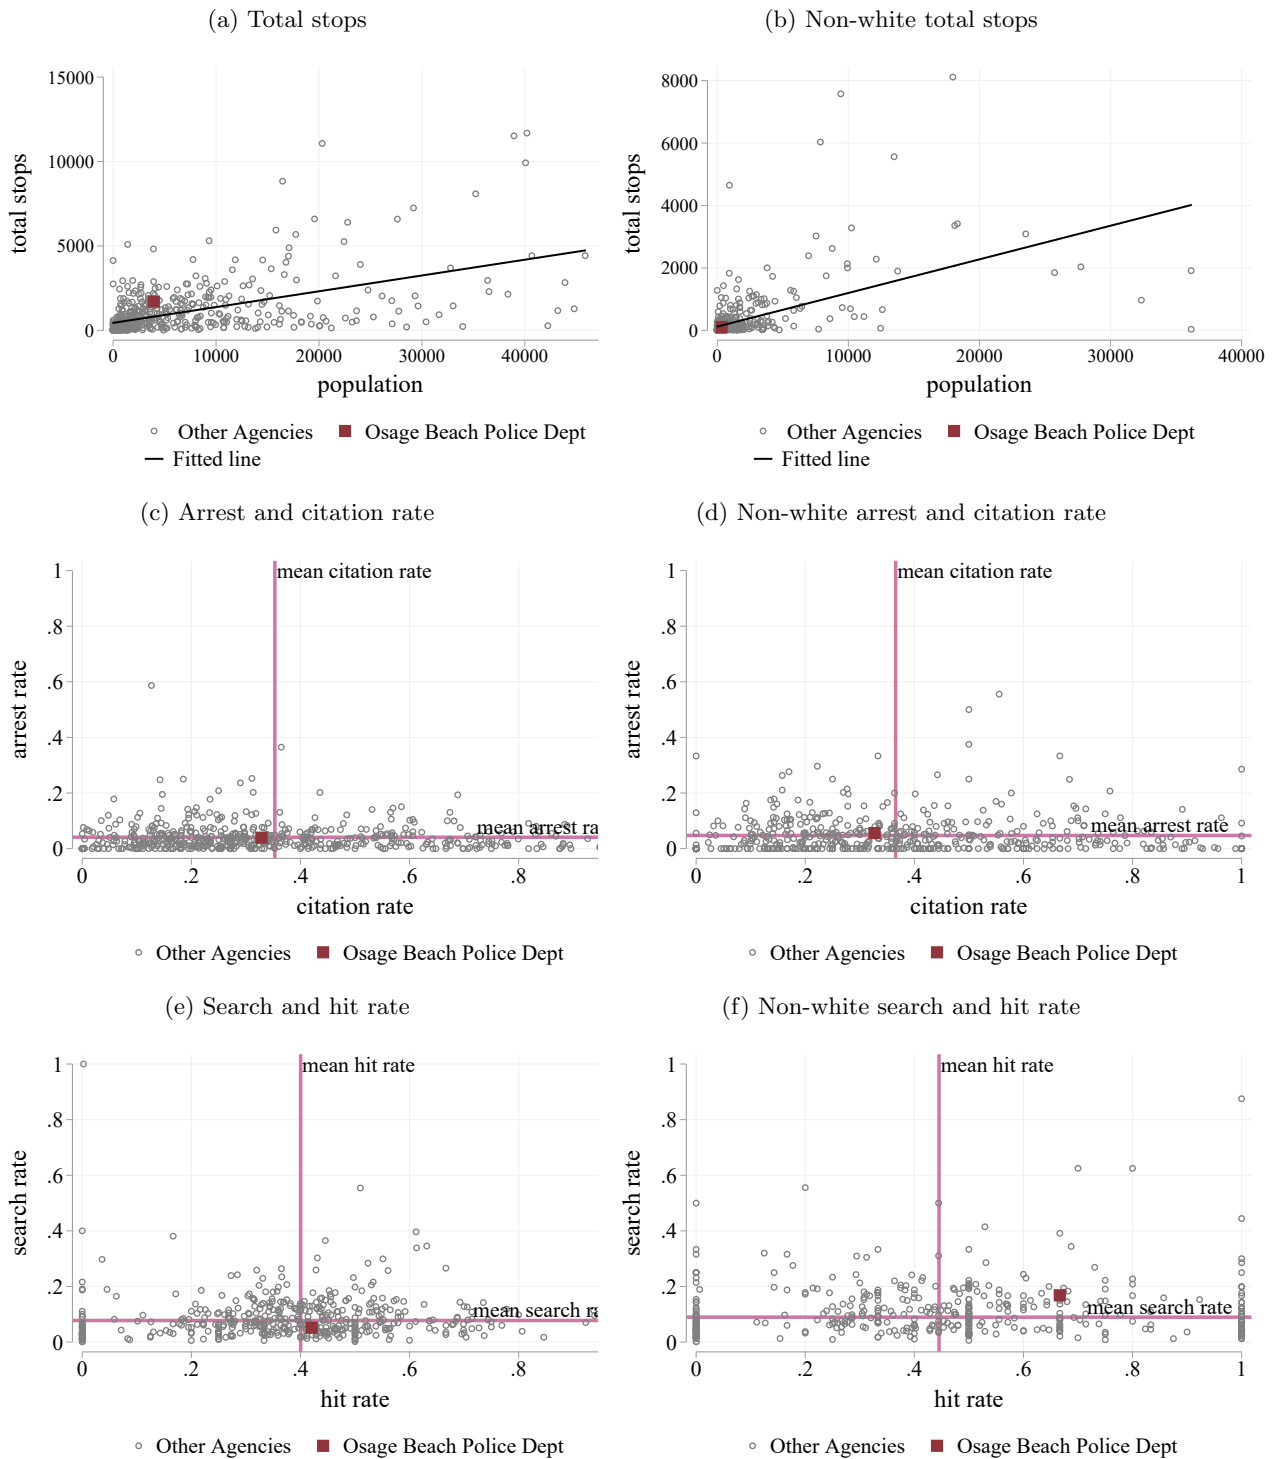

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Osage Beach Police Dept. covers US highway 54, which runs through town, and the city is a large tourist destination in the summer on the Lake of the Ozarks.

Figure 1: Comparison to other agencies by population for Osage Beach Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Osage Beach Police Dept

<b>2020</b>	.98	11.25	.61	0	0	1.25

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Osage County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Searches	18	15	2	1	0	0	0
Contraband	6	4	2	0	0	0	0
Arrests	2	2	0	0	0	0	0
Citations	127	96	17	6	0	3	5
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	35.39	35.75	67.39	92.86	0	16	9.33
Stop rate, residents	3.25	3.56	4.35	7.14	0	0	0
Search rate	5.7	5.75	6.45	7.69	.	0	0
Contraband hit rate	33.33	26.67	100	0	.	.	.
Arrest rate	.63	.77	0	0	.	0	0
Citation rate	40.19	36.78	54.84	46.15	.	75	71.43

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

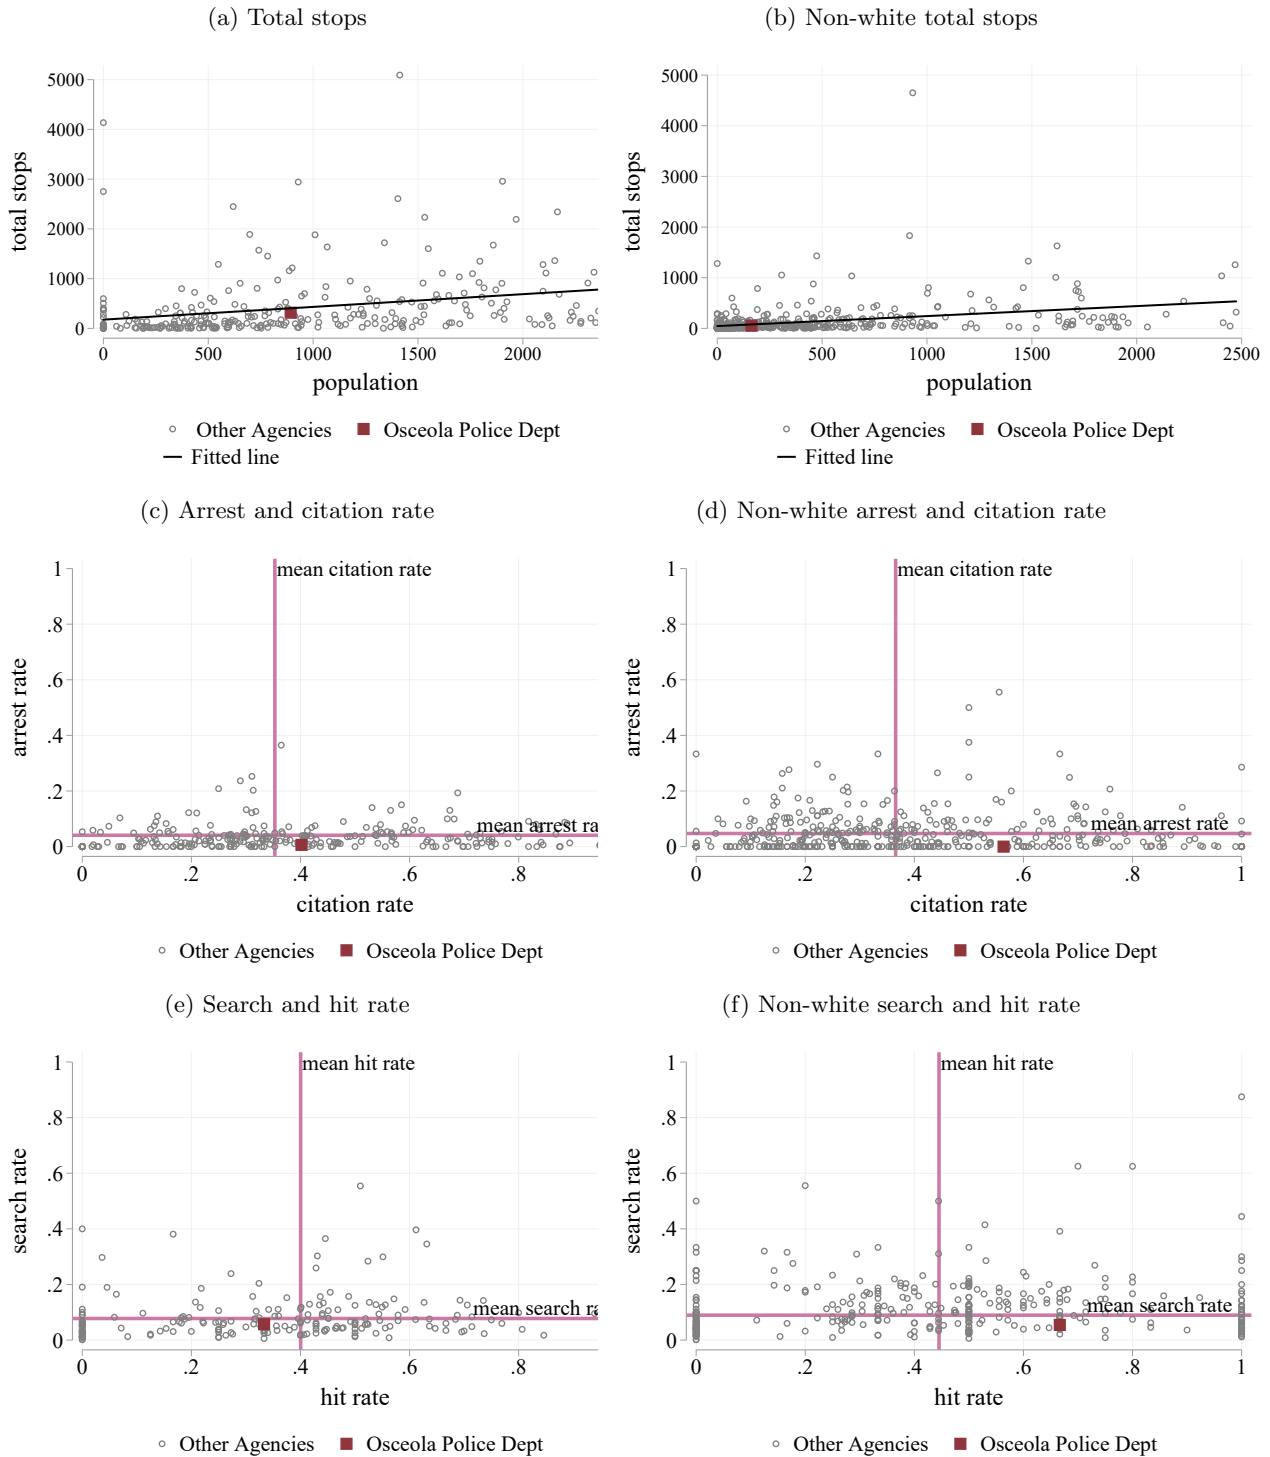

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Osceola Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Osceola Police Dept

<b>2019</b>	1.03	0	0	0	.	0
<b>2020</b>	1.03	.	0	0	.	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Otterville Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Arrests	54	38	15	0	0	1	0
Citations	601	309	266	10	0	10	6
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	14.91	11.46	34.57	3.53	2.63	7.87	4.43
Stop rate, residents	3.43	3.33	5.3	1.02	0	2.28	1.15
Search rate	8.55	9.94	7.61	6.67	0	3.23	3.7
Contraband hit rate	36.48	44.57	26.23	33.33	.	0	0
Arrest rate	2.9	4.1	1.87	0	0	3.23	0
Citation rate	32.31	33.37	33.17	22.22	0	32.26	11.11

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

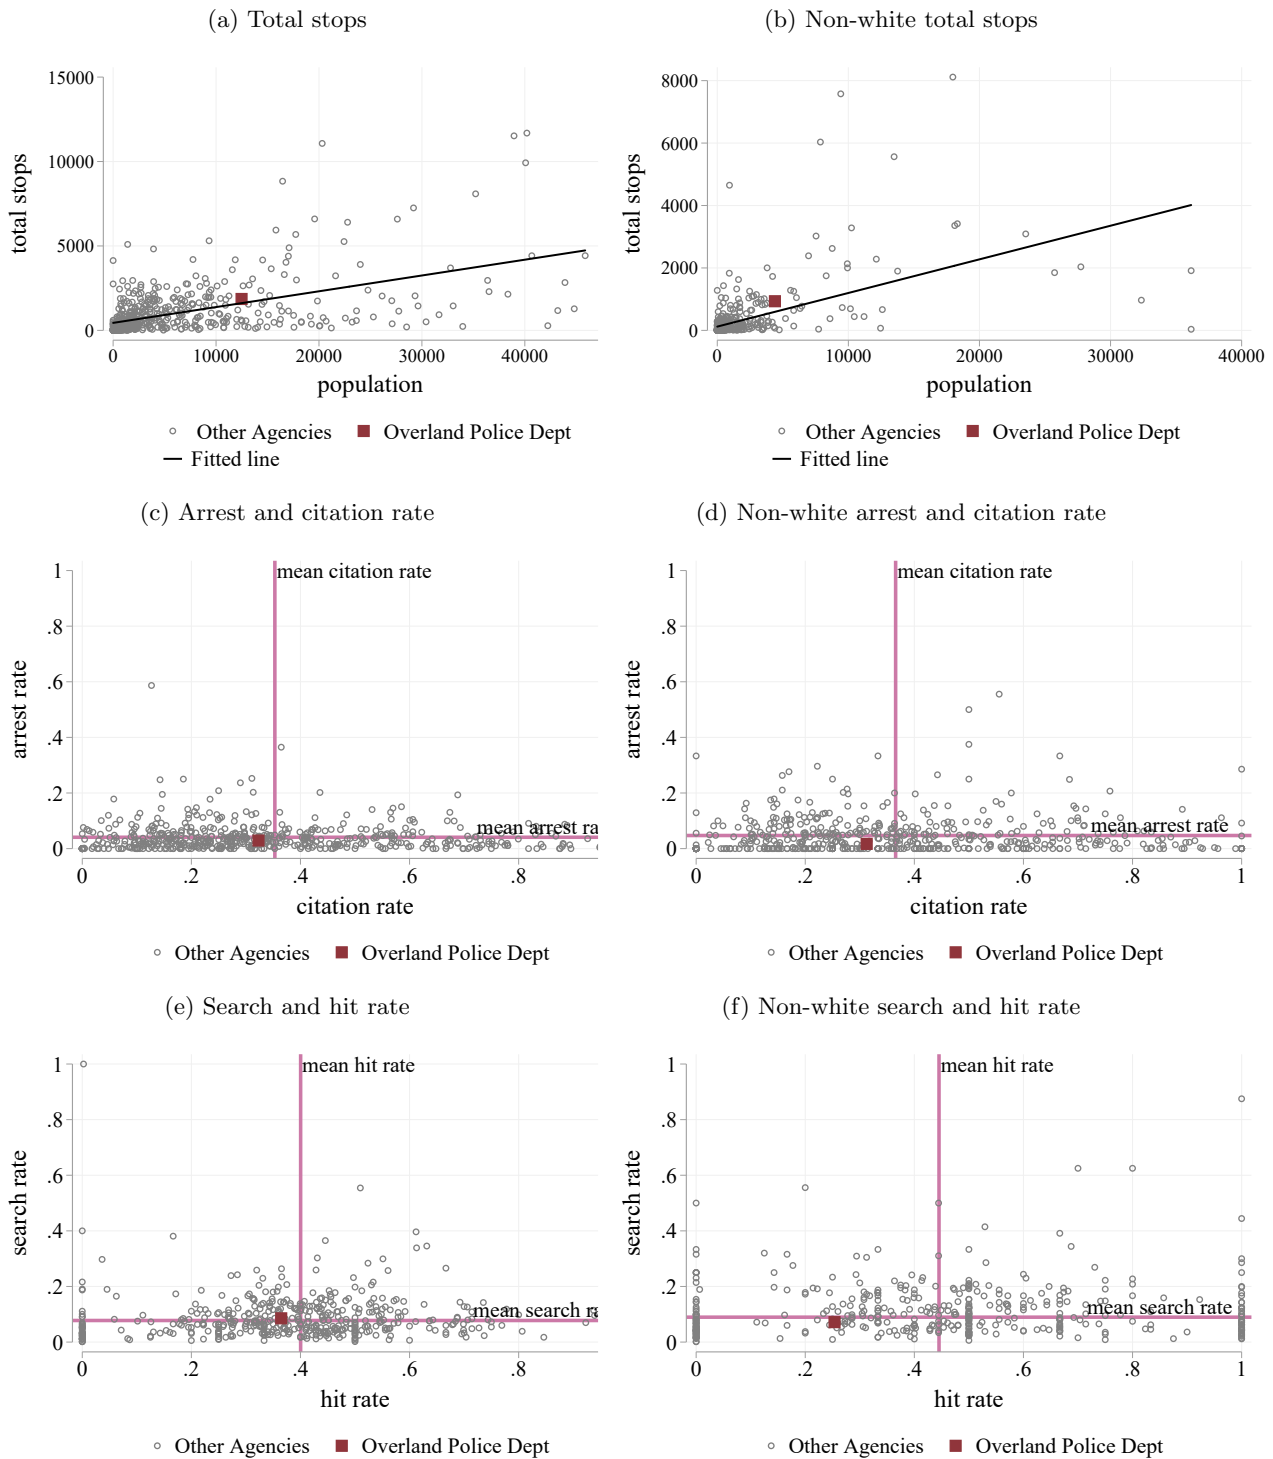

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Overland Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

<b>2019</b>	1.01	11.98	.47	0	0	0
<b>2020</b>	1.01	.	0	.	0	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Owensville Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>Totals</b>	.	.	.	.	.	.	.
All stops	129	125	1	1	0	0	2
Resident stops	4	4	0	0	0	0	0
Searches	14	14	0	0	0	0	0
Contraband	10	10	0	0	0	0	0
Arrests	19	18	0	0	0	0	1
Citations	27	26	1	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	1.69	1.71	16.67	1.35	0	0	1.65
Stop rate, residents	.05	.05	0	0	0	0	0
Search rate	10.85	11.2	0	0	.	.	0
Contraband hit rate	71.43	71.43	.	.	.	.	.
Arrest rate	14.73	14.4	0	0	.	.	50
Citation rate	20.93	20.8	100	0	.	.	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

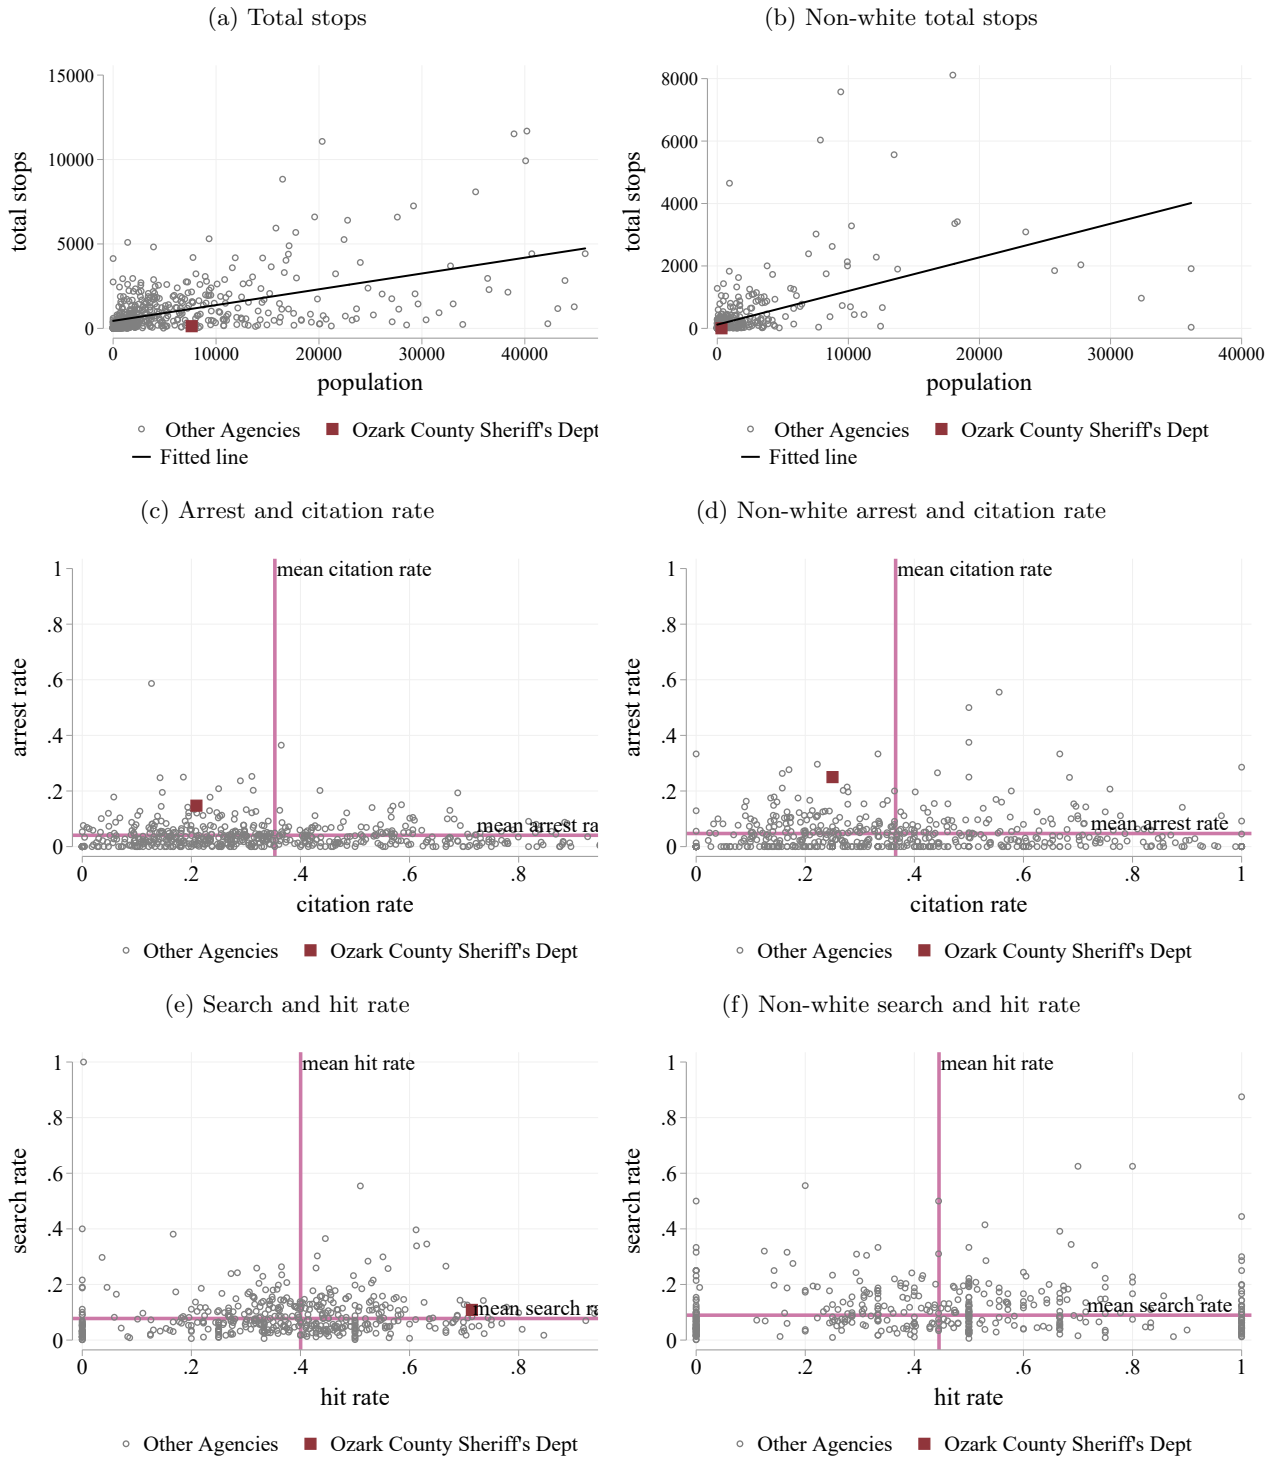

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Ozark County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Ozark County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Ozark Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	5153	4673	294	94	25	0	115
2019 population %	100	90.69	5.71	1.82	.49	0	2.23
<b>Totals</b>	.	.	.	.	.	.	.
All stops	1037	976	44	11	3	3	0
Resident stops	242	228	8	4	1	1	0
Searches	157	145	11	1	0	0	0
Contraband	70	64	6	0	0	0	0
Arrests	48	46	2	0	0	0	0
Citations	628	590	31	5	0	2	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	20.12	20.89	14.97	11.7	12	.	0
Stop rate, residents	4.7	4.88	2.72	4.26	4	.	0
Search rate	15.14	14.86	25	9.09	0	0	.
Contraband hit rate	44.59	44.14	54.55	0	.	.	.
Arrest rate	4.63	4.71	4.55	0	0	0	.
Citation rate	60.56	60.45	70.45	45.45	0	66.67	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

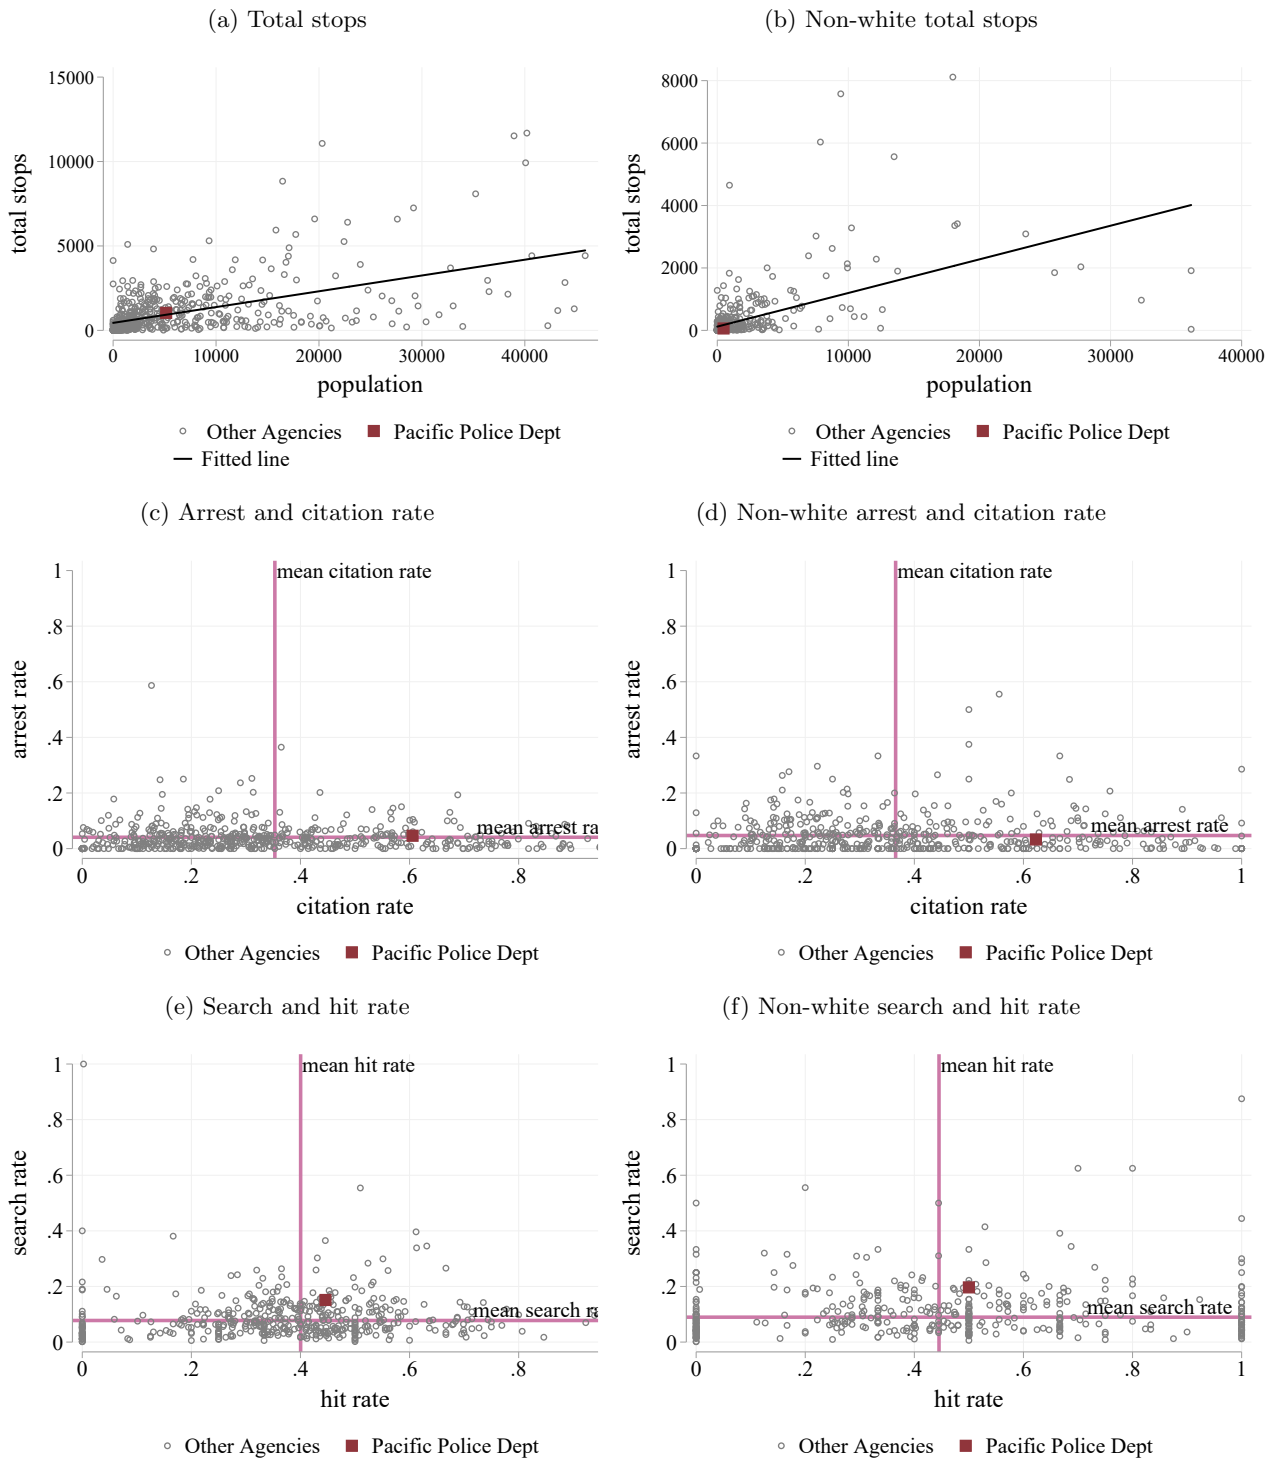

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Pacific Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Pacific Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Pagedale Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Citation rate	22.67	20.08	44.27	39.58	0	20	30

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

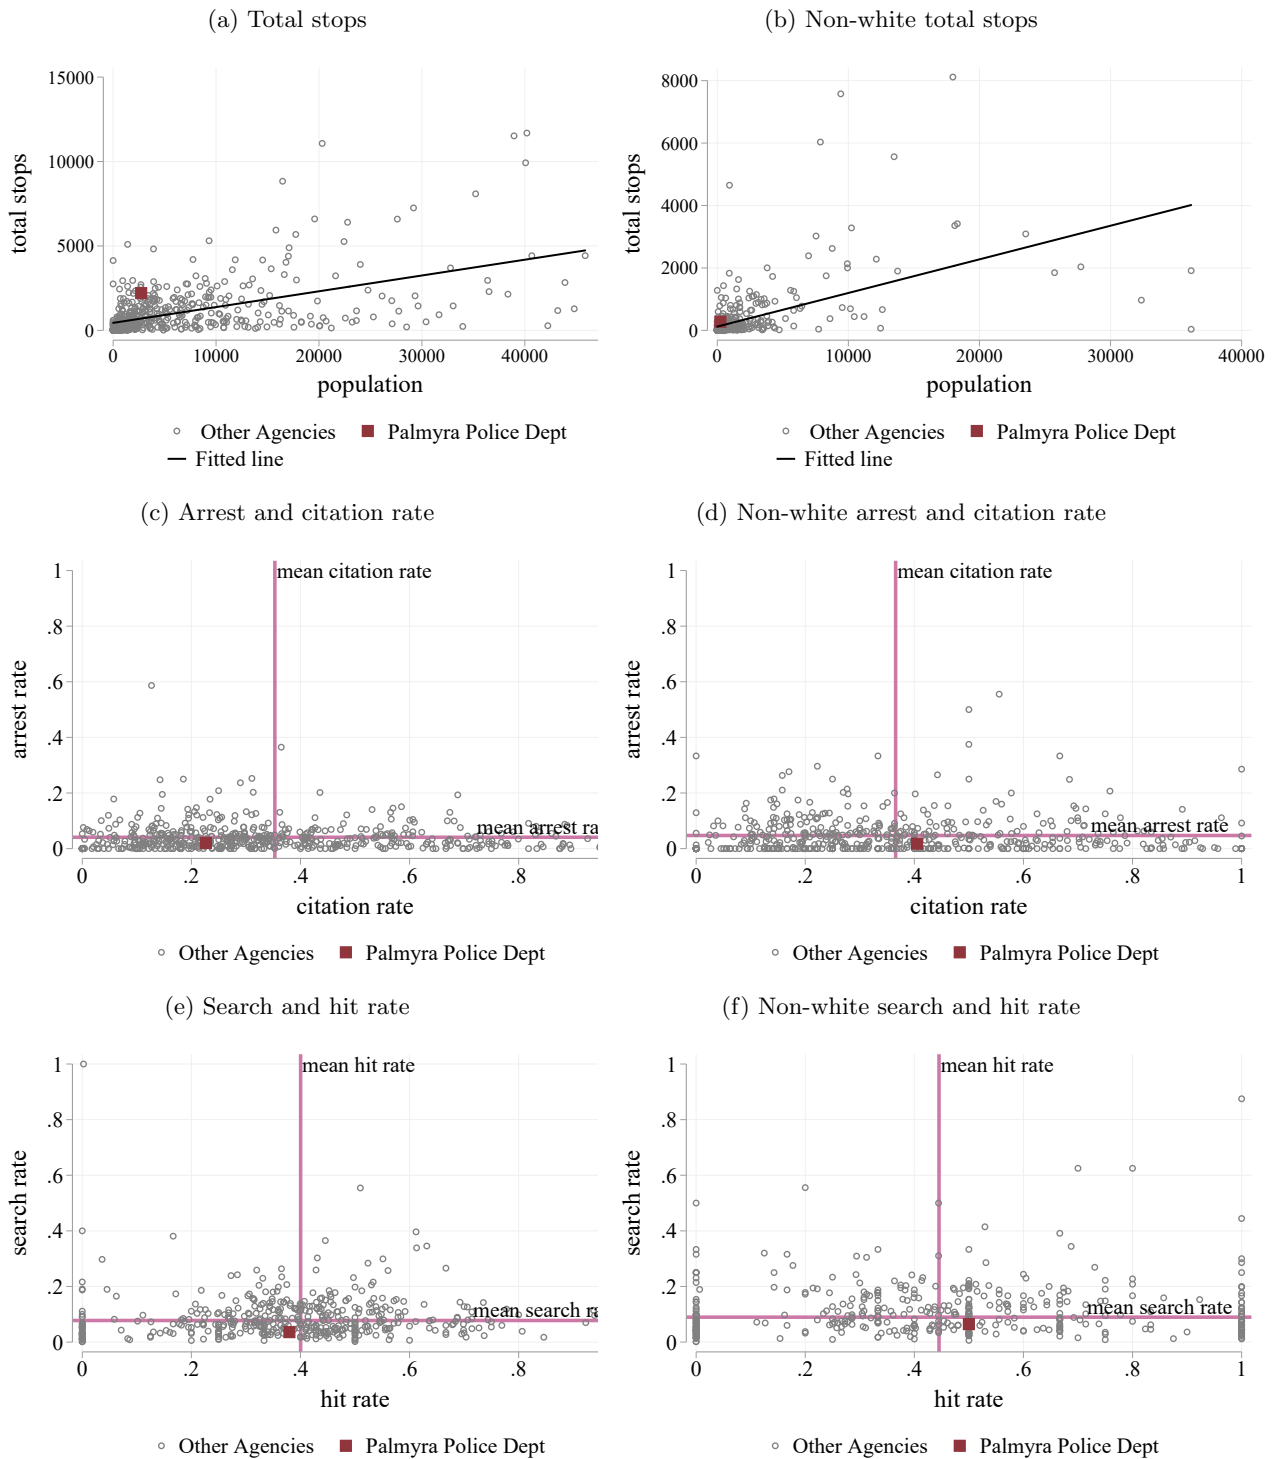

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Palmyra Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Palmyra Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other

<b>2020</b>	1.05	.7	.92	0	.	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Park Hills Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Searches	55	40	12	3	0	0	0
Contraband	18	14	3	1	0	0	0
Arrests	39	28	11	0	0	0	0
Citations	314	258	38	12	0	2	4
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	18.45	16.35	52.99	102.08	0	4.74	10
Stop rate, residents	3.42	3.11	9.96	8.33	0	1.05	2.86
Search rate	5.69	5.21	9.02	6.12	.	0	0
Contraband hit rate	32.73	35	25	33.33	.	.	.
Arrest rate	4.04	3.65	8.27	0	.	0	0
Citation rate	32.51	33.59	28.57	24.49	.	22.22	57.14

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

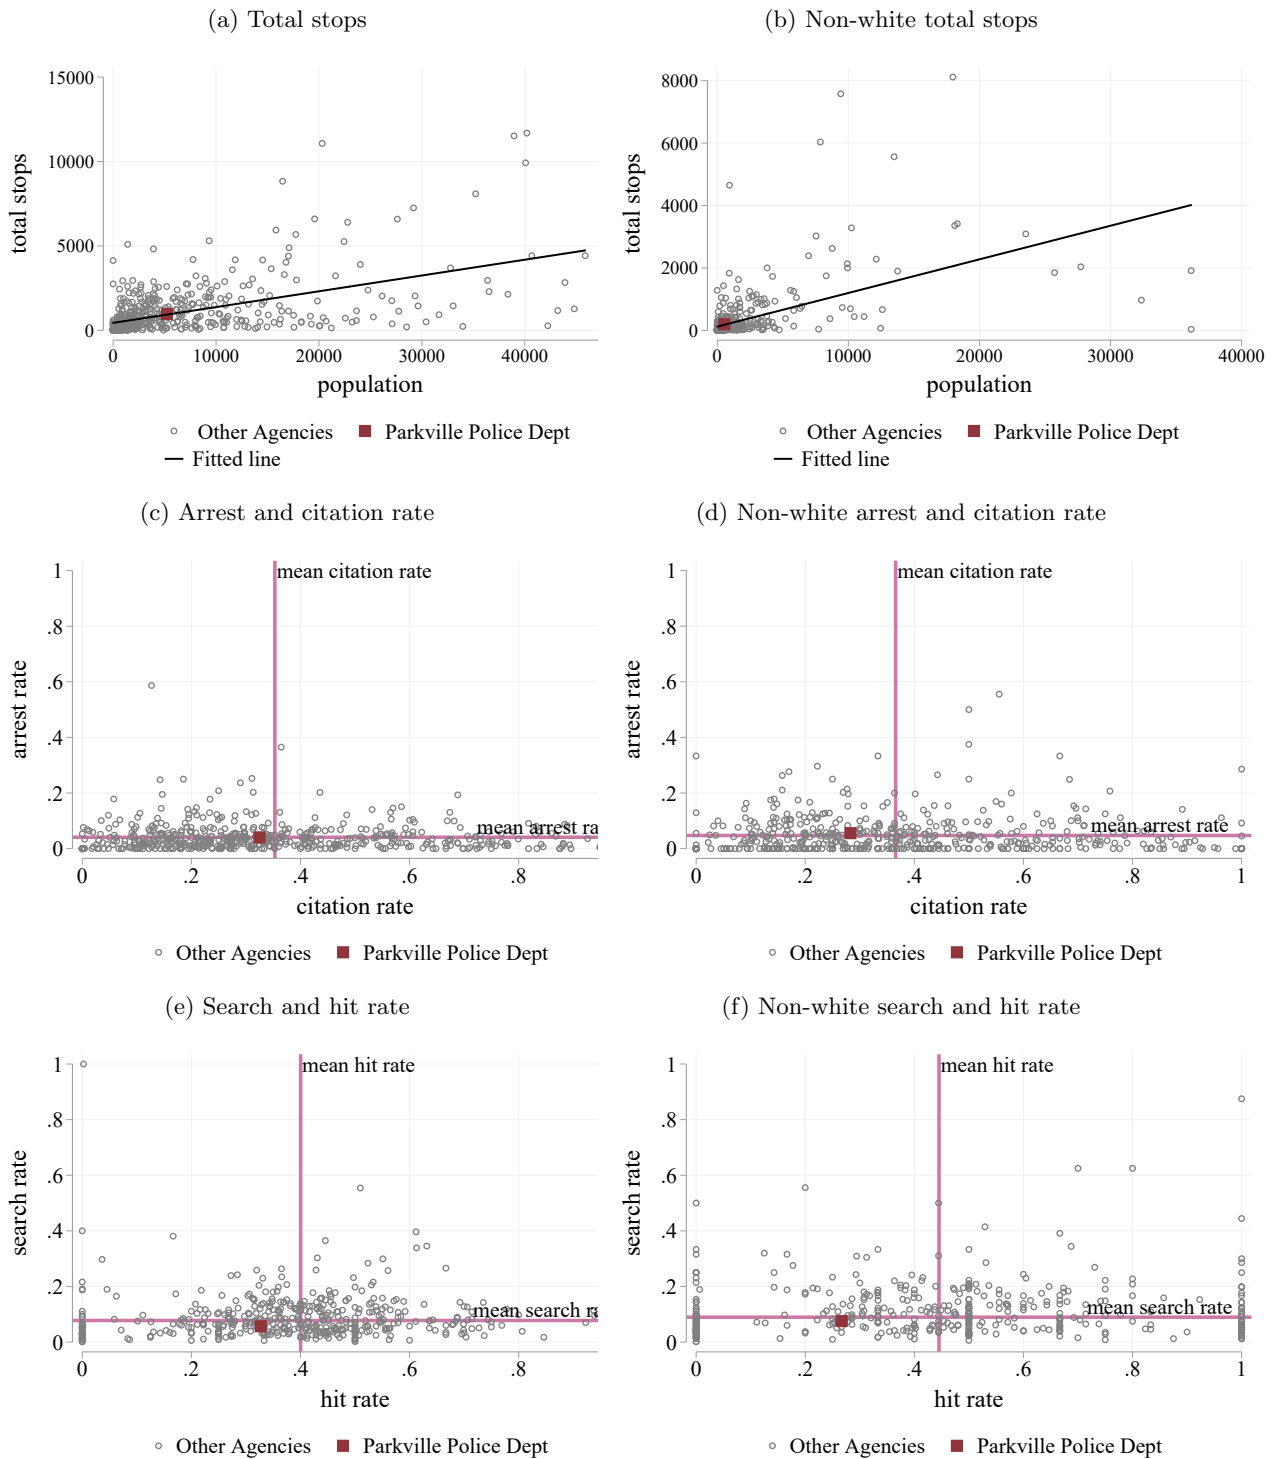

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Parkville Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Parkville Police Dept

Figure 2: Disparity Index from 2000 to 2020 for Parma Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Arrests	48	45	2	0	0	0	1
Citations	456	418	24	11	0	1	2
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	35.7	34.18	1275	18.75	.	20	11.9
Stop rate, residents	9.64	9.53	275	3.13	.	0	0
Search rate	7.32	7.04	8.82	10	.	20	20
Contraband hit rate	41.51	43.48	33.33	33.33	.	0	0
Arrest rate	3.31	3.45	1.96	0	.	0	20
Citation rate	31.49	32.01	23.53	36.67	.	20	40

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

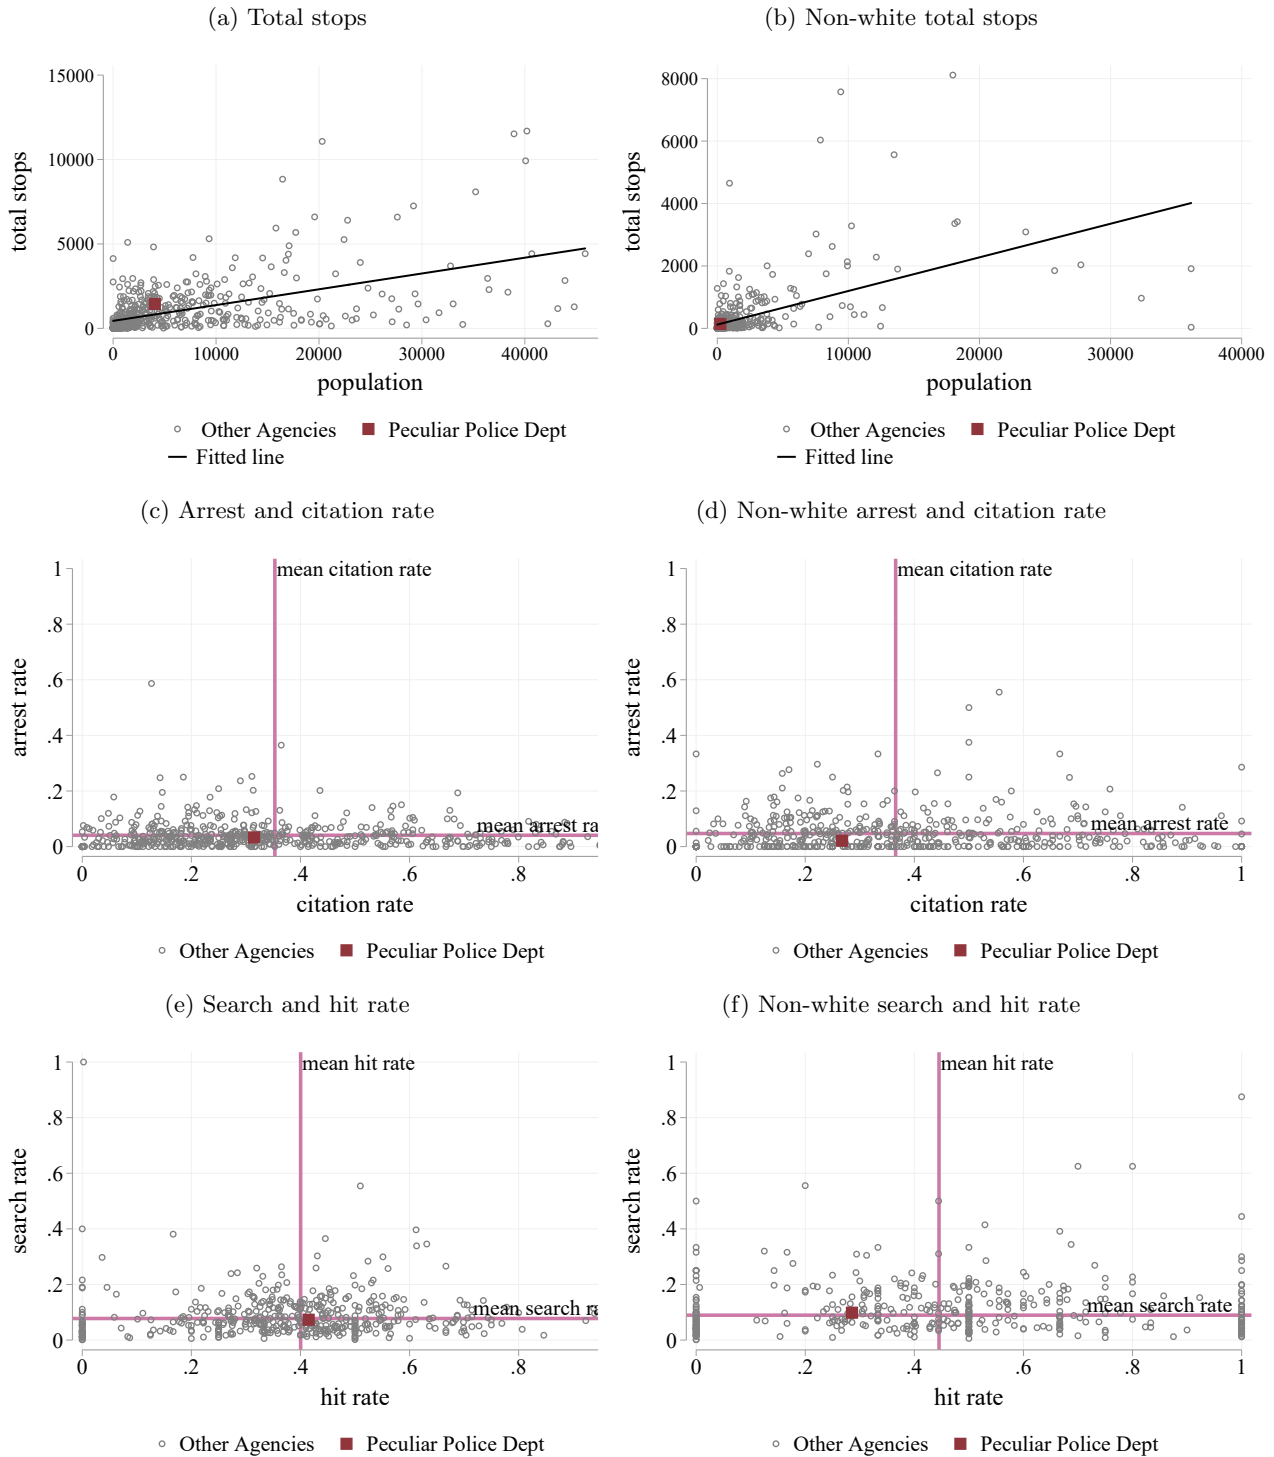

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Peculiar Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Peculiar Police Dept

The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	13.6	12.02	328.75	11.57	1	5.84	11.11
Stop rate, residents	4.44	4.52	10	2.24	0	0	0
Search rate	9.04	7.85	17.11	6.45	100	0	16.67
Contraband hit rate	26.74	21.74	40	50	100	.	0
Arrest rate	4.4	3.35	11.03	6.45	100	0	0
Citation rate	9.53	8.19	16.73	16.13	100	37.5	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

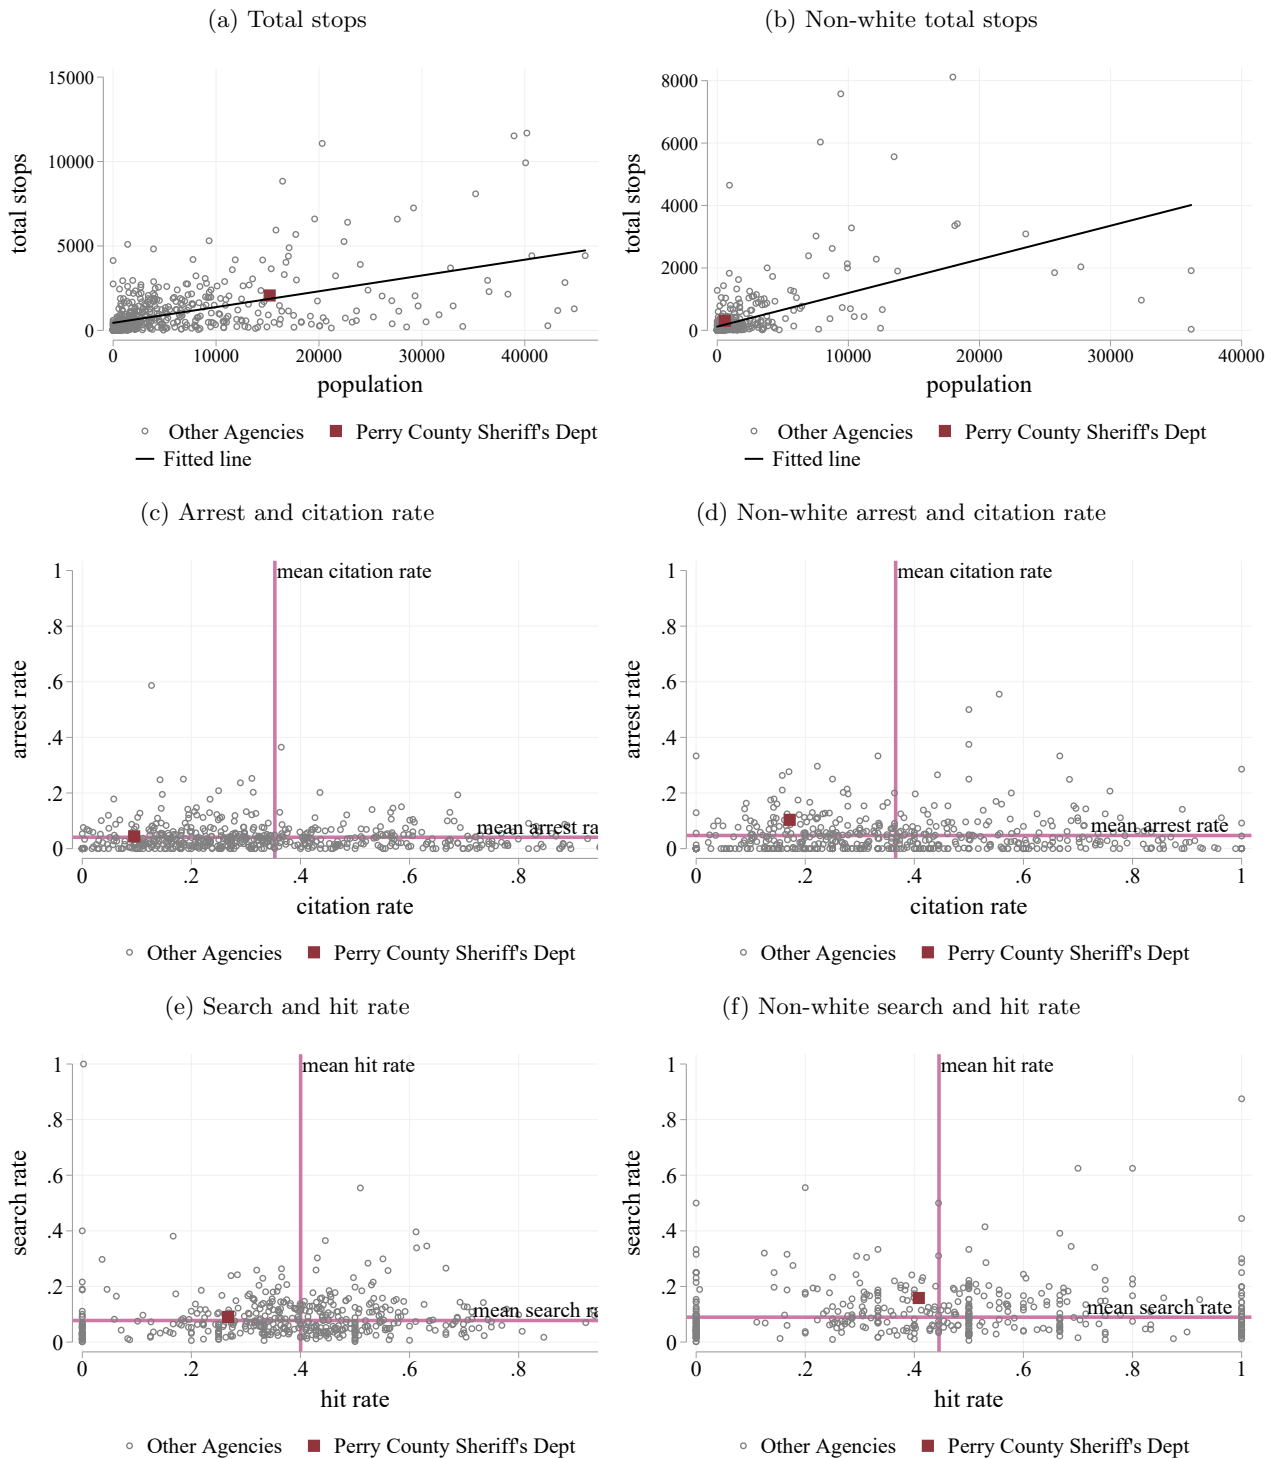

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Perry County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Perry County Sheriff's Dept

## 1.397 Perryville Police Dept

Table 1: Rates by Race for Perryville Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	6548	6137	74	155	67	135	48
2019 population %	100	93.72	1.13	2.37	1.02	2.06	.73
<b>Totals</b>	.	.	.	.	.	.	.
All stops	1192	1119	55	12	1	4	1
Resident stops	551	527	13	7	1	2	1
Searches	143	129	10	3	1	0	0
Contraband	52	45	6	1	0	0	0
Arrests	92	83	5	3	0	0	1
Citations	353	322	24	5	0	1	1
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	18.2	18.23	74.32	7.74	1.49	2.96	2.08
Stop rate, residents	8.41	8.59	17.57	4.52	1.49	1.48	2.08
Search rate	12	11.53	18.18	25	100	0	0
Contraband hit rate	36.36	34.88	60	33.33	0	.	.
Arrest rate	7.72	7.42	9.09	25	0	0	100
Citation rate	29.61	28.78	43.64	41.67	0	25	100

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

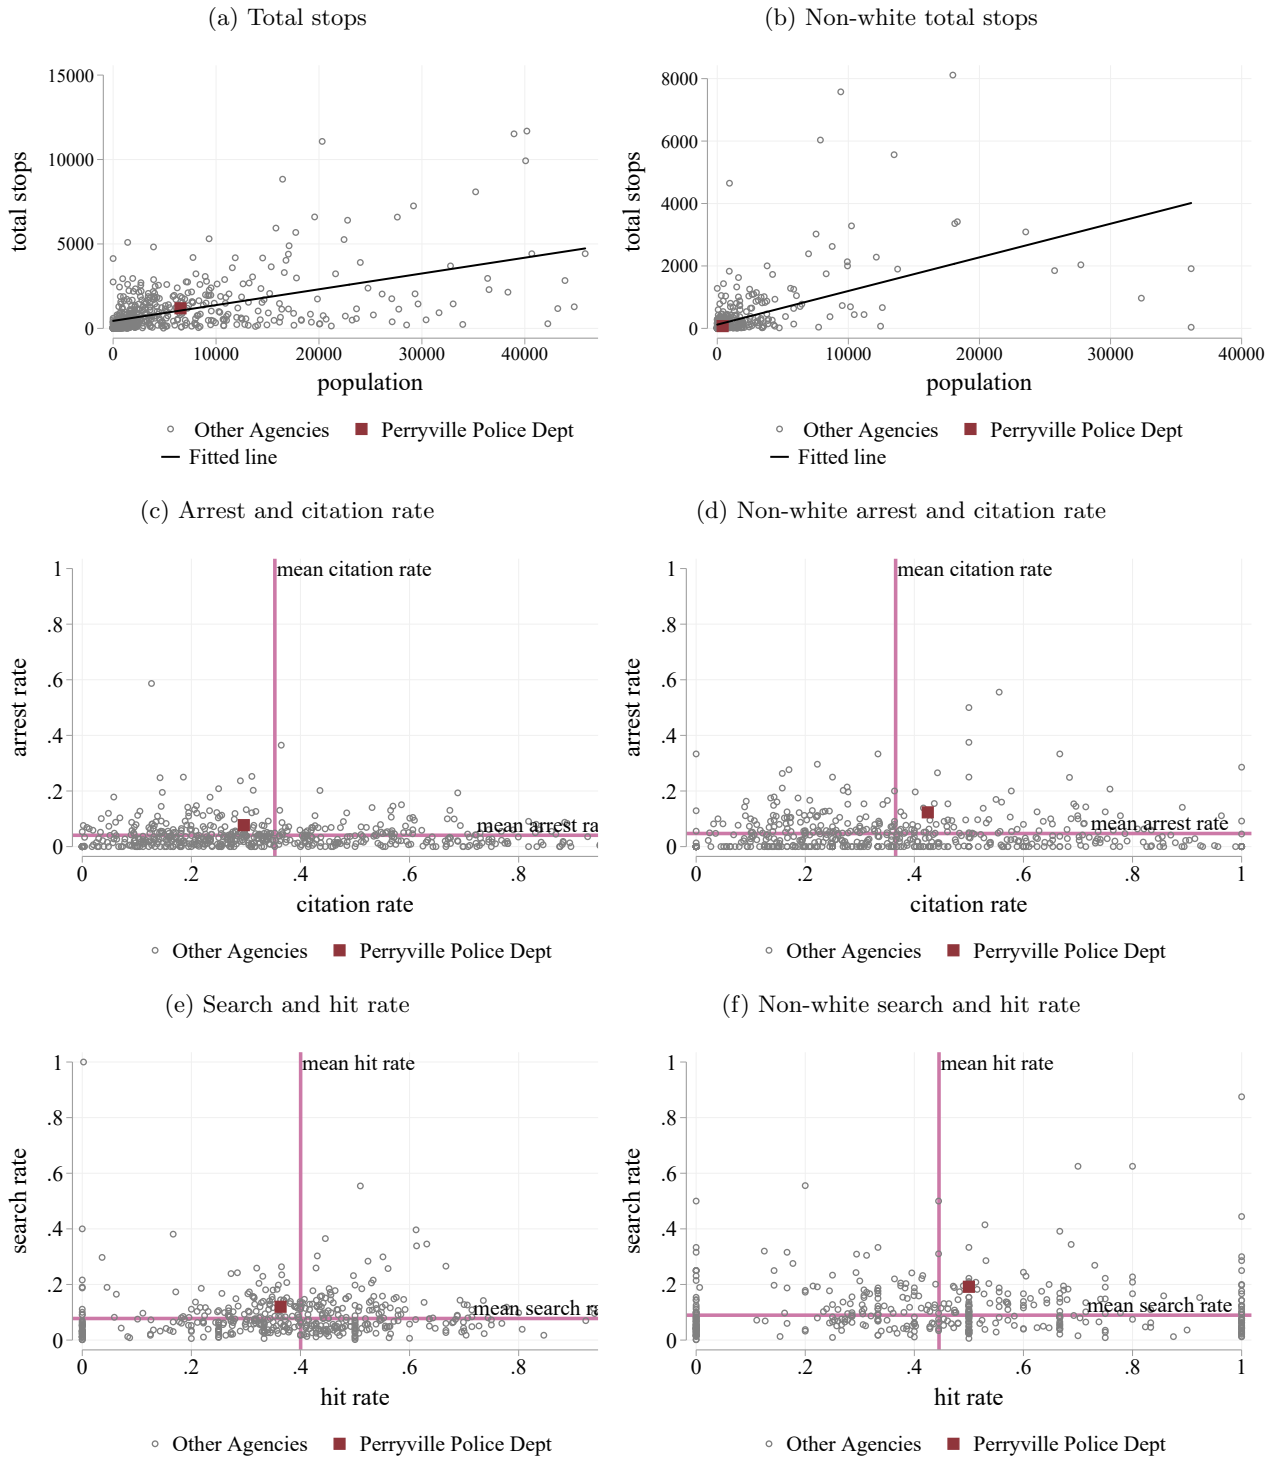

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Perryville Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Perryville Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	6548	6137	74	155	67	135	48
2019 population %	100	93.72	1.13	2.37	1.02	2.06	.73
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1192	1119	55	12	1	4	1
Resident stops	551	527	13	7	1	2	1
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.002	4.083	.425	.082	.163	.114
Resident stops	.	1.02	2.088	.537	.177	.176	.248

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

### 1.399 Pevely Police Dept

Table 1: Rates by Race for Pevely Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	4268	3939	76	123	28	0	102
2019 population %	100	92.29	1.78	2.88	.66	0	2.39
<b>Totals</b>	.	.	.	.	.	.	.
All stops	996	930	50	6	1	3	6
Resident stops	292	278	11	1	0	0	2
Searches	77	71	6	0	0	0	0
Contraband	34	32	2	0	0	0	0
Arrests	0	0	0	0	0	0	0
Citations	549	504	35	4	1	2	3
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	23.34	23.61	65.79	4.88	3.57	.	5.88
Stop rate, residents	6.84	7.06	14.47	.81	0	.	1.96
Search rate	7.73	7.63	12	0	0	0	0
Contraband hit rate	44.16	45.07	33.33	.	.	.	.
Arrest rate	0	0	0	0	0	0	0
Citation rate	55.12	54.19	70	66.67	100	66.67	50

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

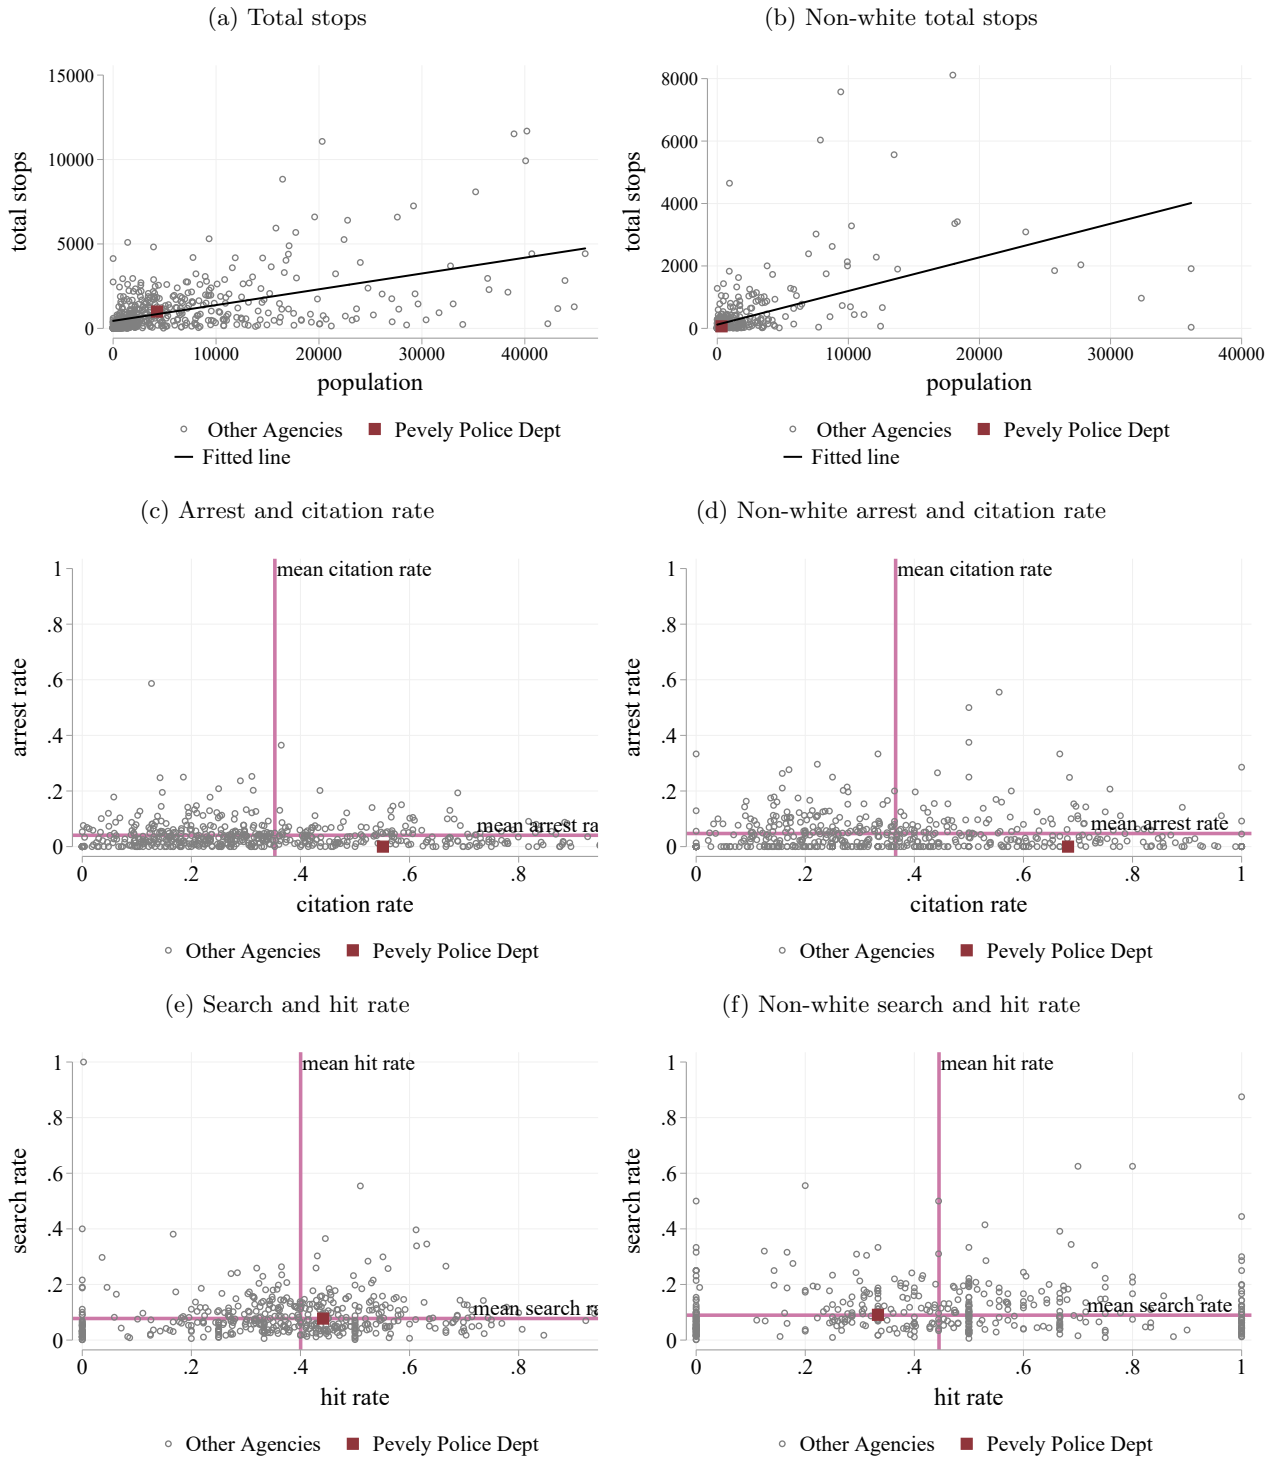

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Pevely Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Pevely Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	4268	3939	76	123	28	0	102
2019 population %	100	92.29	1.78	2.88	.66	0	2.39
<b>Stops</b>	.	.	.	.	.	.	.
All stops	996	930	50	6	1	3	6
Resident stops	292	278	11	1	0	0	2
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.012	2.819	.209	.153	.	.252
Resident stops	.	1.032	2.116	.119	0	.	.287

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

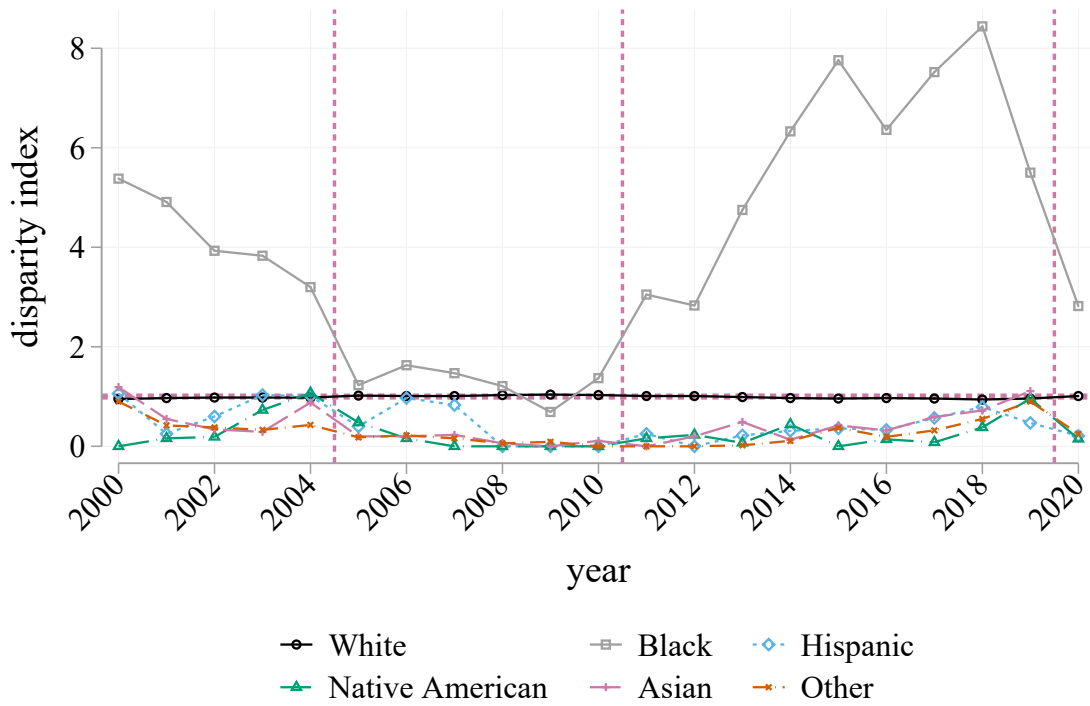

Table 3: Disparity Index from 2000 to 2020 for Pevely Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	.95	5.38	1.06	0	1.19	.9

<b>2011</b>	1.01	3.05	.25	.16	0	0
<b>2012</b>	1.01	2.83	0	.23	.2	0
<b>2013</b>	.99	4.75	.22	.07	.49	.02
<b>2014</b>	.97	6.33	.31	.44	.13	.11
<b>2015</b>	.96	7.76	.36	0	.42	.37
<b>2016</b>	.97	6.36	.33	.14	.32	.19
<b>2017</b>	.96	7.52	.57	.08	.59	.32
<b>2018</b>	.94	8.44	.79	.38	.72	.55
<b>2019</b>	.96	5.5	.47	.96	1.11	.9
<b>2020</b>	1.01	2.82	.21	.15	.	.25

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Pevely Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Resident stops	0	0	0	0	0	0	0
Searches	21	21	0	0	0	0	0
Contraband	9	9	0	0	0	0	0
Arrests	0	0	0	0	0	0	0
Citations	25	25	0	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	3.94	3.99	0	.	.	0	0
Stop rate, residents	0	0	0	.	.	0	0
Search rate	25.93	25.93	.	.	.	.	.
Contraband hit rate	42.86	42.86	.	.	.	.	.
Arrest rate	0	0	.	.	.	.	.
Citation rate	30.86	30.86	.	.	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

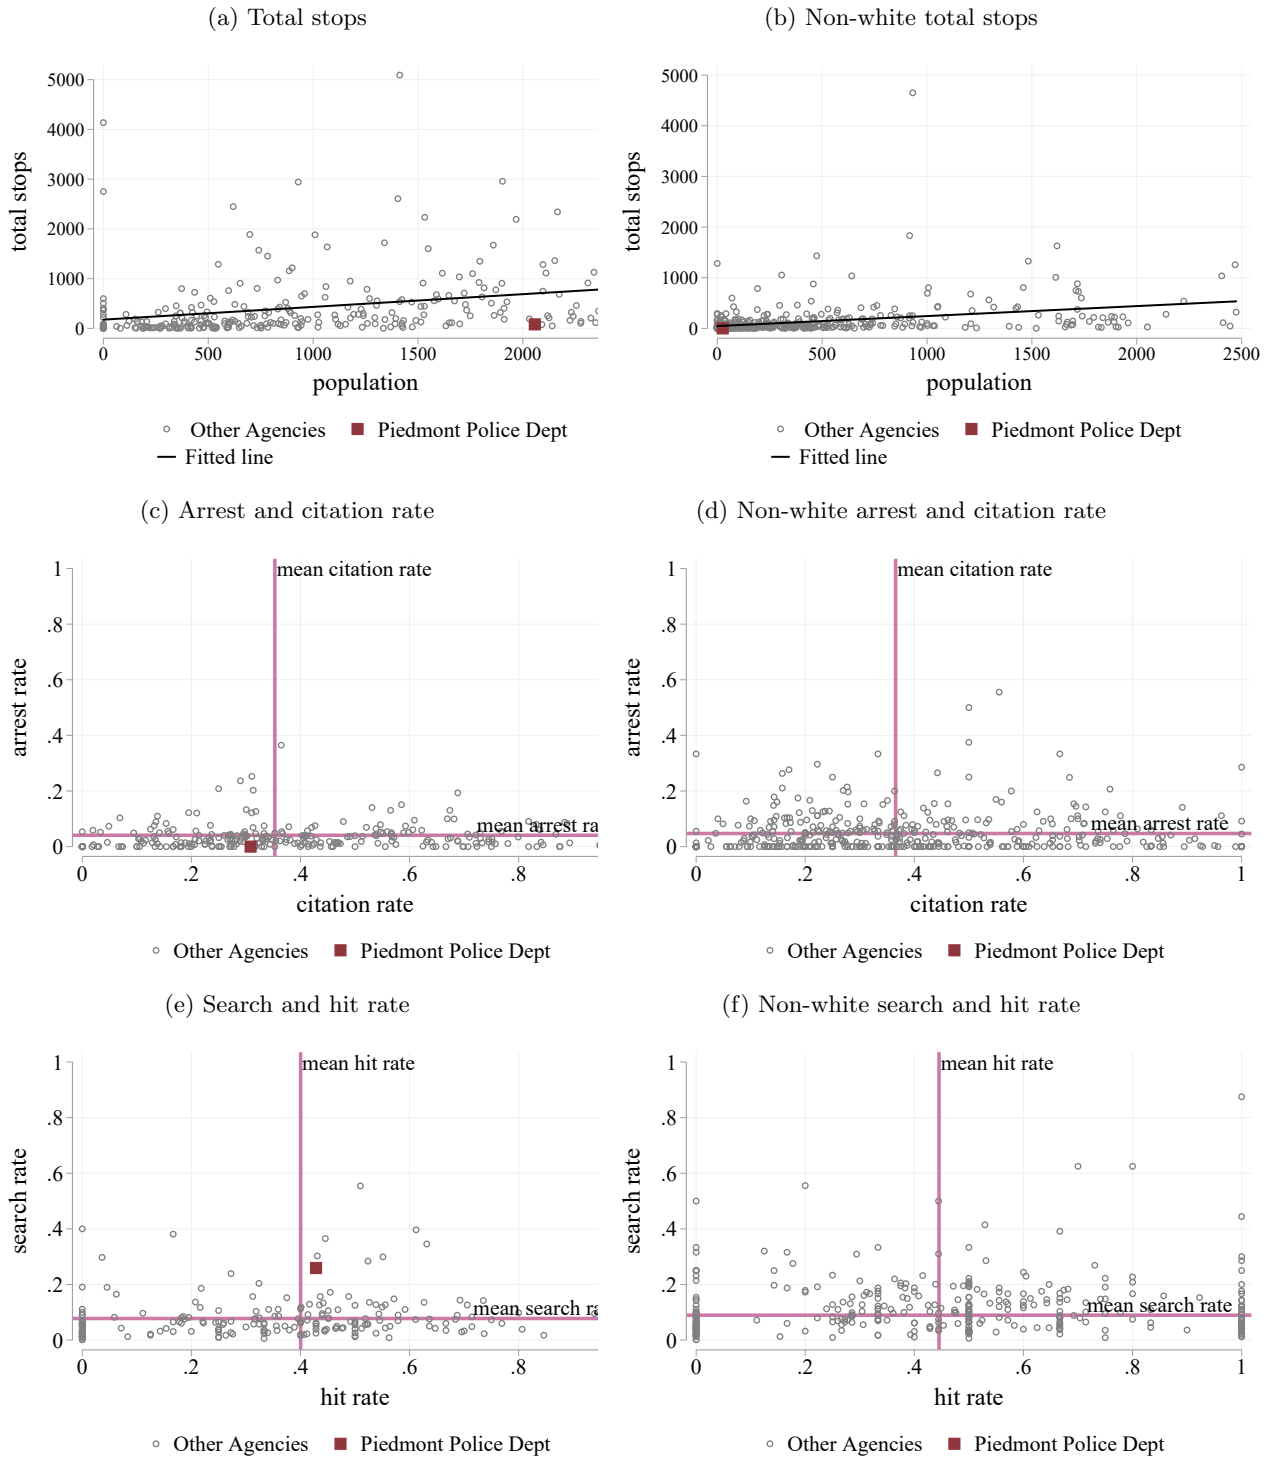

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Piedmont Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Piedmont Police Dept

## 1.403 Pike County Sheriff's Dept

Table 1: Rates by Race for Pike County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	14946	13129	1256	270	55	64	322
2019 population %	100	87.84	8.4	1.81	.37	.43	2.15
<b>Totals</b>	.	.	.	.	.	.	.
All stops	208	181	23	4	0	0	0
Resident stops	118	104	14	0	0	0	0
Searches	14	10	3	1	0	0	0
Contraband	8	5	2	1	0	0	0
Arrests	0	0	0	0	0	0	0
Citations	10	6	4	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	1.39	1.38	1.83	1.48	0	0	0
Stop rate, residents	.79	.79	1.11	0	0	0	0
Search rate	6.73	5.52	13.04	25	.	.	.
Contraband hit rate	57.14	50	66.67	100	.	.	.
Arrest rate	0	0	0	0	.	.	.
Citation rate	4.81	3.31	17.39	0	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

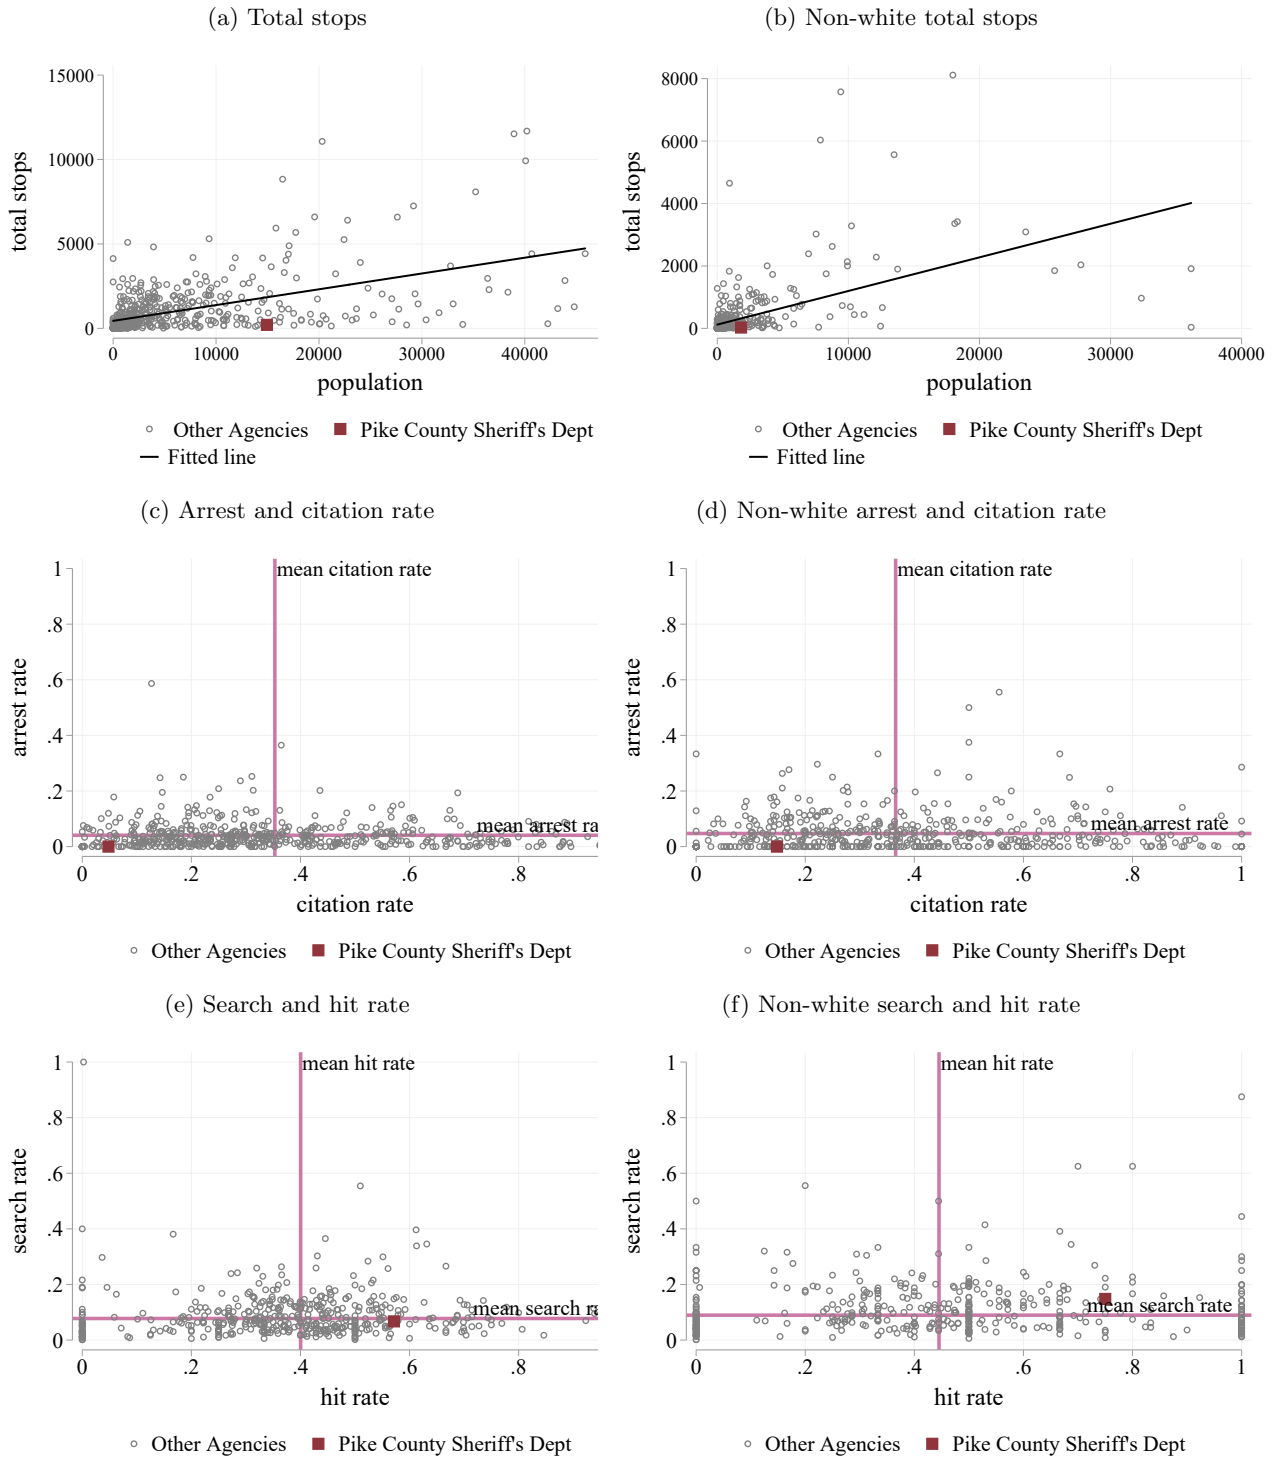

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Pike County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Pike County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	14946	13129	1256	270	55	64	322
2019 population %	100	87.84	8.4	1.81	.37	.43	2.15
<b>Stops</b>	.	.	.	.	.	.	.
All stops	208	181	23	4	0	0	0
Resident stops	118	104	14	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.991	1.316	1.065	0	0	0
Resident stops	.	1.003	1.412	0	0	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

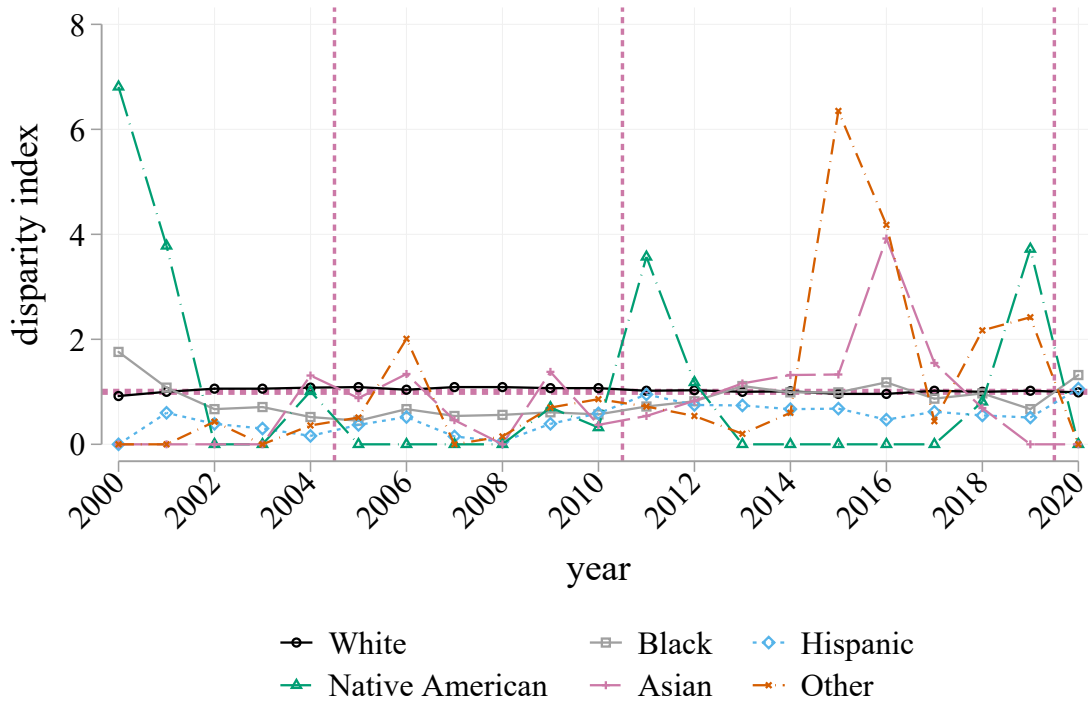

Table 3: Disparity Index from 2000 to 2020 for Pike County Sheriff's Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>

<b>2011</b>	1.02	.72	.95	3.57	.54	.72
<b>2012</b>	1.03	.82	.75	1.18	.83	.54
<b>2013</b>	1	1.11	.74	0	1.16	.2
<b>2014</b>	1.01	.99	.67	0	1.32	.6
<b>2015</b>	.96	.99	.68	0	1.33	6.35
<b>2016</b>	.96	1.18	.47	0	3.92	4.18
<b>2017</b>	1.02	.87	.62	0	1.55	.44
<b>2018</b>	1	.97	.55	.81	.69	2.17
<b>2019</b>	1.02	.67	.51	3.72	0	2.42
<b>2020</b>	.99	1.32	1.06	0	0	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Pike County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.405 Pilot Knob Police Dept

Table 1: Rates by Race for Pilot Knob Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	628	575	0	22	9	9	25
2019 population %	100	91.56	0	3.5	1.43	1.43	3.98
<b>Totals</b>	.	.	.	.	.	.	.
All stops	145	144	0	0	0	0	1
Resident stops	37	37	0	0	0	0	0
Searches	7	7	0	0	0	0	0
Contraband	5	5	0	0	0	0	0
Arrests	10	10	0	0	0	0	0
Citations	61	60	0	0	0	0	1
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	23.09	25.04	.	0	0	0	4
Stop rate, residents	5.89	6.43	.	0	0	0	0
Search rate	4.83	4.86	.	.	.	.	0
Contraband hit rate	71.43	71.43	.	.	.	.	.
Arrest rate	6.9	6.94	.	.	.	.	0
Citation rate	42.07	41.67	.	.	.	.	100

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

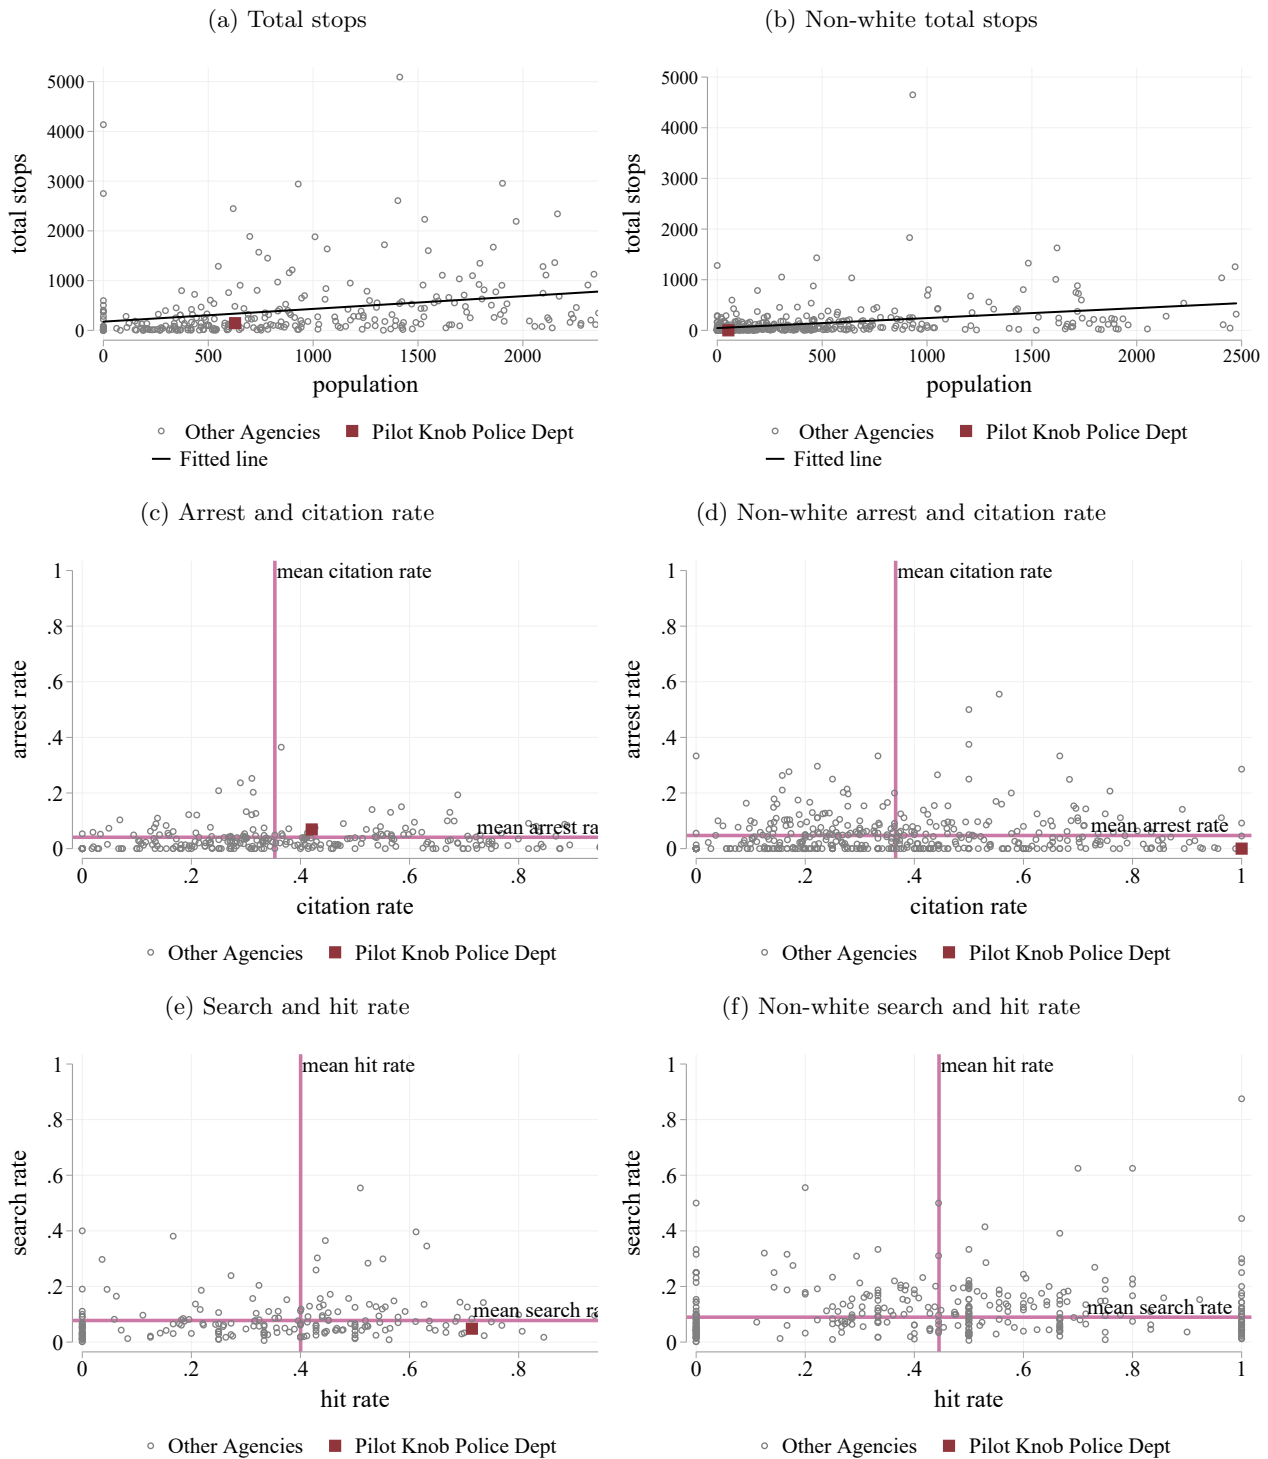

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Pilot Knob Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Pilot Knob Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	628	575	0	22	9	9	25
2019 population %	100	91.56	0	3.5	1.43	1.43	3.98
<b>Stops</b>	.	.	.	.	.	.	.
All stops	145	144	0	0	0	0	1
Resident stops	37	37	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.085	.	0	0	0	.173
Resident stops	.	1.092	.	0	0	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

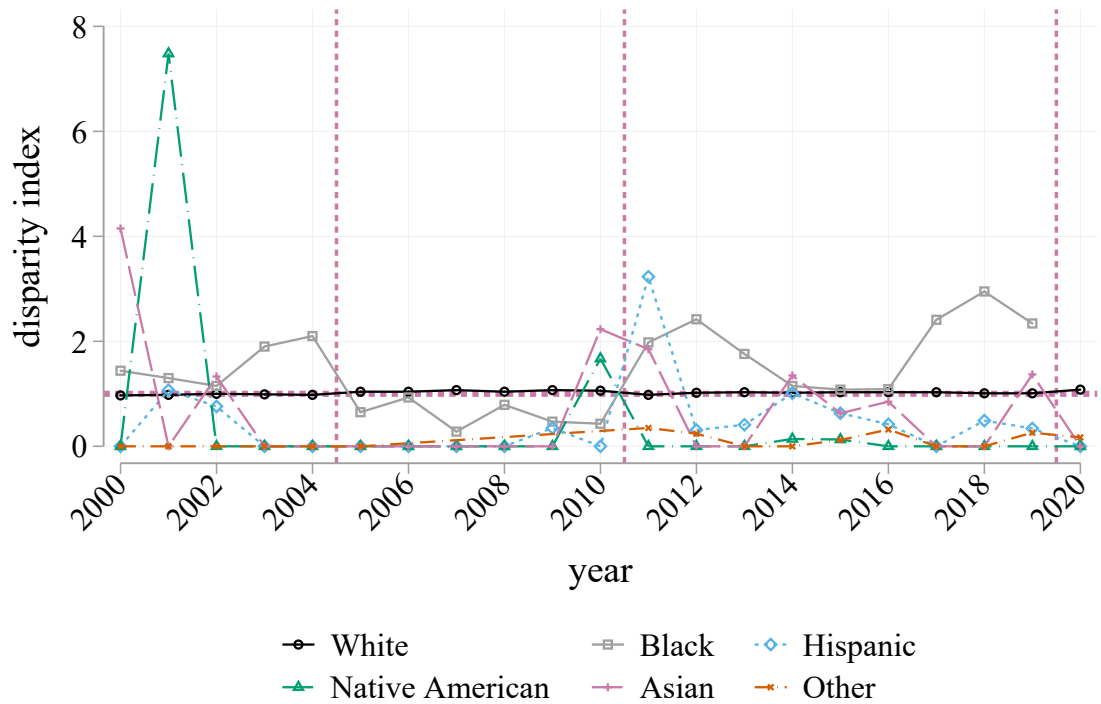

Table 3: Disparity Index from 2000 to 2020 for Pilot Knob Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	.97	1.44	0	0	4.15	0
<b>2001</b>	.98	1.3	1.07	7.48	0	0
<b>2002</b>	1	1.15	.76	0	1.33	0
<b>2003</b>	.99	1.9	0	0	0	0
<b>2004</b>	.98	2.1	0	0	0	0
<b>2005</b>	1.04	.65	0	0	0	0

<b>2007</b>	1.07	.28	0	0	0	.
<b>2008</b>	1.04	.79	0	0	0	.
<b>2009</b>	1.07	.47	.35	0	0	.
<b>2010</b>	1.06	.43	0	1.67	2.23	.
<b>2011</b>	.98	1.98	3.23	0	1.85	.35
<b>2012</b>	1.02	2.42	.31	0	0	.24
<b>2013</b>	1.03	1.76	.41	0	0	0
<b>2014</b>	1.02	1.15	1.01	.14	1.35	0
<b>2015</b>	1.03	1.08	.63	.13	.63	.12
<b>2016</b>	1.03	1.09	.42	0	.85	.32
<b>2017</b>	1.03	2.41	0	0	0	0
<b>2018</b>	1.01	2.95	.49	0	0	0
<b>2019</b>	1.01	2.34	.34	0	1.37	.26
<b>2020</b>	1.08	.	0	0	0	.17

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Pilot Knob Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.407 Platte City Police Dept

Table 1: Rates by Race for Platte City Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	3691	3239	188	143	0	31	90
2019 population %	100	87.75	5.09	3.87	0	.84	2.44
<b>Totals</b>	.	.	.	.	.	.	.
All stops	530	445	47	17	2	7	12
Resident stops	112	97	10	2	0	0	3
Searches	11	9	2	0	0	0	0
Contraband	3	2	1	0	0	0	0
Arrests	2	2	0	0	0	0	0
Citations	386	320	34	15	2	3	12
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	14.36	13.74	25	11.89	.	22.58	13.33
Stop rate, residents	3.03	2.99	5.32	1.4	.	0	3.33
Search rate	2.08	2.02	4.26	0	0	0	0
Contraband hit rate	27.27	22.22	50	.	.	.	.
Arrest rate	.38	.45	0	0	0	0	0
Citation rate	72.83	71.91	72.34	88.24	100	42.86	100

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

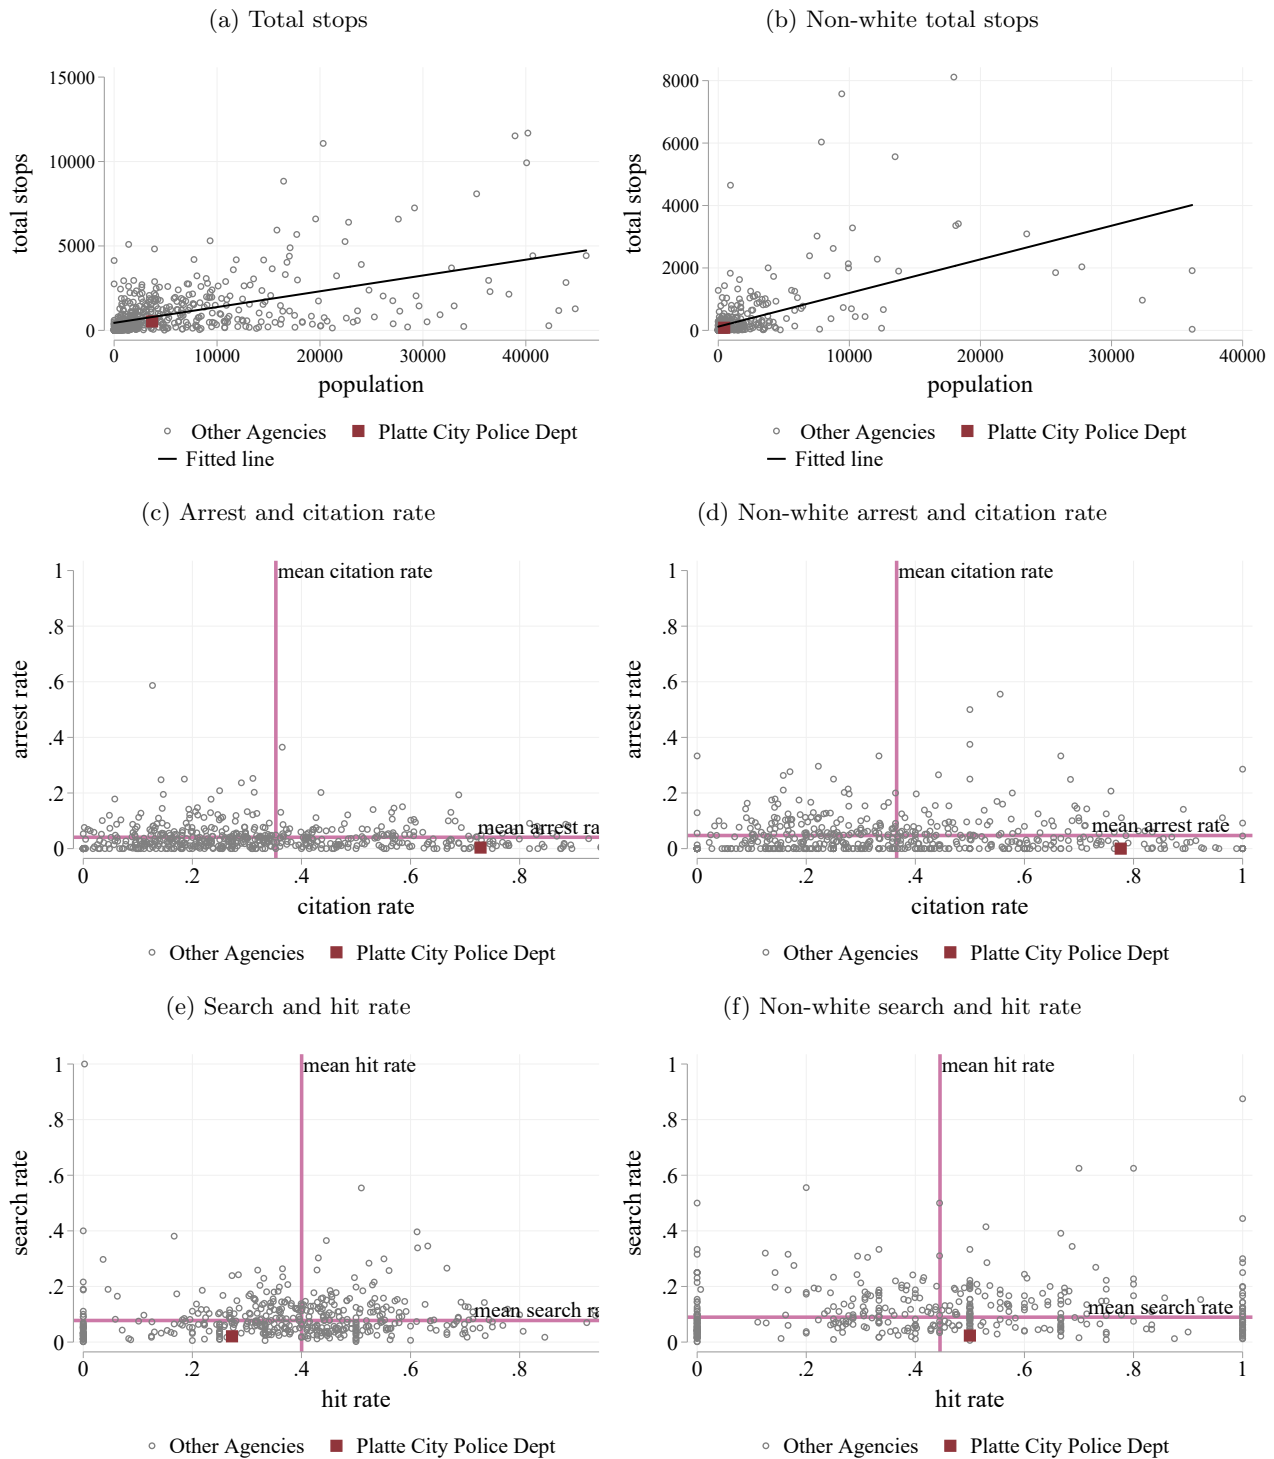

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Platte City Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Platte City Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	3691	3239	188	143	0	31	90
2019 population %	100	87.75	5.09	3.87	0	.84	2.44
<b>Stops</b>	.	.	.	.	.	.	.
All stops	530	445	47	17	2	7	12
Resident stops	112	97	10	2	0	0	3
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.957	1.741	.828	.	1.573	.929
Resident stops	.	.987	1.753	.461	.	0	1.099

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Platte County Sheriff's Dept. also has jurisdiction of Houston Lake Police Dept and Dearborn Police Dept, therefore the data reported reflects stops from all three agencies. Platte County includes major interstate corridors, shopping and entertainment attractions, and the Kansas City International Airport. The county shares a border with Kansas City, KS, Kansas City, MO, and Leavenworth, KS.

Figure 1: Comparison to other agencies by population for Platte County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

## 1.409 Platte Woods Police Dept

Table 1: Rates by Race for Platte Woods Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	425	364	5	25	0	27	18
2019 population %	100	85.65	1.18	5.88	0	6.35	4.24
<b>Totals</b>	.	.	.	.	.	.	.
All stops	319	209	78	14	0	5	13
Resident stops	1	1	0	0	0	0	0
Searches	12	5	4	2	0	0	1
Contraband	3	1	0	1	0	0	1
Arrests	11	4	4	2	0	0	1
Citations	255	166	62	11	0	5	11
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	75.06	57.42	1560	56	.	18.52	72.22
Stop rate, residents	.24	.27	0	0	.	0	0
Search rate	3.76	2.39	5.13	14.29	.	0	7.69
Contraband hit rate	25	20	0	50	.	.	100
Arrest rate	3.45	1.91	5.13	14.29	.	0	7.69
Citation rate	79.94	79.43	79.49	78.57	.	100	84.62

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

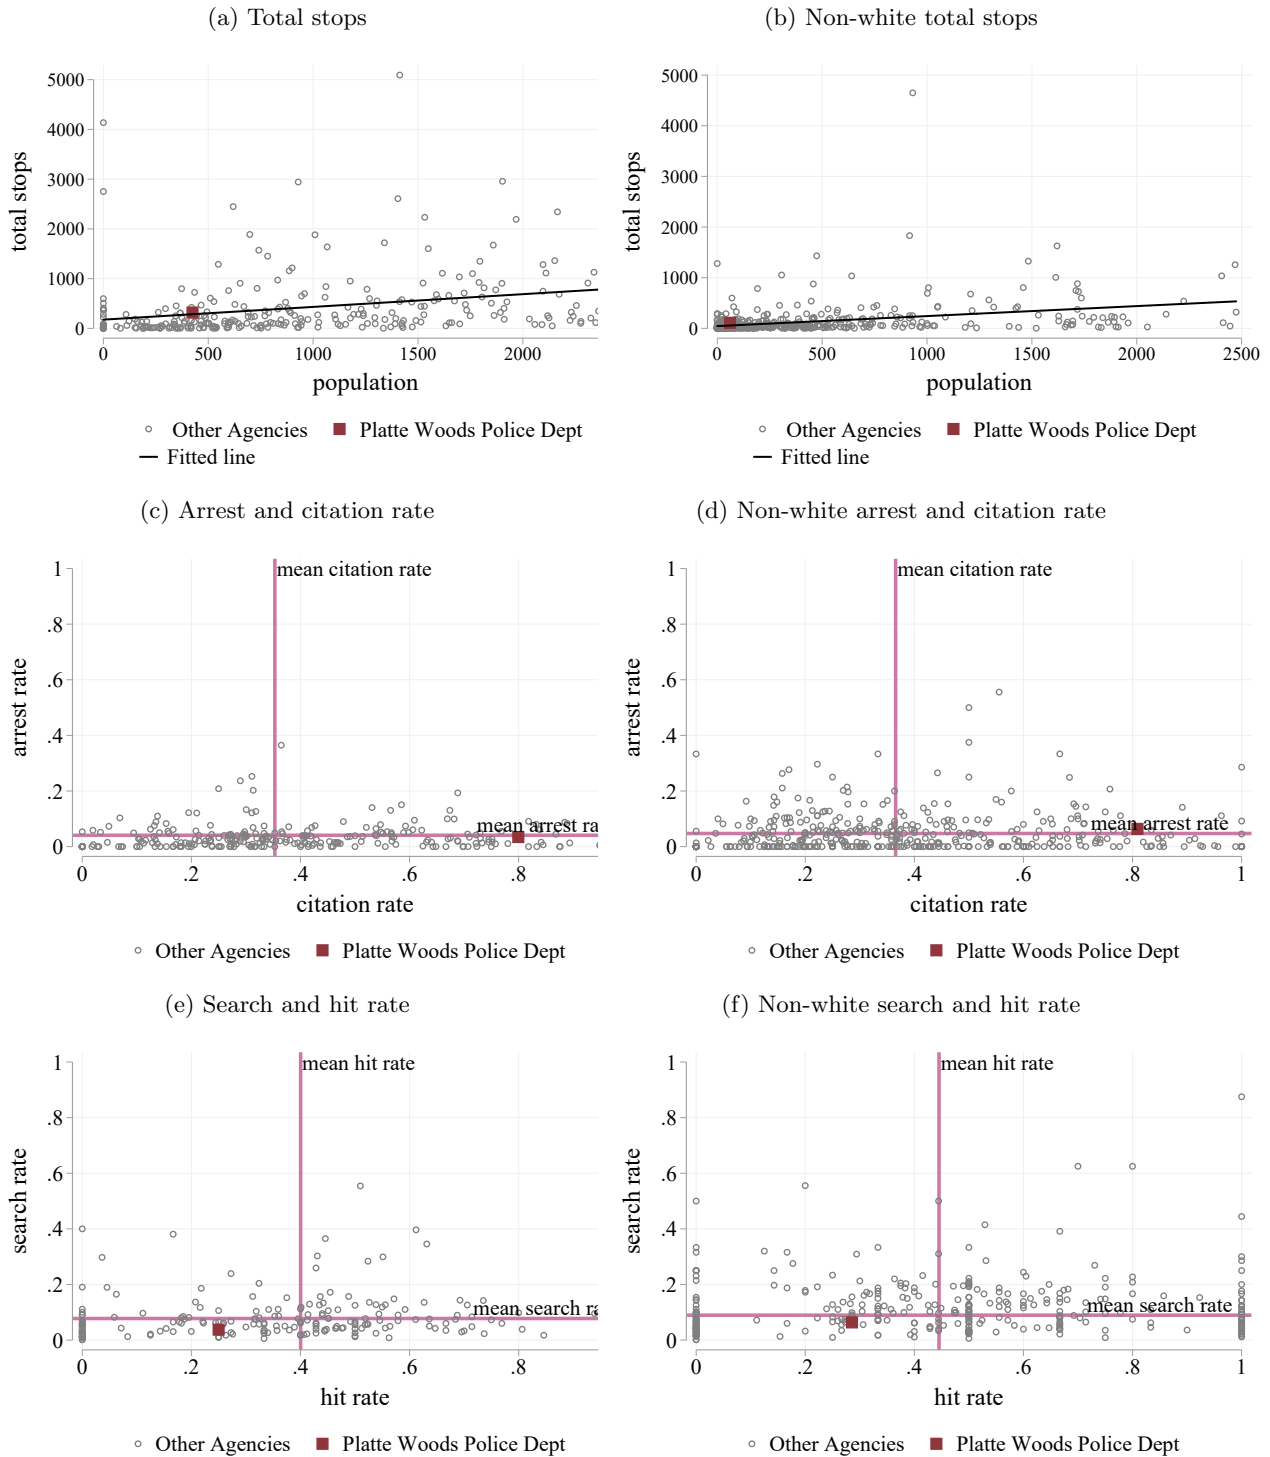

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Platte Woods Police Dept. collected information for 2020 VSR under 2019 Guidelines. The Platte Woods Police Department is now following the new guidelines for VSR for 2021.

Figure 1: Comparison to other agencies by population for Platte Woods Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Platte Woods Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	425	364	5	25	0	27	18
2019 population %	100	85.65	1.18	5.88	0	6.35	4.24
<b>Stops</b>	.	.	.	.	.	.	.
All stops	319	209	78	14	0	5	13
Resident stops	1	1	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.765	20.784	.746	.	.247	.962
Resident stops	.	1.168	0	0	.	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

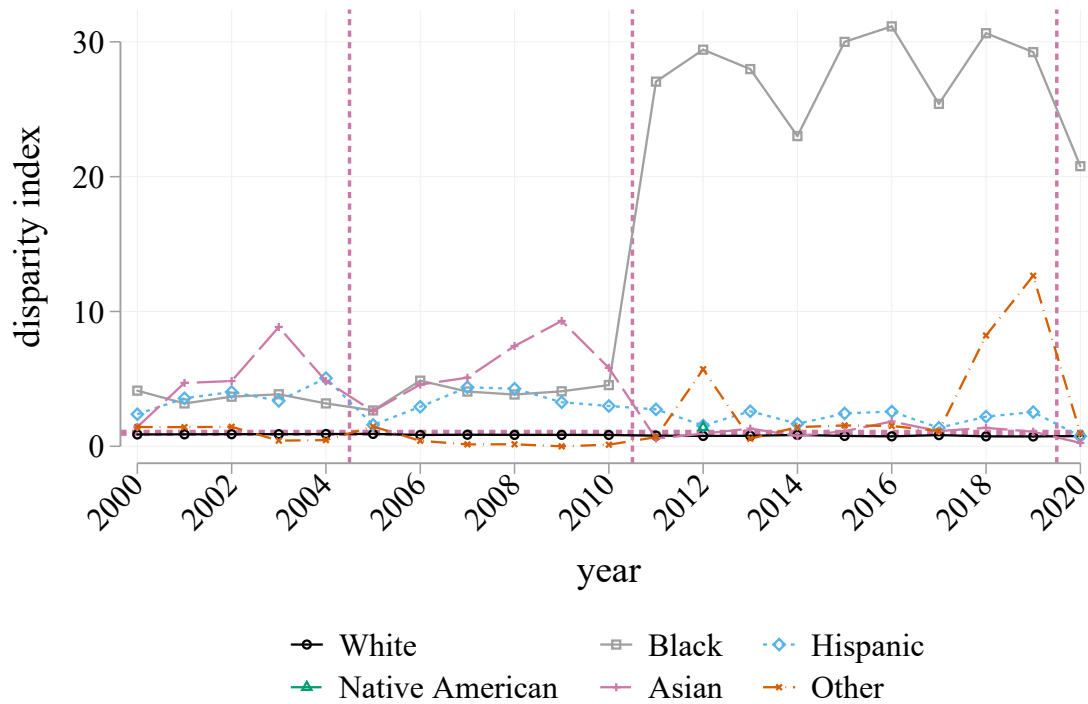

Table 3: Disparity Index from 2000 to 2020 for Platte Woods Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	.88	4.13	2.38	.	1.43	1.43

<b>2019</b>	.73	29.24	2.54	.	1.08	12.65
<b>2020</b>	.76	20.78	.75	.	.25	.96

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Platte Woods Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.411 Pleasant Hill Police Dept

Table 1: Rates by Race for Pleasant Hill Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	6113	5551	265	220	0	1	135
2019 population %	100	90.81	4.34	3.6	0	.02	2.21
<b>Totals</b>	.	.	.	.	.	.	.
All stops	1239	1172	34	26	5	2	0
Resident stops	684	654	12	14	3	1	0
Searches	124	119	3	2	0	0	0
Contraband	68	64	2	2	0	0	0
Arrests	128	126	1	1	0	0	0
Citations	309	284	13	12	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	20.27	21.11	12.83	11.82	.	200	0
Stop rate, residents	11.19	11.78	4.53	6.36	.	100	0
Search rate	10.01	10.15	8.82	7.69	0	0	.
Contraband hit rate	54.84	53.78	66.67	100	.	.	.
Arrest rate	10.33	10.75	2.94	3.85	0	0	.
Citation rate	24.94	24.23	38.24	46.15	0	0	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

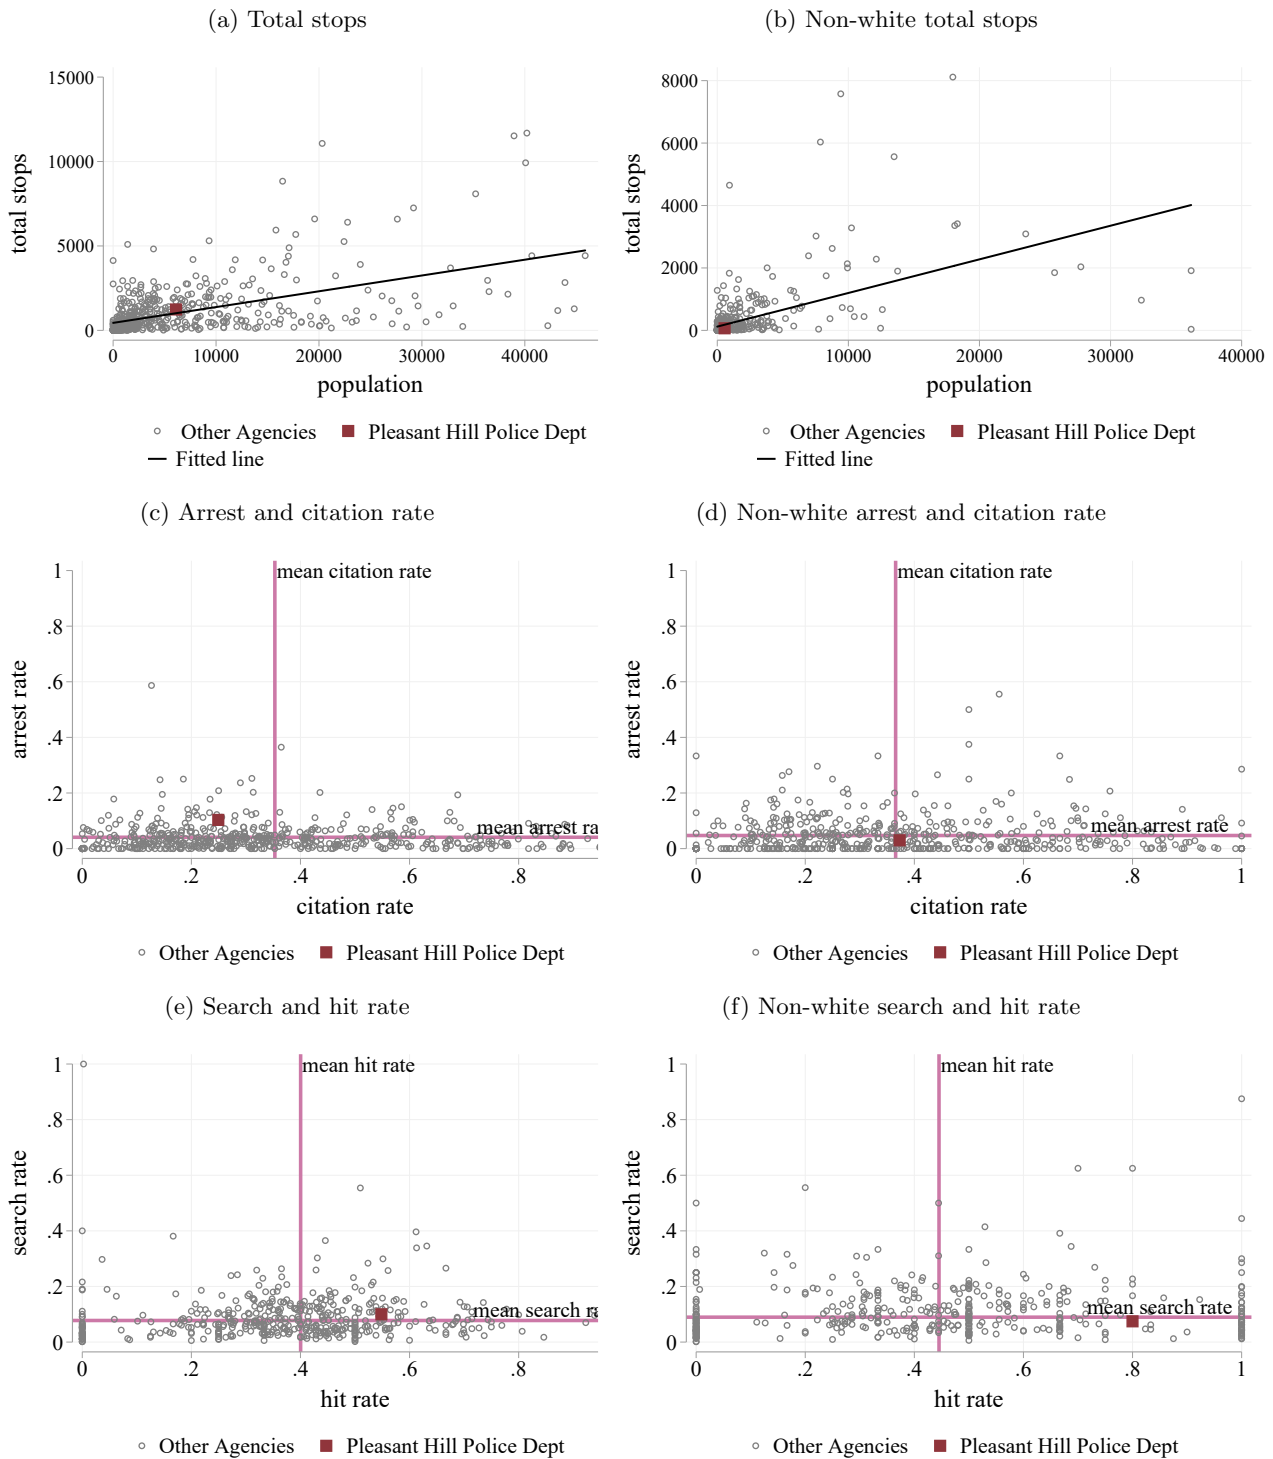

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Pleasant Hill Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Pleasant Hill Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	6113	5551	265	220	0	1	135
2019 population %	100	90.81	4.34	3.6	0	.02	2.21
<b>Stops</b>	.	.	.	.	.	.	.
All stops	1239	1172	34	26	5	2	0
Resident stops	684	654	12	14	3	1	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.042	.633	.583	.	9.868	0
Resident stops	.	1.053	.405	.569	.	8.937	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

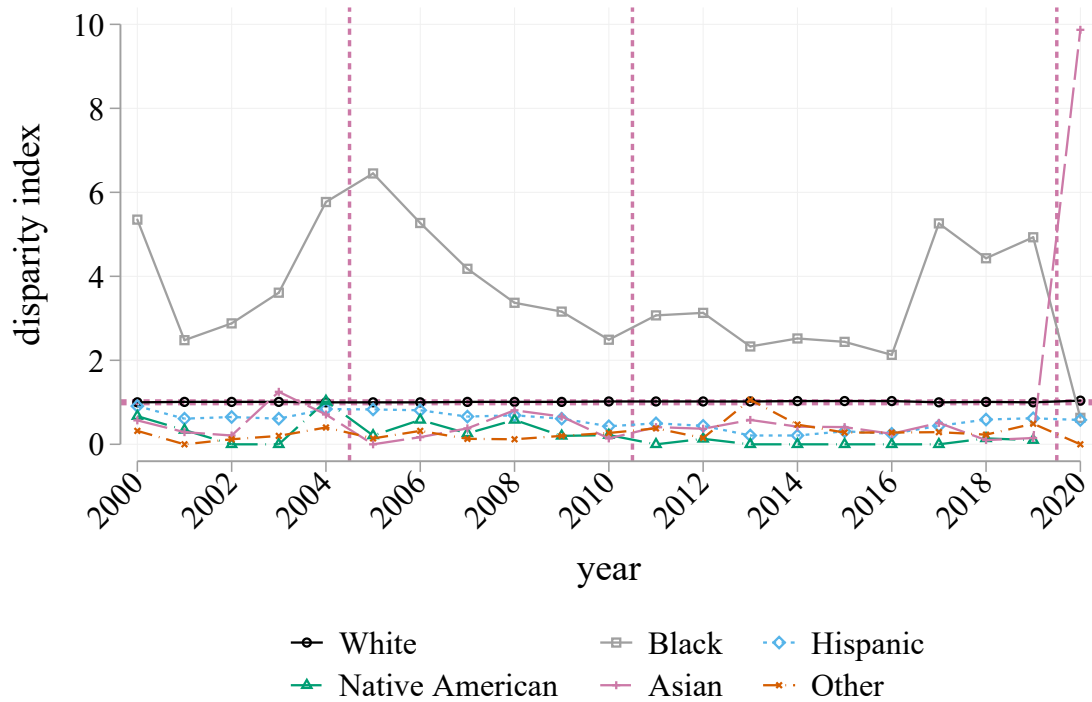

Table 3: Disparity Index from 2000 to 2020 for Pleasant Hill Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	1	5.35	.91	.67	.57	.32

<b>2010</b>	1.02	2.49	.43	.22	.14	.27
<b>2011</b>	1.02	3.07	.5	0	.41	.38
<b>2012</b>	1.02	3.13	.44	.13	.37	.15
<b>2013</b>	1.02	2.33	.21	0	.58	1.06
<b>2014</b>	1.03	2.52	.21	0	.42	.47
<b>2015</b>	1.03	2.44	.31	0	.41	.28
<b>2016</b>	1.03	2.13	.25	0	.25	.28
<b>2017</b>	1	5.26	.44	0	.51	.29
<b>2018</b>	1.01	4.43	.59	.14	.1	.23
<b>2019</b>	1	4.93	.62	.1	.15	.49
<b>2020</b>	1.04	.63	.58	.	9.87	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Pleasant Hill Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

### 1.413 Pleasant Valley Police Dept

Table 1: Rates by Race for Pleasant Valley Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	2502	2054	78	289	34	8	142
2019 population %	100	82.09	3.12	11.55	1.36	.32	5.68
<b>Totals</b>	.	.	.	.	.	.	.
All stops	2151	1613	391	86	6	31	24
Resident stops	182	153	23	5	0	1	0
Searches	140	91	42	5	1	0	1
Contraband	49	35	13	0	0	0	1
Arrests	85	62	18	3	1	0	1
Citations	734	546	142	30	1	8	7
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	85.97	78.53	501.28	29.76	17.65	387.5	16.9
Stop rate, residents	7.27	7.45	29.49	1.73	0	12.5	0
Search rate	6.51	5.64	10.74	5.81	16.67	0	4.17
Contraband hit rate	35	38.46	30.95	0	0	.	100
Arrest rate	3.95	3.84	4.6	3.49	16.67	0	4.17
Citation rate	34.12	33.85	36.32	34.88	16.67	25.81	29.17

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

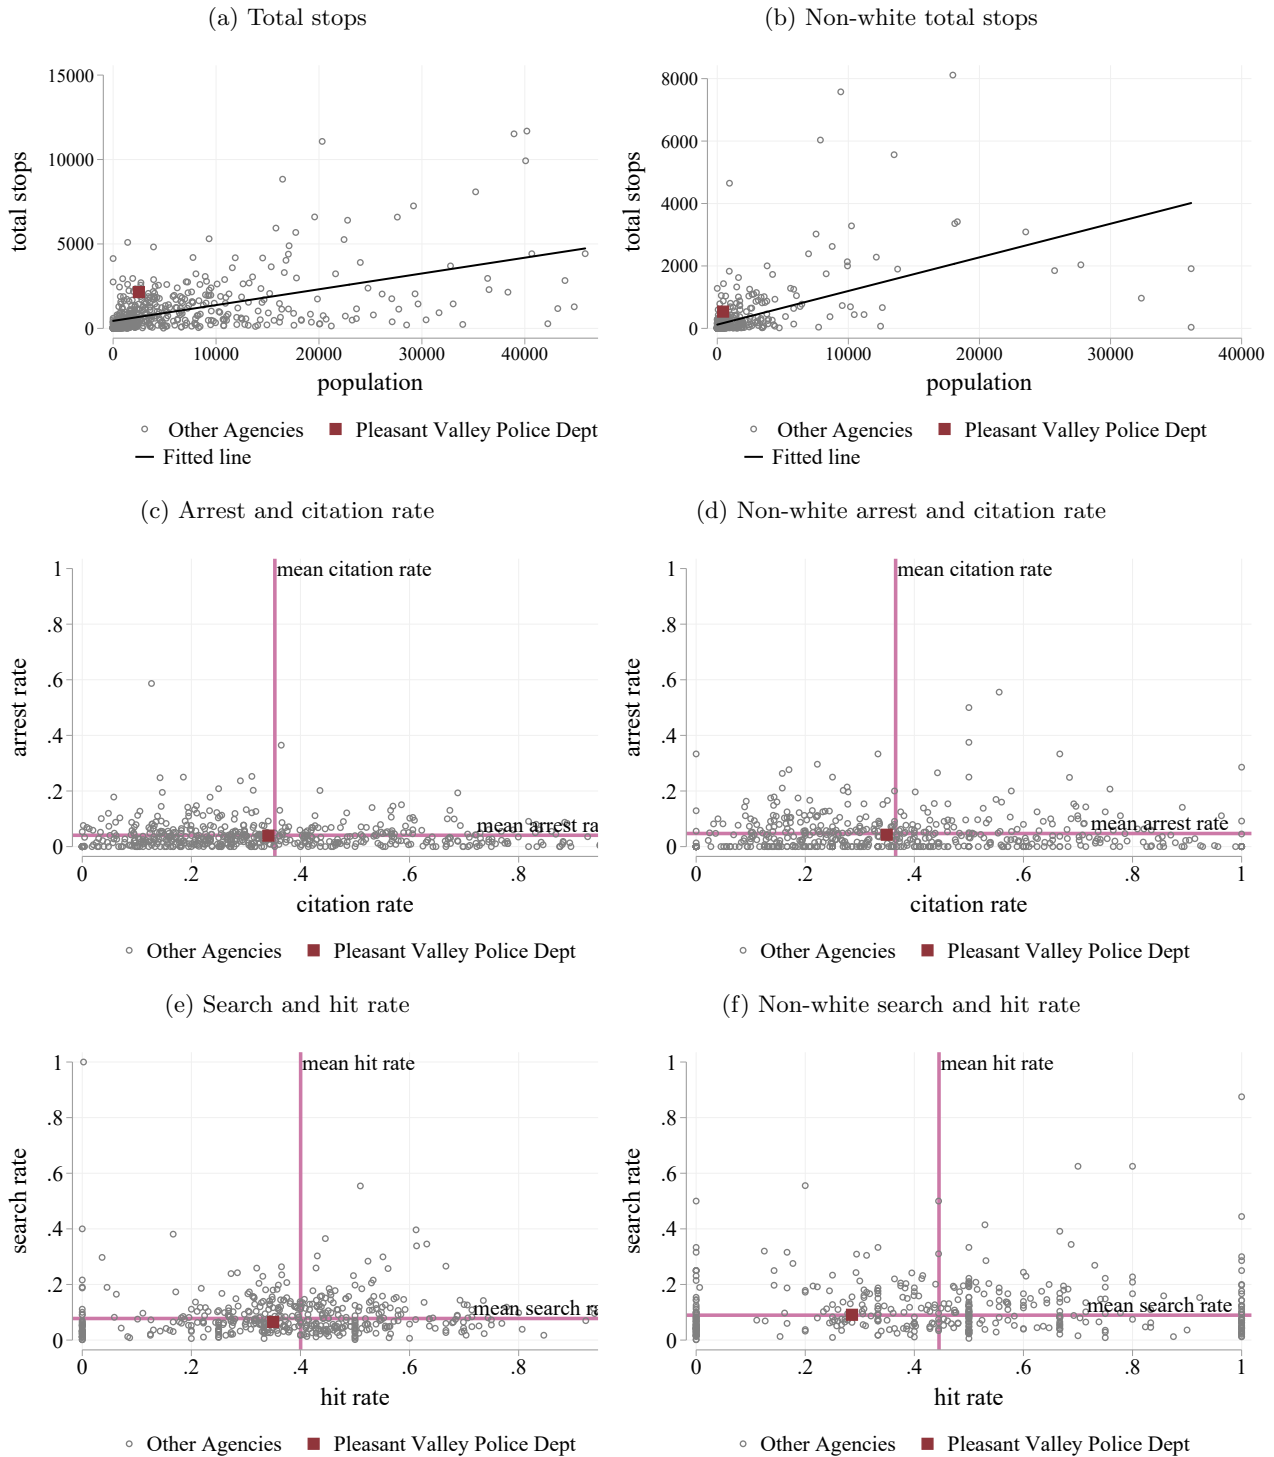

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Pleasant Valley Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Pleasant Valley Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	2502	2054	78	289	34	8	142
2019 population %	100	82.09	3.12	11.55	1.36	.32	5.68
<b>Stops</b>	.	.	.	.	.	.	.
All stops	2151	1613	391	86	6	31	24
Resident stops	182	153	23	5	0	1	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.913	5.831	.346	.205	4.507	.197
Resident stops	.	1.024	4.054	.238	0	1.718	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

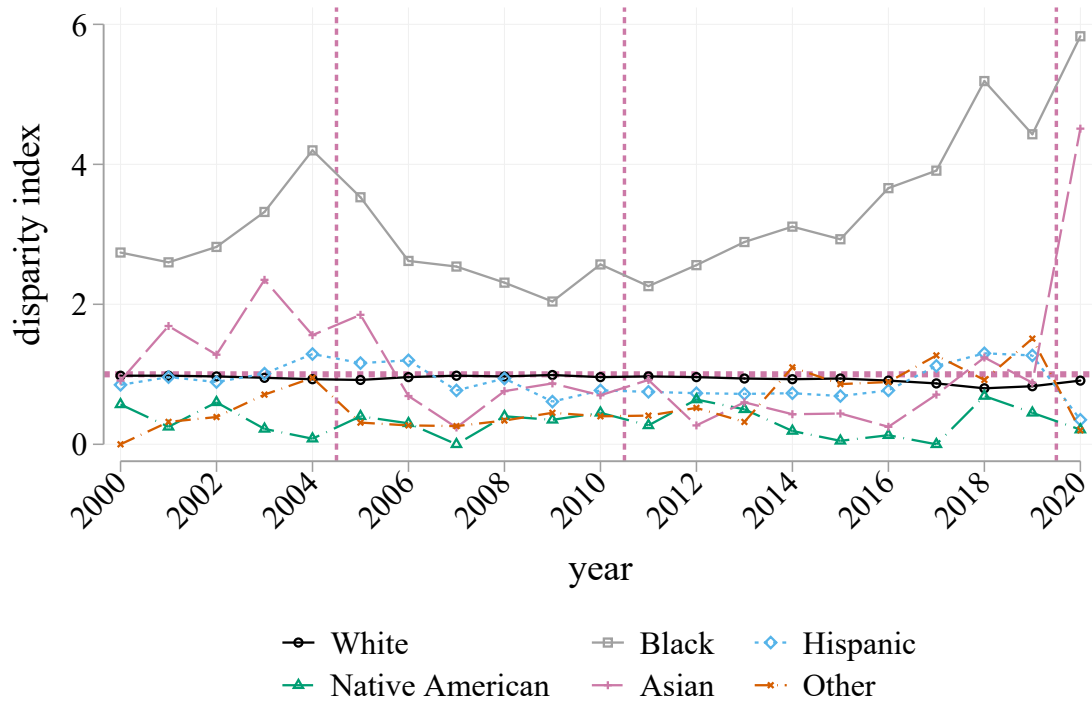

Table 3: Disparity Index from 2000 to 2020 for Pleasant Valley Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>

<b>2020</b>	.91	5.83	.35	.21	4.51	.2

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Pleasant Valley Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.415 Polo Police Dept

Table 1: Rates by Race for Polo Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	387	366	0	21	0	0	7
2019 population %	100	94.57	0	5.43	0	0	1.81
<b>Totals</b>	.	.	.	.	.	.	.
All stops	141	137	2	0	0	0	2
Resident stops	15	15	0	0	0	0	0
Searches	7	7	0	0	0	0	0
Contraband	3	3	0	0	0	0	0
Arrests	3	3	0	0	0	0	0
Citations	97	93	2	0	0	0	2
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	36.43	37.43	.	0	.	.	28.57
Stop rate, residents	3.88	4.1	.	0	.	.	0
Search rate	4.96	5.11	0	.	.	.	0
Contraband hit rate	42.86	42.86	.	.	.	.	.
Arrest rate	2.13	2.19	0	.	.	.	0
Citation rate	68.79	67.88	100	.	.	.	100

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

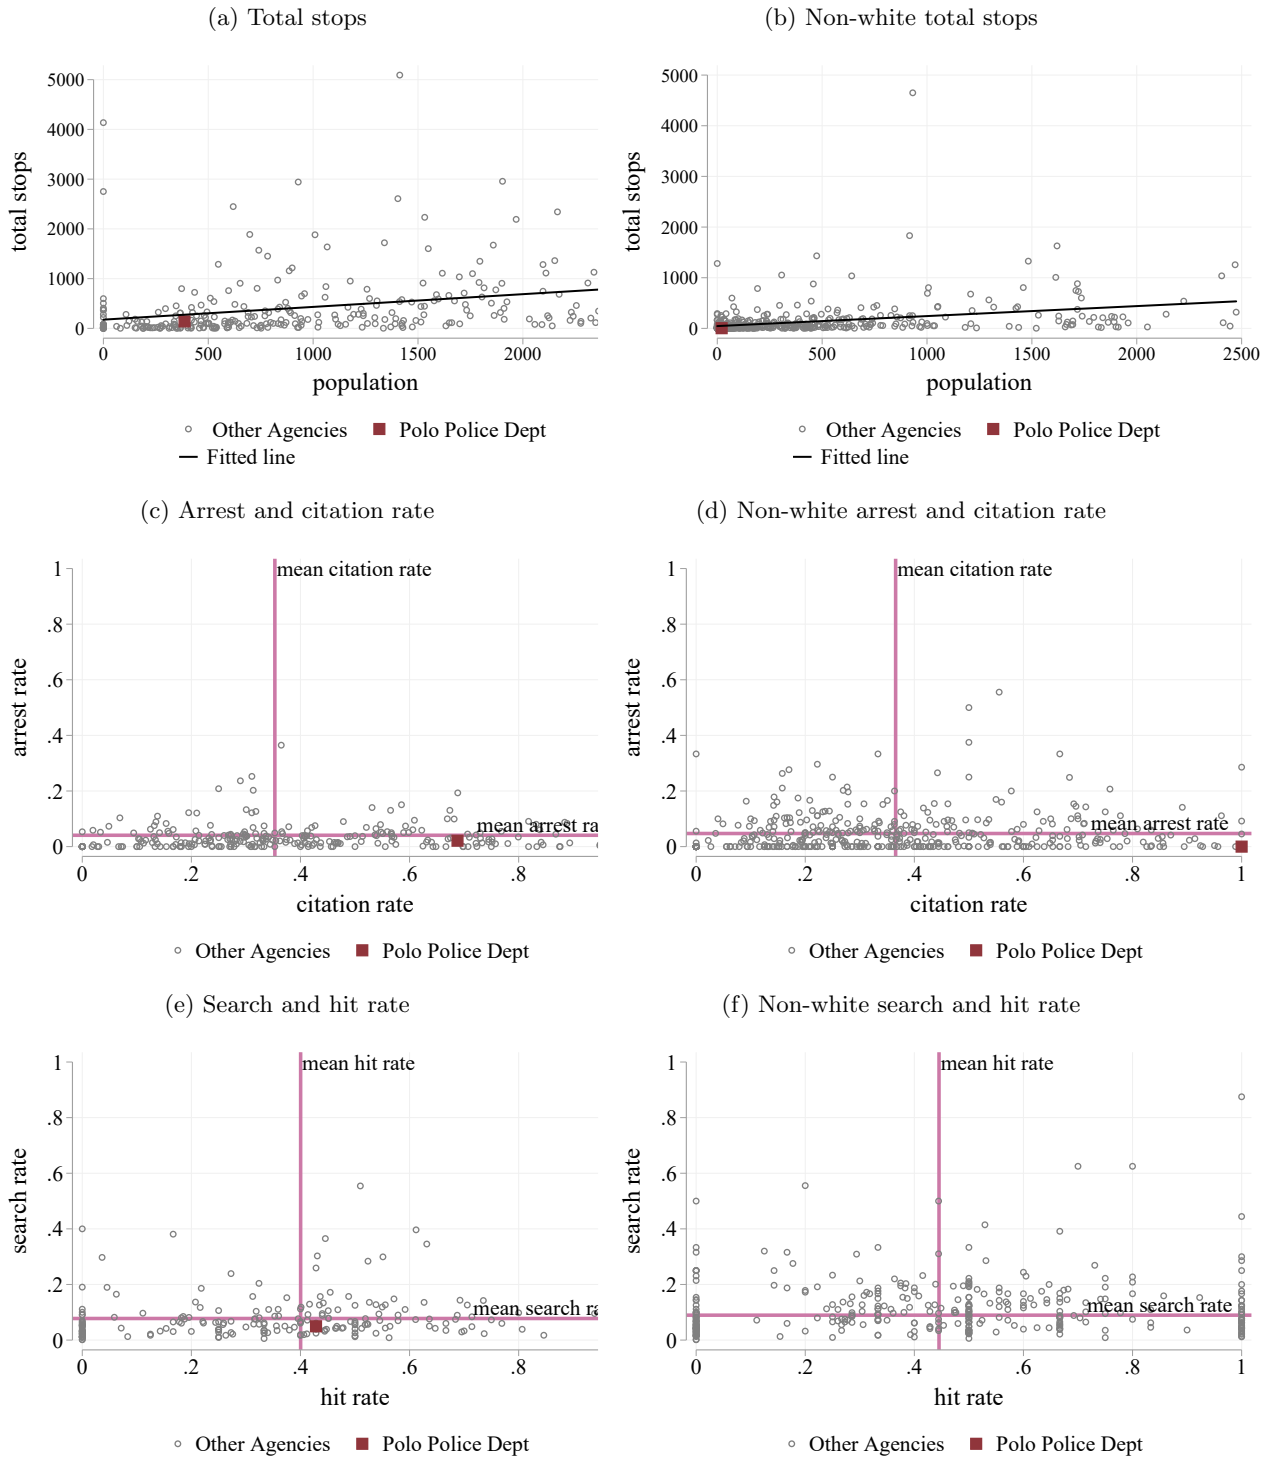

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Polo Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Polo Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	387	366	0	21	0	0	7
2019 population %	100	94.57	0	5.43	0	0	1.81
<b>Stops</b>	.	.	.	.	.	.	.
All stops	141	137	2	0	0	0	2
Resident stops	15	15	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.027	.	0	.	.	.784
Resident stops	.	1.057	.	0	.	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>2018</b>	.	.	.	.	.	.
<b>2019</b>	.	.	.	.	.	.
<b>2020</b>	1.03	.	0	.	.	.78

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Polo Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

## 1.417 Portageville Police Dept

Table 1: Rates by Race for Portageville Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	2347	1760	497	0	4	0	86
2019 population %	100	74.99	21.18	0	.17	0	3.66
<b>Totals</b>	.	.	.	.	.	.	.
All stops	116	88	28	0	0	0	0
Resident stops	79	64	15	0	0	0	0
Searches	22	17	5	0	0	0	0
Contraband	1	0	1	0	0	0	0
Arrests	3	1	2	0	0	0	0
Citations	24	18	6	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	4.94	5	5.63	.	0	.	0
Stop rate, residents	3.37	3.64	3.02	.	0	.	0
Search rate	18.97	19.32	17.86	.	.	.	.
Contraband hit rate	4.55	0	20	.	.	.	.
Arrest rate	2.59	1.14	7.14	.	.	.	.
Citation rate	20.69	20.45	21.43	.	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

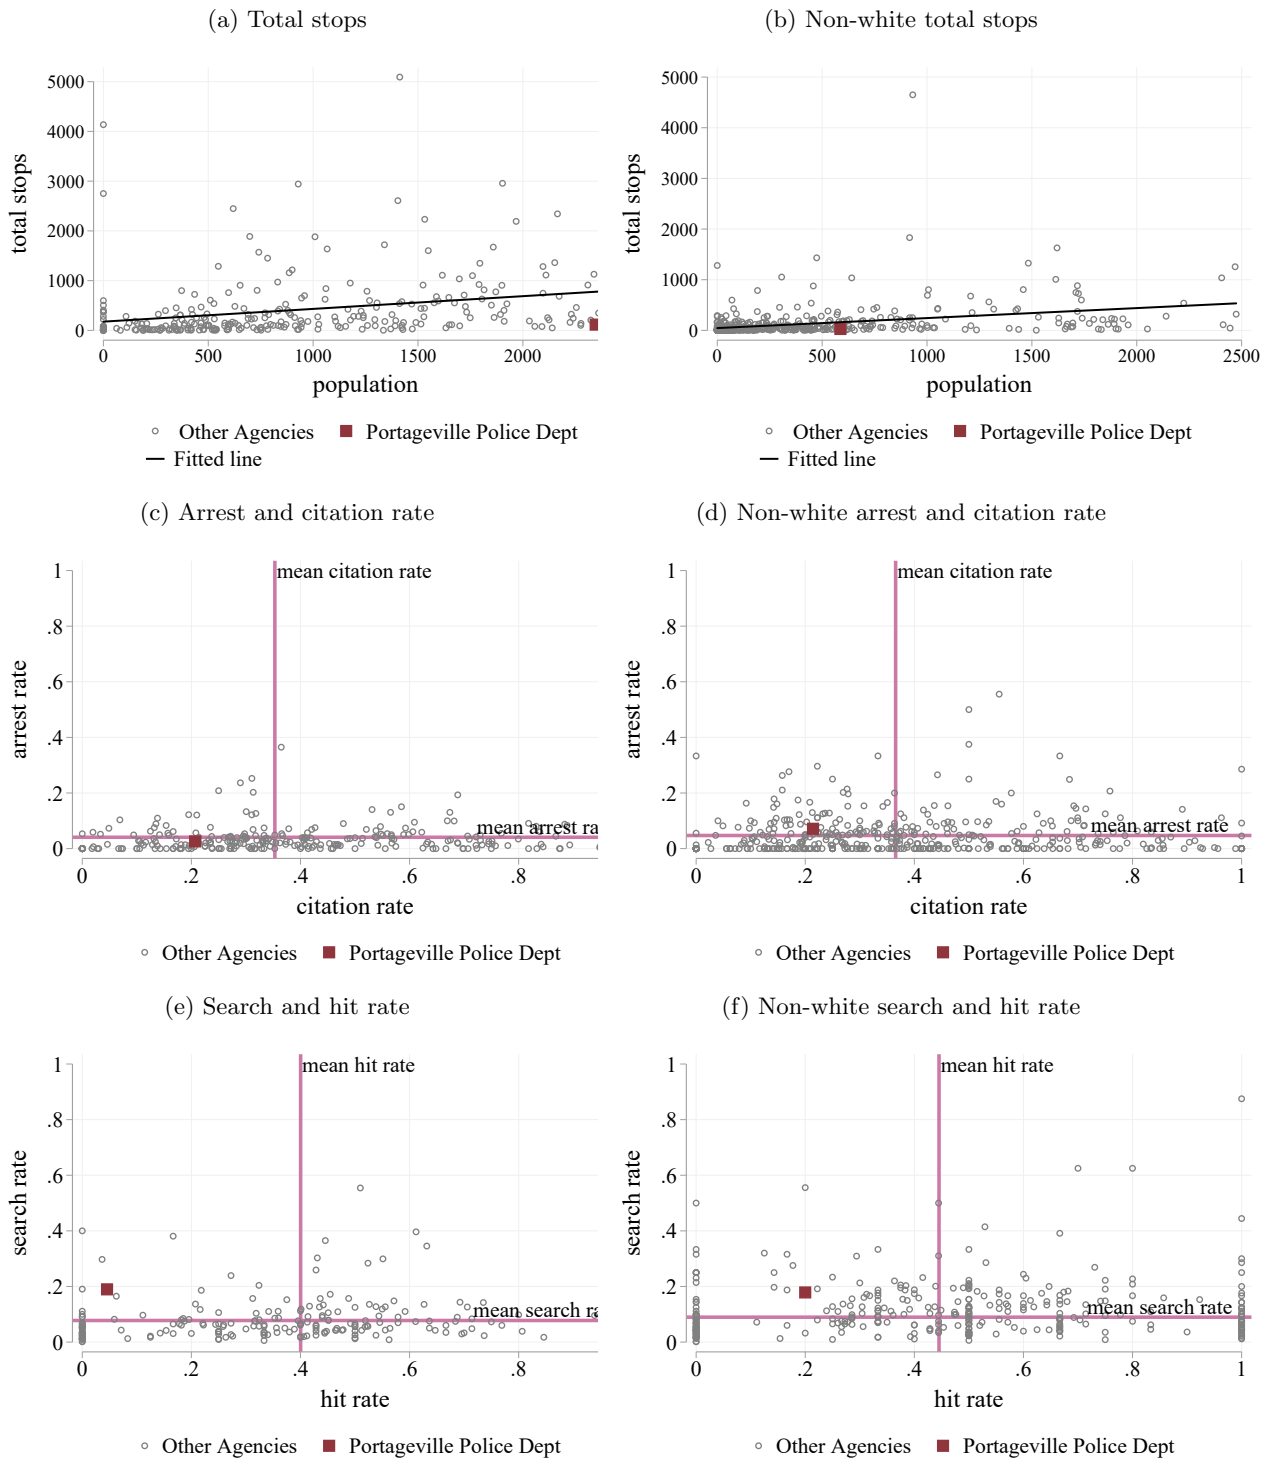

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Portageville Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Portageville Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	2347	1760	497	0	4	0	86
2019 population %	100	74.99	21.18	0	.17	0	3.66
<b>Stops</b>	.	.	.	.	.	.	.
All stops	116	88	28	0	0	0	0
Resident stops	79	64	15	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.012	1.14	.	0	.	0
Resident stops	.	1.08	.897	.	0	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

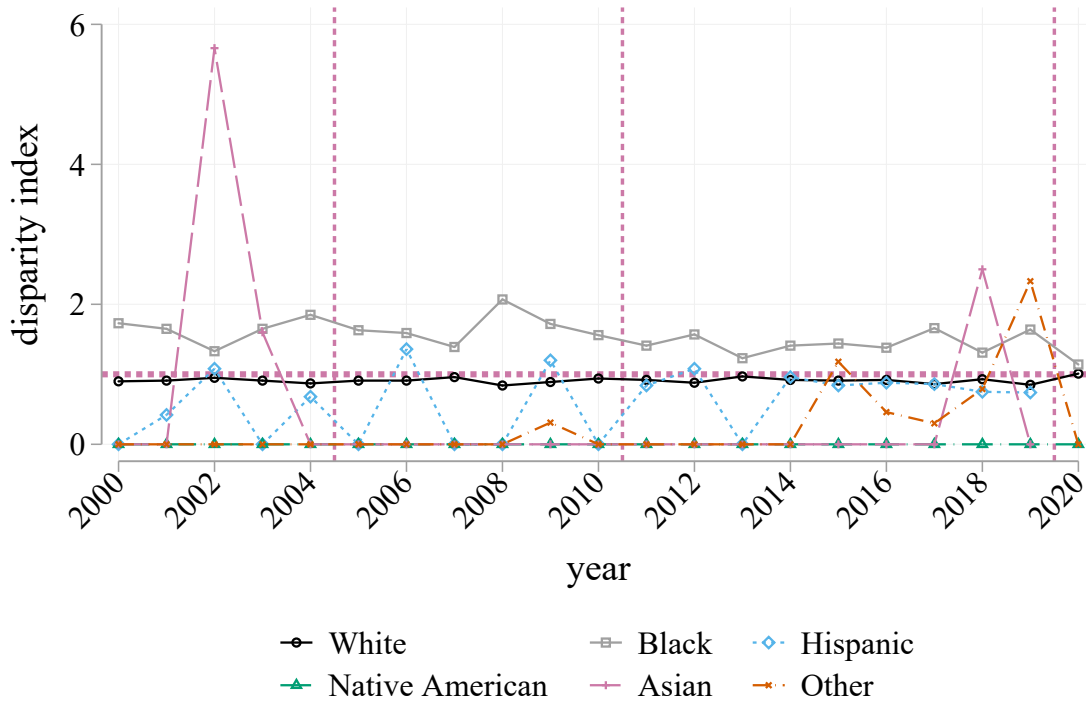

Table 3: Disparity Index from 2000 to 2020 for Portageville Police Dept

	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>2000</b>	.9	1.73	0	0	0	0
<b>2001</b>	.91	1.65	.42	0	0	0

<b>2003</b>	.91	1.65	0	0	1.6	0
<b>2004</b>	.87	1.85	.68	0	0	0
<b>2005</b>	.91	1.63	0	0	0	0
<b>2006</b>	.91	1.59	1.36	0	0	0
<b>2007</b>	.96	1.39	0	0	0	0
<b>2008</b>	.84	2.07	0	0	0	0
<b>2009</b>	.89	1.72	1.2	0	0	.31
<b>2010</b>	.94	1.56	0	0	0	0
<b>2011</b>	.92	1.41	.84	0	0	0
<b>2012</b>	.88	1.57	1.08	0	0	0
<b>2013</b>	.97	1.23	0	0	0	0
<b>2014</b>	.92	1.41	.96	0	0	0
<b>2015</b>	.91	1.44	.84	0	0	1.18
<b>2016</b>	.92	1.38	.88	0	0	.46
<b>2017</b>	.86	1.66	.86	0	0	.3
<b>2018</b>	.93	1.31	.75	0	2.5	.79
<b>2019</b>	.85	1.64	.74	0	0	2.33
<b>2020</b>	1.01	1.14	.	0	.	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Portageville Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Stop rate, residents	0	0	.	0	.	.	0
Search rate	11.11	8.33	50	.	0	.	.
Contraband hit rate	0	0	0	.	.	.	.
Arrest rate	7.41	4.17	50	.	0	.	.
Citation rate	59.26	62.5	50	.	0	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

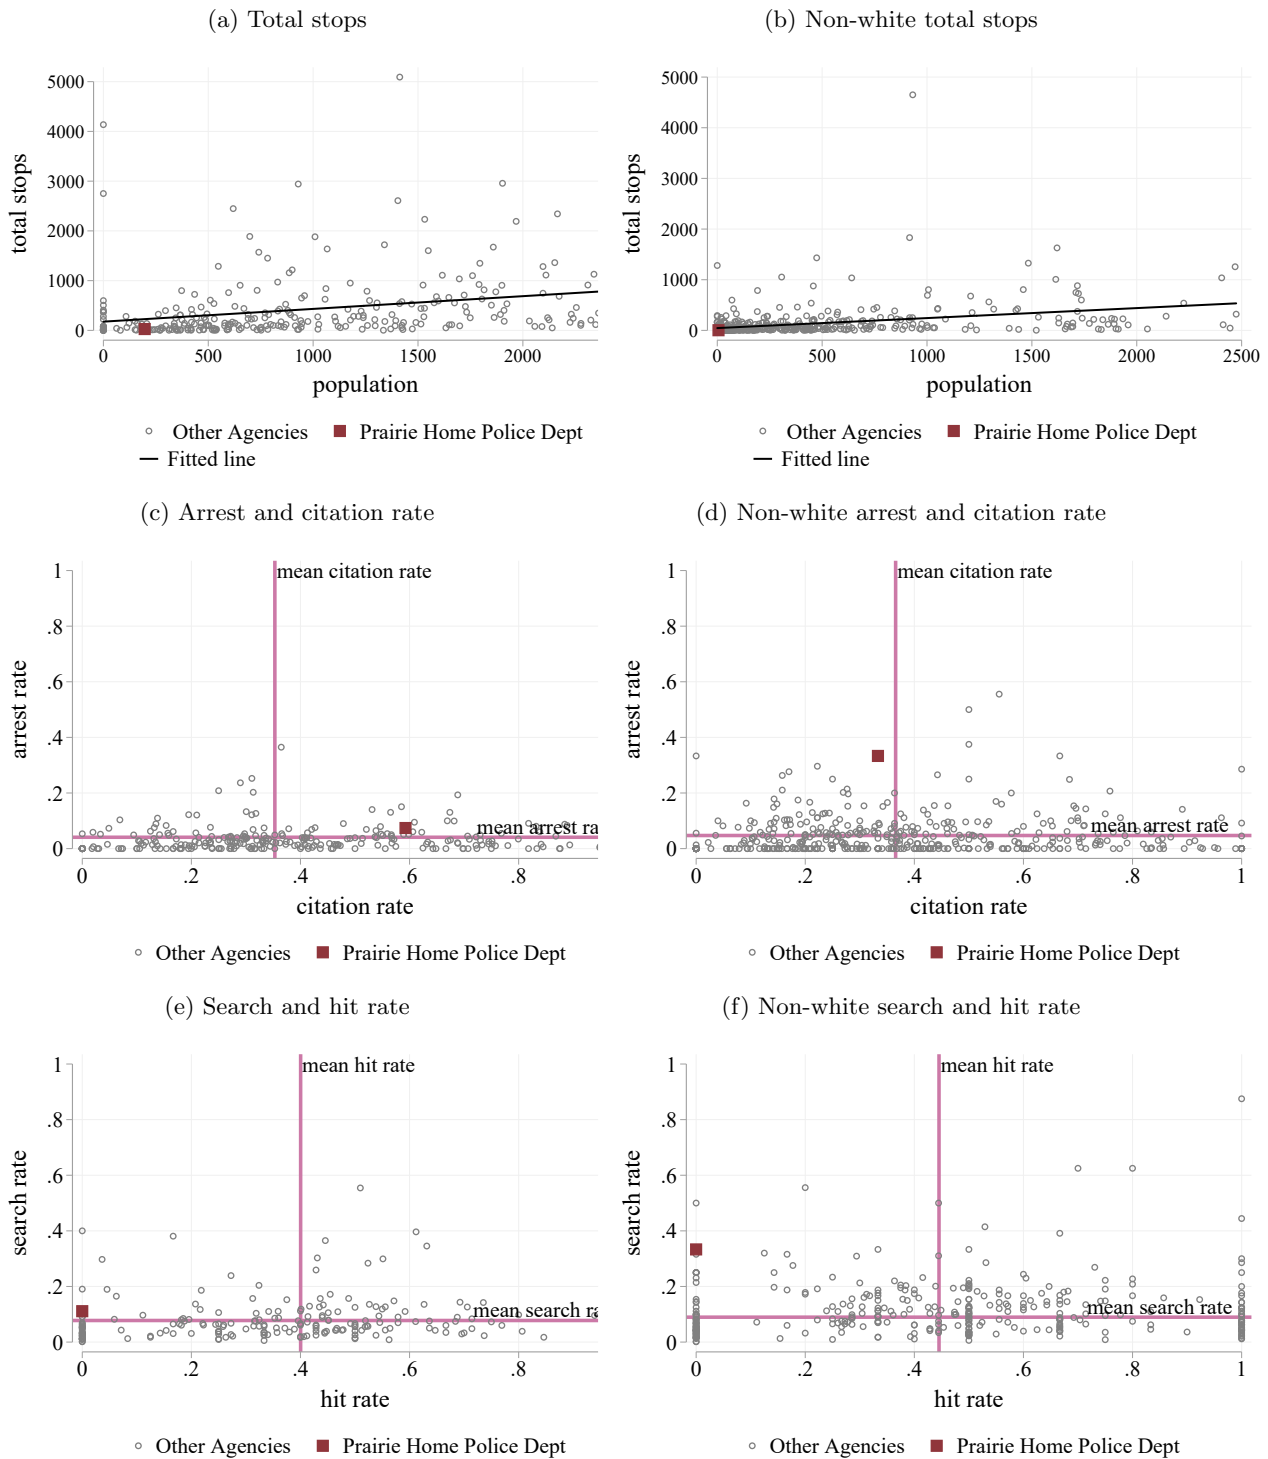

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Prairie Home Police Dept. reports stops for the City of Praire Home and the Village of Windsor.

Figure 1: Comparison to other agencies by population for Prairie Home Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Prairie Home Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	197	191	0	2	0	0	4
2019 population %	100	96.95	0	1.02	0	0	2.03
<b>Stops</b>	.	.	.	.	.	.	.
All stops	27	24	2	0	1	0	0
Resident stops	0	0	0	0	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	.917	.	0	.	.	0
Resident stops	.	.	.	.	.	.	.

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Purdy Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Purdy Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.
2019 population	943	489	0	356	62	12	117
2019 population %	100	51.86	0	37.75	6.57	1.27	12.41
<b>Stops</b>	.	.	.	.	.	.	.
All stops	63	45	1	17	0	0	0
Resident stops	29	18	0	11	0	0	0
<b>Disparity index</b>	.	.	.	.	.	.	.
All stops	.	1.377	.	.715	0	0	0
Resident stops	.	1.197	.	1.005	0	0	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>2019</b>	1.01	.	1.16	0	0	0
<b>2020</b>	1.38	.	.71	0	0	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Purdy Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

All stops	.	.969	.	0	.	.	0
Resident stops	.	1.02	.	0	.	.	0

Notes: The disparity index is based on the 5-year population estimates from the American Community Survey (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>2020</b>	.97	.	0	.	.	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Puxico Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	18.53	16.49	40	.	.	14.29	.
Stop rate, residents	.8	.82	0	.	.	0	.
Search rate	9.68	11.25	0	0	.	0	0
Contraband hit rate	11.11	11.11	.	.	.	.	.
Arrest rate	5.38	6.25	0	0	.	0	0
Citation rate	36.56	37.5	25	0	.	0	50

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

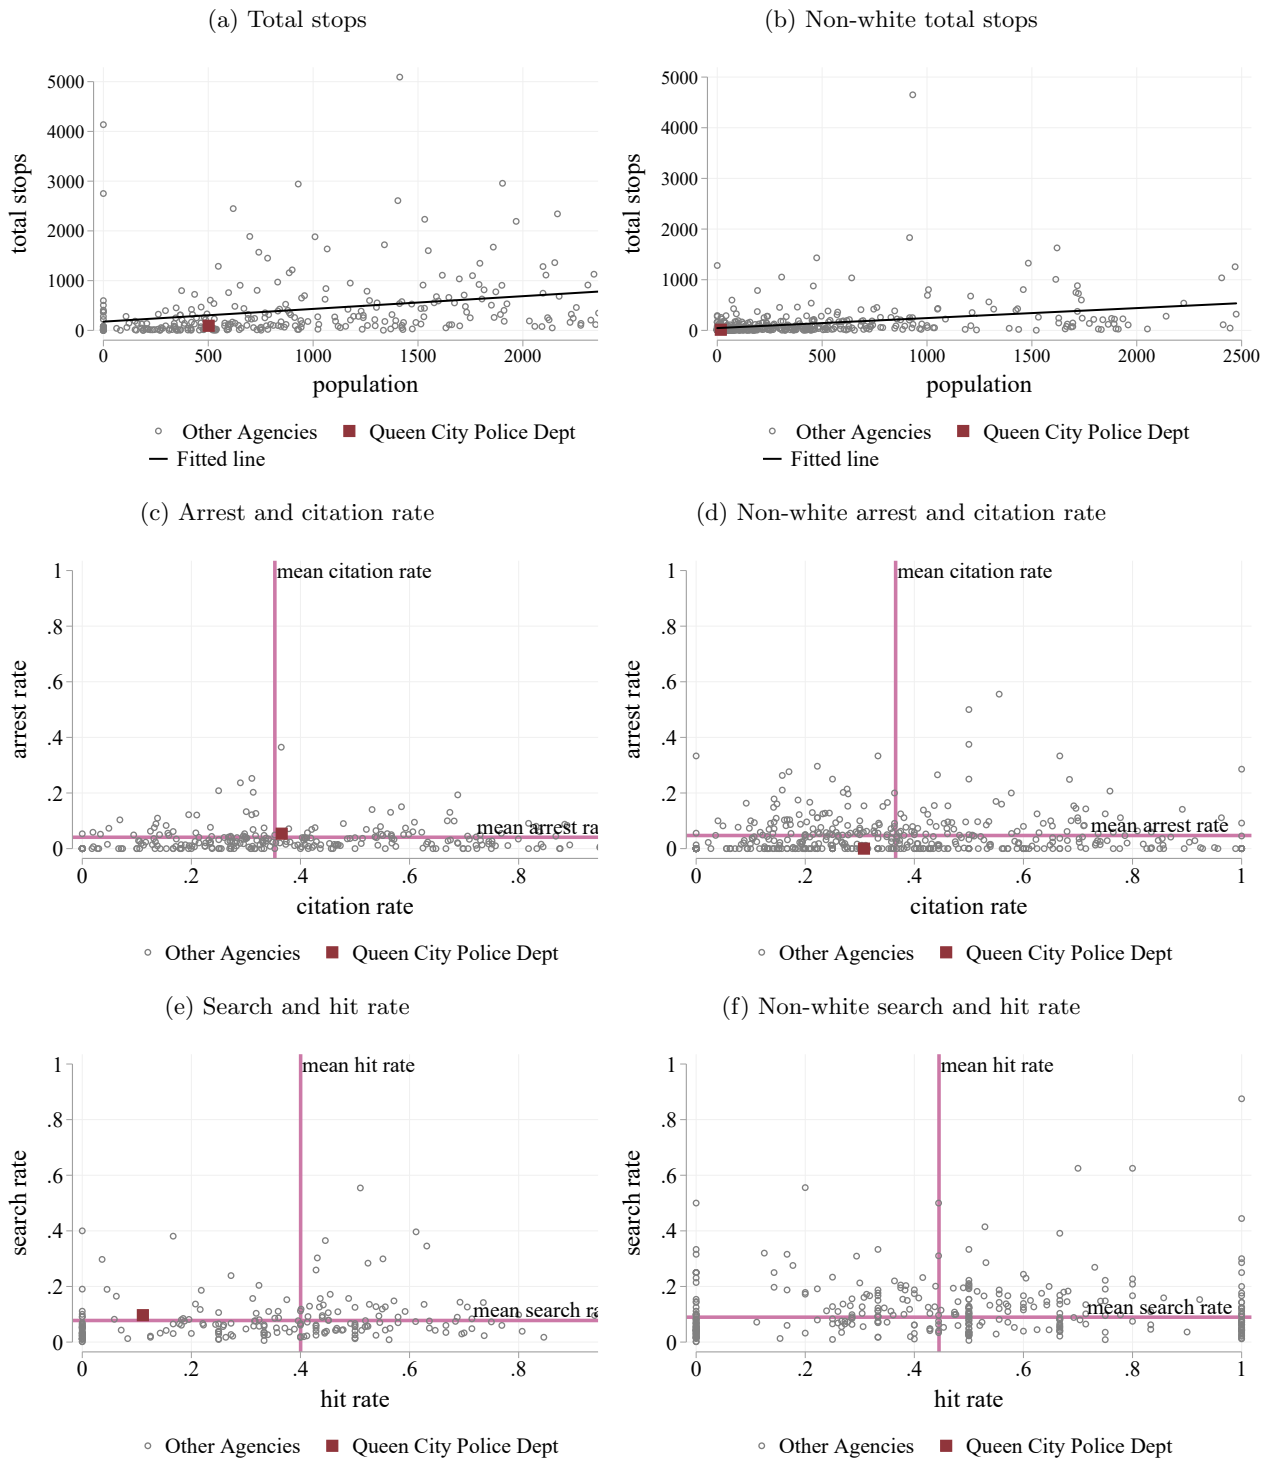

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Queen City Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

<b>2019</b>	.9	.	2.5	.31	.	.47
<b>2020</b>	.91	23.44	1.13	.	.	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Qulin Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Search rate	5.18	4.78	11.86	0	.	0	0
Contraband hit rate	27.5	27.27	28.57	.	.	.	.
Arrest rate	2.85	2.75	5.08	0	.	0	0
Citation rate	23.06	21.56	42.37	10	.	0	33.33

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

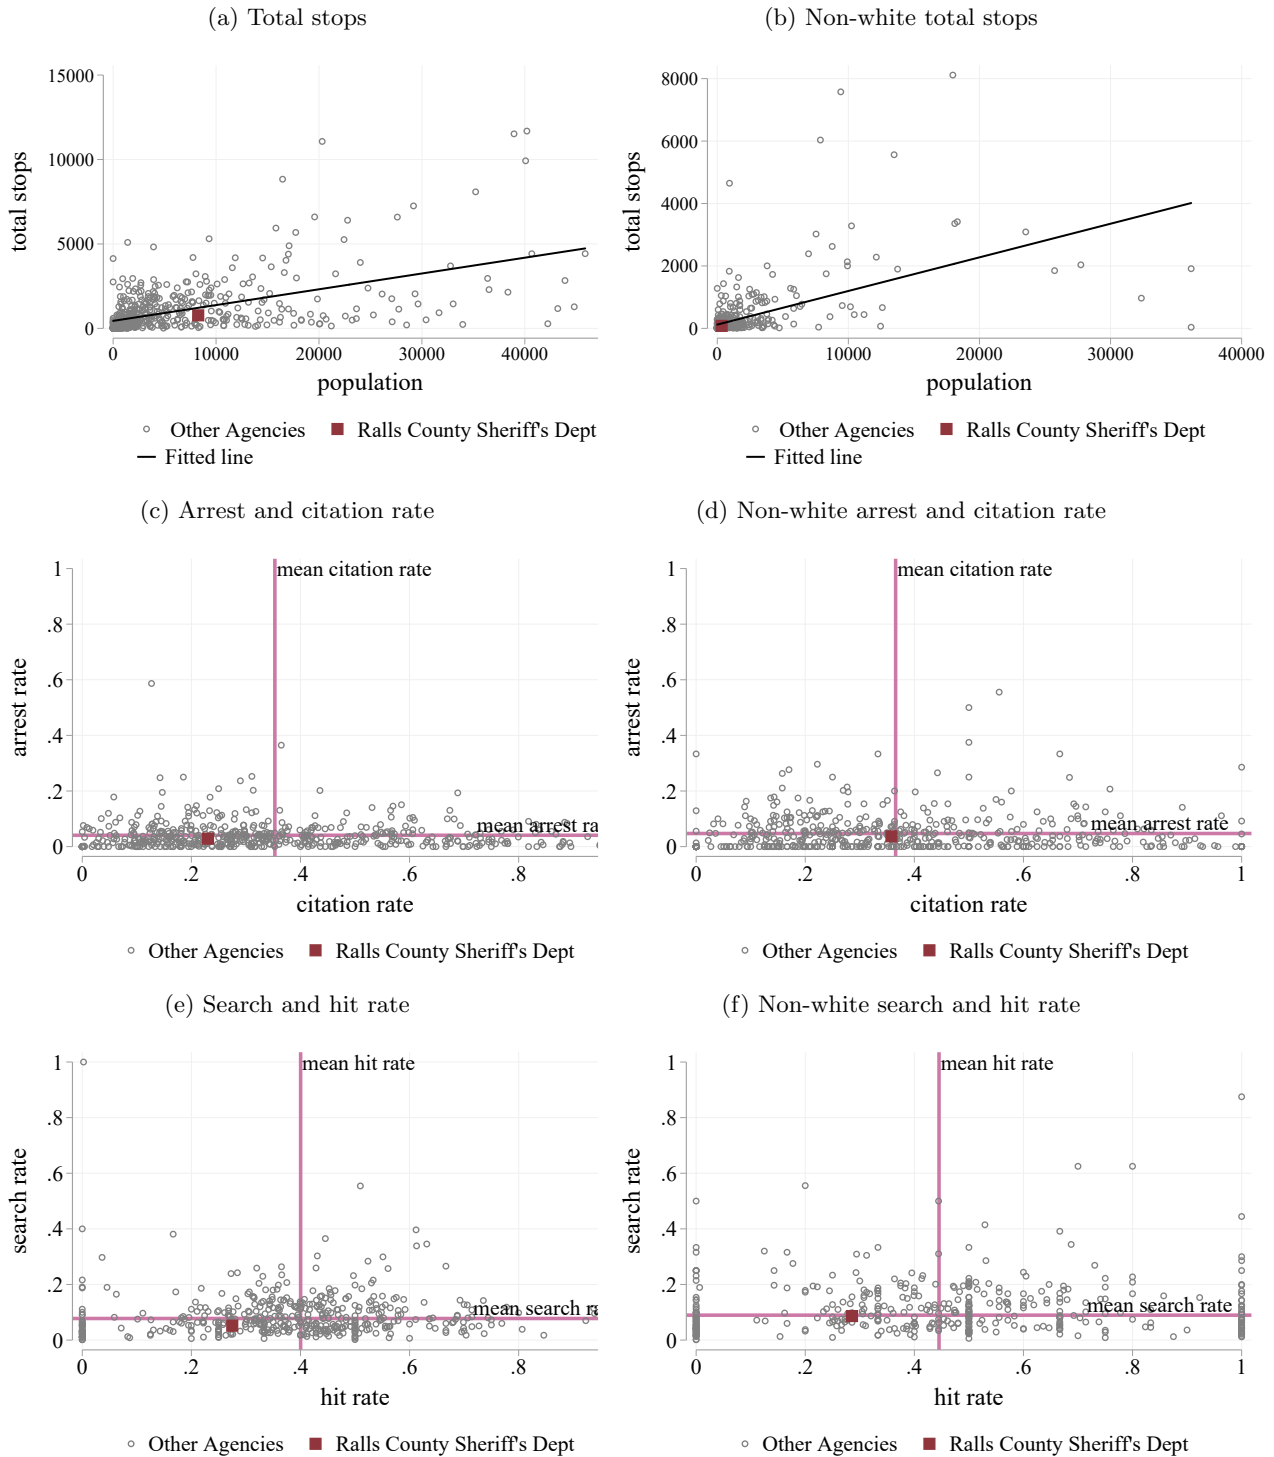

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Ralls County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

<b>2019</b>	1	1.24	1.3	0	0	0
<b>2020</b>	.99	1.35	.47	0	.72	1.06

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Randolph County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 1: Rates by Race for Ray County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	18291	17326	268	370	93	40	242
2019 population %	100	94.72	1.47	2.02	.51	.22	1.32
<b>Totals</b>	.	.	.	.	.	.	.
All stops	476	441	18	8	1	4	4
Resident stops	441	420	9	7	1	2	2
Searches	25	24	1	0	0	0	0
Contraband	5	5	0	0	0	0	0
Arrests	23	22	1	0	0	0	0
Citations	59	54	3	2	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	2.6	2.55	6.72	2.16	1.08	10	1.65
Stop rate, residents	2.41	2.42	3.36	1.89	1.08	5	.83
Search rate	5.25	5.44	5.56	0	0	0	0
Contraband hit rate	20	20.83	0	.	.	.	.
Arrest rate	4.83	4.99	5.56	0	0	0	0
Citation rate	12.39	12.24	16.67	25	0	0	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

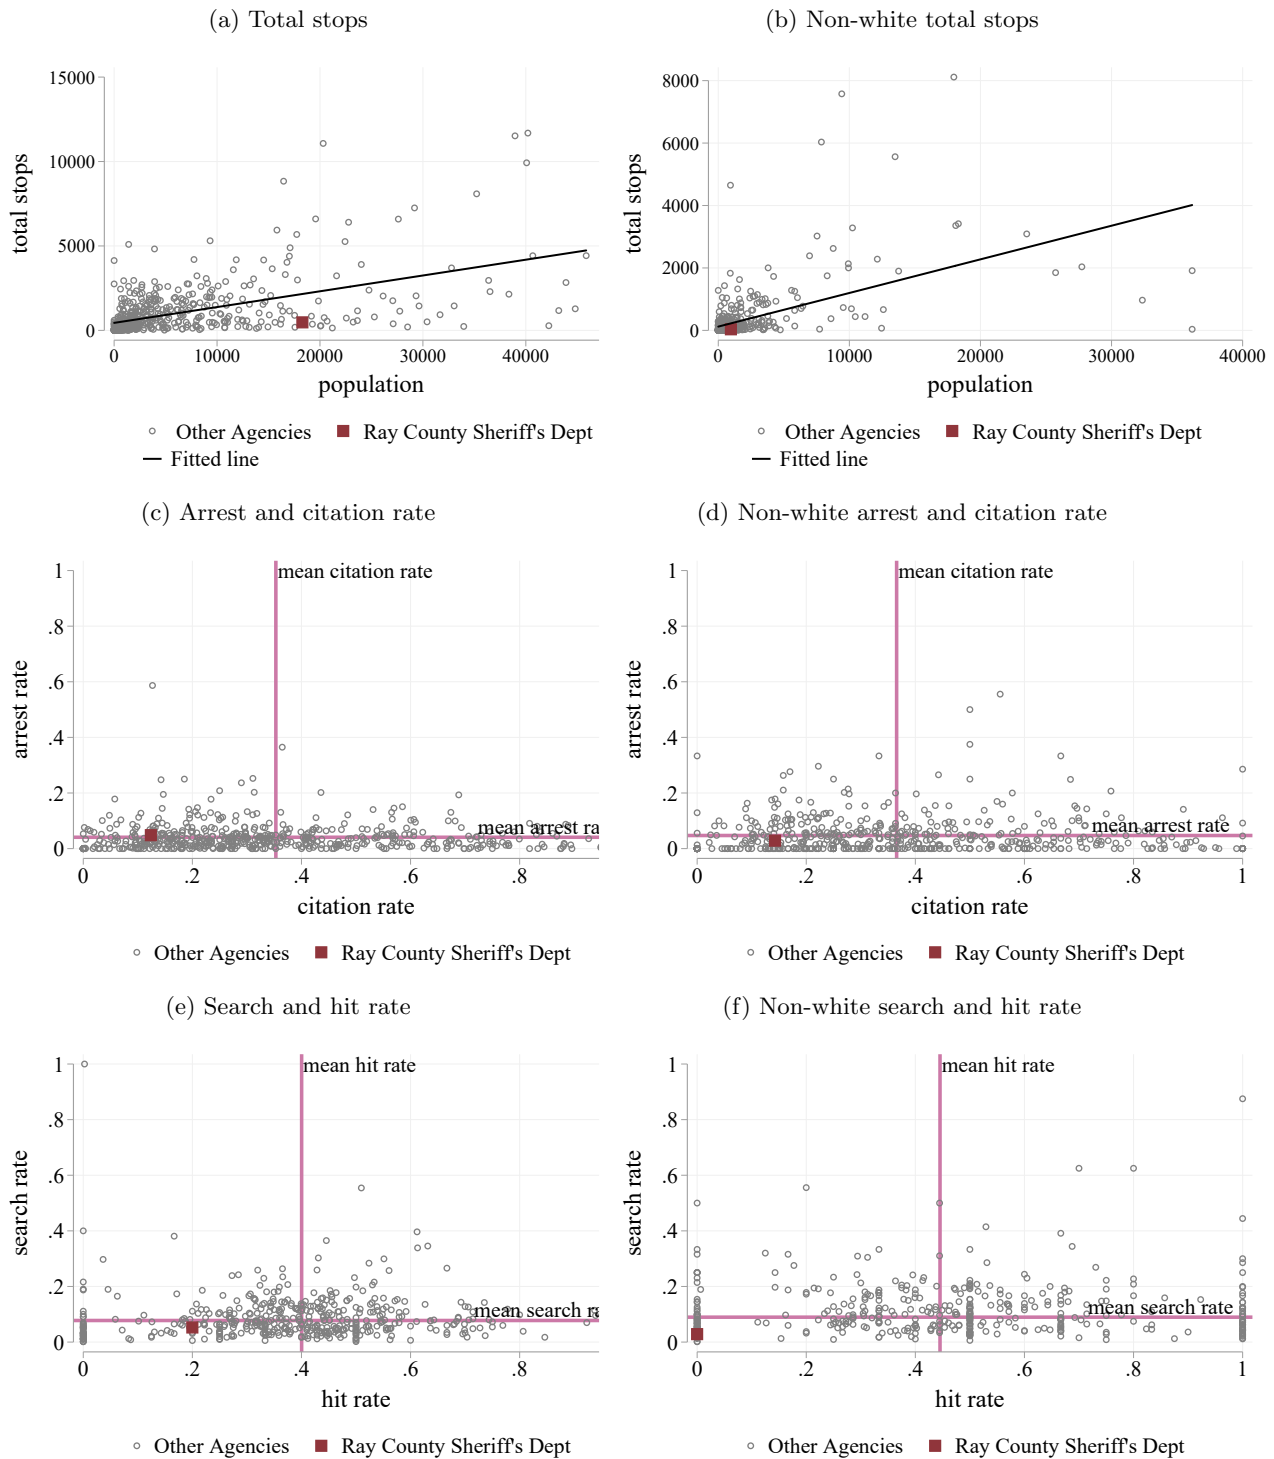

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Ray County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Ray County Sheriff's Dept

<b>2016</b>	.96	1.67	.72	0	.74	1.02
<b>2017</b>	.93	1.89	.94	.11	.76	1.34
<b>2018</b>	.92	2.05	.93	.33	.58	.92
<b>2019</b>	.89	2.41	1.04	.65	.76	.84
<b>2020</b>	.96	1.61	.62	.89	.34	.43

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Raymore Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Arrests	74	34	36	3	0	0	1
Citations	260	76	167	15	0	0	2
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	4.9	3.03	9.06	3.93	4.35	.79	1.69
Stop rate, residents	1.75	1.16	3.16	.93	0	.79	.62
Search rate	7.77	10.51	5.66	14.55	0	0	0
Contraband hit rate	34.44	44.44	24.32	25	.	.	.
Arrest rate	6.38	7.94	5.5	5.45	0	0	5.26
Citation rate	22.43	17.76	25.54	27.27	0	0	10.53

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

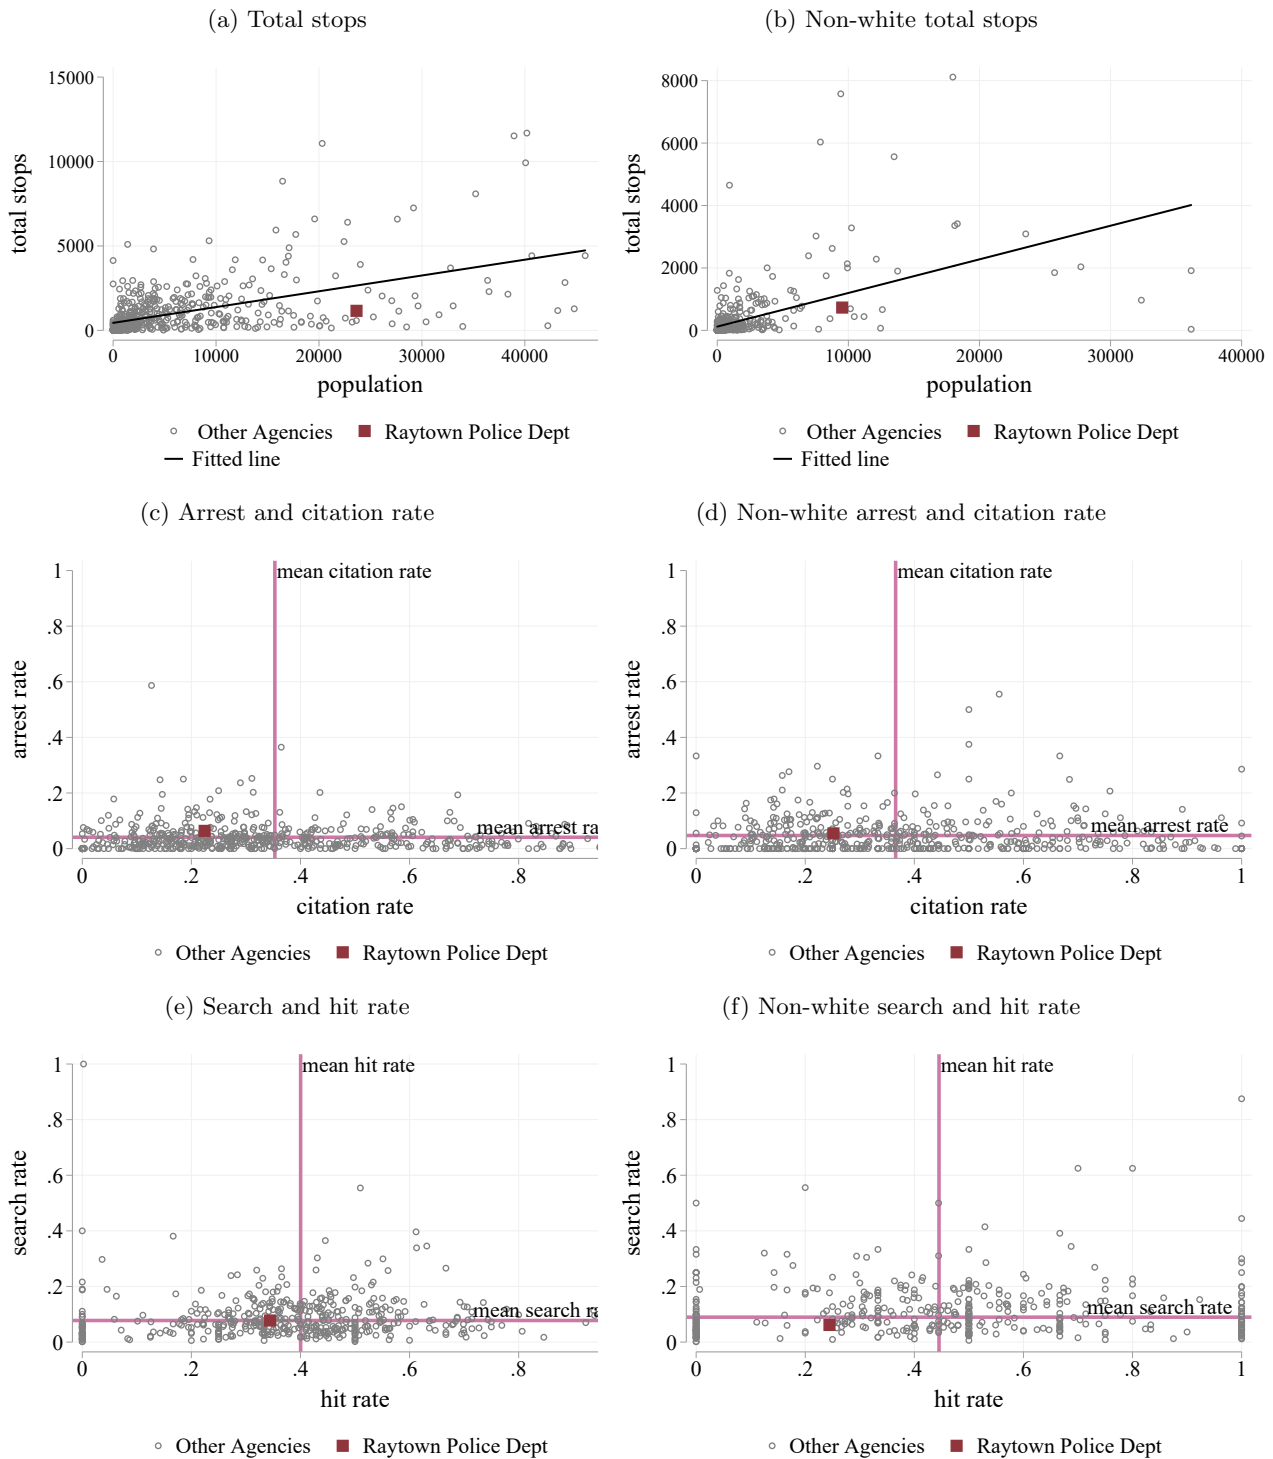

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Raytown Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Raytown Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>
<b>Population</b>	.	.	.	.	.	.	.

<b>2012</b>	1.06	0	0	0	0	0
<b>2013</b>	1.06	0	0	0	0	0
<b>2014</b>	1.06	0	0	0	0	0
<b>2015</b>	1.04	4.2	.7	0	0	0
<b>2016</b>	1.03	5.08	.66	0	.34	.08
<b>2017</b>	1.04	4.43	.55	0	0	0
<b>2018</b>	1.02	9.34	.67	.11	.51	.15
<b>2019</b>	1.02	6.09	1.31	0	0	.22
<b>2020</b>	1.03	.	1.37	.2	.2	.09

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Reeds Spring Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

<b>Totals</b>	.	.	.	.	.	.	.
All stops	4182	3931	138	90	2	10	11
Resident stops	1408	1336	36	30	1	3	2
Searches	503	456	31	15	0	0	1
Contraband	196	178	13	4	0	0	1
Arrests	33	30	2	1	0	0	0
Citations	1068	990	45	29	1	0	3
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	35.24	35.9	124.32	46.15	.	3.42	2.96
Stop rate, residents	11.86	12.2	32.43	15.38	.	1.03	.54
Search rate	12.03	11.6	22.46	16.67	0	0	9.09
Contraband hit rate	38.97	39.04	41.94	26.67	.	.	100
Arrest rate	.79	.76	1.45	1.11	0	0	0
Citation rate	25.54	25.18	32.61	32.22	50	0	27.27

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

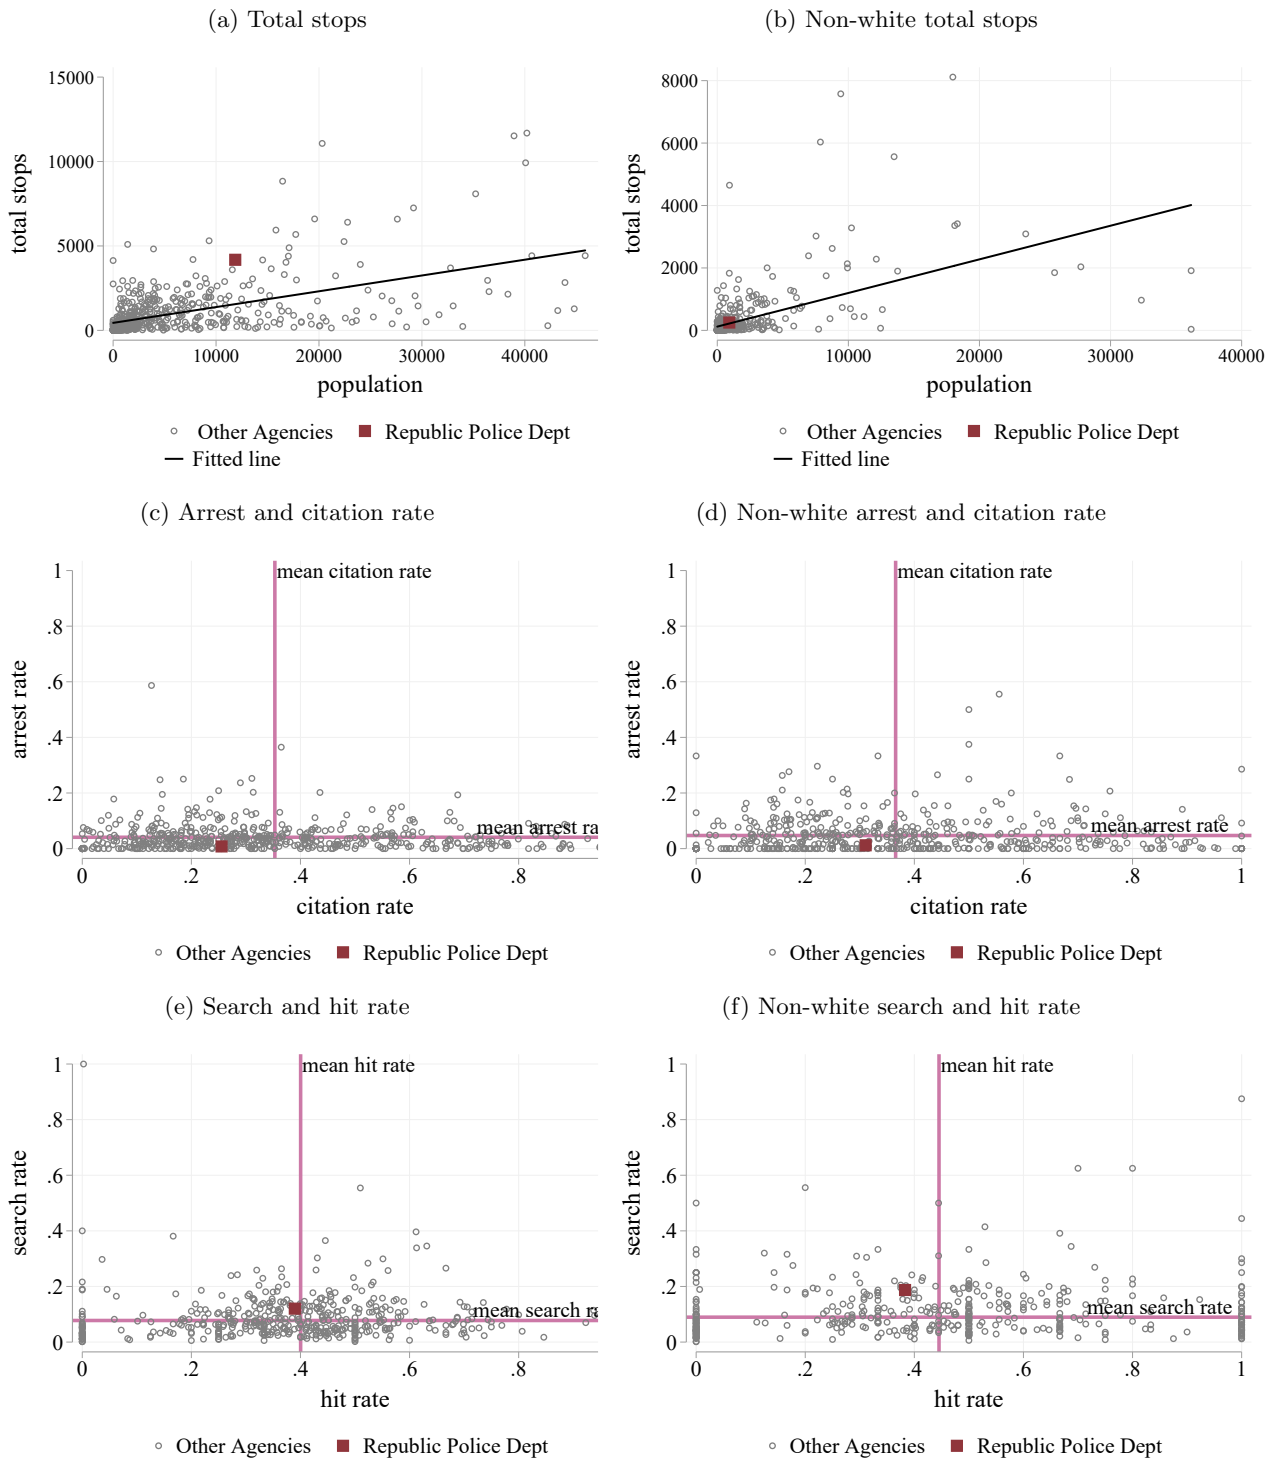

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Republic Police Dept. covers US Highway 60 and Highway 174 and spans two counties: Greene and Christian.

Figure 1: Comparison to other agencies by population for Republic Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Republic Police Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>

<b>2020</b>	1.04	1.14	.75	0	0	0

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Reynolds County Sheriff's Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Contraband	0	0	0	0	0	0	0
Arrests	0	0	0	0	0	0	0
Citations	58	58	0	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	7.1	7.46	6.67	0	0	0	0
Stop rate, residents	6.06	6.45	0	0	0	0	0
Search rate	0	0	0	.	.	.	.
Contraband hit rate	.	.	.	.	.	.	.
Arrest rate	0	0	0	.	.	.	.
Citation rate	70.73	71.6	0	.	.	.	.

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

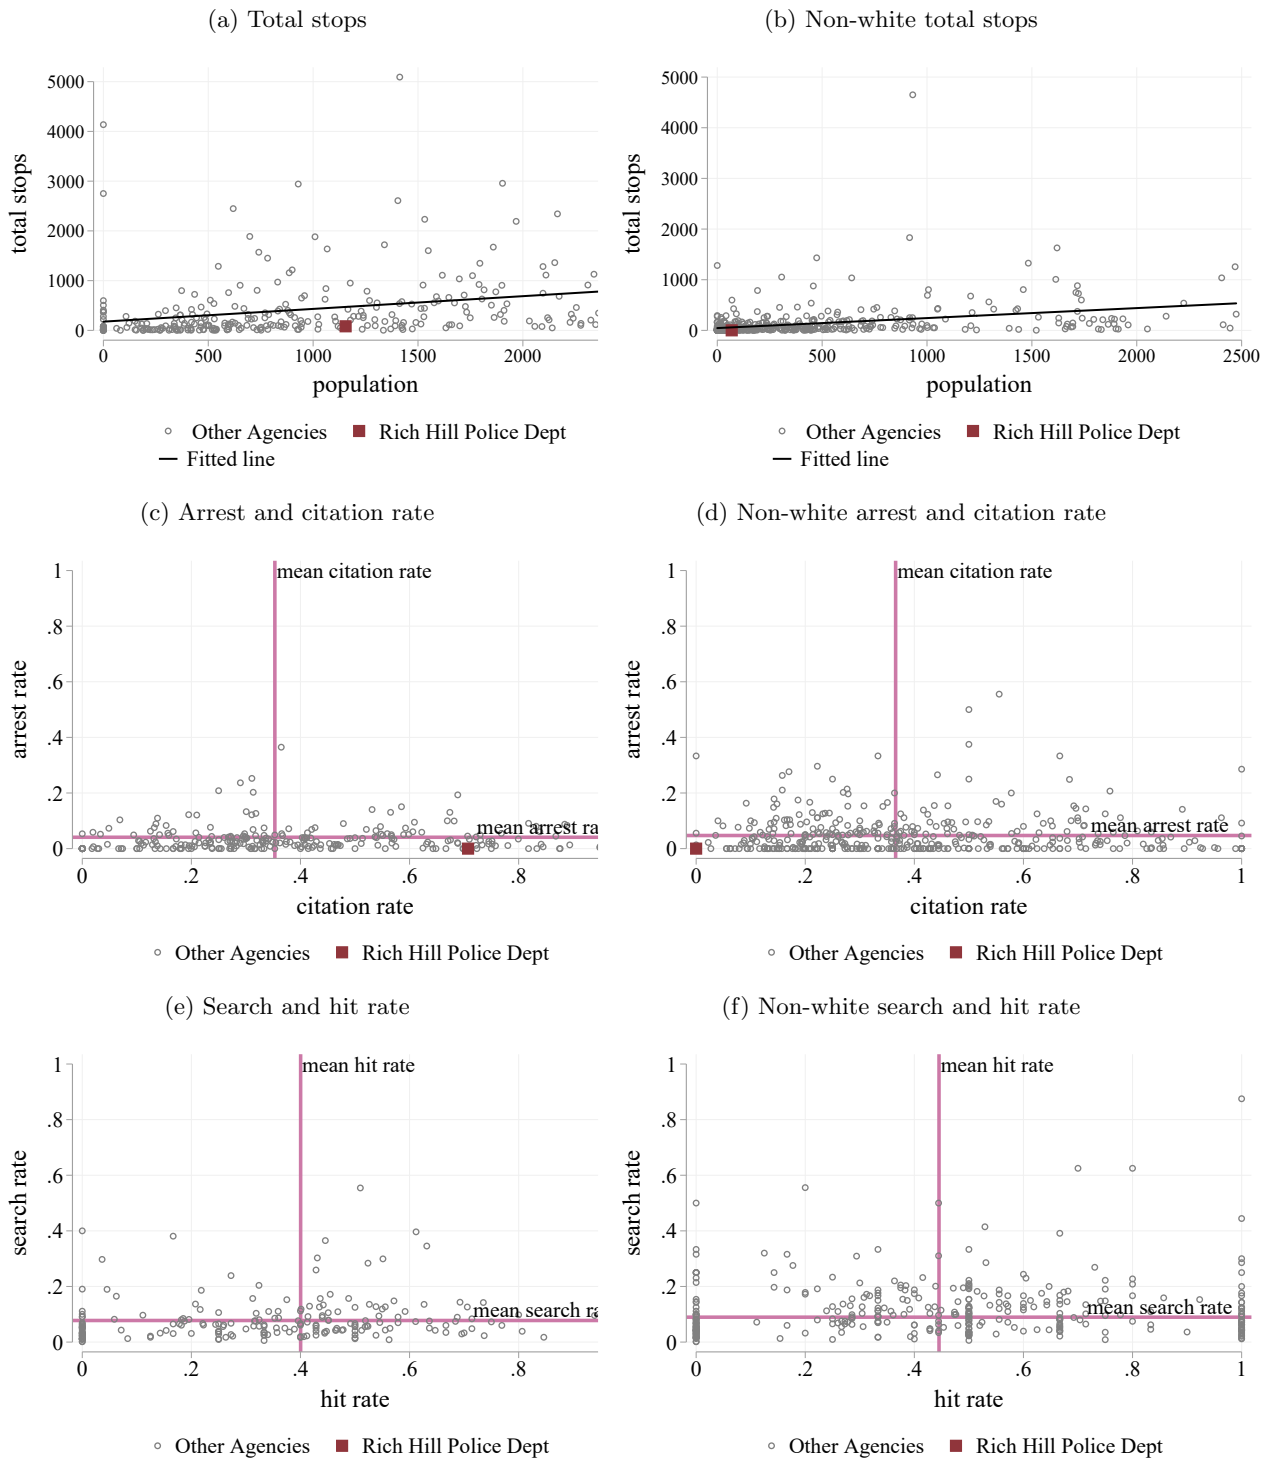

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Rich Hill Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

<b>2019</b>	1.03	1.36	.31	0	.91	.59
<b>2020</b>	1.07	.51	.41	.	0	.14

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Richland Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Resident stops	213	186	19	1	0	7	0
Searches	23	10	13	0	0	0	0
Contraband	2	0	2	0	0	0	0
Arrests	13	6	7	0	0	0	0
Citations	1274	731	508	0	2	25	8
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	37.92	30.89	110.6	2.5	.	13.02	22.48
Stop rate, residents	2.94	3.31	2.31	.5	.	1.45	0
Search rate	.84	.58	1.43	0	0	0	0
Contraband hit rate	8.7	0	15.38	.	.	.	.
Arrest rate	.47	.35	.77	0	0	0	0
Citation rate	46.43	42.08	55.95	0	100	39.68	27.59

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

Search rate = (searches / stops) X 100.

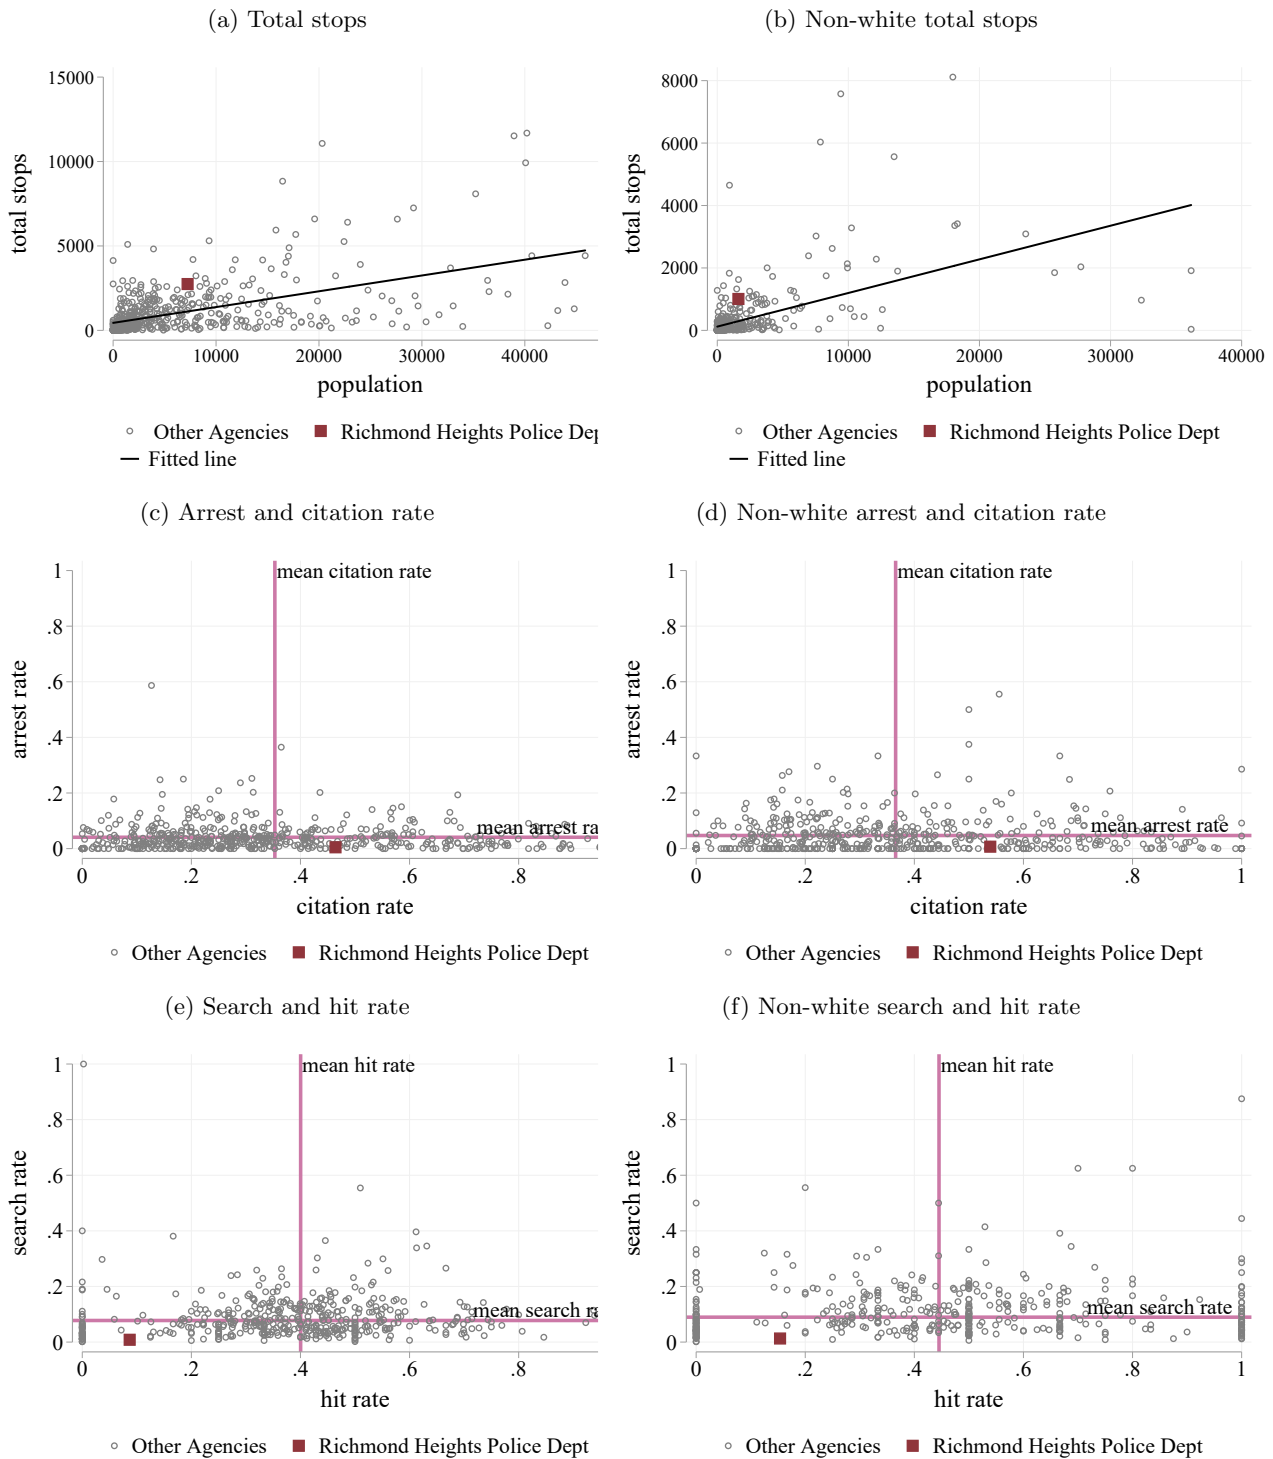

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Agency notes: Richmond Heights Police Dept. has two major highways within their city limits as well as a major metropolitan retail center, a hospital, and several county thoroughfares.

Figure 1: Comparison to other agencies by population for Richmond Heights Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

<b>2018</b>	1.01	1.36	.49	.19	.67	.29
<b>2019</b>	1.02	1.22	.66	0	.34	.19
<b>2020</b>	1.01	1.52	.27	.29	.	1.45

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Richmond Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Table 1: Rates by Race for Ripley County Sheriff's Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
<b>Population</b>	.	.	.	.	.	.	.
2019 population	10752	10309	94	54	84	54	157
2019 population %	100	95.88	.87	.5	.78	.5	1.46
<b>Totals</b>	.	.	.	.	.	.	.
All stops	158	150	5	2	0	0	1
Resident stops	149	143	3	2	0	0	1
Searches	42	37	4	1	0	0	0
Contraband	28	24	4	0	0	0	0
Arrests	23	22	1	0	0	0	0
Citations	90	84	4	1	0	0	1
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	1.47	1.46	5.32	3.7	0	0	.64
Stop rate, residents	1.39	1.39	3.19	3.7	0	0	.64
Search rate	26.58	24.67	80	50	.	.	0
Contraband hit rate	66.67	64.86	100	0	.	.	.
Arrest rate	14.56	14.67	20	0	.	.	0
Citation rate	56.96	56	80	50	.	.	100

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

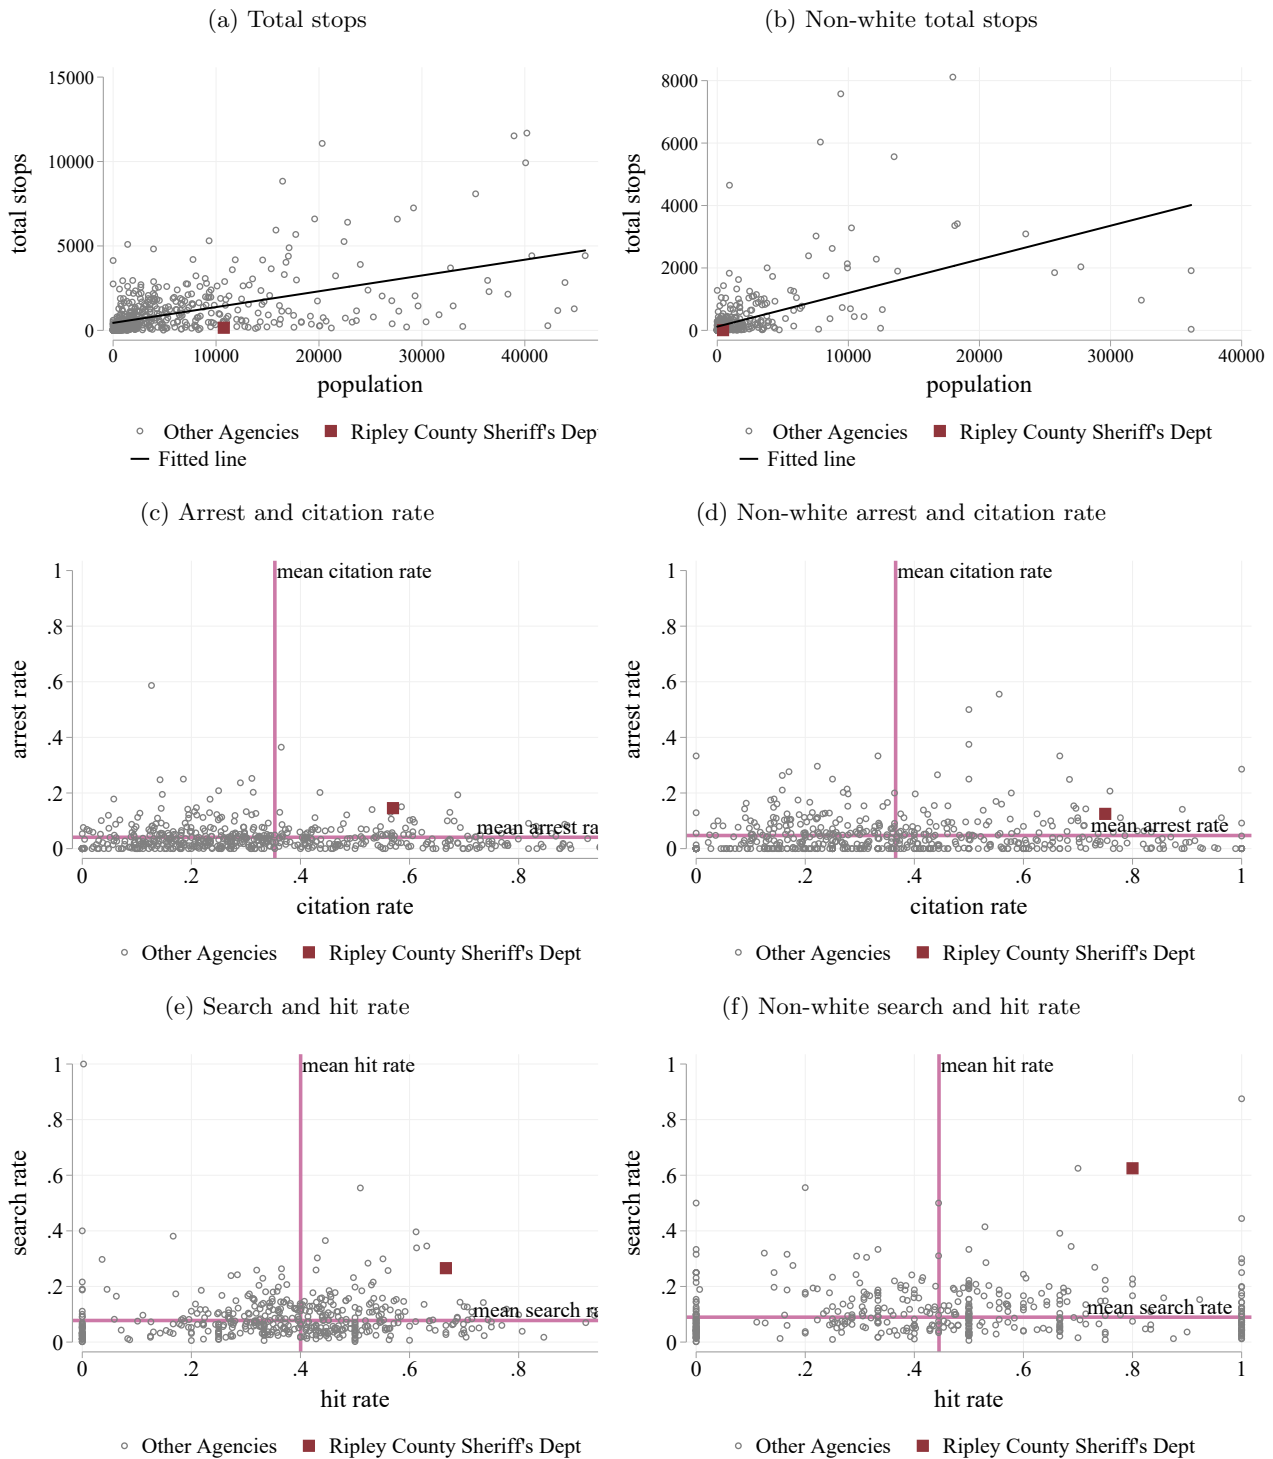

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Ripley County Sheriff's Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Ripley County Sheriff's Dept

	<b>Total</b>	<b>White</b>	<b>Black</b>	<b>Hispanic</b>	<b>Native American</b>	<b>Asian</b>	<b>Other</b>

<b>2019</b>	.81	2.56	1.13	.12	.53	.97
<b>2020</b>	.81	2.02	2.01	0	.29	.52

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 uses the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census for persons (ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+).

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Figure 2: Disparity Index from 2000 to 2020 for Riverside Police Dept

Notes: In the years 2000 - 2004 the disparity index was calculated using the 2000 Decennial Census (ages 16+), 2005 - 2010 use the annual updates from Geolytics Inc, and 2010 - 2019 use the 2010 Decennial Census(ages 16+). Hispanics may be of any race. Other includes persons of two or more races or unknown race. The 2020 disparity index is based on the most recent 5-year population estimates from the American Community Survey (ages 16+). Changes in the population are noted by the vertical dashed lines before 2005, 2011, and 2020.

Disparity index = (proportion of stops / proportion of population). A value of 1 indicates no difference between the share of stops and share of local population for a given group. Values greater than one indicate over-representation in the share of stops relative to local population, while a value less than 1 indicates under-representation.

Contraband	0	0	0	0	0	0	0
Arrests	2	0	2	0	0	0	0
Citations	75	10	65	0	0	0	0
<b>Rates</b>	.	.	.	.	.	.	.
Stop rate	7.24	2.51	9.46	0	0	0	7.58
Stop rate, residents	.58	.34	.74	0	0	0	0
Search rate	1.86	0	2.13	.	.	.	0
Contraband hit rate	0	.	0	.	.	.	.
Arrest rate	1.24	0	1.42	.	.	.	0
Citation rate	46.58	66.67	46.1	.	.	.	0

Notes: Population counts are based on the American Community Survey 5-year population estimates (ages 16+) for 2019. The ACS only provides race-specific Hispanic estimates for White, meaning non-White Hispanic residents are double-counted in the race percentages above.

Stop rate = (stops / population) X 100.

Stop rate, residents only = (stops of residents / population) X 100.

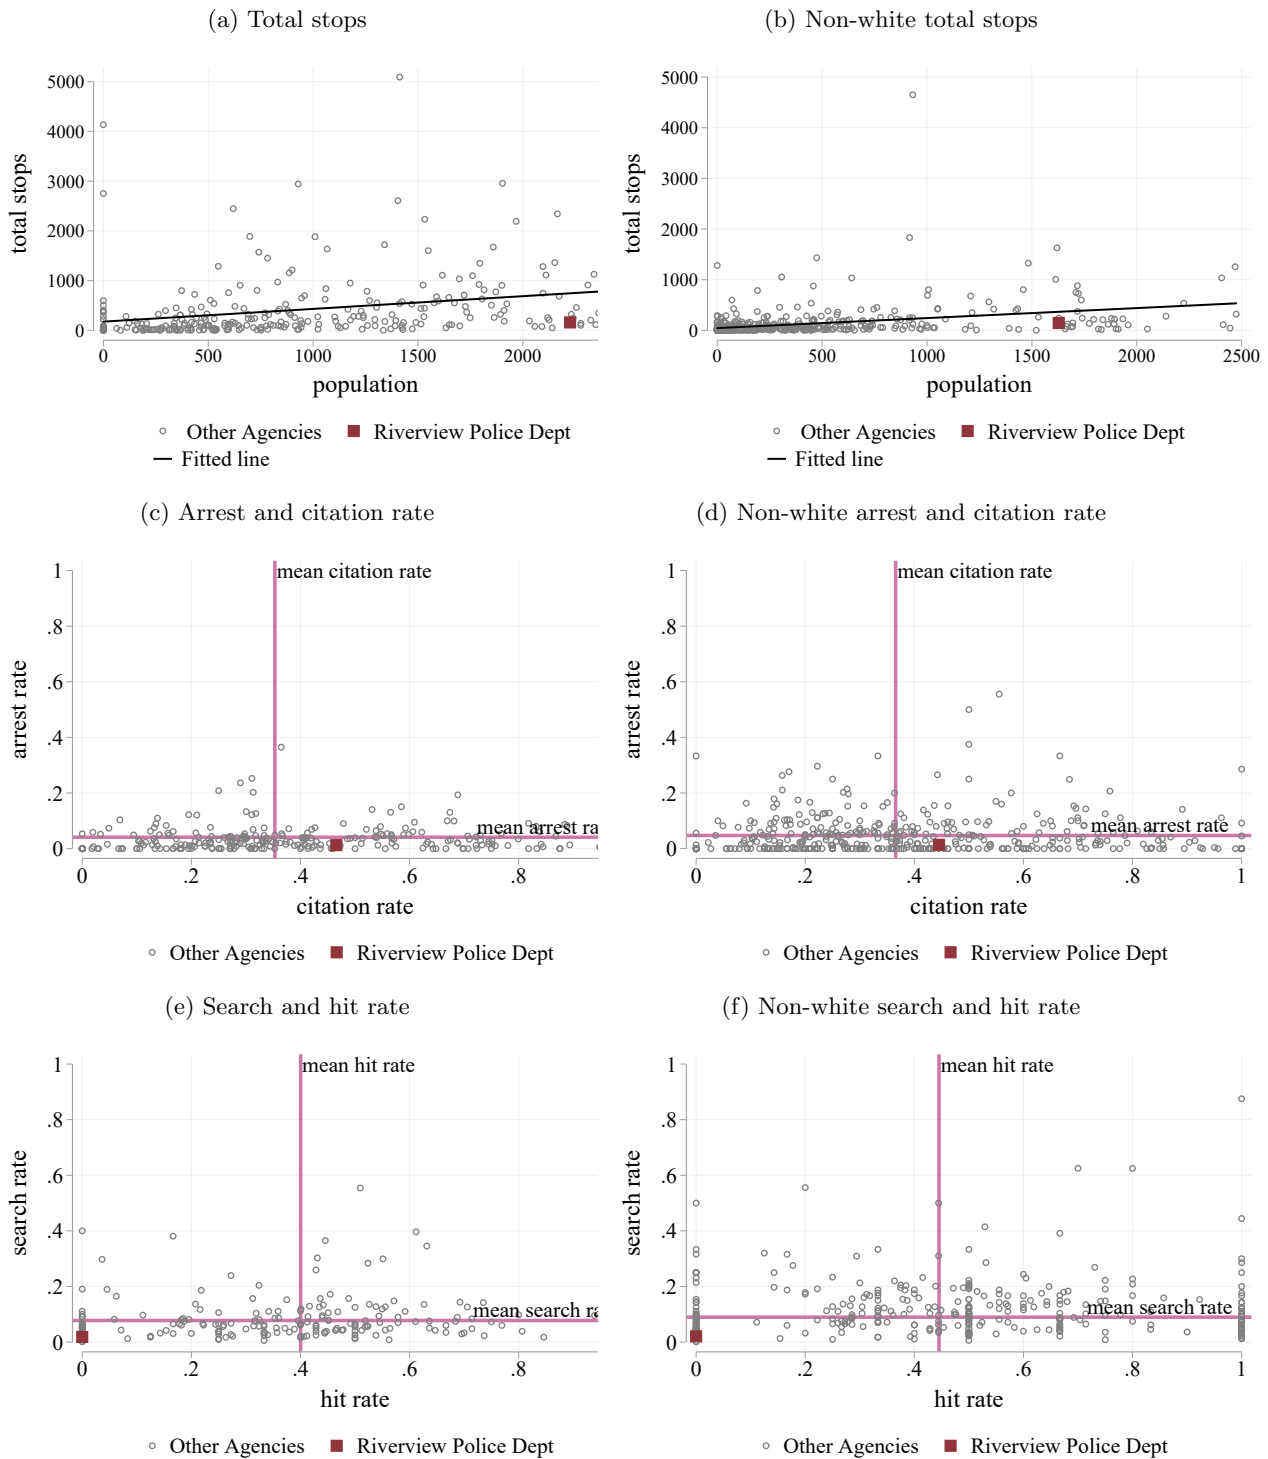

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

Citation rate = (citations / stops) X 100.

Figure 1: Comparison to other agencies by population for Riverview Police Dept

Notes: Figure (a) depicts the total number of stops for agencies with a similar population in Missouri, ordered by population size. Figure (b) shows the total number of non-white stops for the same agencies, ordered by the non-white population size. Similarly, Figures (c) and (d) graph the arrest rate and search rate for the same agencies and populations used in Figures (a) and (b). Likewise, Figures (e) and (f) graph the search rate and contraband hit rate for the same agencies and populations as the above figures. Population is measured using the 2019 American Community Survey 5-year estimates. The ACS only provides race-specific Hispanic estimates for White, to avoid double counting we calculate the total non-White population as the total population minus the Non-Hispanic White population for each agency. Agencies are plotted together in three categories: less than the median population size (2,475 persons), less than the 95th-percentile (46,979 persons), or all agencies (except the Missouri Highway Patrol, which covers the entire state). Agencies without population (e.g., university police) are considered to have a population of zero.

Table 2: Disparity Index by Race for Riverview Police Dept

	Total	White	Black	Hispanic	Native American	Asian	Other
